NOTES TO FINANCIAL STATEMENTS
December 31, 2014 and 2013

Note 1 – Description of Plan

The following description of the Talon Air 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan as described in Section 401(k) of the Internal Revenue Code ("IRC"), which provides an incentive for employees to save for retirement through payroll deductions. The Plan covers all employees other than ineligible classes of employees, as defined, of Talon Air, Inc. (the "Company"), who have completed one year of service or if earlier, 3 consecutive months of employment whereby the employee is credited with at least 83-1/3 hours service per month. There is no minimum age requirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan administrator is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

Each year, participants may contribute up to 100% of their pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may provide a discretionary contribution to the Plan. Company contributions are invested in a portfolio of investments as directed by participants. For the year ended December 31, 2014, no discretionary contribution was made. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and Company discretionary contributions, if any, as well as Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. The interest of a participant in the Company's discretionary contribution portion of their accounts, plus actual earnings thereon, shall become fully vested upon his or her death, attainment of retirement (age 65), early retirement (age 55) if applicable, or disability. All others shall be vested in the Company's discretionary contribution portion of their accounts, plus actual earnings thereon based on years of continuous service. A participant is 100% vested after six years of credited service. To earn a year of service, the participant must be credited with 1,000 hours of service during the Plan year.

TALON AIR 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2014 and 2013

Note 1 – Description of Plan (continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined quarterly, is set at 1% above the prime rate, as defined. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement or for other reasons, a participant may elect to receive a lump-sum amount equal to the value in his or her account. In-service distributions are permitted for participants who remain employed after normal retirement age or for a participant who is experiencing financial hardship.

Forfeited Accounts

At December 31, 2014 and 2013, forfeited non-vested accounts totaled approximately $55,952 and $55,499, respectively. Forfeitures which are not used to pay administrative expense of the Plan will be used to reduce future employer contributions. During the year ended December 31, 2014, forfeitures of $706 were used to pay Plan expenses.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments, except for the money market fund, are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The money market fund is valued at cost, which estimates fair value. The Plan administrator determines the Plan's valuation policies utilizing information provided by investment advisors and custodians. See Note 4 for discussion of fair value measurements.

TALON AIR 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2014 and 2013

Note 2 – Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Recent Accounting Guidance

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, *Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, and Part (III) Measurement Date Practical Expedient*. The amendments are effective for all plan years beginning after December 15, 2015. Earlier application of any or all of the three parts is permitted. An entity should apply the amendments in Parts I and II of this ASU retrospectively and in Part III prospectively for all financial statements presented. The adoption of this standard will not impact the statements of net assets available for benefits and the statement of changes in net assets available for benefits in total; however, it may affect the presentation of the financial statements and the information contained in the disclosures.

Subsequent Events

Plan management has evaluated subsequent events through the date of the report, which is the date the financial statements were available to be issued.

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $70,937, which consists solely of mutual funds.

Note 4 – Fair Value Measurements

The Financial Accounting Standards Board (FASB) Accounting Standard Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and

TALON AIR 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2014 and 2013

Note 4 – Fair Value Measurements (continued)

Level 2 Inputs to the valuation methodology include (continued):

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013:

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market mutual fund: Valued at cost, which estimates fair value.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013. There were no level 2 assets as of December 31, 2014 and 2013:

Note 5 – Related Party Transactions and Party In Interest Transactions

MG Trust Company, UBS Financial Services and RPG Consultants provide certain administrative services to the Plan pursuant to service agreements. These service providers receive revenue sharing for services they provide to the Plan. This revenue is used to offset certain amounts owed to them for their administrative services to the Plan. Fees paid by the Plan were $31,402 for the year ended December 31, 2014. These transactions qualify as exempt party-in-interest transactions.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become one hundred percent vested in their Company contributions.

Note 7 – Tax Status

The Plan is structured and follows a prototype non-standardized cash or deferred profit sharing plan, pre-approved by the IRS. The IRS issued an opinion letter dated March 31, 2008, that the prototype plan is acceptable in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is subject to examinations for three years.

Note 8 – Certification

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, MG Trust Company has certified as to the completeness and accuracy of all investments reflected in the accompanying statements of net assets available for benefits as of December 31, 2014 and 2013 and the related investment income reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2014 and supplemental Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year), as of December 31, 2014.

Note 9 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
