Independent Auditors' Report

To the Participants and Plan Administrator of
the Sulzer Pumps Retirement Security Contribution Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Sulzer Pumps Retirement Security Contribution Plan (the Plan), which comprise the Statements of Net Assets Available for Benefits as of December 31, 2014 and 2013, and the related Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2014, and the related Notes to Financial Statements.

Plan Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), Plan management instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan (Trustee) and the Sulzer US Holding Inc. Retirement Plans Master Trust (Master Trust) in which the Plan has a beneficial interest except for comparing such information with the related information included in the financial statements. We have been informed by Plan management that the Trustee holds the Plan's investment assets and executes investment transactions. Plan management has obtained a certification from the Trustee as of December 31, 2014 and 2013 and for the year ended December 31, 2014, that the information provided to Plan management by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a

basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Sulzer Pumps Retirement Security Contribution Plan

Notes to Financial Statements

December 31, 2014 and 2013

Note 1: Description of the Plan

The following description of the Sulzer Pumps Retirement Security Contribution Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions, which is available from the Plan administrator.

General

The Plan is a non-contributory defined contribution plan for salaried employees of Sulzer Pumps (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Fidelity Management Trust Company (Fidelity or Trustee) acts as the Plan's Trustee. Fidelity Investments Institutional Operations Company is the recordkeeper of the Plan.

Eligibility

All employees of the Company who have reached age 21 and are scheduled for 1,000 hours of service during the 12 months of the Plan year are eligible to participate in the Plan. Ineligible employees are those eligible to participate in the Sulzer Vorsorgeeinrichtung (the Sulzer Pension Plan Trust) or the Johan Jakob Sulzer Stiftung, those covered under a collective bargaining agreement, leased employees, those not treated as employees of the Company for payroll tax purposes and nonresident aliens.

Contributions

The Company's profit sharing contributions are discretionary and determined annually by the Company's management. The Plan offers a variety of mutual funds and a collective trust fund through the Master Trust as investment options and participants direct the investment of the employer contributions.

Participant Accounts

Each participant's account is credited with the Company's contribution and an allocation of Plan earnings and forfeitures, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Vesting in the Company's contribution and related earnings is based on years of credited service. The Company's contributions vest at a rate of 25% after the second year of vesting service and become fully vested after five years of vesting service. In addition, the employer's discretionary contribution fully vests in the event of death, termination as a result of permanent and total disability, or retirement at age 55 or older.

Forfeitures

If a participant terminates before becoming fully vested, the unvested portion of his or her account is forfeited and allocated back to the remaining participants. However, if the participant resumes employment, the forfeited amount may be restored if the employee repays to the Plan the full amount of the distribution and meets other criteria. Forfeitures are first used to restore prior forfeitures of ex-employees that have again become eligible for participation. The remaining amounts are then allocated among the remaining participants at the close of the Plan year in which the initial forfeiture

Sulzer Pumps Retirement Security Contribution Plan

Notes to Financial Statements

December 31, 2014 and 2013

occurs as an addition to and in the same manner as the Company's contribution. Accumulated forfeitures of \$39,076 and \$38,073 at December 31, 2014 and 2013, respectively, remained in the Plan. As of the date of the audit report, the accumulated forfeitures had been allocated to the participants.

Payment of Benefits

Upon separation of service due to death, disability, retirement or termination of employment, a participant is eligible to receive benefit payments in the amount equal to the value of the participant's vested interest in his or her account. A participant may elect to receive either a lump sum amount equal to their vested account balance, or a lesser amount no more than twice in a Plan year, at a minimum of \$5,000 for each partial payment

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (US GAAP).

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Plan investments in the Sulzer US Holding Inc. Retirement Plans Master Trust (Master Trust) are reported at fair value, except for fully benefit-responsive investment contracts, which are stated at contract value. Fair value, as defined by the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures* (FASB ASC 820), is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Sulzer Pumps Retirement Security Contribution Plan

Notes to Financial Statements

December 31, 2014 and 2013

The fair value of the Plan's interest in the Master Trust is based on beginning of the year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income or loss less actual distributions and allocated administrative and investment expense (Note 3).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net investment income (loss) from the Master Trust is allocated to the Plans based on the performance of the investment accounts in which the Plan participants have elected to invest and includes the Master Trust's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

All administrative expenses are paid by the Company, except for transactional charges, which are paid by the particular participants involved.

Risks and Uncertainties

The Plan provides for investments in a Master Trust that holds a variety of investments. Investment securities are exposed to various risks, such as interest rate, market, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities, and thus the net asset value of the funds, will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Plan Management's Review of Subsequent Events

In preparing the accompanying financial statements, Plan management has reviewed all known events that have occurred after December 31, 2014, and through October 14, 2015, the date the financial statements were available to be issued, for inclusion in the financial statements and footnotes.

New Accounting Pronouncements

In May 2015, the FASB issued Accounting Standards Update (ASU) No. 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value per share practical expedient under Accounting Standards Codification No. 820. ASU 2015-07 is effective for the Plan retrospectively for the year ending December 31, 2016 with early adoption permitted. Plan management believes the adoption of this guidance concerns disclosure only and will not have an impact on the Plan's financial statements.

