Note 1—Description of Plan

The following brief description of the Charlotte Country Club, Inc. 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering substantially all employees of Charlotte Country Club, Inc. (the "Employer" or "Sponsor"). Employees must complete 1 year and 1,000 hours of service to be eligible to participate in the Plan. Employees are eligible for matching on the first day of the quarter after the employee completes one year of service and has attained age 21, as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Administration – The Plan is administered by the Sponsor, who has the overall responsibility and authority as the named fiduciary to manage and control the operations and administration of the Plan and may designate one or more individuals to perform those responsibilities. The Sponsor has outsourced the record keeping function of the Plan to Unified Trust Company, N.A. ("Unified Trust"), the trustee of the Plan.

In November 2014, the Board of Directors of Charlotte Country Club, Inc. executed an amendment effective January 1, 2015 to merge the Plan into another plan, the Club Retirement Plan. In conjunction with the merger, effective January 1, 2015, Unified Trust ceased to be the trustee of the Plan. Refer to Notes 5, 6, and 11 for additional information.

Contributions – For the year ended December 31, 2014, participants may contribute up to $17,500 of pre-tax annual eligible compensation subject to certain Internal Revenue Code ("IRC") limitations. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Matching contributions by the Sponsor are discretionary. During the year ended December 31, 2014, the Sponsor contributed 0.5% for each 1% of qualifying employee contributions with a maximum of 3% of the employees' eligible compensation.

The Sponsor may also make a discretionary profit-sharing contribution as determined annually by management. In order to share in the profit-sharing contributions, a participant must attain 21 years of age and have completed at least 1,000 hours of service during the year. Profit-sharing contributions are made pro-rata based on the participant's eligible compensation as a percentage of total eligible compensation. The Sponsor did not elect to make a profit-sharing contribution for the year ended December 31, 2014.

Catch-Up Contributions – For the year ended December 31, 2014, if a participant is eligible to make deferrals and turns 50 before the end of the calendar year, the participant may defer an additional $5,500 into the Plan as a pre-tax contribution subject to certain IRC limitations. Catch-up contributions are not eligible for Sponsor matching as defined by the Plan.

Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Sponsor's discretionary matching contribution, (b) the Sponsor's discretionary profit-sharing contribution, if any, and (c) Plan earnings, and charged with benefit payments and an allocation of Plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are fully vested immediately in their contributions, the Sponsor's discretionary matching and profit-sharing contributions, and actual earnings thereon.

Note 1—Description of Plan (continued)

Notes Receivable From Participants – Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest commensurate with local prevailing rates as determined by the Plan administrator. As of December 31, 2014, all outstanding loans bear interest at a rate of 5.25% with maturities through December 2019. Principal and interest are paid ratably through payroll deductions over a period of five years, unless borrowings are to acquire a principal residence, in which case, the repayment term may exceed five years.

Benefit Payments – Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or installments as defined by the Plan. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. A participant's vested account balance that is less than $1,000 will automatically be distributed as soon as administratively practicable following the participant's separation from service. Withdrawals prior to attaining age 59 ½ are not permitted, except in the event of retirement, disability, or as a hardship distribution. Upon proof, to the satisfaction of the Plan administrator, of an immediate and heavy financial need, amounts contributed may be withdrawn for a hardship purpose. Certain income tax penalties may apply to withdrawals or distributions prior to age 59 ½.

Note 2—Summary of significant accounting policies

Basis of Accounting – The accompanying financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Benefit Payments – Benefits paid to participants are recorded when paid.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses – As discussed in Note 8, certain Plan administration expenses are paid by the Plan. The Sponsor pays all other administrative expenses incurred by the Plan.

Risks and Uncertainties – Investments in general are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the levels of risk associated with certain investment securities it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 2—Summary of significant accounting policies (continued)

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. See Note 6 for further discussion of fair value measurements. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by GAAP, the statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when earned. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Note 3—Information certified by the trustee (unaudited)

The Sponsor has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Unified Trust, the trustee of the Plan, has certified to the completeness and accuracy of the following data included in the accompanying financial statements as of December 31, 2014 and 2013, and for the year ended December 31, 2014.

- Investments at fair value and contract value and non-interest bearing cash as shown in the statements of net assets available for benefits as of December 31, 2014 and 2013.
- Net appreciation in fair value of investments and interest income as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2014.

The Plan's independent auditors did not perform any auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4—Investments (unaudited)

The investments that represent 5 percent or more of the Plan's net assets available for benefits as of December 31, 2014 and 2013, are as follows:

	2014	2013
DFA US Large Cap Value	*	$ 167,392
Dodge and Cox Income Fund	*	199,983
Columbia Large Cap Index	*	142,024
Columbia Mid Cap Index	*	87,708
T Rowe Price Growth Stock	*	88,449
UTC Stable Value Trust (fair value of $0 and $202,156 as of December 31, 2014 and 2013, respectively)	*	197,186

*Investment did not represent 5% or more of the Plan's net assets available for benefits for the respective year listed.

Net appreciation associated with mutual funds amounted to $92,842 for the year ended December 31, 2014.

