Report on the Financial Statements

We have audited the accompanying financial statements of the Pactiv Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

(Continued)

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of December 31, 2014, and changes therein for the year then ended, and its financial status as of December 31, 2013, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The information included in the 2014 supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Schedule SB Attachment (Form 5500)—2014 Plan Year
Pactiv Retirement Plan
EIN: 36-2552989 PN: 031

Schedule SB, line 9—Explanation of Credit Balance Discrepancy

The amount in line 8 will not match previous year line 35 due to the Highway and Transportation Funding Act (HATFA) of 2014. The Plan sponsor elected to revoke $14,327,592 of funding balance as of January 1, 2014 previously elected to apply to the 2013 plan year minimum required contribution prior to the end of 2014. Therefore the amount of funding balance applied to the 2013 plan year was reduced from $63,357,942 to $51,325,027.

Pactiv Retirement Plan
EIN: 36-2552989 PN: 031

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the cash balance interest crediting rate from 1.68% to 2.74%.
- The retirement rates have been updated for Salaried and Case Hourly groups.
- A change in the retirement age for the terminated vested group who is assumed to retire at age 60 to age 62.

These changes were made to better reflect the anticipated plan experience. Neither of these assumption changes reduced the funding shortfall; as such, approval of the Commissioner is not required.

Schedule SB, line 15—Reconciliation of Differences Between Valuation Results and Amounts Used to Calculate AFTAP

The 2014 AFTAP for the Plan was originally issued December 19, 2014 based on the Funding Target measured under the Highway and Transportation Act of 2014 (HATFA) and reflecting smoothed value of assets. The 2014 AFTAP was recertified on April 06, 2015 for a change in the asset method from smoothed value to market value, as approved by the IRS in a private letter ruled dated on December 23, 2014. However, the change in the 2014 AFTAP was not material. The inputs used in each certification are outlined below:

Report on the Financial Statements

We have audited the accompanying financial statements of the Pactiv Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of December 31, 2014, and changes therein for the year then ended, and its financial status as of December 31, 2013, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The information included in the 2014 supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Pactiv Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined benefit pension plan that covers hourly and salaried employees of Pactiv LLC (the "Company") who have met the service requirements as defined in the plan document.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is administered by the Reynolds Services, Inc. Benefits Administration Committee (the "Committee"). State Street Bank and Trust Company was the trustee of the Plan and held Plan assets through October 31, 2013. Effective November 1, 2013, The Northern Trust Company became trustee of the Plan. The Plan was restated effective January 1, 2014.

Employees with five or more years of service are entitled to monthly pension benefits beginning at the normal retirement age (65). Certain participants who meet specific age, vesting, and/or participation requirements may be eligible to commence their benefit as early as age 55. Generally, married participants receive their pension benefit in the form of a 50% joint and survivor annuity, and single participants receive a single life annuity unless otherwise elected.

Generally, the monthly pension benefit payable to salaried participants is based on the participant's years of benefit service and the average of a participant's final five years of compensation. The monthly pension benefit for hourly participants is based on the participant's years of benefit service and a benefit rate as specified in the covered group's supplement.

Effective January 1, 2003, the Plan was amended to add a cash balance formula. Newly hired or rehired salaried employees and employees who transferred to a salaried position on or after January 1, 2003, were immediately eligible to participate in the Plan. The cash balance formula provides for a hypothetical individual account to be maintained for each participant. Participants' accounts are updated with monthly pay and interest credits. Pay credits are based on age and eligible pay. Interest credits are based on the rate for the 10-year U.S. Treasury Constant Maturities in effect as of the August of the preceding plan year. Participants are 100% vested in their cash balance accounts after three years of service.

In certain circumstances, pension benefits are payable when an active employee dies or becomes totally and permanently disabled.

Effective October 31, 2010, all active/leave of absence and long-term disability salaried participants who were accruing benefits using the final average pay formula had their benefit accruals under that formula frozen. All affected participants, excluding long-term disability participants, started accruing additional benefits under the existing cash balance formula effective November 1, 2010.

Effective December 31, 2011, all salaried and non-union hourly participants had their benefit accruals under their respective benefit formulas frozen. No additional benefit accruals for the affected participants will occur on or after January 1, 2012.

Effective December 31, 2012, all union hourly participants with the exception of Plattsburgh (Supplement A62) had their benefit accruals under the hourly formula frozen. No additional benefit accrual for the affected participants will occur on or after January 1, 2013.

(Continued)

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Pactiv General Employee Benefit Trust: A portion of the Plan's investments are in the Pactiv General Employee Benefit Trust ("GEBT") which was established for the investment of assets of the Plan and other defined benefit pension plans sponsored by the Company. The net assets of the GEBT are held by The Northern Trust Company ("Trustee"). State Street Bank and Trust Company held the assets of the GEBT through October 31, 2013. The Northern Trust Company held the assets of the GEBT effective November 1, 2013. All net assets of the GEBT and income and expense of the GEBT are allocated to the Plan. As of December 31, 2014 and 2013, the Plan's interest in the net assets of the GEBT was 100%.

Administrative and Investment Management Expenses: The trustee fees and investment management fees are paid by the GEBT and are reflected in the financial statements of the GEBT as a reduction of investment return and included in the investment income (loss) reported by the GEBT. Any fees related to investment contracts are debited to the Plan. Certain expenses of the Plan are paid by the Company.

Transfers from Other Plans: Effective July 31, 2014, the Graham Packaging Plastic Products, Inc. Hourly Union Retirement Plan and the Graham Packaging Company United Electrical Radio and Machine Workers of America Local 1421 Members Employees of Santa Ana, California Plant Pension Plan were merged into the Plan. The transfer of $22,882,403 in net assets of the Graham Packaging Plastic Products, Inc. Hourly Union Retirement Plan and $3,617,295 in net assets of the Graham Packaging Company United Electrical Radio and Machine Workers of America Local 1421 Members Employees of Santa Ana, California Plant Pension Plan into the Plan was completed on August 1, 2014. As a result of these mergers the accumulated plan benefits of the Graham Packaging Plastic Products, Inc. Hourly Union Retirement Plan and the Graham Packaging Company United Electrical Radio and Machine Workers of America Local 1421 Members Employees of Santa Ana, California Plant Pension Plan transferred into the Plan effective July 31, 2014. The accumulated plan benefit obligations of the Graham Packaging Plastic Products, Inc. Hourly Union Retirement Plan and the Graham Packaging Company United Electrical Radio and Machine Workers of America Local 1421 Members Employees of Santa Ana, California Plant Pension Plan will first be reflected as in increase in the Plan's accumulated plan benefits for the year ended December 31, 2014.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements are presented on the accrual basis of accounting.

Adoption of New Accounting Standards: In May and July 2015, the Financial Accounting Standards Board ("FASB") amended various disclosure requirements applicable to investments held by defined benefit pension plans. These new standards eliminate or simplify various disclosure requirements applicable to plan investments. Adoption of these new standards resulted in the removal of investments for which fair value is measured at net asset value (or its equivalent) from the fair value hierarchy, the reporting of investments within the fair value hierarchy by general type rather than by classes of investments, and other changes in investment disclosure requirements. The Plan elected to early adopt these standards, each of which requires retrospective application to all periods presented. The adoption of these standards had no effect on the Plan's net assets available for benefits or changes therein.

