Report on the Financial Statements
We were engaged to audit the accompanying financial statements of Maguire Companies Profit Sharing and 401(k) Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2014, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Vanguard Fiduciary Trust Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2014, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter—2013 Financial Statements
The financial statements of the Plan as of December 31, 2013, were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by Vanguard Fiduciary Trust Company, the trustee of the Plan. Their report, dated October 7, 2014, indicated that the form and content of the information included in the financial statements other than that derived from the information certified by the Trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Other Matter
We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at year end), which is the responsibility of plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Maguire Companies Profit Sharing and 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. Participating companies include Maguire Oil Company, and Components Corporation of America and subsidiaries (which include Para Systems, Inc., Staco Systems, Inc., and Staco Energy Products Company) (collectively "the Company"), which are affiliated through common ownership.

The Plan's trustee is Vanguard Fiduciary Trust Company ("VFTC"). The Plan administrator selected certain funds from VFTC from which employees may choose for self-directed investment of their 401(k) account balances. The trustee manages the funds and provides recordkeeping services. All administrative expenses are paid by the Plan.

In preparation of these financial statements and related footnotes, the Plan has considered events through October 13, 2015, the date these financial statements were available to be issued.

Eligibility - The Plan is a defined contribution plan covering all employees of the Company who have one month of service as defined by the Plan and are age twenty-one or older. The Plan is a 401(k) plan and is subject to the provisions of the Employee Retirement Income Act of 1974 (ERISA). The Plan was created to enable eligible employees to share in the profits of the Company and to save and invest funds for retirement.

Plan Year - The plan year begins January 1 and ends December 31.

Contributions - Each year, participants may elect to defer to the Plan a portion of their total compensation on a before-tax basis of not less than 2% and not more than 100% subject to maximum limitations imposed by the Internal Revenue Code ("IRC") of $17,500 for 2014 and 2013. Employees who are eligible to make elective deferrals under the Plan and who have attained the age of fifty before the close of the Plan year are also eligible to make catch-up contributions of an additional $5,500 for 2014 and 2013. Participants may also transfer money from other qualified plans.

The Company may contribute up to 100% of the aggregate of participants' elective compensation deferral contributions to the Plan (matching employer contributions). This discretionary annual contribution, made by the Company, is determined by its Board of Directors, within the limits of the IRC. The Company accrued matching contributions of $178,688 in 2014 and $204,853 in 2013.

Participant Accounts - Each participant's account is credited with the participant's contribution, the discretionary employer contribution, and Plan earnings. Plan earnings are allocated based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options - Upon enrollment in the Plan, a participant must direct contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options anytime throughout the year via internet or direct phone access to the custodian.

Forfeited Accounts - Forfeited, non-vested accounts are reallocated to participants. Forfeitures reallocated in the years ending December 31, 2014 and 2013 were $2,460 and $1,730, respectively.

Reclassification - Certain prior year balances have been reclassified to conform with current presentation.

NOTE 1 – DESCRIPTION OF THE PLAN (CONTINUED)

Payment of Benefits - Distributions to a participant or to the beneficiaries of the participant are made in a lump sum upon retirement, death, disability, or other termination of employment. Distributions equal the value of the participant's vested balance in his or her account. Benefits are recorded when paid.

Vesting - Participants are fully vested in their elective deferral contributions and rollover account plus the earnings received thereon. Vesting in the Company's discretionary matching contribution portion of their accounts is based upon years of service. At a vesting rate of 20% per year, a participant is 100% vested after five years of continuous service.

Withdrawals - As a general rule, participant's contributions will remain in the Plan as long as the participant remains employed by the Company. The Plan does provide exceptions to this rule for withdrawals of the participant's contributions under certain circumstances, subject to the satisfaction of the Plan Administrator and in accordance with the IRC.

Participant Loans - Participants may borrow from their fund accounts a minimum of $1,000 to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years or up to ten years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at prime plus one. Principal and interest are paid ratably through payroll deductions.

Plan Termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants become 100% vested in their accounts.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Presentation - The financial statements of the Plan are prepared under the accrual basis of accounting. Purchases and sales of securities are recorded on a trade-date basis. Interest and dividends are recorded on the date paid to the Plan's investment account.

Estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value as certified by the Plan's trustee. Quoted market prices are used to value the investments. If a quoted market price is not available, an estimated fair value is used.

Risks and Uncertainties - The plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and the statement of changes in net asset available for benefits. The Plan does not obtain or require collateral for these investment securities.

NOTE 3 – INVESTMENTS

Generally accepted accounting principles establishes a framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for the Plan's assets measured at fair value on a recurring basis and recognized in the accompanying 2014 and 2013 statement of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy.

