Investment Committee and Management
Trinity Consultants, Inc. Capital Accumulation Plan and Trust
Dallas, Texas

As part of our audit of the financial statements of Trinity Consultants, Inc. Capital Accumulation Plan and Trust (Plan) as of and for the year ended December 31, 2014, we wish to communicate the following to you.

AUDIT SCOPE AND RESULTS

Auditor's Responsibility Under Auditing Standards Generally Accepted in the United States of America

An audit performed in accordance with auditing standards generally accepted in the United States of America is designed to obtain reasonable, rather than absolute, assurance about the financial statements. In performing auditing procedures, we establish scopes of audit tests in relation to the financial statements taken as a whole. Our engagement does not include a detailed audit of every transaction. Our engagement letter more specifically describes our responsibilities.

These standards require communication of significant matters related to the financial statement audit that are relevant to the responsibilities of those charged with governance in overseeing the financial reporting process. Such matters are communicated in the remainder of this letter or have previously been communicated during other phases of the audit. The standards do not require the auditor to design procedures for the purpose of identifying other matters to be communicated with those charged with governance.

An audit of the financial statements does not relieve management or those charged with governance of their responsibilities. Our engagement letter more specifically describes your responsibilities.

Qualitative Aspects of Significant Accounting Policies and Practices

Significant Accounting Policies

The Plan's significant accounting policies are described in *Note 2* of the audited financial statements.

The following areas involve significant estimates for which we are prepared to discuss management's estimation process and our procedures for testing the reasonableness of those estimates:

- Fair value of investments

Financial Statement Disclosures

The following areas involve particularly sensitive financial statement disclosures for which we are prepared to discuss the issues involved and related judgments made in formulating those disclosures:

- Fair value of investments

Other Information in Documents Containing Audited Financial Statements

The Plan's audited financial statements are included in Form 5500, *Annual Return/Report of Employee Benefit Plan*, filed with the Department of Labor Employee Benefits Security Administration. As part of our procedures, we read the Form 5500 to determine if financial information discussed in sections outside the financial statements materially contradicts the audited financial statements. If we identify any such matters, we bring them to management's attention and review subsequent revisions.

Other Material Written Communications

Listed below are other material written communications between management and us related to the audit:

- Management representation letter *(attached)*

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit of the financial statements of the Plan as of and for the year ended December 31, 2014, in accordance with auditing standards generally accepted in the United States of America, we considered the Plan's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance that all deficiencies, significant deficiencies or material weaknesses have been identified.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements of the Plan's financial statements on a timely basis. A deficiency in design exists when a control necessary to meet a control objective is missing or an existing control is not properly designed so that, even if the control operates as designed, a control objective would not be met. A deficiency in operation exists when a properly designed control does not operate as designed or when the person performing the control does not possess the necessary authority or competence to perform the control effectively.

A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Plan's financial statements will not be prevented or detected and corrected on a timely basis.

A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

We observed the following matter that we consider to be a deficiency.

Deficiency

Deferral Rates

Employees have the ability to change their election deferral rate at any point during the year in accordance with the plan document. During our testing, we noted two employees' deferral rates were not updated in the payroll system which resulted in employee contributions that were different from the actual elected deferral rate. We recommend that management implement certain controls to review changes in deferral rates to ensure amounts are properly withheld from payroll.

This communication is intended solely for the information and use of management, investment committee and others within the organization and is not intended to be and should not be used by anyone other than these specified parties.

We are providing this letter in connection with your audits of the financial statements and supplemental schedule of Trinity Consultants, Inc. Capital Accumulation Plan and Trust (Plan) as of and for the years ended December 31, 2014 and 2013. We confirm that we are responsible for the fair presentation of the financial statements in conformity with accounting principles generally accepted in the United States of America and for the fair presentation of the accompanying supplemental schedules in conformity with the Department of Labor's Rules and Regulations under ERISA. We are also responsible for adopting sound accounting policies, establishing and maintaining effective internal control, and preventing and detecting fraud.

We understand that you will not express an unmodified opinion on the financial statements of the Plan for the years ended December 31, 2014 and 2013, because at our request you did not audit investment information provided by the trustee.

Certain representations in this letter are described as being limited to matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information that, in light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement.

We confirm, to the best of our knowledge and belief, the following:

1. We have fulfilled our responsibilities, as set out in the terms of our engagement letter dated June 29, 2015, for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America.

2. We acknowledge our responsibility for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

(b) Additional information that you have requested from us for the purpose of the audit.

(c) Unrestricted access to persons within the entity from whom you determined it necessary to obtain audit evidence.

(d) All minutes of investment committee meetings held through the date of this letter.

(e) All significant contracts.

5. All transactions have been recorded in the accounting records and are reflected in the financial statements.

6. We have informed you of all current risks of a material amount that are not adequately prevented or detected by plan procedures with respect to:

(a) Misappropriation of assets.

(b) Misrepresented or misstated assets or liabilities.