Payment of Benefits: Benefits are recorded when paid.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition: The Plan's investment in the GEBT is stated at fair value. The Plan's investment in investment contracts is reported at estimated fair value, which Plan management has determined is equivalent to contract value (Level 3 fair value measurement inputs)**.** Purchases and sales of securities are recorded on a trade-date basis. Net investment income (loss) of the GEBT is allocated to the Plan based upon its interest in net assets of the GEBT. Interest income on investment contracts is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the GEBT's gains and losses on investments bought and sold as well as held during the year.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimates of the actuarial present value of accumulated plan benefits and the fair values of the Plan's interest in the GEBT.

Fair Value of Other Financial Instruments: The fair value of the contributions receivable approximates carrying value due to its short-term duration.

Reclassifications: Some items in the prior year financial statements and footnote disclosures were reclassified to conform to the current presentation. Reclassifications had no effect on prior year net assets available for benefits or the prior year net increase in net assets available for benefits.

NOTE 3 - RISK AND UNCERTAINTIES

The Plan and the GEBT invests in various investments and derivative instruments. Investments and derivative instruments are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments and derivative instruments, it is at least reasonably possible that changes in the values of investments and derivatives will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

End of year	$ 3,824,881,820	$ 3,849,843,355

Option Contracts: The GEBT invests in option contracts. An option contract is a contract in which the writer of the option grants the buyer of the option the right to purchase from (call option), or sell to (put option), the writer a designated instrument at a specified price within a specified period of time. Certain options, including options on indexes, will require cash settlement by the Trust if the option is exercised. The Trust may enter into put or call option contracts in order to hedge against potential adverse price movements in the value of the portfolio assets, as a temporary substitute for selling selected investments; to lock in the purchase price of a security or currency that it expects to purchase in the near future, as a temporary substitute for the purchase of selected investments; and to enhance potential gain. The Trust usually does not employ leverage in its use of options; thus, cash balances are usually maintained at a level at least equal to the underlying index exposure of the option contracts.

When the Trust purchases or writes an option, an amount equal to the premium paid or received by the Trust is recorded as an asset or liability and is subsequently adjusted to the current fair value of the option purchased or written. Gain and loss is recognized when the option contract expires or is closed.

If the Trust writes a covered call option, the Trust foregoes, in exchange for the premium, the opportunity to profit during the option period from an increase in the value of the underlying security above the exercise price. If the Trust writes a put option, it accepts the risk of a decline in the value of the underlying security below the exercise price. The Trust's maximum exposure to purchased options is limited to the premium initially paid. In addition, certain risks may arise upon entering into option contracts prior to the expiration date, and a change in value of the option contract may not correlate exactly with changes in the value of the securities or currencies hedged. The GEBT purchases and sells options through counterparties. At December 31, 2014 and 2013, there was collateral of $256,207,614 and $130,595,407, respectively, related to these derivative instruments outstanding, which is classified as Restricted Cash in the Master Trust disclosures above.

NOTE 4 - INVESTMENT IN PACTIV GENERAL EMPLOYEE BENEFIT TRUST (Continued)

The Trust's open written options on equity indexes as of December 31, 2014 are summarized as follows:

Positions	Number of Contracts	Fair Value
Long positions	9,530	$ 174,789,210
Short positions	20,233	(74,762,497)
Total	29,763	$ 100,026,713

The Trust's open written options on equity indexes as of December 31, 2013 are summarized as follows:

Positions	Number of Contracts	Fair Value
Long positions	5,616	$ 74,126,770
Short positions	10,562	(39,166,720)
Total	16,178	$ 34,960,050

NOTE 5 - FUNDS HELD BY INSURANCE CARRIERS

The Plan owns various investment contracts, which provide a funding vehicle for certain participants' benefits. As these participants retire and elect to receive their accrued benefits, these contracts are reduced by the cost of the specified benefit. For those participants who elect to receive an annuity contract upon retirement, an annuity is issued to the individual by the insurance company, which then assumes the liability for the retiring participants' monthly benefits.

NOTE 6 - ACCUMULATED PLAN BENEFITS

Actuarial Present Value of Accumulated Plan Benefits: Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability withdrawal, or retirement) between the valuation date and the expected date of payment.

(Continued)

NOTE 6 - ACCUMULATED PLAN BENEFITS (Continued)

The actuarial present value of accumulated plan benefits as of December 31, 2013, as determined by the Plan's actuary, is as follows:

Vested benefits:	
Participants and beneficiaries currently receiving payments	$ 3,236,411,714
Participants with deferred benefits	1,258,910,219
Nonvested benefits	18,050,403
Total actuarial present value of accumulated plan benefits	$ 4,513,372,336

Changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2013, are as follows:

Actuarial present value of accumulated plan benefits as of December 31, 2012	$ 4,545,821,313
Increase during the year attributable to:	
Benefits accumulated and plan experience	73,329,218
Interest	172,376,972
Assumption changes	21,625,649
Benefits paid	(299,780,816)
Net decrease	(32,448,977)
Actuarial present value of accumulated plan benefits as of December 31, 2013	$ 4,513,372,336

Significant actuarial assumptions used in the valuation as of December 31, 2013 and 2012, are as follows:

Interest rate	2013: 4.70% 2012: 3.92%
Mortality rates	2013: RP-2014 mortality table for employees and healthy annuitants (with a fully generational projection using scale MP-2014) and RP-2014 disabled retirement mortality table (with a fully generational projection using scale MP-2014) 2012: 2013 Static Mortality Table for annuitants and non-annuitants and RP2000 Disabled Retiree Mortality Table
Cash balance account interest rates	2013: 2.74% 2012: 1.68%

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the accumulated plan benefits. An actuarial valuation of the Plan's accumulated plan benefits as of December 31, 2014 has not yet been completed.

NOTE 7 - INCOME TAX STATUS

The Plan received a determination letter from the Internal Revenue Service ("IRS") dated September 3, 2015, stating that the Plan is qualified under the applicable requirements of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. The Plan is required to operate in conformity with the Code to maintain its qualified status. Although the Plan has been amended since receiving the determination letter, Plan management and the Committee believe that the Plan is designed and being operated in compliance with the applicable requirements of the Code. Therefore, they believe that the Plan was qualified and that the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011**.**

NOTE 8 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan and the GEBT for an asset or paid by the Plan and the GEBT to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's and the GEBT's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan and the GEBT has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's and the GEBT's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

(Continued)

NOTE 8 - FAIR VALUE MEASUREMENTS (Continued)

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan and those held as underlying investments of the GEBT.

Plan Interest in GEBT: The fair value of the Plan's interest in the GEBT reflects the Plan's interest in the fair value of the underlying net assets of the GEBT.

Interest-bearing Funds – Fair values are estimated to approximate deposit account balances, payable on demand, as no discounts for credit quality or liquidity were determined to be applicable (Level 1 inputs).

Common Stocks – The fair values of common stocks are determined by obtaining quoted prices on nationally and internationally recognized securities exchanges (Level 1 inputs).

