Belo Savings Plan

Notes to Financial Statements

December 31, 2014

1. Description of the Plan

The following description of the Belo Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan which was established effective October 1, 1989. The Plan covers substantially all employees who were employed by Belo Corp. and its subsidiaries, prior to the acquisition of Belo Corp. by Gannett Co. Inc., (“Gannett”) on December 23, 2013, as described in the following paragraphs. Employees are eligible to participate in the Plan upon the completion of an hour of service. Certain collective bargaining agreements and personal service contracts may exclude some employees’ participation in the Plan. Refer to the Plan document for more complete information. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

On June 12, 2013, Belo Corp. entered into an Agreement and Plan of Merger (Merger Agreement) with Gannett, and Delta Acquisition Corp., a wholly-owned subsidiary of Gannett (“Merger Sub”). On December 23, 2013, Merger Sub merged with and into Belo Corp. (“Merger”), with Belo Corp. continuing as the surviving corporation and a wholly-owned subsidiary of Gannett.

In August 2014, Gannett announced a plan to separate into two publicly traded companies. Gannett Co., Inc. (formerly “Gannett SpinCo, Inc.”) comprises the publishing business and TEGNA Inc. (formerly “Gannett Co., Inc.” and the “Employer”) comprises the broadcast/digital businesses. The separation was completed on June 29, 2015. TEGNA Inc. (the “Company”) is the sponsor of the Plan.

On May 28, 2015, in conjunction with the separation, the Plan was renamed the TEGNA 401(k) Savings Plan. Additionally, the Plan administrator authorized the plan balances for certain current and former employees to be transferred to the Plan from the Gannett 401(k) Savings Plan. This transfer was completed on June 15, 2015. The Plan was also amended and restated by the Plan administrator on May 28, 2015.

For the years ended December 31, 2014 and 2013, the Belo Savings Plan (the “Plan”) was the sole participant in the Belo Corp. Defined Contribution Trust (the “master trust”). Therefore, the Plan reports all investments as plan assets in 2014 and 2013 rather than as an investment account to be reported as part of the master trust.

Contributions

Participants may elect to contribute a portion of their pretax compensation as provided by the Plan and Internal Revenue Service (IRS) regulations. If a participant does not make an election and is automatically enrolled in the Plan per the Plan’s provisions, the participant’s deferral is set at 3% of eligible compensation until changed by the participant. Such contributions are withheld by the Employer from each participant’s compensation and deposited in the appropriate investment fund as directed by the participant. Participants direct the allocation of their contributions to any of the Plan’s 27 investment funds, including a self-directed brokerage fund. Participant contributions are allocated to the participants’ Deferral Contribution Accounts, as defined in the Plan document. The maximum pretax contribution an employee can make is 100% of his or her annual eligible compensation (less required withholdings and deductions), up to statutory limits. Additionally, participants who have attained age 50 are eligible to make catch-up deferral contributions, subject to statutory limits.

Belo Savings Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Effective January 1, 2012, the Employer began making a matching contribution equal to 50% of the participant's contribution to the extent that the participant's contribution did not exceed 6% of the participant's compensation. Such matching contributions are allocated to the participants' Matching Contribution Accounts, as defined in the Plan document.

The Employer may make an additional discretionary profit-sharing contribution to the Plan for any payroll period or for any Plan year in such amount as is determined by the Employer and is approved by the Compensation Committee of the Board of Directors of the Employer for certain Participating Employers, as defined in the Plan document. There was no additional discretionary profit-sharing contribution made during 2014.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contributions and allocations of plan earnings and is charged with an allocation of administrative expenses. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. Allocations of administrative expenses are based on participants' account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants will be 100% vested in his or her Matching Contribution Account and Profit-Sharing Account, as defined in the Plan document, after two years of service or attainment of age 55, or death, at which time these accounts will be non-forfeitable. Participants with less than two years of service will have no vesting in the Matching Contribution and Profit-Sharing Accounts, as defined in the Plan document. Participants are immediately vested in their contributions plus actual earnings thereon.

Distributions

As provided under the Plan document and as allowed under the Internal Revenue Code (Code), distribution of a participant's vested account is available upon the participant's retirement, death, disability, termination of employment, or attainment of age 59½; or distribution is available to satisfy a financial hardship meeting the requirements of the IRS regulations.

Participant Loans

Participants are able to borrow against their vested account balances. The minimum amount of any loan is \$1,000 and the maximum amount of any loan is the lesser of 50% of the participant's account or \$50,000, reduced by the excess of the highest outstanding loan balance for the previous 12-month period over the outstanding balance of all loans on the date on which a loan is made. Loan terms range up to a period of five years. Interest charged on loans is intended to be commercially reasonable and is based on a banking quarterly prime rate. All payments with respect to the loan (principal and interest) will be invested in proportion to the participant's current investment selection. If the loan becomes delinquent, and remains delinquent for three months, it will be treated as a distribution to the participant.

Belo Savings Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Administration

The Plan is administered by the Benefit Plans Committee. The committee consists of a Chairman, and additional committee members appointed by the Chairman.

Plan Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan's provisions. Administrative expenses paid by the Plan include recordkeeping and trustee fees. All expenses incident to the administration of the Plan are charged to the participants' accounts unless the Company elects to pay for such expenses. No such expenses were paid by the Company during the year.

Plan Termination

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

In the event of Plan termination, participants will become 100% vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting. Distributions are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants represents participant loans that are recorded at their unpaid principal balance, plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan payments and the Plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements, accompanying notes, and supplemental schedule. Actual results could differ from those estimates.

Party-in-Interest Transactions

Certain Plan investments are managed by Fidelity Management Trust Company (Trustee), who is the Trustee as defined by the Plan and, therefore, transactions with the Trustee qualify as party-in-interest transactions.

Investment Valuation and Income Recognition

Fidelity Management Trust Company is the Trustee of the Plan. Investments included in the Plan are valued at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

The Plan's interest in the accompanying statements of net assets available for benefits includes a common/collective trust, the Fidelity Managed Income Portfolio (MIP), which invests in fully benefit-responsive investment contracts recognized at fair value. Fully benefit-responsive investment contracts are reported at fair value in the Plan's statement of net assets available for benefits with a corresponding adjustment to reflect these investments at contract value.

The MIP is presented at fair value in the fair value hierarchy in Note 4. The fair value of the MIP equals the total of the fair value of the underlying assets plus the fair value for wrap contracts which are calculated using a discounted cash flow model which considers recent fee bids, discount rate, and duration of the underlying securities. The MIP is valued at fair value, and then adjusted to contract value, because it is fully benefit-responsive. Contract value is relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all, or a portion of, their investment at contract value. There are currently no reserves against contract values for credit risk of the contract issuers or otherwise.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net depreciation includes the Plan's losses and gains on investments bought, sold, and held during the year.

Risks and Uncertainties

The Plan provides for investments in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Plan's concentrations of credit risk are dictated by the Plan's provisions, as well as those of ERISA and participants' investment preferences (see Note 1).

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2015-07, Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) (ASU 2015-07). This update amends ASC 820, Fair Value Measurements and Disclosures, removing the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient.

New Accounting Pronouncements (continued)

In July 2015, FASB issued Accounting Standards Update 2015-12, Plan Accounting: Defined Contribution Pension Plans, (ASU 2015-12). Amendments and changes within ASU 2015-12 are listed below:

- Eliminates requirements that employee benefit plans measure the fair value of fully benefit responsive investment contracts and provide their related fair value disclosures.
- Requires plans to disaggregate their investments measured using their fair value by general type, either on the face of the financial statements or in the notes, and self-directed brokerage accounts are one general type.
- Plans are no longer required to disclose the net asset appreciation/depreciation in fair value by general type or individual investments equal to or greater than 5% of net assets available for benefits.
- Permits a plan with a fiscal year end that doesn't coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end.

The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2015. The amendments have not been early adopted by the Plan administrator. The Plan administrator does not believe the adoption of ASU 2015-12 and ASU 2015-07 will have a material effect on the Plan's net assets available for benefits or changes in net assets available for benefits.

4. Fair Value Measurements

ASC 820 establishes a framework for measuring fair value, clarifies the definition of fair value, and expands disclosures about fair value measurements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants (i.e. the exit price). That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- | | |
|---------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | <p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the assets or liability; and• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p> |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Common stocks and mutual funds are valued at quoted market prices based on the closing price reported on the active market on which the stocks and mutual funds are traded. Investments in common/collective trusts are reported at the net asset value based on the fair value of the underlying assets as determined by the sponsor of the respective trusts.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

- (a) This category includes investments in highly diversified funds designed to remain appropriate for investors in terms of risk throughout a variety of life circumstances. These funds share a common goal of first growing and then later preserving principal and contain a mix of common stocks, bonds and cash.
- (b) This category is a common/collective trust fund that is designed to deliver safety and stability by preserving principal and accumulating earnings. This fund is primarily invested in guaranteed investment contracts and synthetic investment contracts. Participant-directed redemptions have no restrictions; however, the Plan is required to provide a 12 month redemption notice to liquidate its entire share in the fund. The fair value of this fund has been estimated based on the fair value of the underlying investment contracts in the fund as reported by the issuer of the fund. The fair value differs from the contract value. As previously discussed in Note 2, contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

5. Income Tax Status

The Plan received a determination letter from the IRS dated February 13, 2012, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is tax-exempt. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions. The Plan received a closing letter from the IRS dated January 23, 2015 in relation to the audit of tax returns for the years ended December 31, 2011 and 2012. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

6. Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:

Net assets available for benefits per the Form 5500	<u>\$ 287,898,409</u>	<u>\$ 310,116,240</u>

The following is a reconciliation of the Plan's net investment income per the financial statements to the Form 5500 for the year ended December 31, 2014:

Plan's net investment income per the financial statements	\$ 19,279,656

Plus: 2014 adjustment from fair value to contract value for fully benefit-responsive investment contracts held by a common/collective trust	1,034
Plan's net investment income per the Form 5500	<u>\$ 19,279,578</u>

7. Subsequent Events

On May 29, 2015 the Benefit Plans Committee appointed Vanguard Fiduciary Trust Company and Northern Trust Company as Trustees of the Plan, replacing Fidelity Management Trust Company. As described in Note 1, certain changes to the Plan were made as part of the separation of Gannett.

Management evaluated subsequent events from the date of the financial statements through October 15, 2015, the date the financial statements were available to be issued.
