Report on the Financial Statements

We were engaged to audit the accompanying financial statements of FUJIFILM Diosynth Biotechnologies Long Term Savings Plan which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, F.S.B., the trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustees hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the trustees as of and for the years ended December 31, 2014 and 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule appearing on pages 14 to 15, as of December 31, 2014 is required by the Department of Labor (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis, and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Long Term Savings Plan
Notes to Financial Statements
December 31, 2014

Note 1 – Description of Plan

The following description of the FUJIFILM Diosynth Biotechnologies Long Term Savings Plan (the “Plan”) provides only general information. Participants should refer to the summary plan description for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan established effective January 1, 2012. Non-union, non-leased employees of FUJIFILM Diosynth Biotechnologies U.S.A., Inc. (the “Company”) become eligible to participate upon commencement of employment and attaining the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Board of Trustees is responsible for oversight of the Plan. Management of the Company determines the appropriateness of the Plan’s investment offerings, monitors investment performance and reports to Plan’s Board of Trustees.

Contributions

Participants may contribute a pre-tax amount equal to not less than 1 percent and not more than 65 percent, of their pretax compensation for the contribution period, as defined in the plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). An employee is automatically enrolled in the Plan at 5 percent of eligible compensation, increasing by 1% a year up to a total of 10%, unless opting not to have any contributions or a different amount made on their behalf. Effective April 1, 2014, due to a plan amendment, an employee is automatically enrolled in the Plan at 6 percent of eligible compensation, increasing by 1% a year up to a total of 15%, unless opting not to have any contributions or a different amount made on their behalf. Participants may also make a post-tax contribution in an amount equal to not less than 1 percent and not more than 10 percent of their compensation. The contributions are automatically invested in an age appropriate qualified default investment alternative fund until changed by the participant. Participants direct the investment of their contributions and the employer contributions into various investment options offered by the Plan. The Company will make a safe harbor matching contribution for eligible employees who have made 401(k) contributions. The amount shall be equal to 100 percent of the first 6 percent of the eligible employees’ compensation that they contribute to the Plan. The Company also makes a non-elective contribution on behalf of each eligible employee in an amount equal to: (i) a percentage of his compensation, based on their years of vesting service and determined in accordance with the table below; plus (ii) 3 percent of their excess compensation (taxable wage based under Section 230 of the Social Security Act in effect at the beginning of the year). During the years ended December 31, 2014 and 2013, the Company made contributions of \$3,471,410 and \$3,466,849 including non-elective contributions of \$1,367,120 and \$1,385,933, respectively. Contributions are subject to certain Internal Revenue Service (“IRS”) limitations.

<u>Years of Vesting Service</u>	<u>Percentage of Compensation</u>
0 – 9	3%
10 - 19	4%
20 - 29	5%
30-	6%

Participant Accounts

Each participant’s account is credited with the participant’s contributions and Company matching contributions as well as an allocation of (a) the Company’s non-elective contribution, (b) plan earnings and (c) an allocation of plan losses and expenses. Earnings/losses and expenses are allocated by fund based on the ratio of a participant’s account invested in a particular fund to all participants’ investments in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Note 1 – Description of Plan (continued)

Vesting

Participants are immediately vested in their voluntary employee and safe harbor matching contributions plus actual earnings thereon. The balance of vesting in the participants' accounts is based on years of continuous service. However, if an active participant dies or becomes totally and permanently disabled prior to attaining the normal retirement age, the participant's account balance becomes 100 percent vested.

A participants' vested interest in their non elective contributions shall be determined in accordance with the following schedule:

<u>Years of Vesting Service</u>	<u>Vested Interest</u>
Less than 3 years	0%
3 years or more	100%

Forfeited accounts

Forfeitures of non-vested benefits are used to reduce the Company's contribution and plan expenses. For the years ended December 31, 2014 and 2013, \$38,211 and \$4,354, respectively, was used to offset Plan expenses and Company contributions.

