(1) Description of plan

The following description of the Fiberweb Washougal, Inc. Retirement Plan for Hourly Employees at Washougal (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

The Plan was established on April 4, 1990, and was amended and restated on January 1, 2000, as the result of a spin-off from the James River II, Inc. Retirement Plan in connection with the acquisition of the James River Corporation Nonwovens Division by Holvis USA, Inc. In 1996, BBA Group PLC purchased the business from Holvis USA, Inc. On November 17, 2006, BBA Group PLC's Fiberweb division demerged from the parent company and listed its shares separately on the London Stock Exchange. Fiberweb Washougal, Inc. (the "Company"), a wholly-owned subsidiary of Fiberweb PLC, is the Plan Sponsor.

Effective January 31, 2010, the Plan's management approved an amendment to freeze plan operations. This amendment resulted in a cessation of benefit accruals under the Plan, and no additional participants are allowed to enter or re-enter the Plan as of the effective date.

(a) General

The Plan is a non-contributory defined benefit plan that provides pension, disability and death benefits to those hourly employees at the Washougal, Washington ("Washougal") location whose terms and conditions of employment are governed by a collective bargaining agreement, which specifies the employees' participation in this plan. Eligible employees include all hourly employees at Washougal who have completed one year of service and have attained the age of 21 by January 31, 2010.

All contributions to the Plan are made by the Plan Sponsor based upon recommendations of a consulting actuary in an amount necessary to meet the minimum funding requirements of ERISA. Contributions by the Plan Sponsor are irrevocable and may be used only for the benefit of the participants and their beneficiaries. According to the Plan's consulting actuary, the minimum funding requirements under ERISA have been met as of December 31, 2014 and 2013.

(b) Vesting

A participant becomes 100% vested in his or her accrued retirement benefit after five years of service. Effective January 31, 2010, each participant who was not fully vested under the Plan became fully vested in his or her accrued plan benefit.

Notes to the Financial Statements

December 31, 2014 and 2013

(c) Payment of benefits

The Plan generally provides for normal retirement at age 65; however, at the request of the Company, a participant may remain in the employment of the Company after his or her normal retirement date, thereby deferring his or her retirement benefits. The Plan also provides for early retirement at age 55 if a participant has completed at least ten years of service.

The Plan provides for payments of retirement, disability and death benefits to participants or beneficiaries under various payment options. The determination of benefit payments depends primarily on average earnings and years of service by an employee, as outlined in the plan document.

(d) Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. The majority of administrative expenses are paid by the Plan. Certain fees incurred by the Plan are netted within net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment from the Plan.

(e) Plan termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the plan agreement to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, assets of the Plan would be allocated to participants in order of preference as specified by Section 4044 of ERISA.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

Any residual assets shall be distributed to the Plan Sponsor if all liabilities under the Plan to participants, their spouses and other beneficiaries have been satisfied.

(2) Summary of significant accounting policies

(a) Basis of accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

(b) Recently issued accounting standards

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)*, ("ASU 2015-07"). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for entities (other than public business entities) for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted. Management is currently evaluating the impact of this standard.

In July 2015, the FASB issued ASU 2015-12, *"Plan Accounting: Defined Benefit Pension Plan (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient."* ASU No. 2015-12 simplifies accounting for employee benefit plans as follows:

Part I

- fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value and accordingly removes the requirement to reconcile their contract value to fair value,

Part II

- the requirement to disclose investments that represent 5 percent or more of net assets available for benefits has been eliminated,
- the net appreciation or depreciation in investments for the period should be presented in the aggregate, but are no longer required to be disaggregated and disclosed by general type,
- it eliminates the requirement to disclose the investment strategy for certain investments that are measured using Net Asset Value ("NAV") per share using the practical expedient in the FASB ASC Topic 820,

FIBERWEB WASHOUGAL, INC. RETIREMENT PLAN
FOR HOURLY EMPLOYEES AT WASHOUGAL

Notes to the Financial Statements

December 31, 2014 and 2013

Part III

- provides a practical expedient to permit employee benefit plans to measure investments and investment-related accounts as of the month-end that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end, while requiring certain additional disclosures.