Fixed Income Securities – Corporate bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings (Level 2 inputs). When quoted prices are not available for identical or similar bonds, the bond is valued using matrix pricing, a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2 inputs). Government securities, agency-backed bonds and asset-backed securities are valued based on evaluation methodology where prices are based on a compilation of primary observable market information, the value is imputed based on the conversion ratio and other security specific information, or a broker quote in a non-active market (Level 2 inputs).

Limited Partnerships – The investments in limited partnerships are at estimated fair value based on undistributed partners' capital as audited by each limited partnership's independent auditors. The fair value is calculated based on the fair value of underlying securities, which include investments in equity of privately held companies as well as publicly traded companies. In general, fair values of publicly traded companies are based on the closing price quoted on a public exchange as of the last day of the reporting period. Fair values of privately held companies are based on reviewing the price of recent transactions or by calculating the fair value using a variety of industry-accepted techniques. The investment objectives of the technology limited partnerships are to make venture capital investments in equity-oriented securities of privately held companies. While there are no redemption restrictions on these investments, the underlying investments are traded infrequently or not at all. The investment objective of the real estate partnership is to actively manage a core portfolio of primarily equity real estate investments located in the United States. Redemptions are restricted to the end of each calendar quarter.

Collective Trusts – The fair value of participation units owned by the GEBT in collective trusts is based on the net asset values per unit as reported by the fund managers as of the Plan's financial statement dates and recent transaction prices. The international collective trusts provide for monthly redemptions at reported net asset values per share, with no advance notice requirement. The short term collective trust provides for daily redemptions at reported net asset value per share, with no advance notice requirements. The investment objective of the real estate collective trusts is to provide a high, stable income stream with potential for moderate capital appreciation. The real estate collective trusts invest in real estate assets consistent with the collective trusts' strategy for long term growth. The strategic property collective trust may be redeemed once per quarter subject to available cash, as determined by the collective trust's trustee. A written withdrawal request is required 45 days prior to quarter end. To the extent that withdrawal requests exceed available cash, distributions are made on a pro rata

(Continued)

NOTE 8 - FAIR VALUE MEASUREMENTS (Continued)

basis. The REIT collective trust provides for quarterly redemptions. Redemption requests must be received in writing 45 days prior to the end of the quarter. If the REIT collective trust is unable satisfy all redemption requests, partial redemptions may be made on a pro-rata basis in proportion to the total number of shares held by each shareholder that has submitted a redemption request.

Derivatives: Exchange-traded derivative instruments are valued using last trade date price. (Level 1 inputs).

NOTE 9 - FUNDING POLICY

Employer contributions to the Plan are made in amounts approved by the Company's Board of Directors. Such contribution amounts must adhere to or exceed the minimum funding requirements under ERISA, as determined by the Plan's actuary. The Company's contributions to the Plan for the years ended December 31, 2014 and 2013 satisfied the minimum funding requirements of ERISA. Participant contributions are not permitted under the Plan.

(Continued)

NOTE 10 - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated among the participants and beneficiaries of the Plan in the order provided by ERISA.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 11 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the plan, any party rendering service to the plan, the employer, and certain others. Amounts paid by the Plan to parties in interest include fees paid by the Plan to managers of the investment contracts. Certain investments held in the Pactiv General Employee Benefit Trust qualify as party-in-interest transactions as these investments are issued by the trustees or affiliates of the trustees and investment managers of the Plan.

NOTE 12 - SUBSEQUENT EVENTS

Management evaluated subsequent events for the Plan through October 14, 2015, the date the financial statements were available to be issued.

Effective January 31, 2015, the SIG Holding USA, LLC Employees Pension Plan merged into the Plan. As a result of this merger, approximately $17,000,000 in assets transferred into the Plan. The accumulated plan benefits of the SIG Holding USA, LLC Employees Pension Plan were also transferred into the Plan. An actuarial valuation of the amount of the accumulated plan benefits of the SIG Holding USA, LLC Employees Pension Plan that transferred into the Plan has not yet been completed.

Effective April 1, 2015, the Retirement Plan for Hourly Employees of Dopaco, Inc. – California Plant; the Retirement Plan for Hourly Employees of Dopaco, Inc. – Downingtown Plant; the Reynolds Packaging Group Pension Plan for Hourly Employees of Downingtown Plant; The Graham Packaging Company Pension Plan and the GPC Graphic Communications Union Local 6-505M AFL-CIO Members, Employees MD Heights, MO Plant Pension Plan merged into the Plan. As a result of these mergers, approximately $125,000,000 in assets transferred into the Plan. The accumulated plan benefits of the Retirement Plan for Hourly Employees of Dopaco, Inc. – California Plant; the Retirement Plan for Hourly Employees of Dopaco, Inc. – Downingtown Plant; the Reynolds Packaging Group Pension Plan for Hourly Employees of Downingtown Plant; The Graham Packaging Company Pension Plan and the GPC Graphic Communications Union Local 6-505M AFL-CIO Members, Employees MD Heights, MO Plant Pension Plan were also transferred into the Plan. Plan Provisions: All Supplements (Hourly Participants)

History of Plan

The original effective date of the Plan is June 1, 1961. Since then, the Plan has been amended and restated from time to time. The most recent amendment and restatement was as of January 1, 1999. The Plan's benefit provisions are continually changing as a result of collective bargaining with the many separate groups (Supplements) covered.

Effective January 1, 1995, the following Pension Plans were merged into Pension Plan No. 2: Minneapolis Container; Hourly Employees at Counce, Tennessee; Hourly Employees at Shelbyville, Kentucky; Hourly Employees at Wheeling, Illinois; Hourly Employees at Ekco Products Division, Clayton, New Jersey; and Hourly Employees at Wanatah, Indiana.

Effective January 1, 1997, the Trexlertown, Pennsylvania Hourly Employees were merged into Pension Plan No. 2.

Effective January 1, 1998, the Chippewa Falls, Wisconsin Hourly Employees were merged into Pension Plan No. 2.

Effective January 1, 1999, the AVI Microfoam Hourly employees and AVI Bargaining Unit-T Employees were merged into Pension Plan No. 2.

The plan mergers as of January 1, 1997, January 1, 1998, and January 1, 1999 all met the requirements to be considered de minimis.

In 1999, the name of the plan was changed to the Pactiv Hourly Pension Plan.

Effective as of January 1, 2000, the Pactiv Hourly Pension Plan was merged into the Pactiv Retirement Plan.

Effective December 31, 2002, all benefits earned under the Plan by PCA participants were frozen.

Effective January 1, 2004, Rock-Tenn participants began accruing benefits with service from October 23, 2003.

Effective December 31, 2011, the hourly formula benefits for nonunion hourly employees (Supplements A39, A61, A65, A83, A87, A102, A103, and A105) were frozen.

Effective December 31, 2012, the benefit accruals for union employees of Wheeling, IL (Supplement J) were frozen.

A brief summary of the current provisions of the Plan as of the current valuation is shown on the following pages.

