Participant Accounts

Each participant's account is credited with the participant's contribution and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specified participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their own contributions and Company matching contributions, pursuant to the safe harbor match rules. Discretionary profit sharing contributions vest ratably as follows:

<u>Years of Service</u>	<u>Vested Percentage of Employer Contributions</u>
Less than 1	0%
1 but less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

For eligibility and vesting purposes, a year of service is defined as 1,000 or more hours of service in a calendar year.

Investment options

Participants are allowed to invest in a variety of investment choices, as more fully described in the Plan's literature. All investment choices vary in types of investments, rates or return, and investment risk. Participants may elect at any time to have all or part of their account balances and future contributions transferred from one investment choice to another.

Forfeitures

Amounts forfeited by former participants are used to reduce the Company's contributions to the Plan or pay administrative expenses of the Plan. As of December 31, 2014 and 2013, forfeited nonvested accounts totaled \$951 and \$939, respectively.

Distributions

Distributions of benefits are made when a participant retires, dies, becomes totally and permanently disabled, or otherwise ceases to be an employee. Participants are also allowed to withdraw all or any part of their vested account balance while still employed, but only after the attainment of age 59½. Participants are permitted withdrawals from their plan accounts for financial hardships. Hardship withdrawals must be approved by the plan administrator.

Notes Receivable from Participants

Participants may borrow from their account balances a minimum of \$1,000 up to a maximum of the lesser of 50% of their account balance or \$50,000. The loans are secured by the balance in the participant's account. The rate of interest on existing notes at December 31, 2014 was 4.25%. Principal and interest are paid ratably through payroll deductions.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan prepares its financial statements on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note H for discussion of fair value measurements.

Interest income is recorded on the accrual basis, and dividends are recorded on the ex-dividend date. Realized gains and losses related to sales of investments are recorded on a trade-date basis, and unrealized gains and losses are recorded based on investment fair values at the end of the period being reported on.

Fully benefit-responsive investment contracts

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. Fair value approximates contract value at December 31, 2014 and 2013.

Expenses

Certain expenses of maintaining the Plan are paid by Health Dimensions Consulting, Inc. (the Company) and are excluded from these financial statements. Fees related to the administration of participant withdrawals and plan administration are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - cont'd

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Notes from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in supplemental schedule, Schedule H, line 4i – schedule of assets (held at end of year).

Subsequent Events

The Plan has evaluated the subsequent events through October 12, 2015, the date the financial statements were available to be issued.

NOTE C – INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Great-West Life & Annuity Insurance Company, the custodian of the Plan's investment assets, has certified to the completeness and accuracy of all investments reflected on the accompanying Statement of Net Assets Available for Plan Benefits as of December 31, 2014 and 2013, and the related investment activity reflected in the Statements of Changes in Net Assets Available for Plan Benefits for the years then ended, and the supplementary Schedule of Assets (Held at End of Year) as of December 31, 2014.

NOTE D – RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Great-West Life & Annuity Insurance Company is a party-in-interest as defined by the Plan as a result of investing Plan assets and providing services. The Plan Administrator has approved these activities and transactions. A portion of the administrative costs for the Plan is paid by the Company. The remainder of the administrative expenses becomes the responsibility of the Plan. Administrative costs paid to Great-West Life & Annuity Insurance Company by the plan were \$12,392 and \$8,979 for the plan years ended December 31, 2014 and 2013, respectively.

NOTE E – TAX STATUS

The original effective date of the Health Dimensions Consulting, Inc. 401(k) Profit Sharing Plan and Trust was January 1, 2004. The Plan was restated under the Volume Submitter 401(k)/Profit Sharing Plan sponsored by Goldleaf Partners effective January 1, 2014. The Prototype Plan Sponsor has obtained from the IRS an opinion letter dated October 29, 2008, specifying that the form of this adoption agreement and the basic plan document satisfy, as of the date of the opinion letter, Code Section 401. Although the plan has been amended since receiving the determination letter, the plan administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore believes that the plan is qualified and the related trust is tax exempt.

U.S. GAAP require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is not subject to income tax examinations for years prior to 2011.

NOTE F – INVESTMENTS

The Plan's investments were held in trust and administered by the trustee. All investment information presented in the accompanying financial statements and Supplemental Schedule of Assets (Held at End of Year), including investments held and net appreciation and depreciation in fair value of investments, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Great-West Life & Annuity Insurance Company.

NOTE H – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets of the Plan measured at fair value:

Mutual funds: valued at the closing price reported on the active market on which the individual securities are traded.

Guaranteed investment contract: valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. (See Note I)

NOTE I – INVESTMENT CONTRACT

The Plan has invested in Great-West Life & Annuity Insurance Company's (Great-West) Key Guaranteed Portfolio Fund. The fund is credited with interest earned based on the stated interest rates over the life of the contract. Withdrawals can be made at any time for the purpose of participant withdrawals or benefit payments at contract value. Great-West is contractually obligated to repay the principal and a specified interest rate that is guaranteed by the Plan. The contract is included in the financial statements at contract value, as it is fully benefit-responsive, as reported to the Plan by Great-West.

Contract value represents contributions made under the contract, plus earnings, less any participant withdrawals or benefit payments. There are no reserves against contract value for credit risk of Great-West or otherwise.

The average yields earned by the Key Guaranteed Portfolio Fund are as follows:

	December 31, 2014	December 31, 2013
Based on actual earnings	1.25%	1.26%
Based on interest rate credited to participants	1.25%	1.26%

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including a complete or partial termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction under ERISA. The Plan Administrator does not believe that any events that would limit the Plan's ability to transact at contract value with participants are probable.

NOTE J – REVENUE SHARING FROM MUTUAL FUNDS

Great-West may enter into agreements with nonproprietary funds or their service providers (including advisers, administrators or transfer agents, and underwriters) whereby Great-West or its affiliate provides shareholder services, sub-transfer agency, custodial, and other administrative support services and receives compensation for the services. This compensation may include fees paid under a plan of distribution under SEC Rule 12b-1 (12b-1 fees). Generally, compensation received by Great-West or its affiliate directly or indirectly from each nonproprietary fund is based on the value of the Plan's investment in the fund (an asset-based fee) at rates that vary among the funds and share classes selected. Any excess of fund fees over advisory fees are credited to the Plan within 30 days of the end of the quarterly billing cycle.

NOTE K – RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.
