NOTE A - DESCRIPTION OF THE PLAN

The following description of the Middletown Medical, P.C. 401 (k) Plan and Trust, (the "Plan"), is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General and Eligibility

The Plan is a defined contribution plan that covers all eligible employees. The John Hancock Life Insurance Company of New York serves as the custodian of the Plan. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Each Year participants may make pre-tax contributions, as defined in the Plan, subject to certain Internal Revenue Code (the "Code") limitations. All eligible employees who have attained age 21 can make pre-tax contributions. Participants who have attained age 21 must generally complete 1,000 hours of service and be employed on the last day of the plan year to meet the requirements for a discretionary matching contribution. The Employer may make matching contributions at its discretion. In addition, the Company may make a discretionary contribution as determined by the Company's Board of Directors up to 25% of eligible compensation not to exceed the limit pursuant to the Internal Revenue Code.

The Plan also permits eligible employees who are age fifty or older by end of the calendar year to make catch-up contributions. Matching contributions do not apply to catch-up contributions.

Vesting

Participants are immediately vested in their contributions plus earnings thereon. Vesting in the Employer's contribution portion of their accounts is based on years of continuous service. A participant vests at the rate of 20% per year. After the second year the participant is 20% vested and is 100 percent vested in the sixth year.

Forfeited Accounts

There were no forfeited nonvested accounts in 2014 and 2013.

Participant Accounts

Each participant has an individual account which is credited with the participant's contribution, the Employer's matching contribution, if applicable, and the related income or loss related to their account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A - DESCRIPTION OF THE PLAN (continued)

Investments
Participants direct the investment of contributions into various investment options offered by the Plan. The Plan currently offers money market funds, bond funds and mutual funds as investment options for participants.

The Pension Protection Act created the Qualified Default Investment Alternative (QDIA). The QDIA provides employers a safe harbor from fiduciary risk when selecting an investment for a participant or beneficiary who fails to elect his or her own investment. During 2014 and 2013 the Plan implemented the interest bearing cash account as the QDIA.

Participant Loans
Participants may borrow from their employee elective deferral accounts to a maximum of $50,000 or 50 percent of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with prevailing rates as determined by the plan administrator. Loan terms range from 1-5 and are repaid through payroll deductions.

Payment of Benefits
On termination of service due to death, disability, retirement or other reasons, a participant will receive his or her vested value in the form of a lump-sum. Valuation of accounts is made on the day following the day the participant's employment is terminated. Benefit claims are recorded as expenses when they have been approved for payment and paid by the Plan.

Administrative Expenses
Expenses of administering the Plan, except for nominal fees, are paid by the Company.

Management Fees and Operating Expenses
Management fees and operating expenses for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected in net appreciation or deprecation in fair market value of such investments.

Hardship Withdrawals
The Plan provides for hardship withdrawals, not to exceed an amount to meet the immediate need created by the hardship, and then only to the extent such immediate need cannot be satisfied by other sources readily available to the participant. Permissible circumstances for hardship withdrawals include education expenses, costs directly related to the purchase of a principal residence, and costs necessary to prevent eviction from the participants' personal residence and such other circumstances as the Plan Administrator may determine based on rules set forth in the Internal revenue Service regulations. Salary deferral contributions are suspended for six months after withdrawal.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTS POLICIES

Basis of Accounting
The accompanying financial statements have been prepared on the accrual basis of accounting.

Income Recognition
Net appreciation in fair value of investments includes both realized and unrealized gains and losses on securities bought and sold as well as held during the year, based on the value of assets at the beginning of the year or at the time of purchase during the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recognized when earned.

Use of Estimates
The plan administrator uses estimates in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from those estimates.

Subsequent Events
These financial statements were approved by management and available for issuance on October 13, 2015. Management has evaluated subsequent events through this date.

Fully Benefit-Responsive Investment Contracts
As described by GAAP, common collective trusts relating to fully benefit-responsive investment contracts held by a defined contribution plan are to be reported at fair value. However, contract value is the relevant measurement criteria for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of assets available for benefits represents the fair value of the common collective trusts and the adjustment from fair value to contract value. The statement of changes in assets available for benefits is prepared on a contract value basis.

Notes Receivable from Participants
Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when earned. Related fees are recorded as administrative expenses and are expensed when incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a deemed distribution is recorded.

Payments of Benefits
Benefits are recorded when paid.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTS POLICIES (continued)

Investment Valuation
GAAP defines fair value, provides guidance for measuring fair value and requires certain disclosures. GAAP discusses valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow) and the cost approach (cost to replace the service capacity of an asset or replacement cost). GAAP provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The following is a brief description of those three levels:

- Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.

- Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

- Level 3: Unobservable inputs that reflect management's own assumptions.

The following is a description of the valuation methodologies used for the investments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual and Bond Funds
These are invested in shares of mutual and bond funds and are valued at quoted market price, which represent the net asset value of shares held by the Plan at year end. Investments in mutual and bond funds are classified as Level 1.

NOTE C – Risks and Uncertainties

The Plan provides for various investment options in investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Plan may invest in securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage back securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of the securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

NOTE D – FAIR VALUE MEASUREMENTS (UNAUDITED)

The following table summarizes investment assets measured at fair value at December 31, 2014 and 2013:

NOTE F – TAX STATUS

The Internal Revenue Service has determined and informed the company by a letter that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the determination letter, the plan administrator believes that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Federal income tax returns for years prior to 2011 are no longer subject to examination by tax authorities.

NOTE G – PARTY IN INTEREST TRANSACTIONS

The investments of the Plan assets are maintained by the custodian, The John Hancock life Insurance Company of New York. The John Hancock Life Insurance Company of New York is a party-in-interest as defined by ERISA.
