INDEPENDENT AUDITORS' REPORT

To the Administrative Committee
Integrated Medical Systems International, Inc.
401(k) Profit Sharing Plan
Birmingham, Alabama

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Integrated Medical Systems International, Inc. 401(k) Profit Sharing and Trust (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2013 (ongoing), the statement of net assets available for benefits as of December 31, 2014 (in liquidation), the related statement of changes in net assets available for benefits for the year ended December 31, 2014 (in liquidation), and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Charles Schwab Bank, the trustee of the Plan, except for comparing the information with the related information included in the

financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2014 and 2013 and for the year ended December 31, 2014, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets held is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Basis of Accounting

As described in Note A to the financial statements, the Board of Directors of Integrated Medical Systems International, Inc. (the Plan's sponsor), approved the termination of the Plan effective May 8, 2014. In accordance with accounting principles generally accepted in the United States of America, the Plan has changed its basis of accounting used to determine the amounts at which investments and the accumulated benefit information are stated, from the ongoing plan basis used in presenting the 2013 financial statements to the liquidation basis used in presenting the 2014 financial statements. Our opinion is not modified with respect to that matter.

Note A - Description of Plan

The following description of the Integrated Medical Systems International, Inc. (the Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan established by Integrated Medical Systems International, Inc. (the Sponsor) under the provisions of Section 401(a) of the Internal Revenue Code (IRC), which includes a qualified cash or deferred arrangement as described in Section 401 (k) of the IRC; for the benefit of eligible employees of the Sponsor. To be eligible to participate in the Plan, an employee must have attained eighteen (18) years of age or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Plan Termination. The Plan was terminated effective May 8, 2014. No new participant contributions were made to the Plan after May 8, 2014. Active participants became fully vested in their accounts on this date and were eligible for a lump sum distribution.

In accordance with accounting principles generally accepted in the United States of America, the Plan has changed its basis of accounting from the ongoing plan basis to the liquidation basis on May 8, 2014. The liquidation basis of Plan assets approximates fair value.

Prior to the termination of the Plan, the following provisions applied:

Contributions. Eligible employees may elect to contribute up to 87 percent of pretax annual compensation, as defined by the Plan, subject to certain limitations under the Internal Revenue Code, with the contributions and earnings thereon being nontaxable, until withdrawn from the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. For the years ended December 31, 2014 and 2013, the Sponsor made a matching contribution of 40 percent of the first six percent of base compensation which a participant contributed to the Plan.

Participants' Accounts. Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions and related employer matching contributions, as well as an allocation of plan earnings. The allocation of plan earnings is based on the proportion that each participant's account balance has to the total of all participants' account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note A - Description of Plan - Continued

Notes Receivables from Participants. Participants may borrow from their vested account balance up to the lesser of $50,000 or 50 percent of their account balance. The minimum loan amount is $1,000. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 9.25%. Loans provide for a fixed rate of interest equal to the prime interest rate plus one percent. The Plan Administrator determines whether the interest rate is commercially reasonable at the time it approves the loan. The loan must provide at least quarterly payments under a level amortization schedule not to exceed five years. If the purpose of the loan is to acquire a primary residence of the participant, the period of repayment may not exceed 15 years. Only one loan may be outstanding at any time. Principal and interest are paid through payroll deductions.

Forfeitures. Forfeitures by non-vested participants first reduce the Plan's ordinary and necessary administration expenses for the Plan year and any remaining forfeitures offset the matching contribution and reduce non-elective contributions. At December 31, 2014 and 2013, forfeited nonvested accounts totaled $53,057 and $23,246, respectively.

Payment of Benefits. Upon termination of service due to death, disability, retirement or separation of service, a participant may elect to receive either a lump-sum distribution equal to the participant's vested interest in his or her account or installment payments under various options. The Plan also permits withdrawals due to circumstances of financial hardship, in accordance with provisions specified in the Plan document.

Vesting. Participants are immediately vested in their employee deferral contributions plus net earnings and losses thereon. Vesting in the Company contribution portion of their accounts plus earnings thereon is based on years of service. Participants become 100 percent vested in Company contributions after six years of service.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of Integrated Medical Systems International, Inc. 401(k) Profit Sharing Plan (the Plan) have been prepared in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant attribute for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the

Note B - Summary of Significant Accounting Policies - Continued

amount participants would receive if they were to initiate permitted transactions under the terms of the underlying defined-contribution plans. The statement of net assets available for benefits presents the fair value of the investment as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Financial Statement Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investments and Investment Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Interest income is recorded when received. The loans are secured by the balance in the participant's account and bear interest rates which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by Internal Revenue Service are recorded as a liability with corresponding reduction to contributions. The Plan distributed the 2014 excess contributions to the applicable participants prior to March 15, 2015.

