REDMOND TECHNOLOGY PARTNERS, LLC EMPLOYEE 401(k) PLAN

Notes to Financial Statements

December 31, 2014 and 2013

NOTE 1 – PLAN DESCRIPTION

The provisions of the Redmond Technology Partners, LLC (the Company) Employee 401(k) Plan (the Plan) were effective January 1, 1996. The Plan has been amended to comply with current legislation. The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company, except for those under collective bargaining agreements and nonresident aliens. Prior to June 1, 2015, employees were eligible for participation after attainment of age 21. Effective June 1, 2015, employees are eligible for participation after attainment of age 21 and completion of one year of service as defined in the Plan document. Employees may begin participation in the Plan on a quarterly basis. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Administrator is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings, and monitors investment performance.

Contributions

Participants may elect to contribute up to 100% of their pre-tax eligible compensation, as defined in the Plan document and within statutory limits. Effective January 1, 2014, the Plan was amended to permit participants to make voluntary nondeductible (after-tax) contributions to the Plan. These contributions are paid to the Plan after each pay period and placed in participant directed investments. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans.

Participant Accounts

Individual participant accounts are maintained by Great-West Life & Annuity Insurance Company (Great-West), the Plan's trustee and record keeper. Each account is credited or charged with the participant's contribution, allocations of investment income and losses on the individual account balances, and administrative expenses, if any. Distribution and loan fees are deducted from the respective participants' accounts. Allocations are based on participant compensation, account balances, or specific participant transactions, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

The Plan's investments are held by Great-West in a variable return contract and a guaranteed portfolio fund. The variable return contract consists of pooled separate accounts with varying degrees of risk.

Vesting

Participants are 100% vested in their accounts and actual earnings thereon.

NOTE 1 – PLAN DESCRIPTION (continued)

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to the lesser of \$50,000 or 50% of their vested account balance. Terms of the notes receivable may not exceed five years, except for the purchase of a primary residence. The notes receivable are secured by the balance in the participant's account and bear interest at the prime rate plus 1% on the date the loan application is processed. Interest rates range from 4.25% to 9.5% on notes receivable outstanding at December 31, 2014. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Benefits may be distributed upon retirement, attainment of age 59 ½, death, disability or other termination of employment. Benefits equal to the participant's vested account may be paid in a lump-sum or in installments depending on certain factors as described in the Plan document and at the participant's election. Under certain hardship circumstances, participants may request a distribution of their account balance prior to retirement or other termination.

Administrative Expenses

The Plan's investment fund options are subject to investment management fees and certain revenue sharing fees, as disclosed in each fund's prospectus. A majority of these fees are charged directly against each fund's investment performance and, therefore, are included in net appreciation in the accompanying Statement of Changes in Net Assets Available for Benefits. Revenue sharing fees are collected from various mutual fund companies by Great-West and are used to offset the Plan's third party administration fees and trustee fees. Loan administration, distribution and recordkeeping fees charged by Great-West are deducted from the accounts of the respective Plan participants. Any remaining unpaid Plan administration expenses, including the annual audit fee, are paid by the Company and therefore excluded from these financial statements.

Subsequent Events

The date to which events occurring after December 31, 2014, have been evaluated for possible adjustment to the financial statements or disclosure therein is October 13, 2015, which is the date on which the financial statements were available to be issued.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are significant accounting policies used by the Plan:

Basis of Accounting and Use of Estimates

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Plan's guaranteed portfolio fund, a fully benefit-responsive investment contract, is required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the guaranteed portfolio fund as well as the adjustment, if any, of the investment in the guaranteed portfolio fund from fair value to contract value. Since fair value and contract value are approximately the same, there is no adjustment from fair value to contract value. Additionally, the Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the investment advisor and trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Interest and dividends reinvested in the pooled separate accounts and guaranteed portfolio fund are also reported in this category.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus accrued but unpaid interest, if any. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If an active participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant is taxed as if a benefit payment has been made. When the participants terminate employment and withdraw their account balance, the loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid. Corrective distributions payable generally represent the distribution of certain assets to employees in order for the Plan to comply with ERISA nondiscrimination requirements.

NOTE 3 – FAIR VALUE MEASUREMENTS

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access (level 1 measurements) and the lowest priority to inputs to the valuation methodology that are unobservable and significant to the fair value measurement (level 3 measurements). The three levels of fair value hierarchy under GAAP are described as follows:

Level 1 Fair Value Measurements

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 3 – FAIR VALUE MEASUREMENTS (continued)

Level 2 Fair Value Measurements

Inputs to the valuation methodology include (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013:

Pooled separate accounts - Valued at the net asset value (NAV) of units of an insurance company pooled separate account. The NAV, as provided by the investment trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the pooled separate account less its liabilities. This practical expedient is not used when it is determined to be probable that the pooled separate account will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the pooled separate account, the insurance company reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner (level 2 measurement).

Guaranteed portfolio fund - Valued at contract value (see Note 2), which approximates fair value. Unobservable inputs are used including prices from prior transactions, and discounted cash flows where the interest rate is reset at least annually. Because the participants transact at contract value, fair value is determined annually for financial reporting purposes only. In determining the reasonableness of the methodology, the Plan Administrator evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings (level 3 measurement).