Mutual funds: Valued at the quoted market value of shares adjusted for any contribution or withdrawal restrictions held by the Plan at year-end. Accordingly the fair value of these assets is established using Level 1 inputs.

Guaranteed account: The fair value of the guaranteed account is determined based upon a valuation formula disclosed in the account contract as calculated by the annuity provider. Accordingly, the fair value of these assets is established using Level 3 inputs.

NOTE 3 – INVESTMENTS (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets recognized in the accompanying statement of net assets available for benefits measured at fair value on recurring basis as of December 31, 2014 and 2013:

Purchases, issuances, sales and settlements	
Purchases	129,036
Sales	(63,395)
Ending balance	$ 2,243,320

NOTE 4 – GURANTEED INVESTMENT CONTRACT

The Plan is invested in a fully benefit-responsive guaranteed investment contract the Vanguard Retirement Savings Master Trust (the "VRSMT"). VRSMT maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by VRSMT, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract values of this investment at December 31, 2014 and 2013 were $2,177,135 and $2,076,330, respectively. The average crediting interest rates for December 31, 2014 and 2013 were 1.82% and 1.73%, respectively, which are based on a formula agreed upon with the issuer. Such interest rates are reviewed periodically for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The guaranteed investment contract does not permit the investment company to terminate the agreement prior to the scheduled maturity date.

NOTE 5 – TAX STATUS

The IRS has determined and informed the Plan sponsor by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

The plan administrator believes the Plan is no longer subject to examination by the Internal Revenue Service for years prior to 2011.

NOTE 6 – CORRECTIVE DISTRIBUTIONS

Amounts payable to participants totaling $6,428 related to contributions in excess of amounts allowed by the Internal Revenue Code are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the excess contributions to the applicable participants.

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Maguire Companies Profit Sharing and 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. Participating companies include Maguire Oil Company, and Components Corporation of America and subsidiaries (which include Para Systems, Inc., Staco Systems, Inc., and Staco Energy Products Company) (collectively "the Company"), which are affiliated through common ownership.

The Plan's trustee is Vanguard Fiduciary Trust Company ("VFTC"). The Plan administrator selected certain funds from VFTC from which employees may choose for self-directed investment of their 401(k) account balances. The trustee manages the funds and provides recordkeeping services. All administrative expenses are paid by the Plan.

In preparation of these financial statements and related footnotes, the Plan has considered events through October 13, 2015, the date these financial statements were available to be issued.

Eligibility - The Plan is a defined contribution plan covering all employees of the Company who have one month of service as defined by the Plan and are age twenty-one or older. The Plan is a 401(k) plan and is subject to the provisions of the Employee Retirement Income Act of 1974 (ERISA). The Plan was created to enable eligible employees to share in the profits of the Company and to save and invest funds for retirement.

Plan Year - The plan year begins January 1 and ends December 31.

Contributions - Each year, participants may elect to defer to the Plan a portion of their total compensation on a before-tax basis of not less than 2% and not more than 100% subject to maximum limitations imposed by the Internal Revenue Code ("IRC") of $17,500 for 2014 and 2013. Employees who are eligible to make elective deferrals under the Plan and who have attained the age of fifty before the close of the Plan year are also eligible to make catch-up contributions of an additional $5,500 for 2014 and 2013. Participants may also transfer money from other qualified plans.

The Company may contribute up to 100% of the aggregate of participants' elective compensation deferral contributions to the Plan (matching employer contributions). This discretionary annual contribution, made by the Company, is determined by its Board of Directors, within the limits of the IRC. The Company accrued matching contributions of $178,688 in 2014 and $204,853 in 2013.

Participant Accounts - Each participant's account is credited with the participant's contribution, the discretionary employer contribution, and Plan earnings. Plan earnings are allocated based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options - Upon enrollment in the Plan, a participant must direct contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options anytime throughout the year via internet or direct phone access to the custodian.

Forfeited Accounts - Forfeited, non-vested accounts are reallocated to participants. Forfeitures reallocated in the years ending December 31, 2014 and 2013 were $2,460 and $1,730, respectively.

Reclassification - Certain prior year balances have been reclassified to conform with current presentation.

NOTE 1 – DESCRIPTION OF THE PLAN (CONTINUED)

Payment of Benefits - Distributions to a participant or to the beneficiaries of the participant are made in a lump sum upon retirement, death, disability, or other termination of employment. Distributions equal the value of the participant's vested balance in his or her account. Benefits are recorded when paid.