Note 5—Guaranteed interest account

Unified Trust Company, N.A., Stable Value Group Trust (the "Trust") is a collective trust fund established by Unified Trust for the purpose of investment and reinvestment of funds received and held by Unified Trust in its capacity as a fiduciary for pension, profit-sharing, and other employee benefit trusts.

The Trust's primary investment objectives are to seek income while preserving principal and provide daily liquidity at contract value for participant withdrawals and transfers. To help achieve these objectives, the Trust has entered into a guaranteed investment contract with a related wrapper contract ("GIC") with the Metropolitan Life Insurance Company ("MetLife"). In accordance with the guaranteed investment contract, the underlying investments are owned by MetLife in separate accounts maintained for plan participants. The wrapper contract obligates the wrapper provider to maintain the contract value of the underlying investments, thereby providing adequate liquidity to plan participants. All fluctuations in market value of the underlying investments are amortized over the duration of the underlying investments through adjustments to the future contract interest crediting rate. The wrapper contract further provides that the adjustments to the interest crediting rate will not result in an interest crediting rate that is less than zero.

The investment contract value was equal to contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants had the option to direct the withdrawal or transfer of all or a portion of their investment at contract value. In general, if the contract value of the wrapper agreement exceeded the market value of the underlying investments (including accrued interest), the wrapper provider became obligated to pay that difference in the event that unit holder redemptions result in total contract liquidation.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. Such interest rates were reviewed on a quarterly basis for resetting. The actual average yield earned by the Plan for the guaranteed interest account reported at fair value was 4.49% for the year ended December 31, 2014. The crediting rate to participants was 2.24% for the year ended December 31, 2014.

Certain events limited the Plan's ability to transact at contract value with Unified Trust. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the ERISA. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants occurred during the year ended December 31, 2014.

The guaranteed interest account contract did not permit the trustee to terminate the agreement prior to the scheduled maturity date. As discussed in Notes 1, 6, and 11, in preparation for the merger of the Plan into another plan effective January 1, 2015, the guaranteed interest account was sold.

Note 6—Fair value measurements

GAAP defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value.

Note 6—Fair value measurements (continued)

GAAP describes three levels of inputs that may be used to measure fair value as follows:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual Funds – Prior to the sale of these investments during the year ended December 31, 2014, these were public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV was based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV was a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

Guaranteed Interest Account – Prior to the sale of this investment during the year ended December 31, 2014, the UTC Stable Value Trust Fund was a benefit-responsive collective trust fund issued by Unified Trust. The fair value of the guaranteed interest account was the sum of the individual fair values assigned to the investment portfolio and the wrapper component of the contract. The fair value of the investment portfolio was based on the fair values assigned by Metlife to units in these pooled separate funds. For each fund, MetLife provided a daily net asset value based on the fair value determined for the individual assets comprising each fund. The individual investments within those funds were valued using a variety of inputs including quoted market prices, prevailing interest rates, prices of publicly-traded securities of similar quality if such assets lack quoted market prices and specific modeling techniques. The fair value of the wrapper component of the guaranteed interest account was determined by MetLife based on present value techniques utilizing prevailing interest rates. The formula consisted of 20 basis points of the average guaranteed contract value at year end discounted by the LIBOR swap rates for each of the trailing five years. Guaranteed interest contracts are not traded and significant other observable inputs are not available. Based on the significance of the use of unobservable inputs, the guaranteed interest account was classified within Level 3 of the valuation hierarchy and described further in Note 5.

The Plan believes the valuation methods are appropriate and consistent with other market participants; however, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As previously noted, in preparation for the merger of the Plan into another plan effective January 1, 2015, Unified Trust sold the Plan's investments and converted them to cash by December 31, 2014. Due to this transaction, the Plan's assets included $1,680,849 of non-interest bearing cash on December 31, 2014.

Note 6—Fair value measurements (continued)

Note 8—Party-in-interest transactions

Fees paid to Unified Trust by the Plan totaled $3,192 for the year ended December 31, 2014. Unified Trust is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions.

Note 9—Tax status

The Sponsor adopted a prototype standardized profit-sharing plan with a cash or deferral arrangement. The prototype plan received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008, which stated that the Plan is designed in accordance with applicable sections of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan has not received a determination letter specific to the Plan itself, however, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The Plan also has no income subject to unrelated business income tax and therefore continues to be tax exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to December 31, 2011.

Note 10—Plan termination

The Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their account balances. See Note 11 for further discussion.

Note 11—Subsequent events

Effective January 1, 2015, the Plan merged into the Club Retirement Plan and the participant accounts in the Charlotte Country Club, Inc. 401(K) Plan were transferred. The Club Retirement Plan is a multi-employer plan sponsored by the Club Managers Association of America. In conjunction with the merger, Great West Life & Annuity Company ("Great West") became the trustee of the Plan's assets within the Club Retirement Plan.

In preparation for the transfer of participant accounts to Great West, all investments held by Unified Trust were sold and converted to cash by December 31, 2014. The funds were transferred to Great West and were used to purchase investments similar to those previously invested under Unified Trust, as directed by the Club Retirement Plan investment policy and Plan participants.

The Plan has evaluated subsequent events through October 13, 2015, in connection with the preparation of these financial statements, which is the date the financial statements were available to be issued.
