Dayton, Ohio

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Dayton-Phoenix Group, Inc. Hourly Employees 401(k) Retirement Plan and Trust (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2014 and the related statement of changes in net assets available for benefits for the year then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform and we did not perform, any auditing procedures with respect to the information described in Note 3, which was certified or provided by Reliance Trust Company, the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certification from the trustee as of and for the year ended December 31, 2014, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Independent Auditor's Report (Continued)

Other Matter – Supplementary Information

The supplemental schedule (Schedule H, Part IV, Line 4(i) – Schedule of Assets (Held at End of Year)), is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Other Matter – 2013 Financial Statements

The financial statements of Dayton-Phoenix Group, Inc. Hourly Employees 401(k) Retirement Plan and Trust as of December 31, 2013 were audited by other auditors whose report dated September 29, 2014 did not express an opinion on the 2013 financial statements for the same reason described above in the Basis for Disclaimer of Opinion paragraph. Their report also indicated the form and content of the information in the 2013 financial statements, other than that derived from the information certified or provided by the trustee, was presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements as of and for the year ended December 31, 2014 and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

Note 1. Description of the Plan

The following brief description of the Dayton-Phoenix Group, Inc. Hourly Employees 401(k) Retirement Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all hourly employees of The Dayton-Phoenix Group, Inc. (the Company, Employer and Plan Sponsor) who are included in the collective bargaining agreement with IUE-CWA Local 755, except nonresident aliens. Employees are eligible to participate on monthly entry dates following the completion of one year of service and attaining the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute up to 75% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Each year, the Dayton-Phoenix Group, Inc., at its discretion, may make matching contributions equal to a percentage of the employee's elective deferrals. The Employer, at its discretion, may also make an annual profit sharing contribution equal to a percentage, determined by the Employer, of each participant's salary. During 2014, the matching contribution was equal to 100% of the employee's elective deferrals up to 6% of the employee's eligible compensation. There were no profit sharing contributions during 2014.

There is a limit placed on the percent of compensation deferred by participants. The Employer determines that the salary deferral percentage, the employer matching percentage and the total defined contribution percentage comply with several tests as prescribed by law. If the tests are not met, the Employer reduces the contribution percentage of those individuals that exceed the limits and refunds the excess contributions to the individual.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of the Employer's contributions and the Plan's earnings. Allocations are based on participant earnings or account balances, as defined by the Plan document. The benefit to which a participant is entitled is the amount that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employer's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. Participants will be 100% vested after six years of credited service.

Payment of benefits: Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over the participant's assumed life expectancy. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Notes receivable from participants: Participants may borrow from their fund accounts at a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the participant's account balance. All loans must be repaid within five years unless the loan is obtained to acquire or construct the participant's primary residence, in which case the term of the loan may extend up to ten years. The loans are collateralized by the balance in the participant's account and bear interest at a fixed rate between 3.25% and 9.25% and 4.25% and 10.00% as of December 31, 2014 and 2013, respectively, which is commensurate with local prevailing rates as determined monthly by the Plan administrator. Payments of principal and interest are credited to the participant's account.

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Forfeitures: At December 31, 2014, there was no forfeited non-vested account balance (\$3,920 at December 31, 2013). During 2014, forfeitures were used to reduce employer contributions by \$17,646 and administrative expenses by \$3,944.

Investment options: The participant directs the investment of their contributions and any Employer match or profit sharing contributions into various investment options offered by the Plan.

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) in accordance with the Financial Accounting Standards Board Accounting Standards Codification.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. Generally accepted accounting principles require the Statement of Net Assets Available for Benefits to present the fair value of the investment contracts, as well as any adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The changes in value of these investments are reflected on the Statement of Changes in Net Assets Available for Benefits on a contract value basis.

Investment valuation and income recognition: Except for the fully benefit-responsive investment contracts described in Note 6, investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain amounts and disclosures reported in the financial statements and accompanying Notes. Actual results may differ from those estimates.

Payment of benefits: Benefits are recorded upon distribution.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Administrative expenses: Certain administrative functions are performed by officers or employees of the Employer. No such officer or employee receives compensation from the Plan. Certain costs associated with Plan administration for services provided by unrelated companies are deducted from Plan assets.

