401(k) Plan

Notes to Financial Statements

1. Description of Plan

The following description of the Delaware North Companies 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General – The Plan is a defined contribution plan sponsored by Delaware North Companies, Incorporated (“Plan Sponsor” or the “Company”). The Company also administers the Plan, which provides benefits to eligible employees of the Company and affiliated employers, as defined in the Plan document.

As defined in the Plan document, full time employees of the Company and affiliated employers are eligible to participate in the Plan following the completion of three months of participation service and upon reaching age twenty-one. All other employees of the Company and affiliated employers are eligible to participate in the Plan following the completion of one year of service and upon reaching age twenty-one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) and the Internal Revenue Code (the “Code”).

Contributions – The majority of participants may elect to contribute between 1% and 20% of their annual compensation limited to the amount imposed by law. In addition, certain unions are eligible to make voluntary after-tax contributions between 1% and 10%, not to exceed the amount imposed by law. Participants age 50 or older may also elect to make a catch-up contribution limited to the amount imposed by law. Participants may also contribute amounts representing distributions (i.e., rollovers) from other qualified plans. Rollover contributions totaled \$141,321 and \$0 for the years ended December 31, 2014 and 2013, respectively.

The Company analyzed all participant contributions and loan payments remitted to the Plan’s trustees during 2014 to determine the timeliness of the deposit of such contributions with the date that such contributions may be reasonably segregated from the Company’s plan assets. At December 31, 2014, the Company has funded all contributions that were required. However, the Company determined that certain contributions funded during 2014 could be perceived as delinquent when funded totaling \$9,598,091. The Company complied with the requirements specified with the Voluntary Fiduciary Correction Program under the United States Department of Labor in calculating and funding any lost earnings and interest on such contributions. Such lost earnings were funded in the year ending December 31, 2014.

In accordance with the Plan document, the Company matches 100% of each plan participant’s voluntary contribution up to 3%, plus 50% of a participant’s voluntary contribution from over 3% to 5%. Participants are eligible to participate in the Company match after one year of completed service. Such contributions comply with the Plan’s safe harbor provisions. The Company may also make non elective profit-sharing contributions at its discretion in accordance with the Plan Document. No profit-sharing contributions were made for the years ended December 31, 2014 and 2013.

Delaware North Companies
401(k) Plan
Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Participant Accounts – Individual accounts are maintained for each Plan participant. Participant accounts are increased by participant contributions, Company contributions, transfers from other plans, and earnings on the participant-directed investments. Participant accounts are decreased by participant distributions, transfers to other plans, losses on the participant-directed investments and certain administrative expenses, if applicable. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately fully vested in their salary deferral, rollover contributions, safe harbor basic matching contributions, and actual earnings thereon. The non-elective allocated Company contribution vests 33% after three years of participation service, 67% after four, and 100% after five years. All Company contributions are fully vested upon the occurrence of certain events which include completion of the required participation service, attainment of normal retirement age, death or permanent disability.

Payment of Benefits – Upon termination of service due to retirement, death, disability, or as required by law, a participant may elect to receive installment distributions or a lump-sum distribution in an amount equal to the vested value of their account. The Plan permits in-service distributions for participants older than age 59½. Hardship withdrawals, as defined by the Code, are available to participants only from their deferral contributions account. If a hardship withdrawal is made, participants' eligibility to make contributions to the Plan is suspended for six months.

Notes Receivable from Participants – Participants are permitted to borrow a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms shall not exceed 5 years or a maximum of 10 years for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at the prime rate plus 1%. Principal and interest are required to be repaid in equal installments over the term of the loan.

Notes receivable from participants are measured at their unpaid principal balance plus any unpaid accrued interest. Principal and interest is paid ratably through each payroll deduction. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Tax Status – The Plan received its latest determination letter from the Internal Revenue Service ("IRS") dated May 13, 2005, stating that the Plan, as then designed, is in compliance with the applicable requirements of the IRS. The Plan has been amended subsequent to the IRS determination letter. However, the Plan administrator believes that the Plan is operating in compliance with the requirements of the Code. Therefore, the Plan is qualified and the related trust is tax exempt. Accordingly, no provision for income taxes has been included in the accompanying financial statements.

401(k) Plan
Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress. The Company's management is not aware of any uncertain tax positions that would cause the Plan to lose its tax status or to otherwise be subject to other taxes or penalties.

