KMH SYSTEMS 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF PLAN

The following description of the KMH Systems 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan’s provisions.

General. The Plan is a defined contribution plan, established on July 1, 1991, that covers substantially all employees of KMH Systems, Inc. (the “Company” or “Employer”). The Company controls and manages the operation and administration of the Plan. The assets of the Plan are managed by Fifth Third Bank (the “Trustee”) who serves as trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

Eligibility. All employees are eligible to participate in the Plan on the first day of the quarter, following three months of service and reaching age 18. Participants are eligible for matching and discretionary contributions after one year of service.

Participant Contributions. Participants may elect to contribute a percentage of their pretax earnings and/or a percentage of their post-tax net earnings to the Plan, which are limited and subject to amounts established by the Internal Revenue Code. A participant’s earnings consist of total cash compensation of an employee in a plan year. Effective January 1, 2009, the Plan instituted an automatic enrollment provision for both new and existing employees who do not have salary reduction agreement in effect. The contribution rate for automatic enrollment or re-enrollment was set at 3% of compensation, as defined. Participants that qualify under established IRS Code may also contribute “catch-up” contributions and amounts representing distributions from other qualified defined benefit or defined contribution plans.

Company Contributions. The Company remits matching contributions to the account of each participant on a pay period basis and who has contributed to the Plan during the pay period. The Company’s matching contribution is an amount equal to 33.33% of the participant’s contributions that do not exceed 6% of compensation.

The Company may also make discretionary contributions if it chooses to do so. Only eligible employees that are participants in the Plan, employed on the last day of the Plan year, and completed 1,000 hours of service in the Plan year are eligible for discretionary contributions. Each participant’s share of any such contribution is based on a formula defined by the Plan. No such discretionary contributions were made for the year ended December 31, 2014.

Participant Accounts. Individual accounts are maintained for each participant. Each participant’s account is credited with the participant’s contributions, the Company contributions, allocation of Plan earnings, and charged with withdrawals and an allocation of Plan losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Investments. Participants direct the investments of their contributions and Company contributions into various investment options offered by the Plan. The Plan currently offers a common/collective trust fund and various mutual funds as investment options. Participants have the opportunity to change their investment and/or contribution elections daily.

Vesting. Participants are immediately 100% vested in their contributions, plus actual earnings thereon. Upon death or disability, a participant’s account balance becomes fully vested, as defined. Participants vest in employer matching and discretionary contributions upon the completion of each full year of service as follows:

<u>Years of Service</u>	<u>Vesting</u>
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

KMH SYSTEMS 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF PLAN (Concluded)

Notes Receivable From Participants. Participants may borrow (subject to certain restrictions) from their funded accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and are subject to interest charges. Interest due on the outstanding balance of all participant loans is calculated on a daily basis at an interest rate determined by the prime rate (3.25% as of December 31, 2014) plus one percent and is fixed over the term of the loan. Loans must be paid back within five years, with both principal and interest credited to the Participant's account. The Plan also allows loan for the purchase of a principal residence and must be paid back within 30 years. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits. Retirement, disability, severance of employment, or death benefits generally will be paid to the participant or beneficiary in a lump-sum amount equal to the value of the participant's vested interest in his or her account as soon as practicable after termination of employment or in payments over a period in cash installments. Terminated participant account balances of \$1,000 or less, may automatically be distributed, in a lump-sum payment, by the Plan administrator. Hardship withdrawals are permitted upon meeting certain requirements as defined by the Plan.

Forfeited Accounts. Forfeited balances of terminated participants may be used to reduce Company matching and discretionary contributions. During 2014, \$4,231 of forfeitures were used to reduce Company contributions. Forfeited non-vested accounts totaled \$2,620 and \$4,231 as of December 31, 2014 and 2013, respectively.

Concentration of Credit Risk. Substantially all of the Plan's investments are held by Fifth Third Bank, the "Trustee."

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting. The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value.

Estimates and Assumptions. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results may differ from those estimates.

Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

NOTE 5 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures* establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1.** Inputs to the valuation methodology are unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

(Continued)

KMH SYSTEMS 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 5 – FAIR VALUE MEASUREMENTS (Continued)

Level 2. Inputs to the valuation methodology include

- (1) quoted prices for similar assets and liabilities in active markets;
- (2) quoted prices for identical or similar assets or liabilities in inactive markets;
- (3) inputs other than quoted prices that are observable for the asset or liability; or
- (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability;

Level 3. Inputs that are both unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2014 and 2013.

Mutual Funds. Valued at the net asset value of shares held by the Plan at year end.

Guaranteed Investment Contract. Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan administrator believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

NOTE 6 – STABLE VALUE FUND

The Plan's investment options included Goldman Sachs Stable Value Collective Trust Fund (the "Stable Value Fund"), which is a benefit-responsive investment contract, held in common collective trust fund. The Stable Value Fund allows for earnings stability regardless of the volatility of the financial markets. The Stable Value Fund invests in conventional and synthetic guaranteed investment contracts ("GICs") issued by life insurance companies, banks and other financial institutions with excess cash invested in cash equivalents.

As described in Note 2, because the Stable Value Fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the collective investment trust. Contract value represents contributions made into the collective investment trust, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. Fair value represents quoted market prices for synthetic GICs, while the fair value of conventional GICs is determined using a discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated yield curve rate as of December 31, 2014.

The crediting interest rate for participants investing in the Stable Value Fund averaged 1.35% and 1.28% and the average yield earned by the fund was 1.32% and 1.05% as of December 31, 2014 and 2013, respectively. The Goldman Sachs Stable Value Collective Trust Fund commenced operations on September 27, 2013.

Certain events limit the ability of the Stable Value Funds to transact at contract value with the issuer. Such events include but are not limited to the following: (i) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, if possible.

KMH SYSTEMS 401(k) PLAN**NOTES TO THE FINANCIAL STATEMENTS****NOTE 7 – PLAN TERMINATION**

Although the Company has not expressed any intention to discontinue its contributions or terminate the Plan, it is free to do so at any time, subject to the provisions set forth in ERISA and the Plan document. In the event of Plan termination, all participants will automatically become fully vested in all their accounts and the Trustee will distribute participant assets.

NOTE 8 – RELATED PARTY TRANSACTIONS

Certain Plan investments are units of a common/collective trust and shares of mutual funds managed by the Trustee and, therefore, these transactions qualify as exempt party-in-interest transactions.

NOTE 9 – INCOME TAX STATUS

The Plan obtained its latest determination letter dated March 31, 2008, in which the Internal Revenue Service stated the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter; however, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. The plan administrator is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

NOTE 10 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination of mutual funds, registered investment companies and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

NOTE 11 – DELINQUENT REMITTANCES

The Company remitted participant contributions and loan repayments totaling \$126,309 to the Trustee later than required by the Department of Labor Regulation 2510.3-102 during the year ended December 31, 2013. These late remittances were fully corrected in November 2014.

NOTE 12 – SUBSEQUENT EVENTS

Management has evaluated all known subsequent events from December 31, 2014 through October 13, 2015, the date the accompanying financial statements were available to be issued, and is not aware of any material subsequent events occurring during this period.
