Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

To the Participants and Administrator of the
Johnson Controls Pension Plans:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Johnson Controls Pension Plans (the "Plans" as defined in Note 1), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the statements of accumulated plan benefits as of January 1, 2014 and 2013, and the related statements' of changes in net assets available for benefits and of changes in accumulated plan benefits for the respective years then ended, the related notes to the financial statements, and the supplemental schedules as listed in the table of contents.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by U.S. Bank, N.A., the trustee of the Plan, except for comparing the information with the related information included in the 2014 financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2014 and 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules as listed in the accompanying table of contents, as of and for the year ended December 31, 2014 are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended, and are presented for the purpose of additional analyses and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended.

York International Corporation Miller-Picking Pension Plan (York Plan 23 - Plan 031)	Nonunion employees of the Miller-Picking Hattiesburg, MS and Johnstown, PA locations

VESTING

Vesting is measured either by the hours of service or by elapsed time. The method used depends on the specific provision in each pension plan. Generally, after 5 years of vesting service, under either method, the employee's pension is 100% vested.

FUNDING POLICY

The Company's funding policy is to make contributions to the Plans in amounts that meet or exceed the minimum amounts required by ERISA. The Company's contributions for the years ended December 31, 2014 and 2013 met or exceeded the ERISA required minimum amounts.

Although it has not expressed any intention to do so, the Company has the right under the Plans to discontinue its contributions at any time and to terminate the Plans subject to the provisions set forth in ERISA.

ADMINISTRATIVE EXPENSES

Administrative expenses are paid by the Plans, as allowed by the Plans' provisions, with all remaining expenses paid by the Company.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

The accompanying financial statements are prepared on the accrual basis of accounting.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

JOHNSON CONTROLS MASTER PENSION TRUST

The Company has entered into a master trust agreement with U.S. Bank, N.A. (the "Trustee"). Under the agreement, the Plans participate under a master trust arrangement whereby all the assets of the Plans are pooled and invested in one or more investment accounts.

The Master Trust holds investments in short-term securities, U.S. government securities, bonds, mutual and pooled equity funds, and common stocks as of December 31, 2014 and 2013.

The Company requires collateral at a minimum of 102% of the value of any securities lending transactions.

Each plan's interest in the investments of the Master Trust is evidenced by units of participation, as no plan has a right, title or ownership of any of the specific assets in the Master Trust. In accordance with the master trust agreement, net investment income or loss of the Master Trust is prorated to each participating plan in proportion to the number of units held by each plan. Plan participation in the Master Trust is adjusted as required to reflect benefit payments to the Plans' participants and for Company contributions.

*The JCIM US, LLC plan, which is included in the Master Trust, has a June 30 year end. As such, a separate report is prepared for each plan year.

The statements of financial position as of December 31, 2014 and 2013 and the statement of operations and changes in participating Plans' equity of the Master Trust for the year ended December 31, 2014 are presented in Note 9.

DATE OF MANAGEMENT'S REVIEW

Management has evaluated subsequent events, shown in Note 11, through October 9, 2015, the date which the financial statements were available to be issued.

NOTE 3 - INVESTMENTS

Assets of the Plans, with the exception of accrued administrative expenses as shown in the statements of net assets available for benefits, investment income as shown in the statements of changes in net assets available for benefits and the Master Trust financial information appearing in Note 9, have been derived from information prepared and certified as complete and accurate by the Trustee, in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 4 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plans' benefit provisions based on employees' years of service. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits. The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment. The actuarial assumptions used for the January 1, 2014 and 2013 valuations are based on the Standard Unit Credit Cost Method for all Plans. The current actuarial assumptions are based on the presumption that the Plans will continue. If the Plans were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

JOHNSON CONTROLS, INC. PENSION PLANS
NOTES TO THE FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2014 AND 2013

The actuarial present value of accumulated plan benefits is determined by Aon Hewitt.

The significant actuarial assumptions used in the valuations at January 1, 2014 and 2013 were as follows:

<u>Description</u>	<u>Assumption</u>	
Retirement Age	Varies based on the probability of retirement social security retirement age of 65 to 67, with 100% at age 70.	
Mortality Rates	<u>2014:</u> 2014 Static Mortality Table for annuitants and non-annuitants. <u>2013:</u> 2013 Static Mortality Table for annuitants and non-annuitants.	
Withdrawal Rates	A graduated scale from higher to lower as years of service increase.	
Disability Rates	A graduated scale from lower to higher as age advances.	
Interest Rates	<u>2014:</u> Based on segment rates with a four month lookback (as of September 2013), as follows: 1st Segment Rate - 4.99% 2nd Segment Rate - 6.32% 3rd Segment Rate - 6.99%	<u>2013:</u> Based on segment rates with a four month lookback (as of September 2012), as follows: 1st Segment Rate - 4.94% 2nd Segment Rate - 6.15% 3rd Segment Rate - 6.76%

NOTE 5 - TAX STATUS

The Company has received favorable determination letters from the IRS as to the qualified status of the Plans under the Internal Revenue Code ("IRC") and these plans are, therefore, exempt from federal income taxes. Some of the Plans have been amended since receiving the determination letters. However, the Plan administrator believes that all the Plans are currently designed and being operated in compliance with applicable requirements of the IRC.