Plan Provisions: Supplements A – F, M[1] (Hourly Participants)

Credited Service	Employees are credited with service as follows: Supplements A (except A83, A87 and A97): (i) One year of service for each full year of employment with the Company prior to the effective date as recognized for each location; (ii) One year of service for each plan year, beginning with the effective date and ending on December 31, 1975, in which the employee worked the number of hours required by that location; and (iii) One year of service for each plan year which begins after December 31, 1975 during which the employee completes at least 1,000 hours of service. Supplements A83, A87, A97: Service is credited from date of participation to date of termination in years and months based on an elapsed time method. Supplements A39, A61, A65, A83, A87, A102, A103, A105, B, C, D, E, F and M are no longer accruing credited service.
Accrued Benefit	The product of the monthly benefit rate in effect on the date the participant terminates employment, as specified in the applicable Supplement, multiplied by the employee's years of credited service, not to exceed the maximum number of years of credited service as provided in the applicable Supplement. A portion of the accrued benefit payable under certain Supplements is provided by paid-up annuities under prior plan group deferred annuity contracts or by the prior plan sponsor.
Normal Retirement Eligibility	Generally age 65 and five years of vesting service.
Benefit Amount	The monthly pension equal to the participant's accrued benefit.

[1] There is a separate summary for Supplement A86, Chippewa Falls.

Early Retirement	
Eligibility	Satisfaction of the age and service requirements specified in the applicable Supplement.
Benefit Amount	The monthly pension equal to the participant's accrued benefit reduced for early commencement in accordance with the applicable Supplement.
Deferred Retirement	A participant who defers commencement of benefits past age 65 will receive a benefit calculated as under normal retirement, but reflecting service credit to actual retirement date.
Disability Retirement	
Eligibility	Disablement after satisfaction of the age and service requirements specified in the applicable Supplement.
Benefit Amount	The monthly pension equal to the participant's accrued benefit. Benefit payments begin after satisfaction of the waiting period specified in the applicable Supplement. Payments continue until the earliest to occur of the following: (i) Failure of the participant to provide proof of continuing disability, (ii) Recovery from disability before normal retirement date, and (iii) Date of death (unless the benefit is paid in the form of a 50% contingent annuity).
Vesting	
Eligibility	Termination of employment after completion of five years of service.
Benefit Amount	The monthly pension equal to the participant's accrued benefit payable on the first of the month following the 65th birthday. If the participant had satisfied the service but not the age requirements for early commencement, benefit payments equal to the actuarial equivalent of the accrued benefit may commence upon attainment of that age.

Preretirement Death Benefits	
Eligibility	Death while an active participant. Terminated vested participants who have not yet begun to receive payments and who terminated after 1/1/76 are also eligible.
Benefit Amount	A survivor annuity payable to the spouse equal to 50% of the pension which would have been payable to the employee had he retired on the day before his death with benefits payable as a Joint & 50% Spouse's Annuity. If the participant was not eligible for retirement at death, payments to the spouse will begin when the participant would have been first eligible for retirement had he survived. The amount payable to the spouse is also calculated as of such date.
Normal Form of Benefit	a. Unmarried on the annuity commencement date: Life only. b. Married on the annuity commencement date: Joint & 50% Spouse's Annuity, actuarially equivalent to the annuity which would be payable were the participant not married.
Other Options (may not be available to all supplements)	a. Single Life (for married participants). b. 3, 5, 10, 15 and 20 Years Certain and Life. c. 25%, 75%, and 100% Joint and Survivor. d. Level Income. e. Special Lump Sum Death Benefit (A97 only).
Actuarial Equivalent	Optional payment forms for Supplements A – F (except A97 and A98) and M are converted from a single life annuity according to actuarial equivalent factors based on the following:
50% Joint and Survivor	87.5%. (i) Reduced 0.5% for each year of age more than five that the participant's spouse is younger than the participant, or (ii) increased 0.5% for each year of age that the spouse is older than the participant. The above percentage shall not exceed 97.5%. For Supplement A97—UP84 Mortality. Interest rate is 8.0%.

	For Supplement A98—UP84 Mortality with ages set forward one year. Interest is 7.5%
Actuarial Equivalent	
100% Joint and Survivor	77.8%. (i) Reduced 0.8% for each year of age more than five that the participant's spouse is younger than the participant, or (ii) increased 0.5% for each year of age that the spouse is older than the participant. The above percentage shall not exceed 97.5% For Supplements A97 and A98—same as for 50% J&S.
10 Years Certain and Life Annuity	95.0%. Reduced 1% for each year of age in excess of age 60. For Supplements A97 and A98—same as for 50% J&S.
Early Retirement Factors for Terminated Vested Participants -	UP-84 Mortality with ages rated up one year. Interest rate is 7.5%. For Supplement A97—0.56% reduction per month from age 65. For Supplement A98—0.40% reduction per month from age 65. For Supplements F and M—0.28% reduction per month before age 60; 0.56% reduction per month after age 60.
Source of Contributions	The Company pays the entire cost of the Plan.
Plan Year	The calendar year.

Plan Provisions: Supplement A86 – Chippewa Falls (Hourly Participants)

History of the Plan

Tenneco Packaging Inc. became the sponsor of this Plan by acquiring the stock of Amoco Foam Products Company (the former plan sponsor) on August 26, 1996. The Plan was established on October 1, 1970, and has been amended and restated from time to time. The Plan provides retirement income for the hourly-paid employees covered by the bargaining agreement at the Chippewa Falls facility.

The Supplement's benefit provisions are updated as necessary to reflect changes agreed to in collective bargaining with the covered group. (See the Summary of Active Provisions by Supplement for details on the current benefit rate schedule.)

Normal Retirement	
Eligibility	Age 65.
Benefit	Accrued benefit as of normal retirement date.
Disability Retirement	
Benefit	Accrued benefit as of disability retirement date payable immediately without reduction.
Deferred Vested	
Eligibility	Five years of vesting service.
Benefit	Accrued benefit as of date of termination payable at normal retirement date; subject to actuarial reduction if participant chooses to commence payments before age 65.
Preretirement Death	
Eligibility	Death while an active or terminated vested participant and not receiving monthly benefits.
Benefit	The surviving spouse receives the benefit that would have been payable had the participant terminated on the date of death, survived until early retirement, and elected a 50% Joint and Survivor annuity.

Normal Form of Benefit	
Single	Straight life annuity.
Married	50% Joint and Survivor annuity actuarially equivalent to straight life annuity.
Other Options	75% Joint and Survivor annuity.
Monthly Benefit Rate	See the Summary of Active Provisions by Supplement for details on the current benefit rate schedule.

History of Plan

The original effective date of the Plan is March 1, 1965. Since then, the Plan has been amended and restated from time to time. As of January 1, 1995, the Plan was merged into Pension Plan No. 2 as a separate Supplement.

Effective December 31, 2002, all benefits earned under the Plan by Supplement G participants were frozen. The only remaining plan participants are non-actives.

A brief summary of the current provisions of the Supplement is shown on the following pages.

