THE KTGY GROUP, INC.
401(k) AND PROFIT SHARING PLAN

Notes to Financial Statements
December 31, 2014 and 2013

NOTE 1 - DESCRIPTION OF PLAN

The following description of the KTGY Group, Inc. 401(k) and Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for more detailed information of the Plan's provisions.

General - The Plan is a defined contribution plan and covers all full-time and part-time employees of The KTGY Group, Inc. (the Company), not considered to be temporary or interns, who are eligible to enroll on the first of the month following a 30 day waiting period after their hire date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants' contributions are made to the Plan by means of salary deferral by which the participant is entitled to defer 1% to 50% of their compensation. Contributions may be made on a pre-tax basis, Roth after-tax basis, or any combination of both, as long as the combined total does not exceed 50% of the participant's compensation per pay period. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Upon enrollment into the Plan, the Company will match participant contributions each pay period at a rate of 10% of the participant's deferral up to 15% of the employee's eligible compensation. In addition, the Company, at its option, may contribute a portion of its current year profits. For the years ended December 31, 2014 and 2013, there were no profit sharing contributions allocated to the Plan. Matching contributions of $146,847 and $115,710 were made to the Plan for the years ended December 31, 2014 and 2013, respectively.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contributions and, (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their voluntary contributions, employer matching and profit sharing contributions plus actual earnings thereon.

Payment of Benefits - Upon termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments under a systematic withdrawal plan, as defined in the Plan document. Additionally, under certain circumstances of financial hardship or if a participant has attained age 59 ½, the participant is allowed to withdraw funds from the Plan.

Notes Receivable from Participants - Participants are not allowed to borrow against their plan account.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Investments - Each participant directs the allocation of his or her contribution, and employer matching and discretionary profit sharing contributions to one or more of thirty-one investment options offered by BMO Retirement Services (BMO).

Risk and Uncertainties - The Plan provides for various investment options in any combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investments securities, it is at least reasonably possible that changes in risks in the near-term would materially affect participants account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation - The financial statements have been prepared in compliance with the Department of Labor Rules and Regulations for reporting and disclosure under ERISA.

Basis of Accounting - The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value, unless the investment is fully benefit-responsive, which then would be reported at contract value (Note 8). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses - Expenses incurred in the administration of the Plan are paid by both the Plan and the Plan sponsor.

NOTE 4 - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net assets value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different that the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

Common/collective trusts are valued at NAV which is based on the fair value of the underlying investments of the common/collective trust, less any liabilities. The underlying investments of the common/collective trusts are mainly equity and fixed income securities and short-term investments. The investment strategies of the Plan's common/collective trusts vary generally based on the investment objectives of the asset class of which they are a part. Such investment strategies include investments in fixed income securities and investments in equity securities in domestic and international markets for growth and value objectives as well as to replicate market indexes and to invest in emerging markets. The Plan had no unfunded commitments related to common/collective trusts. The redemption of common/collective trusts are subject to the preference of individual Plan participants and contain no restrictions on the timing of redemption.

NOTE 5 - INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, BMO Retirement Services, the custodian of the Plan's assets, has certified to the completeness and accuracy of:

- Investments reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2014 and 2013.

- Net appreciation in fair value of investments, interest and dividends reflected on the accompanying Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2014 and 2013.

NOTE 6 - TAX STATUS

The Internal Revenue Service has determined and informed the Company in a letter dated August 24, 2010, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore the Plan administrator believes that the Plan is qualified and the related trust is tax-exempt.

The Plan is subject to routine audits by governmental jurisdictions; however, there were no years under examination by governmental jurisdictions as of December 31, 2014. The Plan administrator believes it is no longer subject to governmental examinations for years prior to 2011.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are shares of mutual funds managed by BMO. BMO is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 8 - STABLE VALUE INVESTMENT CONTRACT

The Plan entered into a benefit-responsive investment contract with BMO. BMO maintains the contributions in a collective trust account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by BMO. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

NOTE 8 - STABLE VALUE INVESTMENT CONTRACT (Continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on a daily basis for resetting. The fair value and contract value of the investment contract at December 31, 2014 and 2013 are set forth below:

	2014	2013
Fair value of investment contract	$ 712,068	$ 676,272
Adjustment	(6,068)	(1,671)
Net contract value	$ 706,000	$ 674,601

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit BMO to terminate the agreement prior to the scheduled maturity date.
