1. THE PLAN

The following description of the Bast Hatfield Construction, LLC Savings and Retirement Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering substantially all employees of the company who have at least 1,000 hours of service and are age twenty-one or older. The plan entry date is the earlier of the first day of the plan year or the first day of the seventh month of the plan year coinciding with or next following the date the eligibility requirements are satisfied. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions and Contributions Receivable
All employees subject to certain qualifications are eligible to participate in the 401(k) portion of the savings and retirement plan. Employees can elect to defer from 1% up to 100% of their eligible compensation, subject to certain limitations, to their 401(k) accounts. Rollover contributions from other plans and certain IRA's are permitted.

The employer may make profit sharing or matching contributions for eligible employees. The amount of these contributions, if any, is determined annually by the Board of Directors of Bast Hatfield, Inc. in its sole discretion each year. The employer is not required to make any profit sharing or matching contributions for any year. In addition, participants terminated during the year are not eligible for the employer contributions.

For 2014, the employer declared a matching contribution of 5.80% of eligible 401(k) deferrals. For 2014, the employer also authorized a profit sharing contribution of $402,617, $2,617 of which was funded through forfeitures. For 2013, the employer declared a matching contribution of 6.19% of eligible 401(k) deferrals. For 2013, the Company authorized a profit sharing contribution of $82,461, $1,461 of which was funded through forfeitures.

At December 31, 2014 and 2013 the details of the employer portion of the contributions receivable were as follows:

	2014	2013
Employer profit sharing	$ 400,000	$ 81,000
Employer match	13,500	13,500
Total employer contribution receivable	$ 413,500	$ 94,500

1. THE PLAN (Continued)

Participant Accounts

Each participant's account is credited with the participant's contributions, along with an allocation of (a) the Company's contributions, and (b) Plan earnings/losses. Allocations are based on participant earnings or account balances, as defined. The entitled benefit is the participant's account balance subject to vesting.

Forfeited Accounts

For the years ended December 31, 2014 and 2013, forfeited amounts from non-vested accounts totaled $2,688 and $2,225, respectively. The balance of forfeited nonvested accounts is used to fund the employer contributions.

Vesting

Vesting in the companies' contributions, including profit sharing and the 401(k) match, plus earnings/losses thereon, is based on years of continuous service. A participant is 100 percent vested after six years of credited service. Participants are immediately vested in their voluntary contributions plus actual earnings/losses thereon.

Investment Options

Upon enrollment in the Plan, participants may direct up to 100% of their compensation into twenty different fund options through regulated investment companies. Participants may elect any desired incremental allocation of the offered fund options.

Individual account performance is a result of the investment election choices made by the participant. Participants may change their investment options daily.

Payment of Benefits

On termination of service, a participant will receive an amount equal to the value of the participant's vested interest in his or her account in a qualified joint and survivor annuity, if married, or a life annuity, if not married, unless an alternative form of payment is elected. Alternative forms of payment include lump-sum payment in cash, the purchase of a different form of annuity, or installments over a period of not more than the participant's (or the participant and their beneficiary's) assumed life expectancy.

Administrative Expenses

The majority of Plan administrative expenses are paid by the Plan. The primary administrative expenses incurred for 2014 and 2013 were investment advisory/management fees and professional fees.

Hardship Distributions

Hardship distributions may be made from a participant's accumulated salary deferrals to satisfy certain qualified immediate and heavy financial needs.

Notes Receivable from Participants

Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan transactions are treated as a transfer from the investment funds to the notes receivable from participants' fund. Loans are amortized over a period not to exceed 5 years unless intended for the purchase of a principal residence. The loans are secured by the vested balance in the participant's account and bear interest at a reasonable rate of interest, as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions, which cannot be less frequently than quarterly. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared in conformity with generally accepted accounting principles.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are stated at fair value based upon quoted market prices for mutual funds. Changes in the current value of investments, including unrealized and realized gains and losses on assets sold during the year, are reflected in the statement of changes in net assets available for benefits as appreciation or depreciation in the fair value of investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Risks and Uncertainties
The Plan provides for various investment options in a variety of investment securities. Investment securities are exposed to various risks, such as interest rate risk, financial market risk and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statement of net assets available for benefits.

Payment of Benefits
Benefits to terminated participants are recorded when paid.

Financial Instruments Measured at Fair Value
The Plan has financial instruments which are recorded at fair value in the accompanying statements of net assets available for benefits. The Plan makes estimates regarding the valuation of assets and liabilities measured at fair value in the financial statements. These assets and liabilities include the investments in mutual funds and money market funds.

Fair Value Measurement - Definition and Hierarchy
Generally accepted accounting principles define fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan uses various valuation techniques in determining fair value. Generally accepted accounting principles establish a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Plan. Unobservable inputs are inputs that reflect the Plan's assumptions about the assumptions market participants would use in pricing the asset or liability, developed based on the best information available in the circumstances.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial Instruments Measured at Fair Value (Continued)

Fair Value Measurement - Definition and Hierarchy (Continued)

The hierarchy is broken down into three levels based on the reliability of inputs as follows:

Level 1 Valuations based on quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access. Valuation adjustments are not applied to Level 1 instruments. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these products does not entail a significant degree of judgment.

The Plan's investments in money market and mutual funds are primarily valued utilizing Level 1 inputs.

Level 2 Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, directly or indirectly:

The Plan currently does not hold any Level 2 investments.

Level 3 Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

The Plan currently does not hold any Level 3 investments.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of nonobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Money market funds: Valued based on the quoted market price of the investments reported by TD Ameritrade Trust Company.

Mutual funds: Valued based on the quoted market price of the investments reported by TD Ameritrade Trust Company.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan was provided asset classification by the Plan trustee, TD Ameritrade Trust Company.

4. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows participants of the Plan to invest in TD Bank MMDA Institutional fund, which is managed by TD Ameritrade Trust Company, the trustee of the Plan and has allowed employees who are participants to receive loans under specific circumstances. As such, transactions between the participants investing in TD Bank MMDA Institutional fund and participants with loans and the Plan qualify as party-in-interest transactions.

5. INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

Schedule of Assets (Held at End of Year) Schedule I

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7. TAX STATUS

The Plan is tax-exempt under Section 401(b)(3) of the Internal Revenue Code. The Plan obtained its latest determination letter on September 21, 2010, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

For employee benefit plans, their tax-exempt status itself is deemed to be an uncertainty, since events could potentially occur to jeopardize their tax-exempt status. As of December 31, 2014 and 2013 the Plan does not have a liability for unrecognized tax benefits. The Plan files the Annual Return/Report of Employee Benefit Plan (Form 5500) in the U.S. federal jurisdiction. The Plan is no longer subject to U.S. federal tax examinations for years before 2011.

8. SUBSEQUENT EVENTS

Subsequent events have been evaluated through October 9, 2015, which is the date the financial statements were available to be issued.
