Note 1 - Description of Plan

The following description of Shiseido Americas Group Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Shiseido Americas Corporation, Shiseido America Inc., Zotos International Inc., Davlyn Industries Inc. and Shiseido Travel Retail Americas Inc. (collectively, the "Company"). All employees of the Company are eligible for the Plan except for the following ineligible classes of employees: (a) employees whose employment is governed by a collective bargaining agreement in which retirement benefits were the subject of good faith bargaining, unless such collective bargaining agreement expressly provides for the inclusion of such employees as participants; (b) employees who are non-resident aliens who do not receive earned income from the Company which constitutes income from sources within the United States; (c) anyone who is a leased employee; (d) employees who are employed by an affiliated employer which does not adopt this Plan; (e) employees who are temporarily transferred from Shiseido Japan; (f) employees designated by the employer as interns, either through the terms of any agreements with such individuals, the individuals' educational institutions or otherwise and (g) payroll service or agency temporary workers who are not reported on the payroll records of the employer. Part time employees, payroll temporary employees or a seasonal employee must be credited with one year of service to enroll in the Plan. All other employees can enroll in the Plan after 30 days of service. Participants become eligible for employer contributions immediately after entry into the Plan. Effective January 1, 2014, employees will be eligible for the profit sharing contribution on the earlier of January 1st or July 1st coinciding with the date of completion of one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Administrative Committee is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

Each year, participants may contribute up to 75% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 4% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. The withholding will increase by 1% each year until it reaches 8% of total compensation. Effective April 1, 2015, salary deferral contribution percentages will continue to increase until the contribution equals 12% of total compensation.

The Company makes a "safe harbor" contribution of 100% of the first 4% of total compensation that a participant contributes to the Plan. The Company may contribute a discretionary profit sharing contribution. During the year ended December 31, 2014, the Company made a profit sharing contribution to the Plan in the amount of $1,901,011. Profit sharing contributions will only be given to participants who are employed on the last day of the year and who completed 1,000 hours of service during the year. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant accounts
Each participant's account is credited with the participant's contributions and Company "safe harbor" contribution, as well as allocations of the discretionary profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are vested immediately in their contributions, the Company's "safe harbor" contributions plus actual earnings thereon. Vesting in the discretionary profit sharing contribution portion of their account is based on years of continuous service. Prior to January 1, 2014, a participant was 100% vested after five years of credited service. Effective January 1, 2014, a participant will become 100% vested after three years of credited service. An employee who became an eligible employee and a participant in the Plan, as of December 1, 2014 due to the ratification of a collective bargaining agreement which expressly provides for the inclusion of such employees as participants in the Plan, will have a 100% vested interest is his or her profit sharing account.

Notes receivable from participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined quarterly, is set at 1.5% above the prime rate, as defined. Principal and interest are paid ratably through payroll deductions.

Payment of benefits
On termination of service due to death, disability, retirement or termination of services for other reasons, a participant or the beneficiary of the deceased may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account or a rollover to an individual retirement account.

Forfeited accounts
At December 31, 2014 and 2013, forfeited nonvested accounts totaled $69,317 and $8,666, respectively. These accounts will be used to reduce future employer contributions. Also, in 2014, employer contributions were reduced by $23,967 from forfeited nonvested accounts.

Note 2 - Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, trustee and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013.

Payment of benefits

Benefits are recorded when paid.

Expenses
Certain expenses of maintaining the Plan are paid directly by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events
The Plan has evaluated subsequent events through October 14, 2015, the date the financial statements were available to be issued.

Note 3 - Investments

The following table presents investments that represent 5% or more of the Plan's net assets:

	2014	2013

Fidelity Small Cap Discovery	*	7,963,257

* Investment represents less than 5% of the Plan's net assets as of December 31, 2014 and 2013.

Note 4 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self directed brokerage accounts: Include investments in equities, mutual funds and corporate bonds. Equities, mutual funds and corporate bonds are valued at the closing price report on the active market on which the individual securities are traded.

Collective trust fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund, less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth by level, within the fair value hierarchy, the Plans assets at fair value as of December 31, 2014 and 2013:

Fair value of investments in entities that use NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2014 and 2013.

	Fair Value		Redemption Frequency (If Currently Eligible)	Redemption Notice Period
	2014	2013		
T. Rowe Price Stable Value Common Trust Fund	$22,374,989	$24,867,542	Daily	Daily

There are no unfunded commitments at December 31, 2014 and 2013.

The investment objective of the T. Rowe Price Stable Value Common Trust Fund is to maximize current income consistent with the maintenance of principal and to provide for benefit-responsive participant withdrawals at contract value for certain events without penalty or adjustment. The trust will attempt to achieve these objectives by investing primarily in guaranteed investment contracts issued by insurance companies; investment contracts issued by banks; structured or synthetic investment contracts ("SICs") issued by banks insurance companies, and other issuers, as well as the securities supporting such SICs (underlying assets); separate account contracts and other similar instruments that are intended to maintain a constant NAV (collectively, investment contracts).

Note 5 - Certified investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments and notes receivable from participants held at December 31, 2014 and 2013, and investment income and interest income on notes receivable from participants for the year ended December 31, 2014, that is disclosed in the accompanying financial statements and supplemental schedules, were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the trustee of the Plan.

Note 6 - Related party transactions and party-in-interest transactions

Certain Plan investments are shares of mutual funds and a common/collective trust managed by an affiliate of T. Rowe Price Trust Company. T. Rowe Price Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made a direct payment to the third party administrator of $135,356 which was not covered by revenue sharing.

Note 7 - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 8 - Tax status

The IRS has determined and informed the Company by a letter dated February 16, 2012, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (the "IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 9 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 - Reconciliation of financial statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2014 and 2013 to Form 5500:

The following is a reconciliation of the increase in net assets per the financial statements for the year ended December 31, 2014 to Form 5500:

Increase in net assets per the financial statements	$11,924,462
Add contributions receivable, prior year	255,555
Less contributions receivable, current year	(1,956,202)
Adjustment from fair value to contract value for fully benefit-responsive investment contracts at December 31, 2013	(347,522)
Adjustment from fair value to contract value for fully benefit-responsive investment contracts at December 31, 2014	324,365
Increase in net assets per Form 5500	$10,200,658

Note 11 - Nonexempt transactions

As reported on the supplemental schedule of delinquent participant contributions (Schedule H, Line 4a), certain Plan contributions were not remitted to the trust within the time frame specified by the Department of Labor's Regulation 29 (CFR 2510.3-102), thus constituting nonexempt transactions between the Plan and the Company for the year ended December 31, 2014.
