1 - DESCRIPTION OF PLAN

The following description of the Cumberland Packing Corp. (the "Company") 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of the Company, as defined and not covered by a collective bargaining agreement. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers twenty-one (21) mutual funds and an insurance investment contract as investment options for participants. The Company contributes 50% of the first 6% of a participant's compensation contributed to the Plan. Additional profit sharing amounts may be contributed at the discretion of the Company's Board of Directors. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective contributions, rollover and transfer contributions. Vesting in the Company's contribution portion of their account is based upon years of continuous service. Participants are 100% vested after six years of service.

Notes Receivable - Participants

Participants may borrow from their accounts up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account with interest rates that are commensurate with local prevailing rates as determined by the Plan Administrator at the date of issuance. Currently, principal and interest is being paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value in the participant's vested interest in his or her account, or annual installments over a specified period, as defined.

1 - DESCRIPTION OF PLAN (CONTINUED)

Forfeited Accounts

At December 31, 2014 and 2013, forfeited nonvested accounts were approximately $11,000 and $4,000, respectively. These accounts will be used to reduce future Company contributions.

Investment Options

The Plan allows participants to make their investments under a self-directed program. Under this program, participants invest their account balances in anyone of twenty-two (22) investment options offered by the Plan. Participants may transfer funds between investments and make changes in the allocation of future contributions among funds at any time by either calling or by accessing their accounts with the custodian of the Plan.

2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles ("GAAP") as promulgated by the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC").

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that may affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

Fair Value Hierarchy

FASB ASC defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction to sell the asset or transfer the liability which occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three levels:

Level 1: Inputs to valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to access.

Level 2: Valuations based on quoted prices for similar assets in active or inactive markets, inputs other than quoted prices that are observable, or inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3: Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Processes and Structure

Management is responsible for the Plan's fair value valuation policies, processes, and procedures. These control processes are designed to assure that the values used for financial reporting are based on observable inputs wherever possible. In the event that observable inputs are not available, the control processes are designed to assure that the valuation approach utilized is appropriate and consistently applied and that the assumptions are reasonable.

2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Plan's own assumptions are set to reflect those that the Plan believes market participants would use in pricing the asset or liability at the measurement date.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2014 and 2013.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed Investment Contracts: Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (note 4). Because participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Plan evaluates a variety of factors including review of existing contracts, economic conditions, industry developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments are initially recorded at their acquisition cost (if they were purchased) and at fair value (if they were received as a contribution). Subsequent to acquisition, investments are reported at their fair value. The net change in the difference between fair value and the cost of investments is reflected in the accompanying statement of changes in net assets available for benefits under the caption "Net Appreciation in Fair Value of Investments". The fair value of the guaranteed investment contract is calculated daily based on the fair value for all separate accounts under the contract.

The net realized gain (loss) on investments is the difference between the proceeds received and the carrying value of the investments sold. The cost of the investments includes earnings that are reinvested. Realized gains and losses on investments are accounted for on an individual security basis. Investment income is recorded on the accrual basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Notes Receivable - Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the plan administrator deems the loan to be in default, the loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The accompanying financial statements include an evaluation of events or transactions that have occurred after December 31, 2014 and through October 12, 2015, the date the financial statements were available to be issued.

Voya Index Solution 2025 Portfolio Fund	1,597,571	1,041,883*

* - Represents less than 5% of Plan assets; presented for comparative purposes only.

During 2014, the Plan's mutual fund investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by approximately $1.6 million.

4 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into benefit-responsive investment contract with Voya Retirement Insurance and Annuity Company ("Voya"), which maintains the contributions in a general account. The account is credited with earnings on the underlying investment and charged for participant withdrawals and administrative expenses. The contracts are included in the financial statements at contract value as reported to the Plan by Voya. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates were approximately 2.8% for 2014 and 3.0% for 2013, respectively. The fair value of the investment contract at December 31, 2014 and 2013 was $5,252,299 and $5,499,013 respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a monthly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract is payable on demand.

	2014	2013
Average Yields:		
Based on Actual Earnings	2.8%	3.0%

5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts. Any unallocated assets of the Plan will be allocated to participant accounts and distributed in such manner as the Company may determine.

6 - INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified as to complete and accurate by Voya, the custodian of the Plan.

a. Investments by fund group, at fair value;
b. Dividend and interest income;
c. Net appreciation in fair value of investments;
d. Schedule of assets held for investment purposes; and
e. Unrealized/realized gain (losses) on investments.

7 - SEPARATED PARTICIPANTS

As of December 31, 2014, approximately $2.1 million has been allocated to participants who have elected to withdraw from the Plan and have not been paid.

8 - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 18, 2011 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable sections of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax exempt.

GAAP prescribes rules for the recognition, measurement, classification, and disclosure in the financial statements of uncertain tax positions taken or expected to be taken in the Plan's tax returns. Management has determined that the Plan does not have any uncertain tax positions and associated unrecognized tax benefits that materially impact the financial statements or related disclosures. Since tax matters are subject to some degree of uncertainty, there can be no assurance that the Plan's tax returns will not be challenged by the taxing authorities and that the Plan will not be subject to additional tax, penalties, and interest as a result of such a challenge. Generally, the Plan's federal returns remain open for income tax examination for three years from date of filing.

9 - RISKS AND UNCERTAINTIES

The Plan invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

10 - ADMINISTRATIVE EXPENSES

Plan administrative expenses consisted of service and asset charges which are included in the determination of mutual funds net value. Remaining operating and administrative expenses are paid by the Company.

11 - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds and investment contracts managed by Voya which is the custodian under the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation (depreciation) in market value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan made indirect payments to the third-party administrator of approximately $14,000.