Effective Date	March 1, 1965.
Participation	Employees in the bargaining unit represented by Local No. 1259, PACE, AFL-CIO are eligible to participate 30 days after employment date.
Normal Retirement	
Eligibility	Generally age 65 and five years of vesting service.
Benefit Amount	The monthly pension equal to the product of years of credited service (maximum 40) and the monthly benefit rate in effect on the date the participant terminates. When the maximum of 40 years of credited service is applicable, the benefit is determined using the consecutive 40 years that yield the greatest amount.
Early Retirement	
Eligibility	Age 55 and 15 years of vesting service.
Benefit Amount	The accrued normal retirement benefit reduced for early commencement as follows:

Age	Percentage
55	50%
56	53%
56	60%
59	64%
60	69%
61	74%
62	80%
63	86%
64	93%
65	100%

Disability Retirement	
Eligibility	Disablement after completion of 15 years of vesting service.
Benefit Amount	As computed for normal retirement but based on credited service at the disability retirement date and multiplied by a percentage from the following table:

Age	Percentage		Age	Percentage
<50	60%		58	82%
51	62%		59	86%
52	64%		60	90%
53	66%		61	92%
54	68%		62	94%
55	70%		63	96%
56	74%		64	98%
57	78%		65	100%

Benefit payments begin after disability has existed for 180 days. Before age 65, benefits are paid only so long as disablement continues.

Vesting

Eligibility — Termination of employment by other than death or retirement after completion of five years of service. A year of service is credited for each plan year in which at least 900 hours of service are credited.

Benefit Amount — The accrued normal retirement benefit payable on the first of the month following the 65th birthday. Credited service is limited to a maximum of 35 years for Supplements H5 through H9.

Normal Retirement

Eligibility — Age 65.

Benefit Amount — The monthly pension is equal to the product of credited service and the benefit rate in effect on the date the participant terminates.

Early Retirement

Eligibility — Age 55 and 15 years of vesting service.

Benefit Amount — The accrued normal retirement benefit reduced for early commencement by 6% per year that benefits commence before full benefit age. For Supplements H1, H2, H3, H10, H11, H12 and H13, the full benefit age is 62. For Supplement H9, the full benefit age is 65.

Postponed Retirement

Eligibility — Benefit commencement after normal retirement date.

Benefit Amount — Benefit calculated as for normal retirement, but using credited service accrued to actual date of retirement.

Disability Retirement	
Eligibility	Disablement after completion of 15 years of vesting service. Eligibility for Social Security disability benefits is also required if covered by Supplements H3 - H13. Supplements H1 and H2 only require a medical determination of disability.
Benefit Amount	As computed for normal retirement but based on credited service at the disability retirement date. Benefit payments begin after disability has existed for a specified period. That period is 12 months for Supplements H3, H10, H11, H12 and H13; 6 months for Supplements H5, H6, H8, and H9; and none for Supplements H1 and H2. Before age 65, benefits are paid only so long as disablement continues.
Vesting	
Eligibility	Termination of employment by other than death or retirement after completion of five years of service. A year of service is credited for each plan year in which at least 1,000 hours of service are credited.
Benefit Amount	The accrued normal retirement benefit payable on the first of the month following the 65th birthday. If the participant had completed 15 years of service, he or she may elect early commencement of a reduced pension on the first of any month following attainment of age 55. The reduction is the same as for early retirement.
Preretirement Death Benefits	
Eligibility	(a) Death after completion of five years of vesting service and prior to the date the participant's pension commences and (b) survived by a spouse.
Benefit Amount	A survivor annuity payable to the spouse equal to 50% of the pension which would have been payable to the employee had he retired on the day before his death with benefits payable as a Joint and 50% Survivor's Annuity. If the participant was not eligible for retirement at death, payments to the spouse will begin when the participant would have been first eligible for retirement had he survived.

	For Supplements H1 and H2, there is also an alternative preretirement spouse's death benefit for employees who die after completing ten years of service or after attaining age 55. The benefit payable to the surviving spouse is equal to 50% of the employee's unreduced accrued benefit at date of death. Payments begin on the later of the employee's earliest commencement date and first of the month following date of death.
Normal Form of Benefit	a. Unmarried on the annuity commencement date: Life only. b. Married on the annuity commencement date: 50%, 75% or 100% Contingent Annuitant, actuarially equivalent to the annuity which would be payable were the participant not married.
Other Options	a. Contingent Annuitant. b. Single Life (for married participants). c. Five Years Certain and Life (Nonunion locations only). d. Ten Years Certain and Life. e. Social Security Level Income.
Source of Contributions	The Company pays the entire cost of the Plan.
Plan Year	The calendar year.
Actuarial Equivalent	Optional payment forms are converted from a single life annuity according to actuarial equivalent factors based on the following:
50% Contingent Annuity	87.5%. (i) Reduced 0.5% for each year of age more than five that the participant's spouse is younger than the participant, or (ii) increased 0.5% for each year of age that the spouse is older than the participant. The above percentage shall not exceed 97.5%.
75% Contingent Annuity	Same procedure as for 50% Contingent Annuity except that the starting point is 81.0%.
100% Contingent Annuity	77.8% (i) Reduced 0.8% for each year of age more than five that the participant's spouse is younger than the participant, or (ii) increased 0.8% for each year of age that the spouse is older than the participant.
10 Years Certain and Life Annuity	95.0%. Reduced 1% for each year of age in excess of age 60.

Social Security Option	Based on PBGC Healthy male mortality and 7.5%.
Disability 50% Contingent Annuity	UP-84 Mortality with ages rated up four years for participants and rated down four years for spouses. Interest rate is 7.5%.

Plan Provisions: Supplement K – Shelbyville (Hourly Participants)

History of Plan

The original plan was established by Revere Foil Containers, Inc. as of January 1, 1984 for hourly rated employees at its Shelbyville, Kentucky Plant. In 1988, Packaging Corporation of America (now known as Tenneco Packaging) purchased the plan and made it a separate division. As of January 1, 1995, the plan was merged into Pension Plan No. 2 as a new Supplement.

This location was divested effective as of January 31, 2000. The only remaining plan participants are non-actives.

A brief summary of the current provisions of the Supplement is shown on the following pages.

Effective Date	January 1, 1984.
Participation	Employees in the bargaining unit become participants on the January 1 or July 1 following completion of one year of service.
Normal Retirement	
Eligibility	Age 65.
Benefit Amount	The monthly pension equal to the product of years of benefit service (no maximum) and the benefit rate in effect on the participant's date of termination.
Early Retirement	
Eligibility	Age 60 and 10 years of vesting service.
Benefit Amount	The accrued normal retirement benefit is reduced by 4% per year from age 65 for early commencement.
Disability Retirement	
Eligibility	Disablement after attaining age 40 and completing 10 years of vesting service.
Benefit Amount	An immediate temporary benefit payable to age 65, or, if earlier, the eligibility age for Social Security disability benefits, equal to $12.00 per month times years of benefit service at date of disability. Upon reaching age 65, or, if earlier, the eligibility age for Social Security disability benefits, the monthly benefit is recalculated as the monthly benefit rate in effect at the time of disability times years of benefit service at date of disability. Benefit payments begin on the first of the month following the determination of disability. Before age 65, benefits are paid only so long as disablement continues.
Vesting	
Eligibility	Termination of employment by other than death or retirement after completion of five years of service. A year of service is credited for each plan year in which at least 1,000 hours of service are credited.