Vesting - Participants are fully vested in their elective deferral contributions and rollover account plus the earnings received thereon. Vesting in the Company's discretionary matching contribution portion of their accounts is based upon years of service. At a vesting rate of 20% per year, a participant is 100% vested after five years of continuous service.

Withdrawals - As a general rule, participant's contributions will remain in the Plan as long as the participant remains employed by the Company. The Plan does provide exceptions to this rule for withdrawals of the participant's contributions under certain circumstances, subject to the satisfaction of the Plan Administrator and in accordance with the IRC.

Participant Loans - Participants may borrow from their fund accounts a minimum of $1,000 to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years or up to ten years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at prime plus one. Principal and interest are paid ratably through payroll deductions.

Plan Termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants become 100% vested in their accounts.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Presentation - The financial statements of the Plan are prepared under the accrual basis of accounting. Purchases and sales of securities are recorded on a trade-date basis. Interest and dividends are recorded on the date paid to the Plan's investment account.

Estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value as certified by the Plan's trustee. Quoted market prices are used to value the investments. If a quoted market price is not available, an estimated fair value is used.

Risks and Uncertainties - The plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and the statement of changes in net asset available for benefits. The Plan does not obtain or require collateral for these investment securities.

NOTE 3 – INVESTMENTS

Generally accepted accounting principles establishes a framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for the Plan's assets measured at fair value on a recurring basis and recognized in the accompanying 2014 and 2013 statement of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy.

Mutual funds: Valued at the quoted market value of shares adjusted for any contribution or withdrawal restrictions held by the Plan at year-end. Accordingly the fair value of these assets is established using Level 1 inputs.

Guaranteed account: The fair value of the guaranteed account is determined based upon a valuation formula disclosed in the account contract as calculated by the annuity provider. Accordingly, the fair value of these assets is established using Level 3 inputs.

NOTE 3 – INVESTMENTS (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets recognized in the accompanying statement of net assets available for benefits measured at fair value on recurring basis as of December 31, 2014 and 2013:

December 31, 2014	Fair Value	Quoted Prices In Active Markets for Other Identical Assets (Level 1) Inputs	Significant Other Observable Input (Level 2)	Significant Unobservable Inputs (Level 3)

Included in earnings (or changes in net assets)	44,873
Purchases, issuances, sales and settlements	
Purchases	129,036
Sales	(63,395)
Ending balance	$ 2,243,320

NOTE 4 – GURANTEED INVESTMENT CONTRACT

The Plan is invested in a fully benefit-responsive guaranteed investment contract the Vanguard Retirement Savings Master Trust (the "VRSMT"). VRSMT maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by VRSMT, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract values of this investment at December 31, 2014 and 2013 were $2,177,135 and $2,076,330, respectively. The average crediting interest rates for December 31, 2014 and 2013 were 1.82% and 1.73%, respectively, which are based on a formula agreed upon with the issuer. Such interest rates are reviewed periodically for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The guaranteed investment contract does not permit the investment company to terminate the agreement prior to the scheduled maturity date.

NOTE 5 – TAX STATUS

The IRS has determined and informed the Plan sponsor by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

The plan administrator believes the Plan is no longer subject to examination by the Internal Revenue Service for years prior to 2011.

NOTE 6 – CORRECTIVE DISTRIBUTIONS

Amounts payable to participants totaling $6,428 related to contributions in excess of amounts allowed by the Internal Revenue Code are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the excess contributions to the applicable participants.

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Maguire Companies Profit Sharing and 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. Participating companies include Maguire Oil Company, and Components Corporation of America and subsidiaries (which include Para Systems, Inc., Staco Systems, Inc., and Staco Energy Products Company) (collectively "the Company"), which are affiliated through common ownership.

The Plan's trustee is Vanguard Fiduciary Trust Company ("VFTC"). The Plan administrator selected certain funds from VFTC from which employees may choose for self-directed investment of their 401(k) account balances. The trustee manages the funds and provides recordkeeping services. All administrative expenses are paid by the Plan.

In preparation of these financial statements and related footnotes, the Plan has considered events through October 13, 2015, the date these financial statements were available to be issued.

Eligibility - The Plan is a defined contribution plan covering all employees of the Company who have one month of service as defined by the Plan and are age twenty-one or older. The Plan is a 401(k) plan and is subject to the provisions of the Employee Retirement Income Act of 1974 (ERISA). The Plan was created to enable eligible employees to share in the profits of the Company and to save and invest funds for retirement.

Plan Year - The plan year begins January 1 and ends December 31.

