Independent Auditor's Report

To the Participants and Administrator of
Life Technologies Corporation 401(k) Savings and Investment Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Life Technologies Corporation 401(k) Savings and Investment Plan (the Plan), which comprise the statements of net assets available for benefits as of April 30, 2015, December 31, 2014 and December 31, 2013, and the related statements of changes in net assets available for benefits for the period from January 1, 2015 to April 30, 2015 and for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by The Bank of New York Mellon, the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustee held the Plan's assets and executed transactions. The Plan Administrator has obtained certifications from the trustee as of April 30, 2015, December 31, 2014 and December 31, 2013, and for the period from January 1, 2015 to April 30, 2015 and for the year ended December 31, 2014, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter

As discussed in Note 8 to the financial statements, the Pension Committee of Life Technologies Corporation, the Plan's Sponsor, voted on November 28, 2014, to merge the Plan into the Thermo Fisher Scientific Inc. 401(k) Retirement Plan (Thermo Fisher Plan) effective January 1, 2015. Plan assets totaling \$923,174,457 were transferred to the Thermo Fisher Plan on January 2, 2015, and all Plan activity was completed on April 30, 2015. Our disclaimer of opinion has not been modified with respect to this matter.

Other Matter - Supplemental Schedule

The supplemental schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2014, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance With the Department of Labor's Rule and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

LIFE TECHNOLOGIES CORPORATION 401(K) SAVINGS AND INVESTMENT PLAN
NOTES TO FINANCIAL STATEMENTS
AT APRIL 30, 2015 AND DECEMBER 31, 2014

1. DESCRIPTION OF THE PLAN

The following description of the Life Technologies Corporation 401(k) Savings and Investment Plan (“the Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan was a defined contribution plan covering all employees of Life Technologies Corporation, formerly known as Invitrogen Corporation and currently part of Thermo Fisher Scientific Inc. (the “Company,” “Plan Administrator,” or “Plan Sponsor”), except temporary employees or Post-Doctoral Fellows, who were at least 21 years of age. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Life Technologies Corporation was acquired by Thermo Fisher Scientific Inc. in February 2014. Effective January 1, 2015, the Plan was merged into the Thermo Fisher Scientific Inc. 401(k) Retirement Plan (the “Thermo Fisher Plan”) (the “Plan merger”). The assets of the Plan were held by The Bank of New York Mellon (the “Trustee” or “The Bank of New York Mellon”) on December 31, 2014 and were transferred into the Thermo Fisher Plan in January 2015 (see Note 8). T. Rowe Price Trust Company is the trustee of the Thermo Fisher Plan.

Contributions

Each year, participants were able to contribute from 1% to 75% of pretax annual compensation, as defined in the Plan document. Participants could also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants directed the investment of their contributions into various investment options offered by the Plan. The Plan included an auto-enrollment provision whereby all newly eligible employees were automatically enrolled in the Plan after 60 days of becoming eligible unless they affirmatively elected not to participate in the Plan. Automatically enrolled participants had their deferral rate set at 3% of eligible compensation, and were enrolled in the auto-increase feature increasing deferrals by 1% each year, up to 6% of eligible compensation. Auto-enrollment contributions were invested in a designated fund until changed by the participant. Prior to January 1, 2015, the Company was required to make contributions equal to 75% of each participant’s elective contributions, up to 4.5% as defined in the Plan. The Company could also elect to contribute a discretionary non-matching contribution for each Plan year. Company contributions were allocated to participants’ selected investment options.

Participant Accounts

Each participant’s account was credited with the participant’s contribution and allocations of (a) the Company’s contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations were based on participant contributions or account balances, as defined in the Plan document. The benefit to which a participant was entitled was the benefit that could be provided from the participant’s vested account. At any time, participants could transfer amounts between investment funds.

In anticipation of the Plan merger, Plan participants were given an election period in December 2014 during which they could change their investment elections. For those participants who did not make an investment election, their total transferred account balance was invested in a T. Rowe Price retirement date common collective trust fund based on each employee’s date of birth.