NOTE 3 – FAIR VALUE MEASUREMENTS (continued)

The following table sets forth by nature and risk of investment, and level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

NOTE 3 – FAIR VALUE MEASUREMENTS (continued)

The following table sets forth a summary of changes in the fair value of the Plan's level 3 asset for the year ended December 31, 2014:

Guaranteed portfolio fund:	
Beginning balance, December 31, 2013	\$ 591,931
Purchases	6,173
Sales and transfers	(10,385)

Fair Value of Investments that Calculate Net Asset Value

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2014 and 2013, respectively.

December 31, 2014				
	Fair value	Unfunded commitments	Redemption frequency (if currently eligible)	Redemption notice period
Pooled separate accounts	\$ 2,082,489	None	Daily	30 days

December 31, 2013				
	Fair value	Unfunded commitments	Redemption frequency (if currently eligible)	Redemption notice period
Pooled separate accounts	\$ 2,026,942	None	Daily	30 days

Pooled separate accounts – The investments' objectives are to maximize total returns, achieve capital growth, and to maximize current income consistent with their comparatively low risk profile, and liquidity. The investments seek to achieve this objective by investing primarily in a variety of mutual funds with varying degrees of risk.

NOTE 4 – INVESTMENTS

The following investments represent 5% or more of the Plan's net assets available for benefits at December 31 of either year:

	2014	2013
Guaranteed Portfolio Fund	\$ 595,134	\$ 591,931
T. Rowe Price Blue Chip Growth Fund	379,203	-
Great-West T. Rowe Price Mid-Cap Growth Fund	264,184	235,286
Great-West T. Rowe Price Equity Income Fund	237,200	167,593
American Funds Europacific Growth Fund	232,399	250,904
Great-West American Century Growth Portfolio Fund	158,584	138,370
American Funds Growth Fund of America Fund	-	292,189

NOTE 5 – GUARANTEED PORTFOLIO FUND WITH INSURANCE COMPANY

The Plan holds a fully benefit-responsive investment contract (guaranteed portfolio fund) with Great-West. Great-West maintains the contributions in a general account. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting. The fund may be subject to a market rate adjustment upon liquidation. Contract value would be paid to participants no later than 90 days from the redemption notice date, or over time in rare circumstances.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract permits the insurance company, under certain circumstances, to terminate the agreement provided they give 30 days' advance written notice to the Plan.

	2014	2013
Average yields:		
Based on actual earnings	1.25%	1.26%
Based on interest rate credited to participants	1.25%	1.26%

NOTE 6 – INFORMATION CERTIFIED BY TRUSTEE

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Great-West is the trustee of the Plan's investments and notes receivable from participants. Accordingly, the trustee has certified that the following data included in the accompanying financial statements, notes and supplemental schedules on pages 14-15 is complete and accurate:

- 1) Fair value of pooled separate accounts as of December 31, 2014 and 2013.
- 2) Contract value of the guaranteed portfolio fund as of December 31, 2014 and 2013.
- 3) Outstanding balances of notes receivable from participants as of December 31, 2014 and 2013.
- 4) Net appreciation in fair value of pooled separate accounts, interest on the guaranteed portfolio fund, and interest on notes receivable for the year ended December 31, 2014.
- 5) The information included in the Schedule of Reportable Transactions on page 15.

NOTE 6 – INFORMATION CERTIFIED BY TRUSTEE (continued)

The Plan's independent auditor did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements, notes and supplemental schedules on pages 14-15.

NOTE 7 – RELATED-PARTY TRANSACTIONS

Certain Plan investments are units of participation in pooled separate accounts and guaranteed portfolio fund managed by Great-West, the trustee of the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Loan and distribution fees charged by Great-West are deducted from the accounts of the respective Plan participants. A total of \$446 in fees was paid by the Plan to Great-West and its affiliates for the year ended December 31, 2014. Additionally, Great-West and its affiliates receive revenue sharing fees from various investments to offset Plan administrative costs.

NOTE 8 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. Participants are always 100% vested in their accounts.

NOTE 9 – TAX STATUS

The Plan operates under provisions of a prototype plan which received an opinion letter from the Internal Revenue Service dated March 31, 2014, which stated that the prototype plan, as then designed, was acceptable under section 401 of the Internal Revenue Code (IRC) for use by employers for the benefit of their employees. The Plan has been restated since the date of the opinion letter. The Plan Administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC, and therefore, believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for periods prior to December 31, 2011.

NOTE 10 – RISKS AND UNCERTAINTIES

The Plan allows participants to invest in investment securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with the investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

NOTE 11 – CORRECTIVE DISTRIBUTIONS PAYABLE

Employee contributions included in the accompanying Statement of Changes in Net Assets Available for Benefits are net of \$30,209 of payments that will be made to certain active participants in 2015 to return 2014 excess deferral contributions as required to satisfy the relevant non-discrimination provisions of the Plan. Additionally, \$33,986 in payments were made to certain active participants in 2014 to return 2013 excess deferral contributions as required to satisfy the relevant non-discrimination provisions of the Plan.

NOTE 12 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31:
