AMBU 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS December 31, 2014 and 2013

NOTE 1 - DESCRIPTION OF PLAN

The following description of AMBU 401(k) Plan (the Plan), formerly King Systems Employee Savings and Retirement Plan, provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General: The Plan was organized effective August 1, 1998, as a defined contribution retirement savings plan covering all eligible employees of King Systems Corporation (the Employer) who have at least three months of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The 401(k) Plan Committee is responsible for oversight of the Plan. The 401(k) Plan Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Board of Directors of the Employer.

Plan Merger: Effective September 1, 2014, the AMBU, Inc. Thrift Plan (Thrift Plan) was merged into the King Systems Employee Savings and Retirement Plan and renamed to AMBU 401(k) Plan. All investment assets in the Thrift Plan were transferred to the Plan. The transfer also included all outstanding notes receivable from participants. As the Plan does not allow for loans to participants, all notes receivable transferred from the Thrift Plan will be serviced to maturity.

Contributions: Each year, participants may authorize the Employer to contribute to the Plan up to 100% of their eligible annual compensation, subject to the maximum annual amount permitted under the Internal Revenue Code (IRC). Participants who attain age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also make rollover contributions from amounts representing distributions from other qualified plans.

The Employer may elect to make discretionary matching and profit-sharing contributions to the Plan. Prior to September 1, 2014, the Employer made matching contributions equal to 25% of the first 5% of compensation that each participant contributed to the Plan. Effective September 1, 2014, the Employer made matching contributions equal to 50% of the first 6% of compensation that each participant contributed to the Plan. No Employer discretionary profit-sharing contributions were made to the Plan in 2014.

Participants direct the investment of their contributions, as well as those made by the Employer, into various investment options offered by the Plan.

Participant Accounts: Each participant's account is credited with the participant's contributions and Employer matching contributions, as well as allocations of the Employer's profit-sharing contributions and Plan earnings. Participant accounts may also be charged with an allocation of certain administrative expenses of the Plan. Allocations are based on participant earnings or account balances, or specific participant transactions, as defined in the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and Forfeitures: Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Employer's contribution portion of their account is based on years of service. A participant becomes 50% vested after two years of service and 100% vested after three years of service.

At December 31, 2014 and 2013, forfeited nonvested accounts of terminated participants totaled \$44 and \$77, respectively. These accounts will be used to reduce future Employer contributions. In 2014, forfeited nonvested accounts of \$52,555 were used to reduce Employer contributions.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants: Participants merged in from the Thrift Plan could have borrowed from their account a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. The repayment terms of the notes could not exceed five years except for the purchase of the participant's principal residence, for which the terms could exceed five years per the Thrift Plan's Agreement. The notes are secured by the balance in the participant's account and bear interest rates which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through regular payroll deductions.

Benefits: Upon the occurrence of a distributable event due to separation from service by termination, death, disability, or retirement, as defined by the Plan Agreement, a participant may elect to receive a lump-sum cash distribution equal to the value of the participant's vested interest in his or her account. Hardship and in-service withdrawals, as defined in the Plan Agreement, are also permitted from a participant's account.

Plan Termination: Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants will become 100% vested in their accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The 401(k) Plan Committee determines the Plan's valuation policies utilizing information provided by the Plan's investment advisor, insurers, and trustee. See Note 3 for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As discussed in Note 5, the Plan invests in a collective trust fund and a guaranteed investment contract which are fully benefit-responsive investments. The Plan's statements of net assets available for benefits presents the fair value of these investments, which approximates contract value. The Plan's statement of changes in net assets available for benefits is prepared on a contract value basis for fully benefit-responsive investment contracts.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2014. If a participant ceases to make repayments and the Plan Administrator deems the note receivable from the participant to be in default, the balance of the note receivable from the participant is reduced and a benefit payment is recorded per the Plan Agreement.

Excess Contributions Payable: Amounts payable to participants for contributions in excess of amounts allowed under the IRC are recorded as a liability with a corresponding reduction in participant contributions. The Plan distributed excess contributions at December 31, 2014, to the applicable participants prior to March 15, 2015.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits: Benefits are recorded when paid.

Plan Expenses: Administrative expenses for maintaining the Plan may be paid by the Employer or the Plan, at the Employer's discretion. Certain administration fees are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Tax Status: The Plan has adopted a prototype plan document whose sponsor has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014, stating that the plan document was designed in accordance with the applicable sections of the IRC. Although the Plan and the prototype plan document have been amended since receiving the opinion letter, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require the Plan's management to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other taxing authorities.

The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in process. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

Subsequent Events: The Plan Administrator has evaluated the financial statements for subsequent events occurring through October 14, 2015, the date the financial statements were available to be issued. See Note 10.

NOTE 3 - FAIR VALUE MEASUREMENTS

The Plan has categorized its assets and liabilities that are measured at fair value into a three-level fair value hierarchy. The hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement. In situations where there is little or no market activity for the asset or liability, the Plan makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodologies used by the Plan for assets that are measured at fair value on a recurring basis. There have been no changes in the methodologies at December 31, 2014 and 2013.

Mutual Fund Shares: Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. These funds held by the Plan are deemed to be actively traded.

Pooled Separate Accounts: Valued at the unit price reported by the sponsoring insurance company. The unit price is based on the underlying net asset value of the mutual fund shares held in the account, less any accrual of fees and expenses borne by the account and divided by the number of units outstanding. The unit value is available on the active private market in which the participant can transact daily with no redemption restrictions.

