Victory Small Company Opportunity Fund - This investment seeks capital appreciation by investing primarily in equity securities of smaller companies that the Adviser believes to be undervalued relative to the underlying earnings potential of the company.

Lord Abbett Total Return Fund - The investment seeks income and capital appreciation to produce a high total return by investing in investment grade debt (or fixed income) securities, corporate debt, inflation linked investments and senior loans.

Oppenhiemer Development Markets Fund - The investment seeks capital appreciation investing in common stocks of issuers in developing and emerging markets throughout the world.

Oakmark International Fund - The investment seeks long term capital appreciation investing in a diversified portfolio of common stocks of issuers in the USA and emerging markets throughout the world.

2. Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings or losses. Allocations are based on participant earnings or account balances, as defined by the plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

3. Notes Receivable from Participants

Participant's may borrow from their vested fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms require repayment within five years, unless the loan is taken for the purchase of a primary residence. The loans are secured by the balance in their participant's account. The loans bear interest at rates that are commensurate with local prevailing rates at the date of issuance, as determined quarterly by the plan administrator. Principal and interest is paid ratably through payroll deductions.

4. Payment of Benefits

Upon termination of service, a participant with a vested account balance of \$5,000 or less may elect to receive a lump-sum distribution of cash equal to the vested value of his or her account. If no such election is made, an automatic transfer of the balance will be rolled over to an IRA established in the name and for the benefit of the participant, if the account balance is greater than \$1,000 and less than or equal to \$5,000. If the account balance is \$1,000 or less, the account balance will be distributed to the participant. A participant with a vested account balance of \$5,000 or greater may elect to receive either a lump-sum distribution equal to the vested value of his or her account or transfer the vested value of his or her account into another eligible plan or annuity or maintain his or her account in the Plan. No payment of benefits shall be made until all unpaid loans of the participant have been paid in full.

4. Payment of Benefits - Continued

Normal retirement under the Plan is defined as retirement from employment upon attaining age 65, although a participant may postpone retirement for plan purposes. Retirement benefits equal to 100% of the participant's vested account balance are available when the participant dies or becomes disabled. Upon the death of a participant, the participant's benefit shall be automatically paid to the participant's surviving spouse or to a designated beneficiary.

5. Vesting

Participants are immediately vested in their voluntary contributions, and actual earnings or losses thereon. The Company contributions, including matching contributions, will be 25% vested after two years, 50% vested after three years, 75% vested after four years and 100% vested after five years. Upon normal retirement; early retirement, which is available once a participant attains age 55; disability or death, participants become 100% vested.

6. Disposition of Forfeitures

If a participant who is not fully vested terminates employment with the Company for any reason other than normal or early retirement, disability or death, the nonvested portion of his or her account is forfeited. At December 31, 2014 and 2013, forfeited nonvested accounts totaled \$5,614 and \$15,591. These accounts will be used to reduce future Company contributions or to pay administrative expenses of the Plan. Forfeitures of \$31,532 and \$0 were used to reduce Company contributions and pay administrative expenses of the Plan for the years ending December 31, 2014 and 2013, respectively.

7. Plan Administration

The general administration of the Plan and the responsibility of carrying out the provisions of the Plan are placed on the plan administrator who is appointed by the Company's Board of Directors. The plan administrator has appointed Bank of America, N.A. to receive, invest and hold plan assets and to transfer amounts of the trust fund to participants as determined by the provisions of the Plan.

8. Funding Policy

Participants may contribute 1% to 100% of their gross annual earnings, subject to certain limitations, to the Plan as tax savings contributions (up to the maximum amount allowed by Internal Revenue Service guidelines), where no federal or state income tax is paid on these amounts until they are distributed from the Plan to the participant. The Plan provides for discretionary matching Company contributions. For the year ended December 31, 2014 and 2013, the Company contributed 100% of the first 6% of each eligible non-union participant's voluntary contributions and 50% of the first 6% of each eligible union participant's voluntary contributions.

8. Funding Policy – Continued

The Plan has an automatic enrollment feature in which employees are automatically enrolled in the Plan upon meeting the eligibility requirements. The initial automatic enrollment contribution is 3% per payroll period unless the employee elects a different contribution percentage. This feature also includes a makeup election that allows the participant to increase his or her contribution during the period up to the maximum amount allowed by the Plan.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

A summary of the significant accounting policies consistently followed by the Plan in the preparation of its financial statements is as follows:

1. Basis of Presentation

The financial statements of the Plan are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by the Plan must be reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits of the Plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in the Federated Capital Preservation Fund, which is a fully benefit-responsive stable value collective fund (the “SVCF”). The statements of net assets available for benefits present the fair value of the SVCF as well as the adjustment of the fund from fair value to contract value. The statements of changes in net assets available for benefits is prepared on a contract-value basis for fully benefit-responsive investment contracts.

2. Investment Valuation and Income Recognition

The Plan’s investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Dividend income is recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

3. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

NOTE B - SUMMARY OF ACCOUNTING POLICIES - CONTINUED

4. Use of Estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

5. Risks and Uncertainties

The Plan provides for various investment options in mutual funds and a collective trust. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the future amounts reported in the statements of net assets available for benefits.