Note B - Summary of Significant Accounting Policies - Continued

Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses recorded in the Plan represent investment advisory, professional and other recordkeeping fees paid directly from the Plan. Investment advisory and professional fees are paid from forfeitures. Loan fees and other administrative fees related to benefit payments and contract administration are deducted directly from the participants' accounts.

Evaluation of Subsequent Events

The Plan's management has evaluated subsequent events through October 14, 2015, which is the date the financial statements were available to be issued. Management reported that Integrated Medical Systems International Inc. was bought by STERIS Corporation effective May 9, 2014 and the Plan was terminated effective May 8, 2014. Plan assets will be liquidated and distributed to participants. Termination distributions began in 2014 and have continued in 2015.

Note C - Information Certified by the Trustee (Unaudited)

Other than the self-directed investment account, the fair value of the stable value fund, and the related adjustments from fair value to contract value for fully benefit-responsive investment contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2014 and 2013, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2014, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Charles Schwab Bank, trustees of the Plan. The contract value of the stable value fund was certified by the trustee.

Note D - Fair Value Measurements

FASB ASC Section 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs consist of unadjusted quoted prices for identical assets in active markets that the plan has the ability to access.

Level 2 – Inputs consist of 1) quoted prices for similar assets in active markets, 2) quoted prices for identical or similar assets in inactive markets, 3) inputs other than quoted prices that are observable, and 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term.

Level 3 – Inputs consist of unobservable inputs where there is little or no market activity, and the reporting entity makes estimates and assumptions related to the pricing of the asset including assumptions regarding risk.

The assets fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Cash: Carrying value approximates fair value.

Mutual Funds and Equity Securities: Valued at the daily closing price which represent the net asset value (NAV) of the shares held.

Stable Value Fund: Valued at the net asset value of its underlying investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note D - Fair Value Measurements - Continued

The following table presents, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013:

Mutual Funds	$ 578,558
Self-Directed Account	1,236
Stable Value Fund	(2,245)
	$ 577,549

Note F - Fully Benefit-Responsive Investment Contract - Stable Value Fund

For the years ended December 31, 2014 and 2013, the Plan's investment in the Morley Stable Value Fund qualifies as a fully-benefit responsive investment contract. Generally, the term "fully benefit-responsive" describes the contract's guarantee that (1) the crediting rate provided under the contract will not fall below zero and (2) participant-initiated withdrawals from the fund will be covered at contract value.

For the years ended December 31, 2014 and 2013, the Plan reported its investment in the Morley Stable Value Fund, a fully benefit-responsive investment contract, in accordance with the FASB Accounting Standards Codification. Per the ASC, investments held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit-responsive

Note F - Fully Benefit-Responsive Investment Contract - Stable Value Fund - Continued

required by the ASC, the statement of net assets available for benefits presents the fair value of the investment as well as the adjustment of the fully benefit-responsive investment contract from fair investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the underlying defined- contribution plans. As value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

The fair value of the Morley Stable Value Fund at December 31, 2014 and 2013 was $463,345 and $534,102 respectively. The contract value of the Morley Stable Value Fund at December 31, 2014 and 2013 was $459,358 and $532,360 respectively. Average yield based on actual earnings as of December 31, 2014 and 2013 was 1.80% and 1.39%, respectively.

Note G - Plan Termination

Effective May 9, 2014 Integrated Medical Systems International Inc. was purchased by STERIS Corporation and the Plan was terminated on May 8, 2014. As a result, all participant balances became fully vested.

Note H - Related Party Transaction and Party in Interest Transactions

Certain members of management and the Plan Administrator are eligible participants who have made elective deferrals to the Plan; therefore, these transactions qualify as party-in-interest transactions.

Note I - Plan Tax Status

The Plan uses an Internal Revenue Service approved prototype plan document which exempts the Plan from federal income taxes under Section 401 of the Internal Revenue Code. The Plan is amended as required to comply with the latest changes in pension law. No provision for income taxes is included in these financial statements.

The Plan follows accounting standards relating to uncertainty of income tax positions. The Plan administrator has assessed whether there were any uncertain tax positions that may give rise to income tax liabilities and determined that there were no such matters requiring recognition in the accompanying financial statements. The Plan files information returns under U.S. federal jurisdiction. With few exceptions, the Plan is no longer subject to U.S. federal tax examinations for years before 2011.

Note J - Risks and Uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the values of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note K - Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits and changes in net assets available for benefits per the financial statements to Form 5500 at December 31:

	2014	2013
Net assets available for benefits per Form 5500	$ 16,101,021	$ 20,911,802
