NOTE 1 DESCRIPTION OF PLAN

The following description of the Grand Performer, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan adopted effective July 1, 2013, covering all employees of Grand Performer, Inc. (the Company) except for union employees, certain nonresident aliens, and leased employees. From July 1, 2013 through April 1, 2014, those employees with three months of service and were age twenty-one or older were eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On April 1, 2014, the Plan was amended and restated to increase the service requirement to one year of service, allow for a discretionary matching contribution subject to a three-year cliff vesting schedule, and to add an automatic elective deferral provision in which 3% of compensation will be deferred automatically for existing and newly eligible participants unless the participant elects otherwise. The deferral rate automatically increases by 1% each year until it reaches 6%. Additionally, the service requirement was waived for employees hired on or before March 31, 2014 and the service requirement was waived for those participants that are age twenty-one and were hired between April 1, 2014 and July 1, 2014.

The Plan's administrative committee is responsible for oversight of the Plan and also determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan administrator.

Contributions – Each year, participants may contribute from 1% to 90% of annual compensation as pretax or Roth deferrals, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of contributions into various investment options offered by the Plan. The Company may make an annual discretionary matching contribution. During 2014, the Company contributed 25% of the first 6% of eligible compensation that a participant contributed to the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts – Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 DESCRIPTION OF PLAN – Continued

Vesting – Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant becomes 100% vested after three years of service.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined as loans are requested, is set at the prime rate plus 1.00%. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits – Upon termination of service, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, substantially equal installments, or partial withdrawals.

Forfeited Accounts – At December 31, 2014, forfeited nonvested accounts totaled $14,100. Forfeited accounts may be used to pay administrative expenses or reduce future employer contributions.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The Plan's financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through one of its collective trusts. Contract value for this collective trust is based on the net asset value (NAV) of the fund as reported by the investment advisor. The Statements of Net Assets Available for Benefits present the fair value of the investment which approximates contract value.

Use of Estimates – The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's administrative committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable – Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2014 excess contributions to the applicable participant prior to June 30, 2015.

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – Certain expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events – The Plan has evaluated subsequent events through October 14, 2015, the date the financial statements were available to be issued.

NOTE 3 CERTIFIED INVESTMENTS

Information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2014 and 2013, and net appreciation in fair value of investments, interest and dividends and other income for the year ended December 31, 2014, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by State Street Bank and Trust Company (State Street), the trustee of the Plan.

NOTE 4 INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets at December 31, 2014 and 2013:

	2014	2013
JPMorganSmart Retirement	$ 325,321	55,459
JPMorganSmart Retirement 2015	313,185	430,663
JPMorganSmart Retirement 2020	869,523	830,735
JPMorganSmart Retirement 2025	939,402	918,963
JPMorganSmart Retirement 2030	345,901	347,866
JPMorganSmart Retirement 2035	442,558	419,992
JPMorganSmart Retirement 2040	494,352	370,040
JPMorganSmart Retirement 2045	289,125	227,998
JPMorganSmart Retirement 2050	283,871	106,380

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Common collective trusts	$ 936
Mutual funds	108,605
	$ 109,541

NOTE 5 FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in an active market; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 5 FAIR VALUE MEASUREMENTS – Continued

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There has been no change in the methodology used at December 31, 2014 and 2013.

Common collective trusts: Valued at the net asset value (NAV) of units of a financial institution collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay the withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission (SEC). These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 FAIR VALUE MEASUREMENTS – Continued

The following table sets forth, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

EB Magic Fund	$ 16,815	$ 12,916	$ -	Daily	Daily
SSGA S&P 500 Index	16,343	-	-	Daily	Daily

NOTE 5 FAIR VALUE MEASUREMENTS – Continued

The objective of these common collective trusts is to seek the preservation of capital while also seeking a reasonable stable monthly return and a high degree of liquidity for participant withdrawals. To achieve this, the trusts invest in instruments which are not expected to experience significant price fluctuation in most economic or interest rate environments. However, there is no assurance that this objective can be achieved.

NOTE 6 RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are managed by State Street. State Street is the trustee, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

State Street provides certain administrative services to the Plan pursuant to a Mid-Market Trust Agreement (MMTA) between the Company and State Street. State Street receives revenue from mutual fund and collective trust fund service providers for services State Street provides to these funds. This revenue is used to offset certain amounts owed to State Street for its administrative services to the Plan.

If the revenue received by State Street from such service providers exceeds the amount owed under the MMTA, State Street remits the excess to the Plan's trust. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of the participants. During 2014, excess amounts totaling approximately $20,300 were remitted to the Plan's Trust and were used to pay Plan administrative expenses. The Plan or Company may make a payment to State Street for administrative expenses not covered by revenue sharing.

NOTE 7 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 8 TAX STATUS

The Company adopted the *Prototype Non-standardized Profit Sharing Plan*, a prototype plan. The prototype plan sponsor, Automatic Data Processing, obtained a favorable determination letter dated July 16, 2014; however, such letter is only applicable to Automatic Data Processing. The Plan administrator has adopted all Plan provisions within the prototype document and believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

NOTE 8 TAX STATUS – Continued

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2014 and 2013 to the Form 5500:

	2014	2013
Net assets available for benefits per the financial statements	$ 4,753,428	$ 4,132,617