Contributions - Each year, participants may elect to defer to the Plan a portion of their total compensation on a before-tax basis of not less than 2% and not more than 100% subject to maximum limitations imposed by the Internal Revenue Code ("IRC") of $17,500 for 2014 and 2013. Employees who are eligible to make elective deferrals under the Plan and who have attained the age of fifty before the close of the Plan year are also eligible to make catch-up contributions of an additional $5,500 for 2014 and 2013. Participants may also transfer money from other qualified plans.

The Company may contribute up to 100% of the aggregate of participants' elective compensation deferral contributions to the Plan (matching employer contributions). This discretionary annual contribution, made by the Company, is determined by its Board of Directors, within the limits of the IRC. The Company accrued matching contributions of $178,688 in 2014 and $204,853 in 2013.

Participant Accounts - Each participant's account is credited with the participant's contribution, the discretionary employer contribution, and Plan earnings. Plan earnings are allocated based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options - Upon enrollment in the Plan, a participant must direct contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options anytime throughout the year via internet or direct phone access to the custodian.

Forfeited Accounts - Forfeited, non-vested accounts are reallocated to participants. Forfeitures reallocated in the years ending December 31, 2014 and 2013 were $2,460 and $1,730, respectively.

Reclassification - Certain prior year balances have been reclassified to conform with current presentation.

NOTE 1 – DESCRIPTION OF THE PLAN (CONTINUED)

Payment of Benefits - Distributions to a participant or to the beneficiaries of the participant are made in a lump sum upon retirement, death, disability, or other termination of employment. Distributions equal the value of the participant's vested balance in his or her account. Benefits are recorded when paid.

Vesting - Participants are fully vested in their elective deferral contributions and rollover account plus the earnings received thereon. Vesting in the Company's discretionary matching contribution portion of their accounts is based upon years of service. At a vesting rate of 20% per year, a participant is 100% vested after five years of continuous service.

Withdrawals - As a general rule, participant's contributions will remain in the Plan as long as the participant remains employed by the Company. The Plan does provide exceptions to this rule for withdrawals of the participant's contributions under certain circumstances, subject to the satisfaction of the Plan Administrator and in accordance with the IRC.

Participant Loans - Participants may borrow from their fund accounts a minimum of $1,000 to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years or up to ten years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at prime plus one. Principal and interest are paid ratably through payroll deductions.

Plan Termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants become 100% vested in their accounts.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Presentation - The financial statements of the Plan are prepared under the accrual basis of accounting. Purchases and sales of securities are recorded on a trade-date basis. Interest and dividends are recorded on the date paid to the Plan's investment account.

Estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value as certified by the Plan's trustee. Quoted market prices are used to value the investments. If a quoted market price is not available, an estimated fair value is used.

Risks and Uncertainties - The plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and the statement of changes in net asset available for benefits. The Plan does not obtain or require collateral for these investment securities.

NOTE 3 – INVESTMENTS

Generally accepted accounting principles establishes a framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for the Plan's assets measured at fair value on a recurring basis and recognized in the accompanying 2014 and 2013 statement of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy.

Mutual funds: Valued at the quoted market value of shares adjusted for any contribution or withdrawal restrictions held by the Plan at year-end. Accordingly the fair value of these assets is established using Level 1 inputs.

Guaranteed account: The fair value of the guaranteed account is determined based upon a valuation formula disclosed in the account contract as calculated by the annuity provider. Accordingly, the fair value of these assets is established using Level 3 inputs.

NOTE 3 – INVESTMENTS (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets recognized in the accompanying statement of net assets available for benefits measured at fair value on recurring basis as of December 31, 2014 and 2013:

NOTE 4 – GURANTEED INVESTMENT CONTRACT

The Plan is invested in a fully benefit-responsive guaranteed investment contract the Vanguard Retirement Savings Master Trust (the "VRSMT"). VRSMT maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by VRSMT, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract values of this investment at December 31, 2014 and 2013 were $2,177,135 and $2,076,330, respectively. The average crediting interest rates for December 31, 2014 and 2013 were 1.82% and 1.73%, respectively, which are based on a formula agreed upon with the issuer. Such interest rates are reviewed periodically for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The guaranteed investment contract does not permit the investment company to terminate the agreement prior to the scheduled maturity date.

NOTE 5 – TAX STATUS

The IRS has determined and informed the Plan sponsor by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

The plan administrator believes the Plan is no longer subject to examination by the Internal Revenue Service for years prior to 2011.

NOTE 6 – CORRECTIVE DISTRIBUTIONS

Amounts payable to participants totaling $6,428 related to contributions in excess of amounts allowed by the Internal Revenue Code are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the excess contributions to the applicable participants.