Benefit Amount	The accrued normal retirement benefit payable on the first of the month following the 65th birthday. Plan Provisions: History of Plan (Salaried Participants)

The Tenneco Annuity Plan was established effective July 1, 1957, to provide retirement benefits for all new salaried employees subsequent to that date. Prior to that date Tenneco employees were covered under the Tenneco Retirement Income Plan. Effective January 1, 1969, the Annuity Plan was amended to increase current service benefits and to make the Plan noncontributory. On January 1, 1971, both Plans were amended to increase both the current service benefits and past service accrued benefits. Effective July 1, 1974, benefits for retirees were increased.

On January 1, 1972, the JI Case Company adopted the Annuity Plan for all service subsequent to that date. Accrued benefits for service prior to January 1, 1972, have been designated as JI Case Prior Plan benefits with separate accounting of such benefits and related assets.

On January 1, 1974, the Walker Manufacturing Company adopted the Annuity Plan for all service subsequent to that date. Accrued benefits for service prior to January 1, 1974, have been designated as Walker Prior Plan benefits with separate accounting of such benefits and related assets.

On January 1, 1976, the Annuity Plan was amended and restated to merge the Former Annuity and Retirement Income Plans and renamed the Retirement Plan for Eligible Employees of Tenneco Inc. and Designated Domestic Associated Companies. Immediately following, the Tenneco Inc. Retirement Plan was amended to provide increased benefits related to final average pay at retirement and integrated with Social Security benefits. Accrued benefits under the former plans have been preserved as minimum benefits with respect to service prior to January 1, 1976. Effective July 1, 1976 the Plan was amended further to provide as an all service minimum the benefit that would have been calculated under the former Retirement Income Plan for former participants of that plan. The Plan provides for retirement at age 65, for early retirement, disability retirement, preretirement death benefits, and deferred termination benefits provided certain eligibility conditions are satisfied.

The actuarial method and assumptions were revised effective January 1, 1976, to be consistent with the revised Plan benefits.

On January 1, 1977, the Plan was amended to provide liberalized early retirement benefits. A corresponding change was made in the retirement age assumption.

On January 1, 1978, the Plan was amended to increase benefits to certain current retirees. In addition, effective January 1, 1978, the Monroe Auto Equipment Salaried Plan participants and assets were merged into the Tenneco Retirement Plan. Immediately following the merger, benefits were increased for the prior Monroe participants to provide the Tenneco formula for all prior participation service.

Effective January 1, 1979, the Philadelphia Life Insurance Company Pension Plan and the Annuity Plan for Prior Employees of Tennessee Life Insurance Company were merged into the Tenneco Retirement Plan. Also effective January 1, 1979, the benefits to former participants of these two plans were changed to match those available to all other Tenneco Retirement Plan participants.

On January 1, 1980, the Plan was amended to increase benefits to certain current retirees and beneficiaries as well as those beneficiaries receiving benefits under the reversionary annuity death benefit.

The actuarial assumptions were revised effective January 1, 1981, with respect to the interest rate (from 6-1/2% to 7-1/2%) and the salary scale (from a level rate of 4% to graded rates of 9%/7%/5%).

This revision, in the aggregate, is considered to more accurately reflect the expected experience under the Plan.

Effective May 1, 1981, Houston Oil & Minerals Corporation (HOM) was acquired by Tenneco Inc. and became eligible to adopt and participate in the Tenneco Retirement Plan. Pre-acquisition HOM Thrift Plan participation service shall be recognized under the Tenneco Retirement Plan on the basis of 25% graduated accrual for each year of post-acquisition service.

Effective November 1, 1981, the Retirement Plan for Salaried Employees of Petro-Tex Chemicals Corporation was merged into the Tenneco Retirement Plan. Benefits were changed to provide the Tenneco formula for all prior participation service with accrued benefits for service prior to the merger utilized as minimum benefits.

Effective January 1, 1982, The Case Company Pension Plan - U.S. participants and assets were merged into the Tenneco Retirement Plan. The benefits available to Former Case Company - U.S. participants were identical to those available under the Tenneco Retirement Plan, so no change in the benefit formula for these participants was necessary.

Effective January 1, 1982, the Walker Prior Plan was merged into the Tenneco Retirement Plan.

Effective January 1, 1983, the Southwestern Life Employees' Retirement Annuity Plan was merged into the Tenneco Retirement Plan. Benefits were changed to provide the Tenneco formula for all prior participation service with accrued benefits for service prior to the merger utilized as minimum benefits.

The actuarial assumptions were revised effective January 1, 1983 with respect to the interest rate (from 7-1/2% to 8%). This revision, in the aggregate, is considered to more accurately reflect the expected experience under the Plan.

On January 1, 1984, the Plan was amended to change the disability eligibility and amount provisions (essentially from the accrued benefit payable at age 65 to a benefit based on projected service at age 65 and payable at age 65).

On January 1, 1985, the Retirement Plan for Eligible Employees of Tenneco Inc. and Designated Domestic Associated Companies was restated in its entirety to incorporate several recent amendments, and was renamed the Tenneco Inc. Retirement Plan.

Also effective January 1, 1985, the Tenneco Inc. Pilots' Retirement Plan was merged into the Tenneco Retirement Plan. Benefits were changed to provide the Tenneco formula for all prior participation service with accrued benefits for service prior to the merger utilized as minimum benefits.

Also effective January 1, 1985, the preretirement death benefit provisions of the Plan were amended. For employees who die while in service the reversionary annuity benefit is payable for the lifetime of the surviving spouse in all cases (previously a lifetime benefit was payable only if the participant was at least 45 years old at death). For terminated vested employees, a survivor annuity shall be payable upon death prior to benefit commencement.

Effective February 1, 1985, Case IH adopted the Tenneco Plan for its salaried employees acquired in connection with the purchase of the Agricultural Equipment Division of International Harvester Company. Benefits are provided to these employees on an all service basis with a carve-out of benefits accrued under a prior plan.

Effective May 1, 1985, Albright and Wilson, Inc. - Virginia adopted the Plan for its salaried employees. Benefits are provided to these employees on an all service basis with a carve-out of benefits accrued under a prior plan.

Effective May 31, 1985, the Creole Gas Pipeline Corporation Pension Plan was merged into the Tenneco Retirement Plan. Benefits were changed to provide the Tenneco formula for all prior participation service with accrued benefits for service prior to the merger utilized as minimum benefits.

Effective June 1, 1985, the Retirement Plan for Salaried Employees of Ekco Products, Inc., a Wholly-Owned Subsidiary of Packaging Corporation of America, was merged into the Tenneco Retirement Plan. Benefits were changed to provide the Tenneco formula for all prior participation service with accrued benefits for service prior to the merger utilized as minimum benefits.

Effective August 1, 1985, the Retirement Plan for Employees of Mid-Louisiana Gas Company and the Spun-off Plan from the Celeron Corporation Pension Plan were merged into the Tenneco Retirement Plan. Benefits were changed to provide the Tenneco formula for all prior participation service with accrued benefits for service prior to the merger utilized as minimum benefits.

Effective September 1, 1985, the Plan was amended to change the service requirement for early retirement eligibility from 14 years of participation to 10 years of service. In addition, for all vested terminations on or after this date, the employee may elect to commence benefit payments as early as age 55.