7. We have no knowledge of any known or suspected:

(a) Fraudulent financial reporting or misappropriation of assets involving management or employees who have significant roles in internal control.

(b) Fraudulent financial reporting or misappropriation of assets involving others that could have a material effect on the financial statements.

8. We have no knowledge of any allegations of fraud or suspected fraud affecting the Plan received in communications from participants, former participants, regulators, third-party servicers or others.

9. We have disclosed to you the identity of the entity's related parties and all the related party relationships and transactions of which we are aware. Related party relationships and transactions have been appropriately accounted for and disclosed in accordance with accounting principles generally accepted in the United States of America. We understand the term related party refers to an affiliate; employer, management, fiduciaries, and members of their immediate families, and any other party with which the Plan may deal if the Plan can significantly influence, or be influenced by, the management or operating policies

of the other. The term affiliate refers to a party that directly or indirectly controls, or is controlled by, or is under common control with the Plan.

10. Except as reflected in the financial statements, there are no:

    (a) Plans or intentions that may materially affect carrying values of assets and liabilities.

    (b) Material transactions omitted or improperly recorded in the financial records.

    (c) Material gain/loss contingencies requiring accrual or disclosure, including those arising from environmental remediation obligations.

    (e) Agreements to purchase assets previously sold.

    (f) Reportable transactions as defined in Section 103(b)(3)(H) of ERISA.

11. We have disclosed to you all known instances of noncompliance or suspected noncompliance with laws and regulations whose effects should be considered when preparing financial statements.

12. The Plan or the Plan Sponsor is not aware of any pending or threatened litigation or claims whose effects should be considered when preparing the financial statements. Neither the Plan nor the sponsor has sought or received attorney's services related to pending or threatened litigation or claims during or subsequent to the audit period. Also, we are not aware of any litigation or claims, pending or threatened, for which legal counsel should be sought.

13. Adequate allowances have been provided for any material losses from uncollectible receivables.

14. The fair values of financial assets recognized in the financial statements or disclosed in the notes thereto are reasonable estimates based on the methods and assumptions used. The methods and significant assumptions used result in measurements of fair value appropriate for financial statement recognition and disclosure purposes and have been applied consistently from period to period, taking into account any changes in circumstances. The significant assumptions appropriately reflect market participant assumptions.

15. The Plan and the trust established under the Plan are qualified under the appropriate section of the Internal Revenue Code, and we intend to continue them as a qualified Plan and trust. We do not have any intention at present to terminate

the Plan. Required nondiscrimination testing under the appropriate Code Sections has been completed for the Plan, and any excess contributions have been disposed of in accordance with regulations.

16. The adoption date of the most recent adoption agreement was July 15, 2014, and the most recent plan amendment was September 27, 2014, as provided to you.

17. The Plan operates under a standardized adoption agreement in connection with a prototype 401(k) profit-sharing plan and trust sponsored by Fidelity Management and Research Company.     (b) Complied with all aspects of contractual agreements, for which noncompliance would materially affect the financial statements.

21. The financial statements disclose all significant estimates known to us. Significant estimates are estimates at the date of the statement of net assets available for benefits which could change materially within the next year. Significant assumptions used by us in making accounting estimates, including those measured at fair value, are reasonable.

22. The Plan has not been designated as a potentially responsible party (PRP or equivalent status) by the Environmental Protection Agency (EPA) or other cognizant regulatory agency with authority to enforce environmental laws and regulations.

23. With respect to any nonattest services you have provided us during the year, including the preparation of the financial statements and related notes:

    (a) We have designated a qualified management-level individual to be responsible and accountable for overseeing the nonattest services.

    (b) We have established and monitored the performance of the nonattest services to ensure that they meet our objectives.

(c) We have made any and all decisions involving management functions with respect to the nonattest services and accept full responsibility for such decisions.

(d) We have evaluated the adequacy of the services performed and any findings that resulted.

Notes to Financial Statements
December 31, 2014 and 2013

Note 1: Description of the Plan

The following description of Trinity Consultants, Inc. Capital Accumulation Plan and Trust (Plan) provides only general information. Participants should refer to the plan document for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Trinity Consultants, Inc. (Company) for the benefit of eligible employees of the Company. All employees of the Company who have completed one month of service are eligible to participate on the first day of the subsequent month. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Fidelity Management Trust Company (Fidelity) is the trustee of the Plan.

Contributions

Eligible employees can contribute up to 80% of their eligible compensation as defined by the Plan and have the ability to designate their contributions as either a standard 401(k) or Roth 401(k) contribution. Employee rollover contributions are also permitted. The Company may contribute a discretionary matching contribution to active participants employed by the Company as of the last day of the plan year. For the years ended December 31, 2014 and 2013, the Company elected to match 50% of employee contributions on the first 6% of each active participant's compensation. Contributions are subject to certain limitations. Forfeitures are used to reduce Company contributions.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing his contributions into any of the separate investment accounts and may change the allocation daily.

