Note 1. Description of Plan

The following description of the DAATA 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan, covering substantially all employees of Lasership, Inc.; Laser Courier, Inc.; Laser Courier of Maryland; Mahmoud, Inc.; Laser, Inc.; and DAATA Management, Inc. (the Companies) who have three months of service. DAATA Holdings, LLC was dissolved effective 1/1/2011 and therefore no longer participates in the plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants may contribute between 2% and 75% of their pretax annual compensation and up to 100% of bonus compensation as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants direct their contributions and the Companies' contributions to selected investments as made available and determined by the plan administrator. The Companies may make matching contributions equal to a discretionary percentage of a participant's deferral. For the years ended December 31, 2014 and 2013 the employer match was 25% of the first 5% of base compensation that a participant contributed. The Plan has a one-year service requirement for matching contributions. Contributions are subject to certain limitations.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus earnings or minus losses thereon. Vesting in the Companies contribution portion of their accounts is based on years of continuous service. A participant begins vesting at 20% per year after two years of credited service and is 100% vested after six years of credited service. Upon death or total and permanent disability, a participant becomes 100% vested.

Payment of Benefits - Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, installments over a period determined by the participant's life expectancy, or partial withdrawals provided the minimum is $1,000. If the total value of a participant's vested account balance is $1,000 or less, the Plan Administrator may require a distribution of the entire account balance in a lump sum. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

LANIGAN RYAN MALCOLM & DOYLE PC
Potential. Performance. Profit.

Note 1. Description of Plan (continued)

Forfeited Accounts - Forfeited nonvested accounts totaled $2,715 and $556 at December 31, 2014 and 2013, respectively. These accounts can be used to pay administrative expenses or reduce employer contributions. Any remaining forfeitures are allocated to participants as an additional discretionary employee contribution. During the year ended December 31, 2014, $2,804 of forfeitures were used to offset employer contributions.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan have been prepared using the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributed to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Excess Contributions and Match Payable – Amounts payable to participants for contributions and match in excess of amounts permitted by the IRS are reported as a liability with a corresponding reduction to contributions and match.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - The Plan's administrative expenses are paid by either the Plan or Plan Sponsor as provided by the Plan document.

Subsequent Events - The Plan has evaluated subsequent events through October 5, 2015, the date the financial statements were available to be issued.

Note 3. Accounting Changes

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II early.

Note 4. Investments

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $233,003 as follows:

Mutual funds	$ 226,355
Stable value fund	6,648
	$ 233,003

LANIGAN RYAN MALCOLM & DOYLE PC
Potential. Performance. Profit.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; and • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Note 5. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2014 and 2013:

	Fair Value Measurements at December 31, 2014			
	Level 1	*Level 2*	*Level 3*	*Total*
Mutual funds	$ 5,285,331	$ -	$ -	$ 5,285,331

	Fair Value Measurements at December 31, 2013			
	Level 1	*Level 2*	*Level 3*	*Total*
Mutual funds	$ 4,909,414	$ -	$ -	$ 4,909,414

Note 6. Information Prepared and Certified by Custodian

The following information included in the Statements of Net Assets Available for Benefits and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by John Hancock Life Insurance Company (U.S.A.):

	December 31,	
	2014	2013
Investments	$ 5,351,720	$ 4,949,422
Cash	2,715	556

The following information included in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2014 was obtained from data that has been prepared and certified as complete and accurate by John Hancock Life Insurance Company (U.S.A.):

Net appreciation	$233,003

Note 7. Investment Contract with Insurance Company

The Plan maintains a stable value investment contract with John Hancock Life Insurance Company (John Hancock). John Hancock maintains the contributions invested in the Guaranteed Interest Account in a general fund account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specific interest rate that is guaranteed to the Plan.

Potential. Performance. Profit.

Note 7. Investment Contract with Insurance Company (continued)

As described in Note 2, because the stable value investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the stable value investment contract. Contract value, as reported to the Plan by John Hancock, represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The following information included in the Statements of Net Assets Available for Benefits totals the contract value by type of fully benefit-responsive investment contract:

	December 31,	
	2014	2013
Stable value fund	$ 66,389	$ 40,008

Note 8. Party in Interest Transactions

Certain plan investments are managed by John Hancock Retirement Plan Services, the custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest. Usual and customary fees were paid for the investment management services.

Note 9. Plan Termination

Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become one hundred percent vested in their accounts.

Note 10. Tax Status

The Plan adopted a non-standardized form of a prototype plan sponsored by Dixon, Hughes, Goodman, LLP. The prototype plan has received an opinion letter, dated March 31, 2008, from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this plan. The Plan has been amended since the date of this determination letter. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code, and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Note 10. Tax Status (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 11. Contributions

Contributions received from the plan participants and sponsor for 2014 are net of payments of $62,032 and $12,331, respectively. These amounts represent excess contributions and match made to accounts of highly compensated employees, which were refunded in 2015 in order to satisfy relevant nondiscrimination provisions of the Plan. The amount is also included in the Plan's statement of net assets available for benefits as excess contributions payable and excess match payable at December 31, 2014. Excess contributions payable at December 31, 2013 was $9,993.

Note 12. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31,	
	2014	2013
Net assets available for benefits per the financial statements	$ 5,280,072	$ 4,939,985
Excess contributions payable	62,032	9,993
Excess match payable	12,331	-
Benefit responsive adjustment	-	6,648
Net assets available for benefits per the Form 5500	$ 5,354,435	$ 4,956,626

Note 12. Reconciliation of Financial Statements to Form 5500 (continued)

The following is a reconciliation of the net increase on the financial statements and Schedule H, part II of the Form 5500:

Year Ended	December 31, 2014
Net increase per the financial statements	$ 340,087
Excess employee contributions at December 31, 2014	62,032
Excess employer match at December 31, 2014	12,331
Corrective distribution	(9,993)
Change in benefit responsive adjustment	(6,648)
Net increase per the Form 5500	$ 397,809

Note 13. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