Payment of Benefits

On termination of service, including death, disability or retirement, a participant will receive a lump-sum amount or an installment payment equal to the value of the participant's vested interest in his or her account. The participant becomes 100% vested in his or her non elective contribution upon death, disability or normal retirement. If the vested interest in the participant's account is \$5,000 or less, the account will be distributed in a single-sum payment or by direct rollover to an IRA or other eligible retirement plan, even if the participant does not consent. If the value is greater than \$5,000, distribution of the account cannot be made before normal retirement age without written consent. Distributions are subject to the applicable provisions of the Plan agreement.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. Loans may not be made from the portion of accounts attributable to nonelective contributions. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 5.50%, which are the interest rates charged on a loan at the bank prime rate as reported by the U.S. Federal Reserve on the last business day of the calendar quarter next preceding the date of the loan plus 1%. The loans must be repaid over a period not to exceed five years or ten years for the purchase of a primary residence. Principal and interest are paid ratably through bi-weekly payroll deductions.

Note 2 – Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits present the fair value of the investment contract (a stable value fund) as

Note 2 – Summary of Accounting Policies (continued)

well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statements of changes in net assets available for benefits are prepared using the contract value basis for the fully-benefit responsive investment contract.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment in the stable value fund, (the "Fund"), a pooled separate account of The Prudential Retirement Insurance and Annuity Company, is based on the fair value of the underlying investments as reported and certified by the trustee. The Fund has an investment objective to receive a constant rate of return on funds held in the separate account. Generally, there are no restrictions on a participant's ability to redeem their investment in the Fund; however, withdrawals prompted by certain events (as described in Note 5) may restrict a participant's ability to redeem the investment. Management of the Company determines the Plan's valuation policies utilizing information provided by the Plan's investment advisers, custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. No allowance for credit losses have been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payments of Benefits

Benefits are recorded when paid by the Plan.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company as provided by the plan document. Certain administrative expenses of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events for potential recognition or disclosure in the financial statements through October 2, 2015, the date the financial statements were available to be issued.

Note 3 – Investments

Other than the fair value of the Fund and the related adjustment from fair value to contract value for fully benefit responsive investment contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statement and supplemental schedules, including investments and notes receivable from participants held at December 31, 2014 and 2013, and net appreciation in the fair value of investments, interest and dividends for the year then ended, was obtained and derived from information supplied to the plan administrator and certified as complete and accurate by The Prudential Retirement Insurance and Annuity Company ("PRIAC") and Prudential Bank & Trust, F.S.B. (the trustees of the plan). The contract value of the Fund was certified by PRIAC.

The assets of the plan are invested at the direction of the participants in various investment funds at December 31, 2014 and 2013.

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include <ul style="list-style-type: none"> • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts: Valued at fair value based on the current market values of the underlying assets of the fund.

FUJIFILM Diosynth Biotechnologies
Long Term Savings Plan
Notes to Financial Statements
December 31, 2014

Note 4 – Fair Value Measurements (continued)

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (“NAV”) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable value fund: The value of the fund is based on the plan’s pro-rata share of the pooled separate account at year end. The pooled separate account is not available in an exchange or active market, however, the fair value is determined based on the pro-rata share of the underlying investment in the pooled separate account.

Self-directed: Consists of interest bearing cash, common stocks and mutual funds. The common stocks are valued at the closing price reported in the active market in which the individual securities are traded. The mutual funds are valued at the NAV of shares held by the Plan at year end. Cash is valued at fair value based on current market values of the underlying assets of the fund.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan’s investments at fair value at December 31, 2014 and 2013:

Note 5 – Valuation of Stable Value Fund

The Plan entered into a benefit-responsive investment contract with Prudential Retirement Insurance and Annuity Company. Prudential Retirement Insurance and Annuity Company maintains the contributions in a separate account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and certain administrative expenses. The stable value fund issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the stable value fund (the “Fund”) is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fund. The Fund is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Prudential Retirement Insurance and Annuity Company, represents contributions made to the fund, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a semiannual basis for resetting.

Note 5 – Valuation of Stable Value Fund (continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	<u>2014</u>	<u>2013</u>
Average yields:		
Based on actual earnings	2.54%	1.96%
Based on interest rate credited to participants	2.88%	3.41%

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their employer contributions.

Note 7 – Tax Status

The Plan obtained its latest determination letter on February 8, 2013, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, no uncertain positions are taken or are expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is still subject to tax examinations for years 2012 and subsequent.

Note 8 – Related Party Transactions

The investments owned by the Plan are managed by Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, F.S.B., the trustees as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid by revenue sharing, rather than direct payment. As described in Note 2, the Plan made direct payments to the third party administrator of \$18,227 and \$4,923 for the years ended December 31, 2014 and 2013, respectively; which was not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations.

Note 9 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
