TRW Automotive 401(k) Savings Plan

Notes to Financial Statements

December 31, 2014

1. Description of the Plan

The following description of the TRW Automotive 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions, copies of which may be obtained from the Plan sponsor.

General

The Plan is a defined-contribution benefit plan designed to provide eligible employees of a participating plant, division, subsidiary, or affiliate of TRW Automotive U.S. LLC, the sponsor of the Plan (as applicable, the Company or TRW), with a vehicle to systematically save funds to supplement their retirement benefits. The Plan is subject to the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Eligibility

Salaried or nonunion hourly employees of the specified locations in the plan document are eligible to participate in the Plan on the first day of employment with the Company.

Employees are eligible to participate in the Plan for purposes of receiving the Company match after completing one year of service.

Employee Contributions

Each year, participants may contribute a percentage of pretax annual compensation not to exceed the applicable Internal Revenue Code (IRC) limitations (\$17,500 for both 2014 and 2013), as well as up to 10% of after-tax compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined-benefit or defined-contribution plans. For 2014 and 2013, a participant who was 50 years old on or before the last day of the plan year-end was eligible to make an additional catch-up contribution of \$5,500.

Upon enrollment, a participant may direct contributions in 1% increments to any of the Plan's investment options. Participants may change their investment options or transfer assets between investment options at any time during the year.

1. Description of the Plan (continued)

Employer Contributions

The Company matches an amount equal to 100% of the participant's pretax contribution up to 6% of the participant's compensation. Matching contributions, which are made in TRW Automotive Holdings Corp. stock, are immediately diversifiable.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contribution, if applicable, and the earnings on the invested contributions. The benefit to which a participant is entitled cannot exceed the participant's vested account balance.

Vesting

Participants are immediately vested in their contributions and company matching contributions plus actual earnings thereon.

Forfeitures

Nonvested employer contributions of employees who terminated prior to January 1, 2011, became forfeitures of the Plan and will be used to reduce future employer contributions or administrative expenses. Forfeited funds are transferred to the Fidelity Managed Income Portfolio II fund when a nonvested employee takes a distribution. During 2014, \$1,098,425 of forfeited funds were used to reduce employer contributions. Forfeiture amounts were also used to reduce administrative expense during 2014. At December 31, 2014 and 2013, \$364,956 and \$153,275, respectively, of forfeited funds were available.

Participant Loans

Participants may borrow an amount limited to \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime interest rate on the last business day of the preceding calendar month plus one percentage point. Principal and interest are paid ratably through regular payroll deductions.

1. Description of the Plan (continued)

Payment of Benefits

Upon termination of service due to retirement, death, or disability, a participant or the participant's beneficiary may receive a lump-sum amount equal to the vested value of the participant's account. Financial hardship withdrawals and in-service withdrawals are permitted as defined by the Plan.

Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS), and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

In-service withdrawals are available either from the participant's after-tax contributions and/or rollover contributions or upon attainment of age 59 1/2 under certain provisions of the Plan.

Administrative Expenses

Certain administrative expenses of the Plan related to loan setup, withdrawals, and qualified domestic relations orders are paid by the participants. All other administrative expenses are paid by the Company.

Company Stock Fund

The Plan invests in common stock of TRW Automotive Holdings Corp. through its Company Stock Fund.

Each participant is entitled to exercise voting rights attributable to the shares allocated to their account and is notified by TRW when such rights may be exercised. By voting, the participants are instructing the plan trustees, plan committee or independent fiduciaries of the plan how to vote shares allocated to such participant. They will vote the shares in accordance with the participants' instructions, but are not permitted to vote any allocated shares for which instructions have not been given by a participant. The shares for which voting instructions are not provided by participants are voted by an independent fiduciary.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, distributions to participants and beneficiaries will be made at such time after termination of the Plan as provided by the plan agreement.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of the financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2014 and 2013 excess contributions to the applicable participants by March 15, 2015 and 2014, respectively.