The amendments in Parts I and II of this standard are effective retrospectively for fiscal years beginning after December 15, 2015 and early adoption is permitted. The amendments in Part III of this standard are effective prospectively for fiscal years beginning after December 15, 2015 and early adoption is permitted. Management of the Plan is currently evaluating the impact of this standard.

(c) Non-interest bearing cash

The Plan's trustee places temporary cash with high credit qualify financial institutions. At times such investments may be in excess of the Federal Deposit Insurance Corporation ("FDIC") insurance limit.

(d) Investment valuation and income recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date.

(e) Payment of benefits

Benefits are recorded when paid.

(f) Accumulated plan benefits

Accumulated plan benefits are future periodic payments that are attributable to service participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who are deceased, and (c) present participants or their beneficiaries. The Plan's benefits are based on years of service and normal hourly pay rate, as defined in the plan document. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included, to the extent they are deemed attributable to participant service rendered, as of the valuation date.

The actuarial present value of accumulated plan benefits is determined by a consulting actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

FIBERWEB WASHOUGAL, INC. RETIREMENT PLAN
FOR HOURLY EMPLOYEES AT WASHOUGAL

Notes to the Financial Statements

December 31, 2014 and 2013

Actuarially estimated Plan costs are computed using the Projected Unit Credit Cost Method.

The significant actuarial assumptions used in the valuation as of January 1, 2014 were (a) life expectancy of participants (RP-2014 Aggregate Mortality table Fully Generational Under Scale MP-2014), (b) retirement age assumption is age 65, adjusted for early retirement, and (c) a discount rate of 5.9%. Except for a reduction in the discount rate from 6.0% to 5.9% and the change in mortality tables from the IRS Prescribed RP-2000 mortality tables, there were no significant changes in actuarial assumptions in the January 1, 2014 valuation.

The actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different assumptions might be applicable in determining the actuarial present value of accumulated plan benefits.

(g) Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

(h) Events occurring after reporting date

The Plan's management has evaluated events and transactions that occurred between December 31, 2014 and October 12, 2015, which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

(3) Summary of information certified by custodian

(4) Fair value measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

- (i) *Bonds*: Valued at the closing price reported on the active market on which the individual securities are traded.
- (ii) *Mutual funds*: Valued at the net asset value of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(5) Investments and investment income

The fair value of investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2014 and 2013 are as follows:

	<u>2014</u>	<u>2013</u>
Vanguard 500 Index (Fd Admiral)	\$ <u>971,048</u>	**
Franklin Mutual Glob Disc Z	**	\$ <u>926,428</u>
Dreyfus Prime Cash Management	**	\$ <u>5,910,695</u>

** Investment does not represent 5% or more of the Plan's net assets available for benefits at the respective date.

During 2014 and 2013, the Plan's investments (including investments purchased, sold and held during the year) appreciated (depreciated) as follows:

	<u>2014</u>	<u>2013</u>
Mutual funds	\$ (39,408)	\$ 359,543
Bonds	<u>1,418,909</u>	<u>(500,956)</u>
	\$ <u>1,379,501</u>	\$ <u>(141,413)</u>

(6) Income tax status

The Plan obtained a favorable determination letter from the Internal Revenue Service ("IRS") on October 25, 2011, stating that the Plan and related trust are in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan is required to operate in conformity with the IRC to maintain its qualification. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

Notes to the Financial Statements

(7) Related party transactions

The Plan's non-interest bearing cash is held by New York Life Investment Management and certain Plan investments are shares of mutual funds managed by New York Life Investment Management, an affiliate of New York Life Trust Company, the custodian of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Additionally, administrative expenses were paid to the custodian amounting to \$43,087 and \$23,039 in 2014 and 2013, respectively. During the years ended December 31, 2014 and 2013, the Company provided the Plan with certain accounting and administrative services for which no fees were charged.

(8) Risks and uncertainties

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

The actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

3rd Segment Rate	6.99%
Retirement Age	
Terminated Vested Participants	Age 65
Mortality Rates	
Healthy and Disabled	Generational Mortality Table in accordance with §1.430(h)(3)
Decrement Timing	Beginning of year decrements, with 100% retirement occurring at beginning of year

Preretirement Death Benefit
