NOTE 1 - DESCRIPTION OF PLAN

The following description of the Crown Auto Dealerships, Inc. Employee Capital Accumulation Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all full-time employees of Crown Auto Dealerships (the Company) who have 3 months of service and are age twenty-one or older. It was established January 1986 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may elect to contribute up to the amount allowable by law. The Company may, at its discretion, make matching contributions from its pre-tax profits to each eligible participant in an amount equal to a discretionary percentage of the participant's contributions. The match for 2014 was 25% of the employee's deferral up to 5% of the participant's compensation.

Investment Options: Participants may change their investment options at any time and may direct contributions among various investment options.

Retirement, Death, and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death, or disability.

Payment of Benefits: On termination of service, a participant may elect to receive a lump sum amount equal to the value of their vested account.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts plus earnings thereon, is based on years of continuous service as listed below.

Years of Service	Percentage Vested and Nonforfeitable
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Participant Accounts: Each participant's account is credited with the participant's contributions and an allocation of (a) the Company's contributions, and b) Plan earnings, and is charged with his or her withdrawals and an allocation of administrative expenses. Allocations are based on participant earnings, deferrals or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeitures: Non-vested benefits of terminated participants are forfeited on the date the participant receives a complete distribution of vested benefits. Forfeitures are used to pay plan expenses and to reduce the employer contributions. For the year ended December 31, 2014, the Company used $30,000 to reduce employer contributions. As of December 31, 2014 and 2013, there were $70,498 and $29,690 of forfeitures available for future use.

(Continued)

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Plan Termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event of the Plan's termination, participants will become 100% vested in their accounts.

Notes receivable to participants: Participants may borrow from their accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at prime plus 1.5%. Principal and interest are paid through payroll deductions.

Administrative and Investment Management Expenses: The Plan's record keeper and custodian fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income reported by the Plan. All other expenses of the Plan are paid by the Company.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' accounts balances.

Risks and Uncertainties: The Plan provides for various investment options. The underlying investments are exposed to various risks such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

Payment of Benefits: Benefits are recorded when paid.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(Continued)

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (Continued)

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. In 2013, the Plan held an indirect interest in fully benefit-responsive contracts through its interest in a stable value collective trust. No adjustments from fair value to contract value are presented in the statements of net assets available for benefits, as the amounts of the adjustments have been determined to be immaterial.

NOTE 3 – UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income and interest earned on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Nationwide Trust Company, FSB, the custodian of the Plan. This information has not been audited by independent accountants.

The following presents the fair values of investments that represent 5 percent or more of the Plan's net assets available for benefits.

During 2014, the Plan's investments in mutual funds (including investments bought, sold and held during the year) depreciated in value by $292,752. During 2014, the Plan's investments in cash surrender value of insurance policies depreciated in value by $829. In addition, the Plan's investments earned $878,885 of interest and dividend income during 2014 and $32,183 of interest income was earned on participant loans.

NOTE 4 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds and common stocks: The fair values of mutual fund investments and common stocks are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs)

Collective trust: In 2013, the fair values of participation units in the stable value collective trust were based upon the net asset values of such fund, after adjustments to reflect all investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported by the fund managers of the collective trusts as of or close to the audited financial statement date (Level 2 inputs). The investment objective of the fund is to provide preservation of capital, relatively stable returns, consistent with its comparatively low risk profile, and liquidity for benefit-responsive payments. The fund invests primarily in a variety of high quality stable value investment contracts as well as cash and cash equivalents. The fund provides for redemptions by the Plan at reported net asset value per share with no advance notification required.

Investment contract: Investments in the Plan's guaranteed interest contract are reported at contract value, which approximates fair value. The contract value equals the accumulated cash contributions and interest credited to the contracts, less any withdrawals. As these investments are contract-based, they are not transferable and observable prices for identical or similar investments do not exist. Accordingly, these investments are valued using unobservable inputs (Level 3). Plan management evaluates the terms of the guaranteed interest contract held by the Plan, the fair value information as of the Plan's financial statement dates provided to the Plan by Nationwide Life Insurance Company ("Nationwide") applicable to this contract, and the creditworthiness of Nationwide in assessing the fair values of the contract on an annual basis for financial reporting purposes. Based upon Nationwide's recent credit ratings, Plan management has determined that no adjustment to contract value is required related to the credit quality of the issuer of this contract. Because of certain restrictions on participant-directed investment exchanges and fair market value adjustments for lump-sum contract withdrawals pursuant to the terms of the contracts, management has determined that the contracts are not fully benefit-responsive.

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

Life insurance: The fair values of the insurance policies are estimated at cash surrender value (Level 2 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

NOTE 5 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008 that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended from the original prototype document, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan holds mutual funds managed by Nationwide Trust Company, FSB ("Nationwide") and an unallocated investment contract with Nationwide and held units of participation in collective trust managed by Union Bond & Trust Company, an affiliate of the custodian, Nationwide. Nationwide is the Plan custodian and, therefore, these transactions and the Plan's payment of custodian fees, record keeper fees and investment management fees to Nationwide qualify as party-in-interest transactions. Notes receivable from participants held by the Plan are also considered party-in-interest transactions. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company.

NOTE 7 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 8, 2015, which is the date the financial statements were available to be issued.