Vesting

Participants were immediately vested in their contributions plus actual earnings thereon. Vesting in the Company’s contribution portion of their accounts was based on years of service, as defined in the Plan document. Prior to January 1, 2010, a participant was 100% vested upon completion of five years of credited service. Effective January 1, 2010, employees vested in Company contributions at a rate of 50% per year, over two years. Effective with the Plan merger on January 1, 2015, vesting of existing participants’ Company contributions did not change.

Vesting for employees on disability continued through the disability period. Additionally, a participant could be 100% vested if he was terminated as a result of the closing of the Company’s business operations in a geographic area and was not immediately reemployed by the Company.

Notes Receivable from Participants and Hardship Withdrawals to Participants

Participants were able to borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of (a) 50% of the sum of the participant’s vested account balance or (b) \$50,000 minus the participant’s highest outstanding loan balance in the preceding 12 months. The loans were collateralized by the balance of the participant’s vested account and bore interest at a rate

commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest were paid ratably through payroll deductions.

Participants could request a hardship withdrawal up to the lesser of (a) the amount needed to meet the immediate financial hardship or (b) the portion of their account balance which was contributed by the employee, not including earnings thereon. Six months must have lapsed after a hardship withdrawal before a participant could resume salary reduction contributions.

Payment of Benefits

Upon termination of service or due to death, disability and retirement, if vested benefits were \$1,000 or less, the participant could receive a lump-sum distribution. If vested benefits exceed \$1,000, the participant could have chosen to leave the benefits in the Plan or have the benefits disbursed through a lump-sum distribution.

Forfeited Accounts

At December 31, 2014 and 2013, accumulated forfeited non-vested accounts totaled \$1,654,299 and \$521,735, respectively. These accounts could be used to reduce employer contributions. Unused forfeitures were transferred to the Thermo Fisher Plan.

Administrative Expenses

While some administrative expenses were paid by the Company, at its discretion, most administrative expenses were paid by the Plan. The expenses paid by the Plan included trustee fees and commissions. Certain accounting and administrative functions of the Plan were performed by employees of the Company at no cost to the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements are presented on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits was prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. At December 31, 2014, the Plan shows a \$386,668,090 receivable from broker for investments sold on December 31, 2014 that did not settle until January 2, 2015. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation included the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Income Taxes

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2011.

Concentration of Credit Risk

Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. The Plan's exposure to credit loss in the event of nonperformance of investments is limited to the carrying value of such instruments. The Plan's concentration of credit risk and market risk are dictated by the Plan's provisions as well as those of ERISA and the participants' investment preference. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the financial statements.

3. INFORMATION CERTIFIED AND PROVIDED BY THE BANK OF NEW YORK MELLON

The assets of the Plan were held in a trust fund administered by The Bank of New York Mellon at April 30, 2015 and December 31, 2014 and 2013. The following is a summary of the Plan's asset information as of April 30, 2015 and December 31, 2014 and 2013, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by The Bank of New York Mellon and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee that information provided to the Plan Administrator by the Trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

The Bank of New York Mellon also certified the completeness and accuracy of \$53,020,687 of net appreciation in fair value of investments, \$4,534,919 of dividend income on investments and \$375,231 of interest income on notes receivable from participants for the year ended December 31, 2014.

In addition, the Plan maintained a stable value fund which earned interest and dividends that were distributed to the Plan. The following reconciles the fair value to the contract value for the stable value fund at April 30, 2015 and December 31, 2014 and 2013. The fair value to contract value adjustment for the stable value fund was calculated by management and was not certified by The Bank of New York Mellon.

4. FAIR VALUE MEASUREMENTS

The FASB Accounting Standards Codification, or ASC, Topic 820, *Fair Value Measurements and Disclosures* defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. This topic also emphasizes that fair value is a market-based measurement under three categories which are as follows:

- Level 1** Quoted prices in active markets for identical assets or liabilities;
- Level 2** Quoted prices for similar assets and liabilities in active markets, quoted prices in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the asset or liability;
- Level 3** Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at April 30, 2015 and December 31, 2014 and 2013.

