NOTE 1 - DESCRIPTION OF PLAN

The following description of the Gerald Auto Group Profit Sharing 401(k) Plan & Trust (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. Copies of the Plan agreement are available from the plan administrator.

General: The Plan is a defined contribution 401(k) plan for the benefit of substantially all employees of Gerald Subaru, Inc., Gerald Hyundai, Inc., Gerald Nissan of Naperville, Inc., Gerald Nissan of North Aurora, Inc., and Gerald North Aurora, Inc. (the "Company") who have over one year of service as defined by the Plan and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may elect to contribute a percentage of their pretax annual compensation, as defined in the Plan, with a total amount not to exceed $17,500 in 2014 plus catch-up contributions of $5,500 for those participants age 50 or older. On behalf of each participant who is eligible to share in the matching contributions, a discretionary matching contribution shall be provided based on the participant's salary reduction contribution made during each pay period. The discretionary match for 2014 was 35% of employee deferral up to 6% of eligible wages or 6% of $260,000, whichever is lower. Additional profit sharing amounts may be contributed at the option of the Company's management and are invested in the participant-directed investments. The 2014 Company discretionary profit sharing contribution was $96,858. Contributions are subject to certain limitations and to IRS limits.

Investment Options: Each participant directs the investment of his or her account to any of the investment options available under the Plan.

Retirement, Death and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

Payment of Benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the remainder of their accounts, plus earnings thereon, is based on years of continuous service at the rate of 20% per year starting after two years of service. A participant is fully vested after six years of credited service.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Employer's matching and/or profit sharing contribution (b) Plan earnings and (c) forfeitures, and charged with any withdrawals and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeitures: Participant forfeitures of employer contributions are used to offset future employer matching contributions or administrative expenses of the Plan and any unused forfeitures at the end of the year are reallocated to the remaining participants in the following year, based upon their relative account balances. During 2014, forfeitures of $15,877 were reallocated among participants. At December 31, 2014 and 2013, the forfeited non-vested accounts totaled $12,390 and $15,877, respectively.

Plan Termination: Although it has not expressed any intent to do so, the employer has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants shall become fully vested.

(Continued)

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Administrative and Investment Management Expenses: The Plan's record keeping, custodian fees and investment management fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Transaction-based fees are charged to the Plan as a reduction of investment return and included in the investment income reported by the Plan. All other expenses of the Plan are paid by the Company.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Risks and Uncertainties: The Plan provides for various investments. The underlying investments are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

Payment of Benefits: Benefits are recorded when paid.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

> Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
>
> Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
>
> Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Stable Value Collective Trust: The fair value of participation units in the stable value collective trust are based upon the net asset values of such fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund as of the Plan's financial statement date. The fund invests in a Met Life Group Annuity Contract. The assets underlying the trust are contract-based and are not transferable and observable prices for identical or similar investments do not exist. Accordingly, these investments are valued using unobservable inputs (Level 3). The objective of the contract is to simulate the performance of a guaranteed investment contract through the guarantee of a specific interest rate and a portfolio of financial instruments that are owned by Metropolitan Life Insurance Company ("MetLife"). Plan management evaluates the terms of the guaranteed investment contract held by the Plan, the fair value information as of the Plan's financial statement dates provided to the Plan by MetLife applicable to this contract, and the creditworthiness of MetLife in assessing the fair values of the contract on an annual basis for financial reporting purposes. Based upon MetLife's recent credit ratings, Plan management has determined that no adjustment to contract value is required related to the credit quality of the issuer of this contract.

Money market: Fair values of money market deposit account balances have been determined based upon their quoted redemption prices and recent transaction prices of $1.00 per share (level 2 inputs), with no discounts for credit quality or liquidity restrictions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements at December 31, 2014 Using

The table below presents a reconciliation of Plan investments measured at fair value on a recurring basis using significant unobservable inputs (level 3) for the year ended December 31, 2014, including the reporting classifications for the applicable gains and losses included in the statement of changes in net assets available for benefits:

	Fair Value Measurements Using Significant Unobservable Inputs (Level 3) Collective trust
Beginning balance, January 1, 2014	$ 755,883
Interest income	14,903
Purchases	202,075
Sales	(92,671)
Ending balance, December 31, 2014	$ 880,190

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in a fully benefit-responsive contract through its investment in a stable value collective investment trust. No adjustments from fair value to contract value are presented in the statements of net assets available for benefits, as the amounts of the adjustments have been determined to be immaterial.

NOTE 3 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS

Substantially all information pertaining to the Plan's investments included in the financial statements, including the associated investment income was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Charles Schwab Bank, the custodian of the Plan. This information has not been audited by independent accountants.

The following presents the fair values of investments that represent 5 percent or more of the Plan's net assets available for benefits.

	2014	2013

Oppenheimer Developing Markets Fund	1,204,704	1,210,967

*Fund did not meet 5% threshold; shown for comparative purposes

During the year ended December 31, 2014, the Plan's investments in mutual funds (including gains and losses in investments bought and sold, as well as held during the year) depreciated in value by $222,172.

NOTE 4 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the plan, any party rendering service to the plan, the employer, and certain others. The Plan holds shares of a money market fund issued by Schwab Funds, an affiliate. Charles Schwab Bank is the Plan custodian, and therefore, these transactions and the Plan's payment of custodian fees and investment management fees qualify as party-in-interest transactions. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company.

NOTE 5 - TAX STATUS

The Internal Revenue Service issued an opinion letter dated March 31, 2008 indicating that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended from the original prototype document, Plan management believes that the Plan is currently being operated in accordance with the Internal Revenue Code.

NOTE 6 - SUBSEQUENT EVENT

Plan management has evaluated subsequent events for recognition and disclosure through September 23, 2015, which is the date the financial statements were available to be issued.
