NOTE 1. DESCRIPTION OF THE PLAN

The following description of the Nucap US Inc. 401(k) & Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan with salary reduction features as permitted under Section 401(k) of the Internal Revenue Code and is sponsored by Nucap US Inc. (the Company). The Plan was formed on February 1, 2010. The Plan is funded by participant and employer contributions and covers all non-leased employees of the Company who have completed two months of eligible service and who are age eighteen years or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The assets of the Plan are maintained in investment funds held by Fidelity Management and Trust Company (Fidelity) who also serves as the third party administrator and trustee. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Contributions: Each year, participants may contribute up to 90 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions, matching contributions, profit sharing contributions and qualified non-elective contributions into various investment options offered by the Plan. Participants may change their investment allocation on a daily basis.

The Company made a discretionary matching contribution equal to 50% percent of the participant's deferral up to a maximum of 3% percent of the participant's eligible compensation. The employer matching contribution amounted to $119,639 for the year ended December 31, 2014 ($120,690 - 2013).

The Company may make discretionary profit-sharing contributions to the Plan. A participant may receive a discretionary profit sharing contribution if they complete two months of eligible service during the plan year and are employed on the last day of the plan year. There were no discretionary profit-sharing contributions for the years ended December 31, 2014 or 2013.

Participants Accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Participants are 20% vested in employer matching contributions and employer discretionary profit sharing contributions after one year of service, as defined, with a 20% annual increase in each of the next four years. In the event of death or disability, the participant will become fully vested in their account.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount which is the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the participant's account and bear interest at prevailing commercial rates as determined by the Plan Administrator. Principal and interest is paid ratably through weekly payroll deductions.

NOTE 1. DESCRIPTION OF THE PLAN (CONTINUED)

Withdrawals and Distributions: Unless a participant elects otherwise, distributions will be made as soon as administratively feasible after a participant's normal retirement date or actual retirement date. The normal retirement date is the date upon which a participant reaches age 65. The normal form of distributions is a lump sum payment.

Participants may receive their accumulated vested benefits held by the Plan's custodian upon termination of employment or elect to keep their vested balance in the Plan until the earlier of normal retirement age, reaching age 59 ½, death, disability and in the event of financial hardship, as defined. If the participant elects to keep their vested interest in the Plan, the participant's account will continue to receive its share of earnings and losses.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Forfeitures: Forfeitures of employer matching contributions reduce future employer matching contributions. During the year ended December 31, 2014, $2,696 ($8,732 - 2013) of forfeitures were used to reduce employer matching contributions. At December 31, 2014, the forfeiture reserve balance amounted to $3,161 ($935 - 2013).

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The Plan prepares its financial statements on the accrual basis of accounting and presents the fair value of net assets available for benefits and changes in those net assets in conformity with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable from Participants: Participants may borrow against their vested account balance subject to the provisions specified in the Plan agreement. Notes receivable from participants are valued at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments in accordance with the plan document, the participant loan is deemed to be in default and the participant loan balance is reduced and a benefit payment is recorded.

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisor and custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $139,043 and $449,810 for the years ended December 31, 2014 and 2013, respectively.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Risks and Uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Payments of Benefits: Benefit payments to participants are recorded upon distribution.

Administrative Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in unrealized gains in fair value of investments.

Excess Contributions Payable: Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2014 and 2013 excess contributions to the applicable participants prior to March 15, 2015 and March 15, 2014, respectively.

Income Taxes: The Plan adopted a volume submitter plan sponsored by Fidelity Management & Research Company. The volume submitter plan has received an opinion letter from the Internal Revenue Service as to the volume submitter plan's qualified status. The volume submitter opinion letter has been relied upon by this Plan. The plan has since been amended, but the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken uncertain tax positions that more likely than not would not be sustained upon examination by the IRS. The Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in process.

Recently Issued Accounting Pronouncements: In July 2015, the FASB issued ASU No. 2015-12, "Plan Accounting: Defined Benefit Pension Plans, Topic 960; Defined Contribution Plans, Topic 962; and Health and Welfare Benefit Plans, Topic 965. Part II of this ASU eliminates the current GAAP requirements for plans to disclose individual investments that represent 5 percent or more of net assets available for benefits, and the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. It also allows investments to be disaggregated by general type and eliminates the requirement to disaggregate investments by class. Further, significant investment strategies for an investment in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity when the plan measures that investment using the NAV practical expedient are no longer required. The provisions of this ASU are effective for financial statements issued for fiscal years beginning after December 15, 2015. Part II is to be applied retrospectively and early adoption is permitted. The Company has elected to adopt Part II of this ASU for the year ended December 31, 2014. Other than the elimination of the above noted disclosures, the early adoption of Part II of the ASU does not have a material impact on the financial statements.

In May 2015, the FASB issued ASU No. 2015-07, "Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (Or its Equivalent)." This ASU removes the requirement to make certain disclosures as well as categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per practical expedient. The amendments in ASU 2015-07 are effective for non-public entities for interim and annual periods beginning after December 15, 2016. The amendment is required to be applied retrospectively and early adoption is permitted. Other than requiring a change to the disclosures, the adoption of this standard is not expected to have a material impact on the financial statements.

Subsequent Events: These financial statements have not been updated for subsequent events occurring after October 14, 2015, which is the date these financial statements were available to be issued.

NOTE 3. FAIR VALUE MEASUREMENTS

Accounting principles generally accepted in the United States of America (US GAAP) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2014 and 2013.

Cash and cash equivalents: Valued at cost plus accrued interest. Cash and cash equivalents are classified as level 1 investments.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The NAV is the closing price reported on the active market on which the securities are traded. Shares of registered investment companies are classified as level 1 investments.

Common collective trust:

	Fair Value 12/31/2014	Fair Value 12/31/2013	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common Collective Trust	$ 209,463	$ 221,909	N/A	Daily	N/A

Valued based on the NAV per unit of the fund provided by the trust. Unit values are determined by dividing the fund's net assets, which represents the fair value of the underlying investments, by its units outstanding at the valuation date. The Fidelity Managed Income Portfolio is a commingled pool managed by Fidelity. The fund invests principally in several fixed-income asset classes, including U.S. Treasuries, government agency securities, corporate debt, asset-backed securities and mortgage-backed securities, as well as units of a money market portfolio and other similar instruments which are intended to maintain a constant net asset value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals. The common/collective trust is classified as a level 2 investment.

NOTE 3. FAIR VALUE MEASUREMENTS (CONTINUED)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

	Investments at Fair Value as of December 31, 2014

NOTE 4. FINANCIAL CERTIFICATION

The following financial information relating to the Plan's assets at December 31, 2014 and 2013, as well as earnings and transactions for the years ended December 31, 2014 and 2013 has been derived from information provided by Fidelity, and has been certified by them as complete and accurate. The incorporation of this financial information in the accompanying financial statements is based solely on their certification and has not been audited by independent accountants.

NOTE 5. PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are managed by Fidelity. Fidelity is the trustee as defined by the plan and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the plan for the investment management services are included in unrealized gains in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. The Plan made direct payments to Fidelity of $6,664 ($4,775 - 2013) which were not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the plan's operations.

Interest income earned from notes receivable from participants amounted to $16,470 for the year ended December 31, 2014 ($17,144 - 2013). Investment income earned from Fidelity held assets amounted to $110,864 for the year ended December 31, 2014 ($374,768 - 2013).