U.S. GAAP requires the Plans' management to evaluate tax positions taken by the Plans and recognize a tax liability if the Company has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or Department of Labor. The plan administrator has analyzed the tax positions taken by the Plans, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plans are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6 - PLAN TERMINATION

The Company anticipates and believes the Plans will continue without interruption but reserves the right to discontinue any plan at any time in accordance with the respective plan provisions and provisions set forth in ERISA. In the event of a plan termination or permanent discontinuance of contributions to a plan, the assets of the plan will be distributed in accordance with the requirements of 29 CFR 4044 of ERISA.

Certain benefits under the Plans are insured by the Pension Benefit Guaranty Corporation ("PBGC"), a U.S. government agency, in the event of Plan termination. The net assets of the Plans will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before termination.
2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plans. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
3. Other vested benefits insured by the PBGC up to the applicable limitations.
4. All other vested benefits (not insured by the PBGC).
5. All non-vested benefits.

JOHNSON CONTROLS, INC. PENSION PLANS
NOTES TO THE FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2014 AND 2013

Certain benefits under the Plans are insured by the PBGC if the Plans terminate. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plans, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plans are guaranteed at the level in effect on the date of the Plans' termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2015, that ceiling is \$5,011 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants, or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should a plan terminate at some future time will depend on the sufficiency, at that time, of the plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan's sponsor and the level of benefits guaranteed by the PBGC.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Transactions involving the account administered by the Trustee and the funds of the investment managers for the Plans are considered party-in-interest transactions. These transactions are not, however, considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plans' investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the values of investments, it is at least reasonably possible that changes in risks in the near term would materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the value of accumulated plan benefits.

NOTE 10 - FAIR VALUE MEASUREMENTS

Accounting Standards Codification (ASC) 820, "Fair Value Measurement," defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 also establishes a three-level fair value hierarchy that prioritizes information used in developing assumptions when pricing an asset or liability as follows:

- Level 1: Observable inputs such as quoted prices in active markets;
- Level 2: Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3: Unobservable inputs where there is little or no market data, which requires the reporting entity to develop its own assumptions.

ASC 820 requires the use of observable market data, when available, in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2014 and 2013:

Assets at Fair Value as of				
December 31, 2014				
	Level 1	Level 2	Level 3	Total
Fixed Income Fund	\$ 931,859,942	\$ 185,528,634	\$ —	\$ 1,117,388,576

Hedge Fund	—	—	3,586,994	3,586,994
Total assets at fair value	<u>\$ 2,001,969,210</u>	<u>\$ 185,528,634</u>	<u>\$ 302,740,902</u>	<u>\$ 2,490,238,746</u>

Assets at Fair Value as of				
December 31, 2013				
	Level 1	Level 2	Level 3	Total
Fixed Income Fund	\$ 874,689,838	\$ 200,791,835	\$ —	\$ 1,075,481,673
Equity Investments	1,329,425,288	—	—	1,329,425,288
Investment in Real Estate	—	—	274,427,961	274,427,961
Hedge Fund	—	—	17,532,448	17,532,448
Total assets at fair value	<u>\$ 2,204,115,126</u>	<u>\$ 200,791,835</u>	<u>\$ 291,960,409</u>	<u>\$ 2,696,867,370</u>

Following is a description of the valuation methodologies used for assets measured at fair value:

Fixed Income Fund: The fair value for the fixed income securities is determined by direct or indirect quoted market prices. If the direct quoted market prices are utilized, the securities publish daily their net asset value (NAV) after the close of trading on regulated financial exchanges. The NAV represents the current market value of the fund's holdings after deducting the fund's liabilities. If the indirect quoted market prices are utilized, the value of assets held in separate accounts is not published, but the investment managers report daily the underlying holdings. The underlying holdings are direct quoted market prices on regulated financial exchanges. During 2014, the pricing methodologies used by certain funds were clarified for reporting under the fair value hierarchy. As a result, those investments are now classified as Level 2 compared to the previous classification of Level 1. All Fixed Income Fund amounts classified as Level 2 at December 31, 2014 and 2013 were transferred from the Level 1 Fixed Income Funds.