6. Payment of Benefits

Benefits are recorded when paid.

7. Administrative Expenses

Certain expenses incurred in connection with the general administration of the Plan are paid by the Plan and are recorded as administrative expenses. Certain other expenses incurred in connection with the general administration of the Plan are paid by the Company and are not recognized by the Plan.

8. New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent). The update requires investments for which fair value is measured at net asset value ("NAV") per share (or its equivalent) using the practical expedient should not be categorized in the fair value hierarchy. The provisions in the ASU become effective for interim and annual reports after December 15, 2016 and will be applied retrospectively.

8. New Accounting Pronouncements - Continued

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurement shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted.

Management is evaluating the effect these pronouncements will have on the financial statements.

NOTE C - INVESTMENTS

The fair value of individual investments that represent more than 5% of the Plan's net assets available for benefits as of December 31 are as follows:

	2014	2013
Lord Abbett Total Return Fund	\$ 247,671	\$ -
PIMCO Total Return Fund	-	125,571
Federated Capital Preservation Fund (at contract value)*	169,990	102,976
PIMCO Real Return Fund	110,029	55,868
Franklin Growth Fund	67,402	36,359
Columbia Dividend Fund	59,175	30,603
American Europacific Growth Fund	**	21,702

* The fair value of the Plan's investment in the Federated Capital Preservation Fund was \$170,541 and \$103,273 at December 31, 2014 and 2013.

** Investment did not represent more than 5% of the Plan's net assets at year-end.

During the year ended December 31, 2014 and 2013, the Plan's mutual funds appreciated in value by \$3,319 and \$5,300, respectively.

NOTE D - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets.
- quoted prices for identical or similar assets or liabilities in inactive markets.
- inputs other than quoted prices that are observable for the asset or liability.
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net assets value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable value collective fund - The SVCF is stated at fair value and then adjusted to contract value. Fair value of the SVCF is measured as the net asset value (NAV) per unit based on the fair value of the underlying investments (primarily guaranteed investment contracts and synthetic investment contracts), and contract value is the principal plus accrued interest.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

Total investments at fair value	\$	310,388	\$ 103,273	\$ -	\$ 413,661

⁽¹⁾ The fund invests in short-term securities, investments in open-end registered investment companies, guaranteed investment contracts (traditional GICs), separate account guaranteed investment contracts (separate account GICs) and synthetic guaranteed investment contracts (synthetic GICs). The fund is appropriate for investors who want stable principal value. Participants may purchase units of the Fund daily based on the established unit value of \$10.00. Participants may redeem all or a portion of their investment in the fund on a daily basis.

NOTE E - STABLE VALUE COLLECTIVE FUND

A participant's ownership of the SVCF is represented by units. Units are issued and redeemed daily at the SVCF's constant net unit value (NUV) of \$10 per unit. The SVCF allows for daily liquidity with no additional notice required for redemption. Although it is the policy of the SVCF to use its best efforts to maintain a stable NUV of \$10 per unit, there is no guarantee that the SVCF will be able to maintain that value.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2014 and 2013

NOTE E - STABLE VALUE COLLECTIVE FUND - CONTINUED

Participants ordinarily may request the withdrawal or transfer of all or a portion of their investment in the SVCF at contract value. Contract value represents contributions made to the SVCF plus earnings less participant withdrawals and administrative expenses. Withdrawals initiated by the plan sponsor will normally be provided at contract value as soon as practicable within twelve months following written notice to the SVCF trustee. The SVCF imposes certain restrictions on the Plan.

Plan management believes the occurrence of events and circumstances that would cause the SVCF to transact at less than contract value is not probable.

The interest rate (also known as the crediting rate) is initially based on the yield of the underlying securities and changes based on the experience of the cash flow and market value of the underlying fixed-income securities. The key factors that influence future interest crediting rates for a separate account and synthetic GIC include: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the GIC; the investment returns generated by the fixed-income securities underlying the GIC; and the duration of the fixed-income securities underlying the GIC. Interest crediting rates are typically reset on a monthly or quarterly basis according to each GIC.

Dividends and interest on the SVCF were \$910 and \$385 for the year ended December 31, 2014 and 2013, respectively.

Information on the SVCF is as follows as of December 31:

	<u>2014</u>	<u>2013</u>
Average yield	1.10%	1.21%
Crediting rate	1.14%	1.46%

NOTE F - TAX STATUS

The Plan is based on a prototype plan which has received a determination letter from the Internal Revenue Service dated March 31, 2008 which stated the prototype plan is a qualified plan under the provisions of section 401(a) of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the plan administrator believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, no provisions have been made for income taxes.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is subject to income tax examinations for the 2014, 2013 and 2012 tax years.

On termination of the Plan, the plan administrator will liquidate all the assets held by the Plan. After payment of all expenses of liquidation, the assets will be distributed to the participants by the plan administrator in the manner and order set forth by ERISA. In the event of plan termination, participants would become 100% vested in their Company contributions.

NOTE I - PARTY-IN-INTEREST

Included in administrative expenses are fees paid to Bank of America, N.A. for recordkeeping and custodial services. These fees qualify as party-in-interest transactions.
