1. Description of the Plan

The following description of the Arc-Tronics, Inc. 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution savings plan organized in accordance with Section 401(k) of the Internal Revenue Code. It was established by Arc-Tronics, Inc. ("the Company") January 1, 1999 for eligible employees and their beneficiaries. The Plan is subject to the provisions of the Employee Retirement and Income Security Act of 1974 (ERISA).

Eligible employees can become participants in the Plan on January 1 or July 1 (the enrollment dates) each year following their completion of twelve months of service with the Company and after attaining age 21, provided they were entitled to compensation for at least 1,000 hours of service during their first employment year. If an employee does not meet the 1,000 hour requirement when otherwise eligible, they will be eligible for participation on the next enrollment date following the completion of 1,000 hours of service in a Plan year.

Contributions

Each participant may elect to make contributions to the Plan equal to a percentage of their compensation or a fixed dollar amount per pay period. At its discretion, the Company's board of directors may elect to match a percentage of participants' contributions. During both 2014 and 2013, the Company matched 10% of the participants' contributions.

The Plan agreement contains various limitations on the amounts of employee and employer contributions to the Plan in accordance with Sections 401 and 415 of the Internal Revenue Code. The maximum amount of compensation a member could defer was $17,500 in both 2014 and 2013. Participants age 50 and over could contribute up to an additional $5,500 in both 2014 and 2013.

Participants direct the investment of their contributions and employer match into various investment options offered by the Plan.

Participants' Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service, or upon death or disability.

1. Description of the Plan, continued

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the vested balance in the participant's account. The loan interest rate, determined quarterly, is set at the prime rate, as defined. Principal and interest is paid ratably through weekly payroll deductions.

Payments of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant will receive their benefit in a lump-sum payment amount equal to the value of the participant's vested interest.

Forfeitures

Forfeitures may be used first to reduce administrative expenses of the Plan, and then can be used to reduce the Company's contributions.

Administration

Certain administrative expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and payments of benefits are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

New Accounting Pronouncements

The FASB has issued Accounting Standards Update (ASU) No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). The amendments apply to reporting entities that elect to measure the fair value of an investment using the net asset value per share (or its equivalent) practical expedient. The amendments remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share

2. Summary of Significant Accounting Policies, continued

practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. Management has elected to adopt ASU 2015-07 early.

In July 2015, the FASB released ASU 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960) Defined Contribution Pension Plans (Topic 962) Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient." Part I eliminates the requirement to report fully benefit-responsive investment contracts at fair value with an adjustment to contract value. Under the amendment, fully benefit-responsive investment contracts are measured, presented, and disclosed only at contract value. In addition, Part II simplifies the investment disclosures required for employee benefit plans, including eliminating the requirements to disclose (i) individual investments that represent 5% or more of net assets available for benefits, (ii) net appreciation (depreciation) by individual investment type, and (iii) investment information disaggregated based on the nature, characteristics and risks. The requirement to disaggregate participant-directed investments within a self-directed brokerage account has also been eliminated. Self-directed brokerage accounts should be reported as a single type of investment. Part III also allows plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end. ASU No. 2015-12 is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II should be applied retrospectively, while Part III should be applied prospectively. Management has elected to adopt Part II early.

Investment Valuation and Income Recognition

Investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining fair value, the Plan administrator considers the principal or most advantageous market in which the Plan would transact, and the assumptions that market participants would use when pricing the asset or liability. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recognized on the accrual basis. Related fees are recorded to administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balances remains an outstanding receivable until the participant fully pays back the loan or receives a full distribution of vested funds from the Plan.

2. Summary of Significant Accounting Policies, continued

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Management has evaluated subsequent events through October 13, 2015 which was the date the financial statements were available to be issued.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets,
- quoted prices for identical or similar assets or liabilities in inactive markets,
- inputs other than quoted prices that are observable for the asset or liability,
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts: Based on the net asset value of shares held by the Plan at year-end.

Guaranteed interest account: The Guaranteed interest accounts (GIAs) are composed of 3-year, 5-year, and 10-year terms. The GIAs are reported at contract value, which approximates fair value. Fair value is determined using a formula that incorporates prevailing interest rates. Contract value is determined using the aggregate Guaranteed Interest Account of all contributions made plus interest earned on those contributions, less all contract asset charges, fees and any previous

withdrawals. The GIAs are not available for sale or transfer on any security exchanges. The GIAs are subject to various restrictions. See Note 4.

The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

4. Guaranteed Interest Account

The Plan has invested in a group annuity contract with John Hancock. Under this contract, Plan assets may be invested in the Guaranteed Interest Account (GIA) which is a guaranteed investment contract (GIC) pool, or in various John Hancock pooled separate accounts. The John Hancock GIC pool is part of the insurance company's general account and pays interest at a periodically re-determined guaranteed fixed rate. Contributions are allocated between accounts as directed by the individual participants as a percentage of the amount contributed.

The GIAs are designed to correspond to the Plan's reporting year-end. Therefore, the guarantee period may be shorter than the defined term (i.e., the 3-, 5- or 10-year period chosen) depending on the date the account is established. The GIAs are not considered to be fully benefit-responsive investment contracts.

5. Information Certified by the Custodian

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule of assets (held at end of the year), including investments held at December 31, 2014 and 2013, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2014, was obtained or derived from information supplied to the Plan administrator and certified as a complete and accurate by the John Hancock Life Insurance Company (the Custodian of the Plan). The certified information has not been audited by the Plan's independent auditors.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan agreement to terminate the Plan and the Trust Fund, subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

7. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated August 4, 2009, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

8. Related Party and Party-In-Interest Transactions

Certain Plan investments are units of pooled separate accounts managed by John Hancock Life Insurance Company, the Custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment services amounted to $20,215 for the year ended December 31, 2014.

9. Risks and Uncertainties

John Hancock Life Insurance Company is the Custodian of substantially all of the Plan's assets. The Plan administrator does not require the custodian to provide collateral to mitigate this concentration of credit risk.

The Plan invests in various investment securities which are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with these investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. Corrective Contributions

During 2015, the Company discovered that some employees were not given the opportunity to make elective deferrals on bonuses in prior years. The total corrective contribution is approximately $2,600 and will be remitted along with lost earnings before the end of the year. The Company has put procedures in place to avoid these mistakes in the future.