Effective January 1, 1986, the asset method was changed by making a one-time adjustment to the actuarial value of assets to the level of the market value of assets. Also effective January 1, 1986, the cost spreading method was changed from the Frozen Initial Liability Cost Method to the Projected Unit Credit Cost Method.

Effective February 1, 1986, A & E Plastics, Inc. Salaried and Clerical Employees Pension Plan was merged into the Tenneco Retirement Plan. Benefits were changed to provide the Tenneco formula for all prior participation service with accrued benefits for service prior to the merger utilized as minimum benefits.

Effective October 1, 1986, E-Z Por Corporation adopted the provisions of the Tenneco Retirement Plan. Service prior to September 12, 1986 shall be recognized for satisfying the one-year eligibility requirement to become a participant, the ten-year eligibility requirement for early retirement, and vesting requirements.

Effective for 1987, the revised maximum benefit limitations under Section 415 of the Internal Revenue Code apply to the Plan. The new limitations provide for grandfathering of accrued benefits through December 31, 1986, but impose stricter limitations in future years.

In addition, the actuarial assumptions were revised effective January 1, 1987 with respect to the assumed retirement age (from age 64 to age 63) and the table of turnover rates. The revised assumptions more

accurately reflect the actual experience of the Plan over the past few years based on the funding study conducted in 1986.

Effective March 1, 1987, the Viscosity Oil Company Salaried Pension Plan was merged into the Tenneco Retirement Plan. Service prior to November 15, 1985, shall be recognized for satisfying the one-year eligibility requirement to become a participant, the ten-year eligibility requirement for early retirement, and vesting requirements.

Effective April 1, 1987, the ERCO Industries, Inc. Retirement Plan was merged into the Tenneco Retirement Plan. Service prior to April 1, 1987, shall be recognized for satisfying the one-year eligibility requirement to become a participant, the ten-year eligibility requirement for early retirement, and vesting requirements.

Effective January 1, 1988, Chemrich Corporation adopted the provisions of the Tenneco Retirement Plan.

On January 1, 1988, the Pension Plan for Salaried Employees of Pryor Foundry was merged into the Tenneco Retirement Plan. Benefits were changed to provide the Tenneco formula for all prior participation service with accrued benefits for service prior to the merger utilized as minimum benefits.

The Pension Protection Act amended Internal Revenue Code section 411(c), which prescribes the interest rate to be used in determining the portion of an accrued benefit that is attributable to employee contributions. Effective January 1, 1988, the prescribed rate is 120% of the federal mid-term rate.

Effective August 1, 1988, the Patternmakers' Pension Plan was merged into the Tenneco Retirement Plan. A participant's benefit under the Tenneco Retirement Plan shall consist of a past service benefit equal to his or her Patternmakers' Plan frozen accrued benefit as of July 31, 1987, plus a benefit providing the Tenneco formula for service after July 31, 1987.

On January 1, 1989, the Case IH Credit Corp. Plan was merged into the Tenneco Retirement Plan.

Effective January 1, 1989, Social Security integration was eliminated by removing the 90% "cap" on benefits paid from the Plan and Social Security.

Also effective January 1, 1989, the Plan's vesting schedule changed from 10-year to 5-year cliff vesting.

In addition, the actuarial assumptions were revised effective January 1, 1989 with respect to the assumed salary rate increases. The new assumptions project smaller annual increases prior to age 45 than the former assumptions, in order to reflect anticipated experience more accurately.

The actuarial assumptions were revised effective January 1, 1990 with respect to the assumed rate of interest. The assumed interest rate was increased from 8.0% to 8.5% in order to reflect anticipated asset experience more accurately.

Effective July 1, 1990, the Sperry Marine Inc. Retirement Plan Program Part A was merged into the Tenneco Retirement Plan.

Effective September 1, 1990, the Asheville Industries, Inc. Pension Plan for Production & Maintenance Employees was merged into this Plan.

The Annuity Plan for Eligible Employees of Operators, Inc. and Designated Associated Companies was merged into the Tenneco Retirement Plan effective January 1, 1991.

Also effective January 1, 1991, the Plan was amended to increase benefits to certain current retirees and beneficiaries.

Effective December 31, 1993, the JI Case Company Pension Plan for Hourly-Paid Employees ("Case Hourly Plan"), the Case Corporation Supplemental Early Retirement Plan for U.S. Salaried Employees ("Case 30 & Out Plan"), and the Steiger Tractor, Inc. Bargaining Unit Employees' Pension Plan were merged into the Tenneco Inc. Retirement Plan.

Also effective December 31, 1993, the Plan was amended to provide supplemental benefits to certain Case Salaried employees, previously payable under the JI Case Company Salaried Supplemental Plan.

Effective January 1, 1994, the salaried portion of the Dixie Container Company Pension Plan was merged into the Tenneco Inc. Retirement Plan.

Effective June 30, 1994, future benefit accruals were frozen for all JI Case active participants.

Effective January 1, 1995, the mortality assumption for the hourly participants of JI Case was changed to be consistent with the mortality assumption for all other TRP participants.

The actuarial assumptions were revised effective January 1, 1996. The assumed interest rate was decreased from 8.5% to 8.0%, and the mortality table was changed from the 1971 Group Annuitant Mortality Table to the 1983 Group Annuitant Mortality Table.

Effective January 1, 1996, the asset valuation method was changed by making a one-time adjustment to increase the actuarial value to market value.

Effective December 12, 1996, all active employees of Newport News Shipbuilding and Tenneco Energy were spun off. All active liabilities were supervested and the participants appear under the vested termination category of this valuation.

Effective January 1, 1997, liabilities and assets for the salaried employees of The Pullman Company were merged into the Tenneco Plan. Effective January 1, 1997, Tenneco Foam was merged into the Plan. Effective January 1, 1997, employees at Goshen Automotive became participants in the Plan.

Effective April 12, 1999, Tenneco Packaging sold its interest in the paperboard portion of the business (PCA). Employees of PCA may continue to participate in the Plan, but not beyond April 2004. The withdrawal assumption was updated to reflect this for all PCA actives. The result of this was a FAS 88 curtailment gain of $15,454,261.

Effective November 4, 1999, Tenneco Automotive actives ceased participation in the Plan. Although this occurred after the September 30, 1999 measurement date, the FAS 88 curtailment gain of $29,851,004

was reflected in the 1999 disclosure results as required under FAS 88 in the event of a disposal of a segment.

Effective December 31, 1999, the Pactiv Hourly Pension Plan was merged into the plan.

Effective November 1, 2000, retirees were spun off of the plan into a new plan (The Pactiv Retiree Pension Plan).

Effective January 1, 2002, EGTRRA increased the Internal Revenue Code Section 415 limit to $160,000 and the limit on compensation to $200,000. The $200,000 pay limit was applied retroactively for participants who were active as of January 1, 2002.

Effective January 1, 2003, cash balance provisions were adopted for persons hired after January 1, 2003, including future acquisitions.

Effective April 12, 2004, PCA actives stopped accruing credited service under the plan.

Effective December 31, 2004, the Pactiv Retiree Pension Plan was merged into the plan.

Effective January 1, 2004, Rock-Tenn and Winkler Salaried participants began accruing cash balance benefits with service from October 23, 2003.