In July 2015, the FASB issued ASU No. 2015-12, *(Part I) Fully Benefit-Responsive Investment Contracts (not applicable to Defined Benefit plans), (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient — consensus of the Emerging Issues Task Force* (ASU No. 2015-12). ASU 2015-12 (1) requires a pension plan to use contract value as the only measure for fully benefit-responsive investment contracts, (2) simplifies and increases the effectiveness of the investment disclosure requirements for employee benefit plans, and (3) provides benefit plans with a

Sulzer Pumps Retirement Security Contribution Plan

Notes to Financial Statements

December 31, 2014 and 2013

measurement-date practical expedient similar to the practical expedient provided to employers in ASU 2015-04, *Practical Expedient for the Measurement Date of an Employer's Defined Benefit Obligation and Plan Assets*. ASU 2015-12 is effective for fiscal years beginning after December 31, 2015, with early application permitted. The Plan is required to apply the amendments retrospectively for all statements presented except for Part III which requires a prospective application. The Plan adopted the provision of this guidance for the year ended December 31, 2014. Plan management believes the adoption of this guidance concerns disclosure only and does not have an impact on the Plan's financial statements.

Note 3: Investments and Related Investment Income or Loss (Certified by the Trustee)

At December 31, 2014 and 2013, all of the Plan's investments are held in the Sulzer US Holding Inc. Retirement Plans Master Trust, which was established to hold the assets of tax-qualified plans established by the Company. Each participating plan has a specific interest in the Master Trust. The Trustee certifies these investments held by the Plan and the Master Trust as well as the related investment income or loss as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA.

At December 31, 2014 and 2013, the Plan's interest in the Master Trust of \$19,247,488 and \$17,311,739, respectively, represents more than 5% of the Plan's net assets. Allocations of the Plan's interest in the Master Trust was approximately 5% at December 31, 2014 and 5% at December 31, 2013.

The following table presents the net assets available for benefits, including investments, of the Master Trust, which was certified by the trustee, as of December 31, 2014 and 2013:

Benefit-Responsive Contracts

The Plan has an interest through the Master Trust in a Stable Value Fund (SVF) that has investments in fixed income securities and bond funds and may include derivative instruments, such as futures contracts and swap agreements. The SVF also enters into a wrapper contract issued by a third-party.

As described in Note 2, because these contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to these contracts. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Occurrence of certain events may limit the ability of the Plan to transact at contract value with the issuer. The Plan Administrator does not believe that the occurrence of such an event is probable.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting.

The average yield earned by the contract for the years ended December 31, 2014 and 2013 was 1.41% and 1.17%, respectively. The average yield earned to reflect the actual interest rate credited to participants for the years ended December 31, 2014 and 2013 was 1.46% and 1.25%, respectively.

Note 4: Fair Value Measurements

FASB ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in an active market for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Sulzer Pumps Retirement Security Contribution Plan

Notes to Financial Statements

December 31, 2014 and 2013

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities.

Level 2

Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for investments measured at fair value in the Master Trust. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered investment companies: Investments in registered companies are stated at quoted net asset value (NAV), based upon the market value of the underlying securities, as determined or provided by Fidelity.

Money market fund: Valued at amortized cost, which approximate fair value.

Common collective trusts: The common collective trusts represent investments held in pooled funds. The Plan's interest in the common collective trusts is valued based on information provided by Fidelity using the audited financial statements of the collective trust fund at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's investments at fair value as of December 31, 2014 and 2013:

	2014	2013
Level 1:		
Registered investment companies:		
Growth funds	\$ 86,154,872	\$ 95,239,672
Value funds	68,070,307	97,125,714
Blended funds	81,786,947	57,945,599
Bond funds	51,694,687	54,198,958
Total level 1 investments	287,706,813	304,509,943

Total level 2 investments	37,043,697	45,995,918
Total investments at fair value	\$ 324,750,510	\$ 350,505,861

Note 5: NAV Per Share

In accordance with FASB ASU No. 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, the Master Trust expanded its disclosure to include the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the per share or its equivalent for which the fair value is not readily determinable as of December 31, 2014 and 2013. For the Master Trust, such assets include investments in common collective trusts.

The following tables for December 31, 2014 and 2013, sets forth a summary of the Master Trust's investments with a reported NAV.

Fair Value Estimated Using NAV per Share December 31, 2014					
	Fair Value *	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Common collective trusts	\$ 37,043,697	None	Daily	None	Daily
Fair Value Estimated Using NAV per Share December 31, 2013					
	Fair Value *	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Common collective trusts	\$38,148,654	None	Daily	None	Daily

* The fair value of the investment has been estimated using the NAV of the investment.

The objective of the common collective trusts is to provide a diversified group of investments offering competitive levels of yield consistent with stable fixed-income methodology and the careful and prudent assumption of investment risk providing for preservation of capital, stability, and predictability of returns, liquidity to pay Plan benefits, and high credit quality.

Note 6: Party-In-Interest Transactions

The Plan's investments in the Master Trust represent funds invested in or maintained by Fidelity. Fidelity is the Trustee of the Plan and, therefore, these investments qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

Note 7: Risks and Uncertainties

The Plan invests in various investment securities that are exposed to various risks such as interest rates, market and credit risks. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults and credit rating downgrades. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that some changes could materially affect participant account balances and the assets reported in the statement of net assets available for benefits.

Note 8: Plan Tax Status

The Plan obtained its latest determination dated August 28, 2013, in which the Internal Revenue Service (IRS) stated that the Plan and related trust, is designed and is in compliance with applicable sections of the Internal Revenue Code.

US GAAP requires the plan administrator to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.