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance, plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses

2. Summary of Significant Accounting Policies (continued)

and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Valuation of Investments and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

One investment option of the Plan includes investment contracts through a common/collective trust fund (Fidelity Managed Income Portfolio II). This fund invests in fully benefit-responsive investment contracts. This fund is recorded at fair value (see Note 4); however, since these contracts are fully benefit-responsive, an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses. The statements of net assets available for benefits present the fair value of the investment in the common/collective trust as well as the adjustment from fair value to contract value for fully benefit-responsive investment contracts. The fair value of the Plan's interest in the Fidelity Managed Income Portfolio II is based on information reported by the issuer of the common/collective trust at year-end.

The common/collective trust fund is designed to preserve principal and accumulate earnings. This fund is primarily invested in guaranteed investment contracts and synthetic investment contracts. Participant-directed redemptions have no restrictions; however, the Plan is required to provide a one year redemption notice to liquidate its entire share in the fund.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

TRW Automotive 401(k) Savings Plan

2. Summary of Significant Accounting Policies (continued)

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)* (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, *Fair Value Measurement*. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for entities (other than public business entities) for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted. Management believes adoption will not have a significant impact, as it relates to disclosure only.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I of the ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of the ASU eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III of the ASU allows a plan with a fiscal year end that does not coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. The ASU is effective for fiscal years beginning after December 15, 2015. Parts I and II are to be applied retrospectively. Part III is to be applied prospectively. Plans can early adopt any of the ASU's three parts without early adopting the other parts. Management believes adoption will not have a significant impact, as it relates to disclosure only. Part III is not applicable to the Plan.

4. Fair Value Measurements

The inputs to valuation techniques used to measure fair value are prioritized into a three-level hierarchy. This hierarchy gives the highest priority to quoted prices in active markets for identical assets and liabilities and lowest priority to unobservable inputs as follows:

Level 1 – Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date.

Level 2 – Inputs are other than quoted prices that are observable for the asset or liability, either directly or indirectly.

TRW Automotive 401(k) Savings Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Level 3 – Unobservable inputs are supported by little or no market activity. The unobservable inputs represent the Company's best assumptions of how market participants would price the assets or liabilities.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest-level input that is significant to the fair value measurement in its entirety.

The following valuation techniques and inputs were used to determine the fair value of investments recorded at fair value in the statements of net assets available for benefits.

Mutual funds: Valued at quoted market prices, which represent net asset value (NAV) of shares held by the Plan at year-end.

Equity securities: Valued at the quoted market price reported on the active market on which the individual securities are traded on the last business day of the plan year.

The TRW Common Stock Fund invests in TRW Automotive Holdings Corp. common stock. A small portion of the fund may also be invested in short-term reserves to accommodate daily transactions; however, no such reserves existed as of December 31, 2014 and 2013. TRW common stock is valued at the closing price on the New York Stock Exchange on the last business day of the year, which represents the value of the fund as of December 31, 2014 and 2013.

Common/collective trust fund: Valued at NAV provided by the administrators of the funds. The NAV is based on underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding.

5. Related-Party Transactions

Certain plan investments are units of participation in a common/collective trust fund and shares of mutual funds managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Likewise, TRW Automotive U.S. LLC is the plan sponsor and, therefore, transactions in shares of its Parent TRW Automotive Holdings Corp.'s stock also qualify as party-in-interest transactions. These transactions are exempt from the prohibited transactions rules under ERISA.

TRW Automotive 401(k) Savings Plan

Notes to Financial Statements (continued)

6. Risks and Uncertainties

The Plan allows for investments in various investment securities. Investment securities are exposed to various risks such as interest rate, foreign currency exchange, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. Income Tax Status

The Plan has received a determination letter from the IRS dated December 12, 2013, stating that the Plan is qualified under Section 401(a) of the IRC and therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

9. Subsequent Events

Management evaluated subsequent events for the Plan through August 26, 2015, the date the financial statements were available to be issued.

On September 15, 2014, the Company's parent corporation, TRW Automotive Holdings Corp. (TRW), entered into an agreement and Plan of Merger with ZF Friedrichshafen AG (ZF) and MSNA, Inc., whereby ZF acquired all outstanding TRW common stock (TRW Common), including TRW Common, in the Plan. On May 15, 2015, the merger transaction closed and participants received \$105.60 per share of TRW Common.

Effective May 15, 2015, TRW Common was eliminated as an investment option and as a Company contribution option. All matching contributions after this date are made in cash and allocated based on the participant's elective deferrals.