Subsequent events: The Plan has evaluated subsequent events for potential recognition and/or disclosure through October 14, 2015, the date the financial statements were available to be issued.

Note 3. Information Certified by the Plan's Trustee

The information related to investments that is included throughout the Plan's financial statements and supplemental schedule as of December 31, 2014 and 2013 and for the year ended December 31, 2014 was prepared by or derived from information provided by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that information provided to the Plan administrator by the trustee related to these Plan investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Notes 4 and 5 and the supplemental schedule related to the Plan's investments.

The trustee of the Plan also certified to the completeness and accuracy of \$288,568 of net appreciation in fair value of investments and \$379,356 of dividends for the year ended December 31, 2014.

Note 4. Investments

During 2014, the Plan's investments (including investments bought, sold, as well as held during the year) appreciated in value as follows:

Mutual funds	\$	247,548
Fully benefit-responsive investment contract		41,020
	\$	<u>288,568</u>

The fair values of individual investments that represent 5 percent or more of the Plan's net assets as of December 31, are as follows:

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Fully benefit-responsive investment contract: Contracts are reported at contract value which approximates fair value (See Note 6). Valued based on the underlying group annuity contract.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Fair Value Measurements (Continued)

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31, 2014.

Balance, beginning of year	\$ 1,726,612
Realized gain	3,311
Unrealized gain relating to instruments still held at the reporting date	37,709
Purchases	383,955
Sales	(317,261)
Balance, end of year	\$ 1,834,326

The quantitative unobservable inputs for the Plan's Level 3 assets are not readily available because the Plan is not provided access to the proprietary valuation models, inputs and assumptions used by Standard Insurance Company. Accordingly, the Plan is not able to disclose the significant unobservable inputs for the Level 3 assets.

Note 6. Investment Contract with Insurance Company

The Plan has a fully benefit-responsive investment contract with Standard Insurance Company. Standard Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The average yield on the Stable Asset Fund contract was approximately 2.35% and 2.53% for 2014 and 2013, respectively. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

For investment contracts that are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. These contracts are included in the financial statements at contract value, as reported to the Plan by Standard Insurance Company. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Standard Insurance Company has reported that contract value approximates fair value as of December 31, 2014 and 2013. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: termination of the contract, spin-offs, divestitures, layoffs, corporate relocation, partial or total plan termination, retirement incentive programs and the liberalization of plan withdrawal or transfer rules. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value, is probable. Either the Plan or the insurance company may terminate the contract at any time with 30 days advance written notice.

Note 7. Related-Party Transactions

Certain Plan investments are insurance company general accounts managed by Standard Insurance Company. Standard Insurance Company is the current record-keeper as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Notes to Financial Statements

Note 9. Income Tax Status

The Plan has adopted a prototype plan designed by Automatic Data Processing. The prototype plan has received an opinion letter dated March 31, 2008 from the Internal Revenue Services as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by the Plan. Effective November 1, 2011, the Plan was amended and restated to adopt a prototype plan designed by The Standard Insurance Company. The prototype plan has received an opinion letter dated March 31, 2014. The Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

The Plan administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for years before 2011.

Note 10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for benefits.

Generally accepted accounting principles require the financial statements to present the fair value of investments. The fully benefit-responsive contracts have been presented at contract value, which approximates fair value, as reported to the Plan by Standard Insurance Company. This determination is based on Standard Insurance Company's credit rating and yield during 2014 being comparable to similar alternative. In subsequent periods, if market conditions change, such as the insurance company credit rating or interest rate environment, the difference between contract value and fair value could become significant causing the financial statements to become materially misstated.

Note 11. Recently Issued Accounting Pronouncement

July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force). The purpose of this Update is to simplify Plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investments contracts will be presented at contract value; accordingly, there will no longer be an adjustment from fair value to contract value on the face of the financial statements where applicable.
- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investments is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity, disclosure of that investment's strategy will no longer be required.

Hourly Employees 401(k) Retirement Plan and Trust

Notes to Financial Statements

Note 11. Recently Issued Accounting Pronouncement (Continued)

- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by part (I, II and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. Plan management is currently evaluating the impact the Update will have on the financial statements.