The plan document also includes an automatic deferral feature, whereby a participant is treated as electing to defer 3% of eligible compensation unless the participant made an affirmative election otherwise. Investments are directed to Fidelity Retirement Money Market Portfolio unless redirected by the employee. The automatic deferral feature also provides for a 1% annual increase in the percentage deferred and is ultimately capped at 6%. Newly hired employees have 30 days to elect out of automatic enrollment.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution, plan earnings and any related administrative expenses. Allocations are based on participant account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service. Company matching contributions and earnings shall be vested in accordance with the following schedule:

Years of Service	Vesting Percentage
Less than 2	0%
2	33%
3	40%
4	66%
5	80%
6	100%

The nonvested balance is forfeited upon termination of service.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant (or participant's beneficiary in the case of death) may elect to receive either a lump-sum distribution in the amount equal to the value of the participant's vested interest in their account or annual installments over varying periods. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or rollover vested contributions, without penalty, to a qualified IRA or other qualified plan. Additionally, employees may withdraw vested contributions if the employee incurs a financial hardship as defined by the plan document. Hardship distributions are subject to a 10% penalty tax if received before age 59½. At December 31, 2014 and 2013, plan assets included approximately $281,000 and $525,000, respectively, allocated to accounts of terminated or retired participants who have elected to withdraw from the Plan but have not yet been distributed.

Notes Receivable from Participants

The plan document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of $50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the plan administrator.

Forfeited Accounts

At December 31, 2014 and 2013, forfeited nonvested accounts totaled approximately $7,300 and $300, respectively. These accounts will be used to reduce future employer contributions. Also, in 2014, employer contributions were reduced by approximately $77,700 from forfeited nonvested accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through a collective trust. The accompanying statements of net assets available for benefits and the statements of changes in net assets available for benefits are presented at fair value which approximates contract value.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Quoted market prices, if available, are used to value investments. Mutual funds, the money market fund and brokerage link option are valued at the net asset value of shares held by the plan at year-end. The Plan's interest in the common collective trust is valued at fair value based on information reported by the investment advisor using the audited financial statements of the collective trust at year-end and approximates contract value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Transfers Between Fair Value Hierarchy Levels

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on the actual transfer date.

Note 3: Certification of Plan Trustee

The Company has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, the trustee of the Plan, has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits and related disclosures as of December 31, 2014 and 2013
- Investment income and interest income from notes receivable from participants as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2014 and 2013
- Investment notes receivable from participants information included in the accompanying schedule of assets (held at end of year) as of December 31, 2014

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4: Investments

The following presents investments that represent 5% or more of the Plan's net assets available for benefits at December 31, 2014 and 2013:

	2014	2013
Spartan 500 Index Investor	$ 4,038,580	$ 2,994,348

Fidelity Freedom K 2030	$ 2,123,485	$ 2,004,130

*Investment did not meet the 5% threshold for each respective year.

The Plan's investments (including investments bought, sold and held during the year) appreciated (depreciated) in fair value as follows:

	2014	2013
Mutual funds	$ (224,171)	$ 4,584,029
Common collective trust	507	72
Brokerage link option	(20,542)	10,698
	$ (244,206)	$ 4,594,799

Note 5: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2014 and 2013:

		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Common collective trust	17,659	-	17,659	-
Brokerage link option	413,117	413,117	-	-

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in valuation techniques during the year ended December 31, 2014. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

Note 6: Party-in-Interest and Related Party Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provided services to the Plan, an employer whose employees are covered by the Plan, and employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

The Plan invests in certain funds of the Plan trustee. The Company provides certain administrative services at no cost to the Plan.

Certain plan investments are shares of mutual funds managed by Fidelity, the trustee as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of investments.

Note 7: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 8: Tax Status

The Plan operates under a standardized adoption agreement in connection with a prototype 401(k) profit-sharing plan and trust document sponsored by Fidelity Management and Research Company. This prototype plan document has been filed with the appropriate agency and has obtained a determination letter from the Internal Revenue Service stating that the prototype constitutes a qualified plan under section 401 of the Internal Revenue Code and that the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor or Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9: Transfer of Plan Assets or Rollover Contributions

During 2014, the Company acquired two companies and approved an amendment to allow the employees of these companies to participate in the Plan effective September 27, 2014. All participants in the companies vested in that Plan including their years of service and were provided the option to have their account balance rolled into the Plan, receive a lump-sum distribution or be paid through an annuity contract. An aggregate of $794,128 was rolled into the Plan during the year ended December 31, 2014, and is included as transfer on the statements of changes in net assets available for benefits.

Note 10: Risks and Uncertainties

The Plan provides for various investments options in investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with investment securities, and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amount reported in the accompanying statements of net assets available for benefits and statements of changes in net assets available for benefits.

Note 11: Subsequent Events

Subsequent events have been evaluated through October 14, 2015, which is the date the financial statements were available to be issued.