Equity Investments: The fair value for the equity investments is determined by direct or indirect quoted market prices. If the indirect quoted market prices are utilized, the value of assets held in separate accounts is not published, but the investment managers report daily the underlying holdings. The underlying holdings are direct quoted market prices on regulated financial exchanges.

JOHNSON CONTROLS, INC. PENSION PLANS
NOTES TO THE FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2014 AND 2013

Investments in Real Estate: The fair value of investments in real estate is deemed Level 3 since these investments do not have a readily determinable fair value and requires the fund managers independently to arrive at fair value by calculating net asset value (NAV) per share. In order to calculate net asset value per share, the fund managers value the real estate investments using any one, or a combination of, the following methods: independent third party appraisals, discounted cash flow analysis of net cash flows projected to be generated by the investment and recent sales of comparable investments. Assumptions used to revalue the properties are updated every quarter.

Due to the fact that the fund managers calculate net asset value per share, the Company utilizes a practical expedient for measuring the fair value of its Level 3 real-estate investments, as provided for under ASC 820, Fair Value Measurements and Disclosures. In applying the practical expedient, the Company is not required to further adjust the net asset value provided by the fund manager in order to determine the fair value of its investment as the net asset value per share is calculated in a manner consistent with the measurement principles of Topic 946 and as of the Company's measurement date. The Company believes this is an appropriate methodology to obtain the fair value of these assets. For the component of the real estate portfolio under development, the investments are carried at cost until they are completed and valued by a third party appraiser.

Hedge Fund: The fair value of the hedge funds is accounted for by a custodian. The custodian obtains valuations from underlying managers based on market quotes for the most liquid assets and alternative methods for assets that do not have sufficient trading activity to derive prices. The Company and custodian review the methods used by the underlying managers to value the assets. The Company believes that the appropriate methodology is used to obtain valuations that are as close as possible to the fair value of the assets. Significant increases (decreases) in any of these inputs in isolation would result in a significantly lower (higher) fair value measurement.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plans believe the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The fair values of other assets and liabilities approximate their carrying values.

The table below sets forth a summary of changes in the fair value of the Master Trust's Level 3 assets for the years ended December 31, 2014 and 2013:

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes from the prior year:

- A change in the salary increase assumption applicable to the minimum funding target normal cost from an age graded table to an age graded table that better anticipates actual plan experience.
- A change in the salary increase assumption applicable to the maximum tax expected benefit increase from an age graded table to an age graded table that better anticipates actual plan experience.
- A change in the optional payment form election percentage for retirement eligible employees from 45% elect the single life annuity and 55% elect the joint and 75% survivor annuity to 22% elect the single life annuity, 18% elect the joint and 75% survivor annuity, and 60% elect a lump sum.
- A change in the optional payment form election percentage for nonretirement eligible employees from 45% elect the single life annuity and 55% elect the joint and 75% survivor annuity to 16% elect the single life annuity, 14% elect the joint and 75% survivor annuity, and 70% elect a lump sum.
- A change in the retirement rates assumption for active participants to rates that better reflect anticipated future experience (the average retirement age remains age 63).
- A change in the withdrawal rates to better reflect anticipated future experience as the result of an assumption study.

These changes were made to better reflect the anticipated plan experience. The funding assumption changes did not reduce the funding shortfall more than the thresholds stated in Internal Revenue Code Section 430(h)(5), so approval of the Commissioner is not required.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes from the prior year:

- A change in the salary increase assumption applicable to the minimum funding target normal cost from an age graded table to an age graded table that better anticipates actual plan experience.
- A change in the salary increase assumption applicable to the maximum tax expected benefit increase from an age graded table to an age graded table that better anticipates actual plan experience.
- A change in the optional payment form election percentage for retirement eligible employees from 45% elect the single life annuity and 55% elect the joint and 75% survivor annuity to 22% elect the single life annuity, 18% elect the joint and 75% survivor annuity, and 60% elect a lump sum.
- A change in the optional payment form election percentage for nonretirement eligible employees from 45% elect the single life annuity and 55% elect the joint and 75% survivor annuity to 16% elect the single life annuity, 14% elect the joint and 75% survivor annuity, and 70% elect a lump sum.
- A change in the retirement rates assumption for active participants to rates that better reflect anticipated future experience (the average retirement age remains age 63).
- A change in the withdrawal rates to better reflect anticipated future experience as the result of an assumption study.

These changes were made to better reflect the anticipated plan experience. The funding assumption changes did not reduce the funding shortfall more than the thresholds stated in Internal Revenue Code Section 430(h)(5), so approval of the Commissioner is not required.
