Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Integrity Savings and Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company and Fidelity Management Trust Company, the trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company held the Plan's investment assets and executed investment transactions from February 1, 2014, through December 31, 2014, and that Fidelity Management Trust Company held the Plan's investment assets and executed investment transactions from January 1, 2013, through January 31, 2014. The plan administrator has obtained certifications from the trustees as of and for the years ended December 31, 2014 and 2013, that the information provided to the plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2014, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance With Department of Labor Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Integrity Savings and Retirement Plan

Notes to Financial Statements

Note 1 Description of Plan

The following description of Integrity Savings and Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) retirement plan covering substantially all employees of Integrity Mutual Insurance Company (the "Company") who have completed one month of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Vice President of Human Resources and Administration is responsible for oversight of the Plan. The Retirement Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance and is composed of the Vice President of Human Resources and Administration, Director of Finance, and Chief Executive Officer. The Vice President of Human Resources and Administration reports to the Board of Directors.

Contributions

Participating employees may make voluntary contributions, not to exceed limits mandated by the Internal Revenue Service (IRS), as defined in the plan document. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Eligible employees are automatically entered into the Plan with a deferral of 6% of their eligible compensation if no election is made. Deferrals are automatically increased 1% annually to a maximum of 10%, if no election is made. Participants may also contribute amounts representing pretax distributions from other qualified retirement plans. Rollover contributions are not matched. The Company provides discretionary matching contributions based on a percentage of the participant's salary deferral contribution. The Company also provides a discretionary nonelective contribution to employees hired on or after July 1, 2008, if they were employed as of the last day of the plan year. The Company may make a qualified nonelective contribution each year to nonhighly paid employees.

Note 1 Description of Plan (Continued)

Contributions (Continued)

The discretionary contributions are determined annually by the Company's Board of Directors. The discretionary matching contribution for 2014 and 2013 for each participant was 50% of the first 6% of eligible compensation contributed to the Plan. During 2014 and 2013, the employer match totaled $178,502 and $164,731, respectively. The discretionary nonelective contribution for 2014 and 2013 was 6% of eligible compensation. During 2014 and 2013, the employer nonelective contribution totaled $173,800 and $155,029, respectively. The Company did not make a qualified nonelective contribution for 2014 and 2013.

Participants' Accounts

All investments in the participants' accounts are participant directed. The Plan allows participants to select from a variety of common/collective trust funds, mutual funds, pooled separate accounts, and an investment contract.

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) plan earnings or losses and is reduced for withdrawals and charged with an allocation of certain administrative expenses not paid by the Company (based on account balances and participant investment elections). Allocations are based on participant investments, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 Description of Plan (Continued)

Vesting

Participants are 100% vested in their salary deferral and rollover contributions plus actual earnings/losses thereon. Participants vest in the Company's discretionary matching contributions at a rate of 20% each year beginning with the first year, with the participant becoming fully vested after five years of service. Participants eligible for the Company's discretionary nonelective contributions become fully vested after three years of service. Qualified nonelective contributions are 100% vested when made.

Notes Receivable From Participants

Participants may borrow from their accounts up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance, with a $1,000 minimum. Participants may not borrow from the portion of their account attributable to the nonelective contributions. Note terms range from one to five years or up to 10 years for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with similar notes made by the plan administrator. Interest rates on existing notes are 3.25%. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Plan benefits are available at normal retirement (age 59½), disability retirement, death, and termination of employment with vested interests. A participant may elect to receive a single lump sum payment or installment payments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account in one of the forms above. In addition, hardship distributions out of the participant's voluntary contributions account are permitted if certain criteria are met. The Plan also allows for in-service distributions upon attaining age 59½.

Note 1 Description of Plan (Continued)

Forfeitures

Plan forfeitures arise as a result of participants who terminate service with the Company before becoming 100% vested in the Company's contributions. At December 31, 2014 and 2013, forfeited nonvested accounts totaled $101 and $1, respectively. These accounts will be used for payment of plan administrative expenses or to reduce employer contributions. During the years ended December 31, 2014 and 2013, employer contributions were reduced by $60,230 and $74,315, respectively, from forfeited nonvested accounts. During the year ended December 31, 2014, plan administrative expenses were reduced $12,202.

Note 2 Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (GAAP).

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

In 2014, the Principal Trust Company Fixed Income Guaranteed Option is considered fully benefit-responsive and recorded in the accompanying financial statements at fair value, which equals contract value, as reported by Principal, and therefore, there is no adjustment of the fully benefit-responsive investment contract from fair value to contract value.

Note 2 Summary of Significant Accounting Policies (Continued)

Basis of Accounting (Continued)

During 2013, the Plan invested in the Fidelity Managed Income Portfolio, which is an investment contract through a collective trust. Fair value for this collective trust was based on the net asset value (NAV) of the fund as reported by the investment advisor. The statements of net assets available for benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis for the fully benefit-responsive investment contract.

Use of Estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustees. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2 Summary of Significant Accounting Policies (Continued)

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded upon the occurrence of a distributable event.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and withdrawals are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are paid through revenue sharing and included in net appreciation of fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2015, which is the date the financial statements were available to be issued.