Mutual funds: Valued at NAV of shares held by the Plan at year-end.

Guaranteed investment contract in collective trust: Valued at fair value by discounting the related cash flows on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

Common collective trusts: The investments are public investment vehicles using the NAV provided by the fund administrator. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

Pooled separate accounts: The investments are public investment vehicles using the NAV provided by the fund administrator. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

Money market collective trust funds: The underlying investments are valued on the basis of amortized cost which approximates market value for the fund as a whole.

(a) The Vanguard Retirement Savings Trust II is a commingled pool, not a mutual fund, with the objective of preserving principal while earning interest income. Portfolio investments are comprised of short-term bonds and other fixed income securities, including U.S. Treasury bonds, government agency securities, corporate bonds, mortgage-backed securities, commercial mortgage-backed securities, asset-backed securities and derivative instruments such as futures, swaps and options. Third party wrap contracts are purchased to permit the use of book value accounting to maintain a constant NAV and to provide for the payment of participant-directed withdrawals and exchanges at book value under most circumstances. Interest is credited under wrap contracts. Instead of immediately recognizing gains and losses, recognition occurs over time by adjusting the interest rate credited to the Portfolio. Investments may also include contracts offered by insurance companies and other approved financial institutions that provide for the payment of a specified rate of interest to the Portfolio and the repayment of principal at maturity. All investment contracts and fixed income securities purchased for the Portfolio must satisfy the credit quality standards of Vanguard Fiduciary Trust Company.

(b) The Funds are part of the US Equity Growth Pool, which provides investors with exposure to the stock of companies of all sizes utilizing various managers who employ a growth investment philosophy. Typically the pool will consist of large, mid and small cap managers, including both active and passive index strategies. The allocation of the pool will attempt to provide each investor with equal exposure to all three market cap segments. Growth investing is characterized by investing in stocks that managers believe have the potential to grow earnings at an above-average rate compared to the industry or the overall market.

(c) The Fund is part of the US Equity Value Pool, which provides investors with exposure to the stock of companies of all sizes utilizing various managers who employ a value investment philosophy. Typically the pool will consist of large, mid and small cap managers, including both active and passive index strategies. The allocation of the pool will attempt to provide each investor with equal exposure to all three size segments. Value investing is characterized by investing in stocks that managers believe the market has undervalued relative to that stocks' intrinsic value.

(d) The Fund is a government short-term investment fund for which The Bank of New York Mellon serves as the investment manager, custodian and transfer agent. The investment objective is to preserve principal while maintaining sufficient liquidity to ensure cash availability with withdrawals. The assets of the Fund are invested in a diversified portfolio of U.S. Government securities, U.S. Government Agency securities and overnight repurchase agreements, subject to a minimum 102% collateralization. Repurchase agreement collateral will be securities or other obligations issued by or guaranteed by the U.S. Government or its Agencies. The Fund's maximum average maturity is 60 days, and the Fund's maximum weighted average life is 120 days.

5. GUARANTEED INVESTMENT CONTRACT

The Plan had a fully benefit-responsive guaranteed investment contract with Vanguard Fiduciary Trust Company ("Vanguard") named the Vanguard Retirement Savings Trust II. Vanguard maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Vanguard, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair values of the investment contract at December 31, 2014 and 2013, were \$97,107,671 and \$104,028,611, respectively. The crediting interest rate was based on a formula agreed upon with the issuer, but it could not be less than 0%. Such interest rates were reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion or equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

The guaranteed investment contract does not permit Vanguard to terminate the agreement prior to the scheduled maturity date.

The average yields earned by the guaranteed investment contract are as follows:

<u>Average yields:</u>	<u>2014</u>	<u>2013</u>
Based on actual earnings	2.30%	1.98%
Based on interest rate credited to participants	1.89%	1.56%

6. TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated November 22, 2013, stating that the Plan was qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust was exempt from taxation. Once qualified, the Plan was required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since receiving the determination letter; however, the Plan Administrator, management and the Plan's tax counsel believe that the Plan was designed and operated in compliance with the applicable requirements of the Internal Revenue Code.