Forfeitures – The non-vested balances of participant accounts for those participants who have ceased employment with the Company or an affiliated employer are forfeited upon the occurrence of a one-year break in service. At the Plan Sponsor's discretion, forfeitures arising during any plan year may be used to reduce the Company's contributions and pay the Plan's administrative expenses. Forfeitures totaled \$11,015 and \$18,540 during the years ended December 31, 2014 and 2013, respectively.

Plan Termination – Although it has not expressed any intent to do so, the Plan Sponsor has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts as of the effective date of termination.

2. Summary of Significant Accounting Policies

Basis of Accounting – The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

As described within Financial Accounting Standards Board Accounting Standards Codification Topic 946, *Financial Services – Investment Companies* (the "Topic"), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the Topic, the Statements of Net Assets Available for Benefits should present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared using the contract value basis for fully-benefit responsive investment contracts.

Investment Valuation and Income Recognition – The Plan's investments consist of mutual funds and a common/collective trust. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end. Units held in the common/collective trust consist of holdings in fully benefit-responsive investment contracts and are reported at fair value and are adjusted to contract value in the accompanying Statements of Net Assets Available for Benefits.

Delaware North Companies
401(k) Plan
Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

The Plan presents in the accompanying Statements of Changes in Net Assets Available for Benefits the net appreciation in the fair value of its investments which consists of the realized net gains and the unrealized net appreciation of those investments. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – Substantially all expenses of the Plan including investment advisory, legal expenses and audit fees are funded as a percentage of total assets under the provisions of the Plan. Loan maintenance and setup fees are paid directly from participant accounts.

Party-in-Interest Transactions – Certain Plan investments are shares of mutual funds and units of a common/collective trust managed by New York Life Trust Company (“New York Life”). New York Life is the Plan trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Reliance Trust Company, the Plan’s former trustee through March 2014, managed certain investments previously held by the Plan and as such transactions relating to these investments also qualify as party-in-interest transactions.

Risks and Uncertainties – Investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Subsequent Events – The Plan has evaluated subsequent events, for recognition or disclosure through October 13, 2015, the date the accompanying financial statements were available to be issued.

3. Information Certified by the Trustees (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustees have certified that the following data included in the accompanying financial statements and supplemental information is complete and accurate.

Individual investments that have met or exceeded 5% of the Plan's net assets at December 31, 2014 or 2013, respectively, have been separately identified:

3. Information Certified by the Trustees (Unaudited) (continued)

During 2014 and 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	<u>2014</u>	<u>2013</u>
Investment income:		
Interest and dividends	\$ 3,793,014	\$ 5,858,271
Net appreciation (depreciation) in fair value of investments:

	<u>7,498,771</u>	<u>20,018,690</u>
	<u>\$ 11,291,785</u>	<u>\$ 25,876,961</u>

4. Fair Value Measurements

The schedule below provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 Inputs – Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that are accessible at the measurement date.
- Level 2 Inputs – Quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in markets that are not active. This level also includes inputs other than quoted prices that are observable, either directly or indirectly, for substantially the full term through corroboration with observable, independent market data. This includes investments valued at quoted prices adjusted for legal or contractual restrictions specific to the security.

Delaware North Companies
401(k) Plan
Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

- Level 3 Inputs – Pricing inputs are unobservable for the asset or liability. That is, inputs that reflect the reporting entity’s own assumptions about the assumptions that market participants would use in pricing the asset or liability. There were no assets of the Plan that utilized Level 3 inputs as its primary basis for calculating fair value as of December 31, 2014 and 2013.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level within the fair value hierarchy, the Plan’s assets at fair value as of December 31, 2014 and 2013:

	<u>2014</u>	<u>2013</u>
Level 1:		
Mutual funds	\$ 161,098,693	\$ 149,445,464
Level 2:		
Common/collective trusts	<u>15,905,066</u>	<u>16,889,817</u>
	<u>\$ 177,003,759</u>	<u>\$ 166,335,281</u>

5. Fully Benefit-Responsive Investment Contract

The Plan maintains a fully benefit-responsive investment contract (the “Contract”) with New York Life. The Contract is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the Contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Contract. The Contract is presented on the face of the Statements of Net Assets Available for Benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by New York Life, represents contributions made under the Contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.