Note 3 Investments

The following presents investments that individually represent 5% or more of the Plan's net assets at December 31:

Note 4 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 4 Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Common/collective trust funds: Valued at the NAV of units held by the Plan at year-end. The NAV is based on the value of the underlying assets of the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV's unit price is quoted on a private market that is not active; however, the unit price is based on the underlying investments, some of which are traded on an active market. The Fidelity Managed Income Portfolio is a common/collective trust that holds a guaranteed investment contract. The guaranteed investment contract is valued at NAV, which is determined by the fund manager using a pricing model with inputs (such as yield curves and credit spreads) that are observable or can be corroborated by observable market data for substantially the full term of the assets.

Mutual funds: Valued at daily closing prices as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: Valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments, which are traded on an active market.

Investment contract: The Principal Trust Company Fixed Income Guaranteed Option is a single group annuity contract with a fixed rate of interest. This contract is backed by Principal's general account, and because of the nature of the contract; it does not have a specific underlying of assets assigned. The contract is reported at contract value, and contract value is equal to the aggregation of contributions, plus interest, less withdrawals. Contract value approximates fair value.

Note 4 Fair Value Measurements (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement.* This ASU amends ASC Topic 820 and removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV-per-share practical expedient. This ASU also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV-per-share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The guidance in this ASU is effective for the Plan's year ending December 31, 2016; however, the Plan chose to adopt this new guidance early for the year ended December 31, 2014. The presentation of the fair value of the Plan's common/collective trust fund - managed income fund the year ended December 31, 2013, has been removed from the hierarchy levels in the following tables in order to conform to the presentation used in 2014.

*The fair value of the investment has been estimated using the NAV of the investment.

(a) The investment objective of the target date funds is to seek a total return consisting of long-term growth of capital and current income consistent with the investment strategy of an investor who expects to retire in the year identified in each respective fund's name. Each fund generally invests in other open-ended mutual funds, insurance company separate accounts, and collective trust funds that Principal Trust considers appropriate based on the remaining time horizon of a particular fund and the expected risk tolerance of those investors associated with that time horizon.

Note 6 Guaranteed Investment Contract

In 2014, the Plan entered into a fully benefit-responsive guaranteed investment contract with Principal Trust Company ("Principal"). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value, At December 31, 2014, contract value equals fair value.

There is no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than one percent. Such interest rates are reviewed on a semiannual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transactions exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

Note 6 Guaranteed Investment Contract (Continued)

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yields earned by the guaranteed investment contract are as follows at December 31, 2014:

Average yields:	
Based on actual earnings	2.0%
Based on interest rate credited to participants	2.0%

Note 7 Information Certified by Plan Trustees

The plan administrator has elected the method of annual reporting compliance by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Plan's trustees, Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company from February 1, 2014, through December 31, 2014, and Fidelity Management Trust Company from January 1, 2013, through January 31, 2014, have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

(a) Investments and notes receivable from participants as shown in the statements of net assets available for benefits.

(b) Net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants as shown in the statements of changes in net assets available for benefits.

(c) Investment information as disclosed in Note 3 and on Schedule H, Line 4i - Schedule of Assets (Held at End of Year).

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Integrity Savings and Retirement Plan

Notes to Financial Statements

Note 8 Party-in-Interest Transactions

Certain plan investments are managed by Principal Trust Company and Fidelity Management Trust Company. Fees paid by the Plan to Principal Trust Company and Fidelity Management Trust Company for administrative expenses amounted to $21,004 and $30, respectively, for the year ended December 31, 2014. Fees paid by the Plan to Fidelity Management Trust Company for administrative expenses amounted to $1,568 for the year ended December 31, 2013. Principal Life Insurance Company from February 1, 2014, through December 31, 2014, and Fidelity Management Trust Company from January 1, 2013, through January 31, 2014, are the trustees as defined by the Plan, and therefore, the transactions qualify as party-in-interest transactions. Certain other fees incurred by the plan for investment management services are included in administrative fees and in net appreciation in fair value of investments, since they are paid through revenue sharing rather than a direct payment.

Notes receivable from participants also qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

Note 9 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In event of termination, all amounts credited to participants' accounts would become 100% vested and distributed to participants in accordance with the Plan's provisions.

Note 10 Tax Status

The Plan's management believes the Plan is designed and is currently being operated, in compliance with the applicable requirements of the IRC, and therefore, believes that the Plan is qualified and that the related trust is tax-exempt. The Plan will file for a favorable determination letter by January 31, 2016, which is the cycle the Plan falls on.

Note 10 Tax Status (Continued)

GAAP requires the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 11 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 12 Reconciliation of Financial Statements to Form 5500

As described in Note 2, the Plan's investment contract is reported at fair value with an adjustment to contract value to arrive at net assets available for benefits on the financial statements. The Form 5500 presented net assets available for benefits at fair value.

Following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2013, to Form 5500. There was no adjustment necessary for the year ended December 31, 2014.

Net assets available for benefits per the financial statements	$10,497,204
Adjustment from contract value to fair value for the fully benefit-responsive investment contract held by Fidelity Managed Income Portfolio	4,022
Net assets available for benefits per Form 5500	$10,501,226

Note 12 Reconciliation of Financial Statements to Form 5500 (Continued)

Following is a reconciliation of investment income per the financial statements to Form 5500:

	2014	2013
Investment income per the financial statements	$627,939	$1,699,087
Adjustment from contract value to fair value for the fully benefit-responsive investment contract held by Fidelity Managed Income Portfolio	(4,022)	(4,128)
Investment income per Form 5500	$623,917	$1,694,959

Note 13 Reclassifications

Certain reclassifications have been made to the 2013 financial statements to conform to the 2014 classifications.
