FIELDTURF USA
401(k) PLAN
Notes to Financial Statements
December 31, 2014 and 2013

Note 1. Description of the Plan

The following description of the FieldTurf USA 401(k) Plan Profit Sharing Plan and Trust (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan consists of profit sharing and 401(k) features. The profit sharing feature is a discretionary defined contribution profit sharing plan covering all employees. The 401(k) feature includes elective employee salary deferrals and employer matching contribution features. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA).

Contributions. Under the 401(k) feature, participants may contribute up to the maximum allowed by law. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make qualified nonelective contributions and/or matching contributions to the Plan each Plan year based on a discretionary formula in an amount determined by the Company.

Participant Accounts. Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution, (b) Plan earnings and, (c) forfeitures of terminated participants' non-vested accounts. Allocation of the Company's contributions are made in the ratio which each participant's compensation for the applicable Plan year bears to the total compensation of all participants for such Plan year. Allocation of Plan earnings are based on participant account balances.

Eligibility. After an employee has been with the Company for more than three months, the employee becomes eligible for the Plan on the first day of the following month. Once past the initial eligibility period, an employee is eligible to share in the Company contributions each year.

Vesting. Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Participants are also immediately vested in the Company's contribution portion of their accounts. As a result, there are no forfeitures to allocate among participant accounts.

See independent auditors' report.

FIELDTURF USA
401(k) PLAN
Notes to Financial Statements
December 31, 2014 and 2013

Note 1. Description of the Plan (continued)

Notes Receivable From Participants. Participants may borrow from their fund accounts an amount not less than \$1,000 and not to exceed \$50,000 or one-half of the value of the vested portion of the participant's account balance. The loans are secured by the balance in the participant's account and bear interest at a rate of 4.25% which is commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid ratably through payroll deductions. The plan charges a small processing and handling fee to participants who borrow from their accounts.

Payment of Benefits. On termination of service due to death, disability, participant's termination of employment, or Company termination of the Plan, the participant will receive a lump-sum payment equal to the value of the participant's vested interest in his or her account. If a participant receives a distribution prior to the age of 59 1/2, a 20% tax withholding will apply to the distribution. If the participant terminates employment with the Company prior to age 59 1/2, an additional 10% penalty tax will apply. If the participant's vested balance is less than \$5,000 at normal retirement age, defined as age 65, the participant will receive a single lump-sum payment of his or her account within 90 days after the Plan year in which he or she becomes eligible to receive it. If the vested balance is more than \$5,000, a written request must be submitted to the Plan Administrator for payment. Payment will be made no later than 90 days after the close of the Plan year in which the written request is received by the Plan Administrator. Benefits may be left in the Plan but participants must begin taking minimum distributions at age 70 1/2. Participants receive a 100% distribution by April 1 of the year following the Plan year in which they turn 70 1/2 and are retired.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting. The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits. Benefits are recorded when paid.

Plan Expenses: Investment expenses and commissions are paid by the Plan. Other administrative expenses and professional fees are typically paid by the Plan sponsor.

See independent auditors' report.

FIELDTURF USA
401(k) PLAN
Notes to Financial Statements
December 31, 2014 and 2013

Note 2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants. Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent notes receivable from participants are reported as deemed distributions to the participant for tax purposes. For financial reporting purposes, the note continues to accrue interest until paid or offset against future benefit payments.

Risk and Uncertainties. The Plan provides for various investment options. These investments are exposed to various risks, such as interest rate, prepayment, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in value of investment securities, it is at least reasonably possible that changes in risks in the near-term could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statements of changes in net assets available for plan benefits.

Administration of Plan Assets. The Plan's assets are held by Nationwide Financial Services, Inc., the Trustee of the Plan. Approximately 40 and 44 percent of the total assets as of December 31, 2014 and 2013, respectively, were invested in registered investment company funds managed by Nationwide. See supplemental Schedule of Assets.

Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan.

Subsequent Events. The Plan has evaluated subsequent events through October 14, 2015, the date which the financial statements were available to be issued.

See independent auditors' report.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered Investment Company Funds. Valued at the quoted net asset value of the units or shares held by the plan at year end. These values were certified by the plan Trustee pursuant to 29 CFR Section 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

See independent auditors' report.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may direct.

Note 6. Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and therefore, believe that the Plan is qualifies, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by The Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.