Collective Trust Funds: Valued at the net asset value (NAV) of units of a trust company collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

Guaranteed Investment Contract: Valued at fair value (which approximates contract value) by the insurance company using the income approach of resetting interest rates periodically based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. The crediting rate is supported by the claims paying ability of the issuer. Interest rates are reset annually.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain assets could result in a different fair value measurement at the reporting date.

Following is a summary, by major nature and risks class within each level of the fair value hierarchy, of the Plan's assets that are measured at fair value on a recurring basis as of December 31, 2014 and 2013:

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs as of December 31, 2014.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Great-West Guaranteed Investment Contract	<u>\$858,951</u>	Income approach of resetting interest rates	Market interest rates Interest pool duration	1.20% Annual pools reset at guaranteed rates for 1 year	1.20%

Valuation processes and procedures are the responsibility of the 401(k) Plan Committee, which reports to the Board of Directors of the Employer. The 401(k) Plan Committee meets quarterly with the Plan's registered investment advisor to discuss how investments are valued and any changes made in the valuation techniques or unobservable inputs.

Fair Value of Investments in Entities that Use Net Asset Value

The following table summarizes investments measured at fair value based on net asset value (NAV) per share as of December 31, 2014 and 2013.

2014	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period

⁽¹⁾ The Principal Collective Trust Funds consist of the Principal Trust Income Fund and the Principal Target Date Funds which may invest in open-ended mutual funds, insurance company separate accounts, and other collective trust funds that are managed toward a particular target (retirement) date, or the approximate date a participant starts withdrawing money. As each fund approaches its target date, the investment mix becomes more conservative and continues to be managed for approximately 15 years beyond its target date.

⁽²⁾ The Union Bank & Trust Company Principal Stable Value Fund is primarily invested in a variety of high quality stable value investment contracts, as well as cash and cash equivalents.

NOTE 5 - COLLECTIVE TRUST FUND AND GUARANTEED INVESTMENT CONTRACT

The Plan has investments in the Union Bank & Trust Company Principal Stable Value Fund and the Great West Financial Guaranteed Investment Contract, which are benefit-responsive funds. As described in Note 2, because these investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for those portions of the Plan's net assets available for benefits attributable to the collective trust fund and guaranteed investment contract. Contract value, as reported to the Plan by Principal Trust Company and Great-West Life & Annuity Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuers or otherwise. The average yield rate of the Union Bank & Trust Company Principal Stable Value Fund based on actual earnings of the fund was approximately 1.41% for 2014 and 1.44% for 2013, and the average interest rate credited to participants was approximately 1.48% for 2014 and 1.28% for 2013.

NOTE 5 - COLLECTIVE TRUST FUND AND GUARANTEED INVESTMENT CONTRACT (CONTINUED)

There are no reserves against contract value for credit risk of the contract issuers or otherwise. The average yield rate of the Great West Financial Guaranteed Investment Contract based on actual earnings of the fund was approximately 1.20% for 2014 and the average interest rate credited to participants was approximately 1.20% for 2014.

Certain events limit the ability of the Plan to transact at contract value with the issuers. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator believes that any events which would limit the Plan's ability to transact at contract value with participants are not probable of occurring.

NOTE 6 - PLAN AMENDMENTS

Effective September 1, 2014, the Plan Agreement was amended to merge the AMBU, Inc. Thrift Plan into the Plan. The amendment also renamed the Plan from the King Systems Employee Savings and Retirement Plan to the AMBU 401(k) Plan. In addition, the amendment changed the definition of eligibility to exclude leased employees and subcontractors, as well as to change the vesting schedule for Employer contributions to 50% vesting after two years of service and 100% vesting after three years of credited service. The amendment also changed the Employer from King Systems Corporation to AMBU, Inc.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

Certain Plan investments are managed by affiliates of Delaware Charter Guarantee and Trust Company, d/b/a Principal Trust Company, the Trustee, and Principal Life Insurance Company and Great-West Life & Annuity Insurance Company, the Insurers; therefore, transactions in these investments qualify as exempt party-in-interest transactions under ERISA. The Trustee and Insurers also receive indirect fees from investments which are deducted from investment returns. Direct fees paid by the Plan to the Trustee and Insurers and/or their affiliates totaled \$2,525 in 2014.

The Employer provides certain accounting, administrative and investment management services to the Plan for which it receives no compensation.

Notes receivable from participants are permitted party-in-interest transactions.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan's investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Plan's financial statements.

NOTE 9 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to net assets per Form 5500 at December 31, 2014 and 2013:

	2014	2013

The following is a reconciliation of net decrease per the financial statements to net loss per Form 5500 for the year ended December 31, 2014:

Net decrease per the financial statements	\$(119,349)
Change in excess contributions payable	<u>(5,740)</u>
Net loss per Form 5500	<u>\$(125,089)</u>

NOTE 10 - SUBSEQUENT EVENTS

Effective January 1, 2015, the Plan Agreement was restated and amended in its entirety to comply with the requirements of the Pension Protection Act of 2006 (PPA) and incorporates any prior discretionary amendments since its last restatement, as well as prior statutory amendments relating to the Final Section 415 Regulations, the Heroes Earnings Assistance and Relief Tax Act of 2008 (HEART), and the Worker, Retiree, and Employer Recovery Act of 2008 (WRERA). In addition, the Plan Agreement was amended to implement an automatic enrollment feature for the 2015 Plan year.
