LENLYN LIMITED 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

1. DESCRIPTION OF PLAN:

The following description of the Lenlyn Limited ("Company") 401(k) Plan ("Plan") provides only general information with regard to the Plan. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan is a trusted profit sharing 401(k) salary deferred thrift plan covering all eligible employees of the Company who have one year of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was adopted on April 1, 1985, and reinstated December 1, 1997. The purpose of the Plan is to provide retirement benefits for the Company's employees. The Company's Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investments, monitors investment offerings, performance and reports to the Plan's Board of Trustees.

The Plan is intended to be a qualified defined contribution plan which satisfies the requirements of Section 401(k) of the Internal Revenue Code (the "Code"). Under the Code, participants are not liable for federal income taxes on employee contributions, Company contributions or plan earnings until such time as they are partially or completely withdrawn from the Plan.

Contributions

Contributions to the 401(k) Plan may consist of funds contributed by the Company, employees and rollover contributions. Participants may elect to contribute up to 100% of pretax annual compensation, as defined in the Plan. The Company provides a discretionary matching contribution not to exceed 3% of compensation, determined annually.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Plan earnings. Participant's accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefits that can be provided from the participant's vested account. All contributions made to these accounts are directed by the participant into a particular investment offered by the administrator and the allocations between investments can be changed at will.

1. DESCRIPTION OF PLAN:(Continued)

Vesting

Participants are fully vested after one year of service in their contributions plus actual earnings thereon.

Participant Notes Receivable

Participants may borrow from their fund accounts for a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest based on the prime rate of interest published by the Wall Street Journal as of the date of the loan, plus one percent. Principal and interest are paid ratably through payroll deductions.

Benefit Payments and Withdrawals

On termination of service, a participant may elect to receive a distribution equal to the vested portion of their account balance. The elections available are (a) an installment distribution, or (b) a lump sum distribution. For terminated participants whose account balance is less than $1,000 during the year ended December 31, 2014, the entire balance maybe distributed in the form of a lump sum payment at the election of the Trustee. Distributions are paid as soon as administratively practicable after the participant terminates. The Plan allows for in-service distributions. If a participant reaches 59 ½ years of age, the participant may take a pre-retirement distribution

Administrative Expenses

Non-investment costs and administrative expenses of the Plan are paid by the Company, which is a party-in-interest. These expenses, which are not reflected in the accompanying financial statements, constitute exempt party-in-interest transactions under ERISA. Most investment service fees are paid by the Plan and are offset against the related investment income.

Forfeited Accounts

At December 31, 2014, forfeited nonvested accounts totaled $0. In the event forfeitures occur, these accounts will be used to reduce future employer contributions. In 2014, employer contributions were not reduced from forfeited nonvested accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Plan Administration

The Company is the plan sponsor and plan administrator. The plan administrator is responsible for carrying out the duties under ERISA.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 4 for discussion of fair value measurement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. No liability has been recorded as of December 31, 2014.

Tax Status

The Internal Revenue Service has determined and informed the Company that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

Tax Status(Continued)

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for the years prior to 2011.

Administrative Expenses

Administrative expenses incurred by the custodian and asset management and advisory fees are paid from the assets of the Plan. Also, during the year ended December 31, 2014, the Company paid a significant amount of the Plan's operating expenses.

Reclassifications

Certain amounts in the 2013 financial statements may have been reclassified for comparative purposes to conform to the presentation in the 2014 financial statements.

Date of Management's Review

Subsequent events were evaluated through October 14, 2015, which is the date the financial statements were available to issue.

3. CONTRIBUTIONS:

Each year, participants may contribute up to 100% of pre-tax annual compensation, as defined in the Plan or the amount allowed by the Internal Revenue Service (whichever is less) through payroll deductions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

For discretionary matching contributions, the Company provides for a matching contribution not to exceed 3% of compensation. An annual matching contribution may be contributed at the discretion of the Company. Matching contributions of $74,659 were made for the year ended December 31, 2014. Company contributions are funded throughout the year.

4. INVESTMENTS AND FAIR VALUE MEASUREMENTS:

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the custodian as complete and accurate to the best of their knowledge, except for comparing such information certified by the custodian to the information included in the Plan's financial statements and supplemental schedule. Investments held and certified by the custodian in the accompanying statements of net assets available for benefits totaled $932,226 and $756,894 as of December 31, 2014 and 2013, respectively. Net investment profit certified in the accompanying statement of changes in net assets available for benefits was $51,697 for the year ended December 31, 2014.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are as described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or by other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

4. INVESTMENTS AND FAIR VALUE MEASUREMENTS:(Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may determine a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Level 1	Level 2	Level 3	Total
Mutual Funds	$932,226	$ 0	$ 0	$932,226

7. RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS:

Certain Plan investments are managed by Iron Financial. Iron Financial is the trustee and recordkeeper for the Plan and, therefore, these transactions qualify as party in interest transactions.

Effective January 1, 2014, Iron Financial provides certain administrative services to the Plan pursuant to a Master Plan Services Agreement (MSA) between the Company and Iron Financial. Iron Financial receives revenue from mutual fund service providers for services Iron Financial provides to the funds. This revenue is used to offset certain amounts owed to Iron Financial for its administrative services to the Plan.

If the revenue received by Iron Financial from such mutual fund or service providers exceeds the amount owed under the MSA, Iron Financial remits the excess to the Plan's trust on a quarterly basis. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of participants. During 2014 there were no excess amounts. The Plan or Plan Sponsor may make a payment to Iron Financial for administrative expenses not covered by revenue sharing.

8. CONTRIBUTION DISCONTINUATION AND/OR PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions, amend or terminate the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants are 100% vested in their accounts.

9. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED):

10. ERISA BOND REQUIREMENT:

The Employee Retirement Income Security Act of 1974 (ERISA) requires that every person who handles funds or other property of the Plan be bonded. The bond coverage is to be determined by the balance of the total Plan assets, and is required to be at least equal to the lesser of 10% of the Plan's assets at the beginning of the Plan year or $500,000. At December 31, 2014 and 2013, the Plan's sponsor maintained bond coverage in the amount of $55,000, which is below the amount required and not in compliance with the ERISA requirements.

11. EXPENSES OF THE PLAN:

The Company may pay administrative and trust expenses in whole or in part. All expenses not paid by the Company shall be paid by the Plan. The Company also pays the salaries of the administrators and other personnel who perform services for the Plan as part of their duties. These expenses are not recorded as Plan expenses. Administrative and trust expenses paid by the Plan amounted to $9,221 and $6,469 for the years ended December 31, 2014 and 2013 respectively.

12. RISKS AND UNCERTAINTIES:

The Plan provides for various funds that hold investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risk in the near term would materially affect participants' account balances and the amounts reported in the net assets available for benefits.