Effective October 31, 2010, the salaried final average pay plan accruals were frozen and future benefits are accrued under the salaried cash balance formula.

Effective December 31, 2011, the pension accruals were frozen for the cash balance formula.

Additional Preretirement Lump Sum Death Benefit	
Eligibility	Immediate upon Plan participation.
Benefit Amount	Employee contributions under the Annuity Plan and prior plans accumulated with interest at 6% per year to December 31, 1987, and 120% of the federal mid-term rate thereafter.
Postretirement Lump Sum	The excess, if any, of employee contributions

Death Benefit	with interest at 6% per year to December 31, 1987, and 120% of the federal mid-term rate thereafter, over the sum of annuity payments already received.
Preretirement Survivor Annuity	
Eligibility	Death of a terminated participant entitled to a deferred vested benefit prior to annuity commencement date.
Benefit	A married member with an eligible surviving spouse shall have a single life annuity paid to the eligible surviving spouse consisting of monthly payments for the life of the eligible surviving spouse determined as follows: a. if such member dies on or before reaching the early retirement date or normal retirement date, the death benefit such eligible surviving spouse would have received had such deceased member survived until the earlier of the early retirement date or normal retirement date, retired having elected to receive his or her benefit in the form of a 50% joint and survivor annuity beginning immediately and died on the day after; or b. if such member dies after reaching the early retirement date or normal retirement date, the death benefit such eligible surviving spouse would have received had such deceased member elected to receive his or her benefit in the form of a 50% joint and survivor annuity beginning immediately. Payment of the survivor annuity shall begin as of the later of (1) the member's date of death or (2) the date the member reached or would have reached the earlier of the early retirement date or normal retirement date.
Normal Form of Benefit	Life annuity.
Other Options	A retiring participant may also elect other optional forms of payment. The options include: ▪ life annuity; ▪ 10-year certain and life annuity; ▪ joint and survivorship annuities.

Cash Balance Provisions

Effective Date	January 1, 2003
Participation	All salaried participants who were hired, rehired or transferred from hourly after January 1, 2003. They become participants in the plan coincident with or following that date. As of October 31, 2010, all salaried employees who were participating in the final average pay plan, who have completed one year of service, and were hired prior to January 1, 2003 are now participants. Employees hired on or after January 1, 2012 are not eligible to participate in the salaried cash balance plan.
Cash Balance Benefit	The accrued benefit is the account balance. While an active participant, the account balance grows with interest and contribution credits. After termination, the account balance grows with interest credits only. Effective December 31, 2011, the cash balance formula benefits were frozen.
Contribution Credits	At the end of each month, each participant's account will be increased by an amount equal to a percentage of his compensation for that month, the percentage varying by age as in the following table:

Age on Last Day of Plan Year	Contribution Credits
<29	2.50%
30-39	3.00%
40-44	3.50%
45-49	4.00%
50-54	4.50%
55+	5.00%

Interest Credits	Each month, interest credits will be added to each cash balance account, based on the 10-Year Constant Maturities for the August preceding the beginning of the plan year.
Eligibility for Benefit (Vesting)	Three years of hire service.

Forms of Distribution	Lump Sum of cash balance account, or single life annuity, or 50%, or 100% joint and survivor.
Preretirement Death Benefit	Account Balance paid to Beneficiary.
Definitions	
Covered Compensation	The regular base compensation paid to a participant. Commissions are included for participants in certain locations.
Final Average Compensation	The average of the monthly covered compensation paid to a participant during the 60 consecutive months immediately preceding retirement or earlier termination of employment.
Year of Service	A 12-month period beginning with the employee's date of hire (and each 12-month period thereafter) during which the employee completes at least 1,000 hours of service.

Retirement Benefits

Normal Retirement

All Locations — Accrued benefit to normal retirement date.

Early Retirement

Florence — Accrued benefit to early retirement date reduced by 6.00% per year for commencement prior to age 60. Unreduced at age 60.

GMP Multiple — Accrued benefit to early retirement date reduced by 6.00% per year for commencement prior to age 60. Unreduced at age 60 or age 55 and 30 years of service for eligibility purposes.

Florence and GMP Multiple — Special calculation: Effective as of October 7, 2004, any Participant who was formerly a vested participant in the Owens-Illinois Hourly Retirement Plan (“O-I Plan”) (but only with respect to those employees who were employed by either Owens-Illinois or Owens-Brockway Plastics Products, Inc. on October 6, 2004 and who were employed by the employer on October 7, 2004) and who qualifies for an unreduced early retirement benefit (or otherwise subsidized early retirement benefit) shall have his benefit calculated as the sum of (a) and (b) as follows:

(a) His retirement benefit calculated under the terms of this plan as of his benefit commencement date; plus

(b) The difference, if any, between (a) his vested accrued benefit under the O-I Plan at October 6, 2004, which may be reduced for early retirement as if all service with the employer, Owens-Illinois and Owens-Brockway counted under the O-I Plan, and (b) his vested accrued benefit under the O-I Plan at

	October 6, 2004, which may be reduced for early retirement as if he terminated employment with Owens-Illinois and Owens-Brockway as of such date. The calculation under this subsection (2) shall be made as of the participant's benefit commencement date under this plan, regardless of when his benefits commence under the O-I Plan. If a participant's unreduced benefits commence prior to age 55 and he is not entitled to commence payments under the O-I Plan at the same time, this plan will pay the full unreduced benefit until the participant attains age 55. At that time the benefit payable from this plan will be reduced by the amount of the age 55 early retirement benefit payable under the O-I Plan, regardless of when the O-I Plan benefit commences.

Benefit Formula

Normal Retirement	Accrued benefit to normal retirement date.
Early Retirement	Accrued benefit to early retirement date, reduced by ½% each month payment precedes normal retirement date.
Late Retirement	Greater of accrued benefit to normal retirement date increased by ½% for each month by which starting date succeeds normal retirement date or accrued benefit to late retirement date.
Disability	Accrued benefit to disability date payable on normal retirement date.

Vesting Requirements

An employee is 100% vested in his accrued benefit following the completion of five years of service from the later of date of hire or age 18.

Death Benefits	
Before Retirement	If a participant dies after completing five years of continuous service, the surviving spouse shall be entitled to a 50% joint and survivor annuity. Such annuity will be equal to the participant's vested accrued benefit at death actuarially adjusted for the 50% joint and survivor annuity option. Such benefit is payable when the participant would have met the eligibility requirements for early retirement, and such benefit will be further reduced for commencement prior to normal retirement date. Each participant who is eligible for early retirement will have his spouse covered by a death benefit in the event of his death prior to actual retirement from the plan. The death benefit payable to the surviving spouse will be the monthly pension the spouse would have received had the participant retired from the plan and elected a percentage joint and survivor annuity on the day prior to his death.
After Retirement	None, except as provided by optional form of benefit elected.
Normal Form of Benefit	Life annuity.
Optional Benefit Forms	In lieu of receiving benefits in the normal form, the employee may elect to receive an actuarially equivalent term certain and continuous annuity or a percentage joint and survivor annuity.
Additional Information	The above description is a summary only; for additional details, reference should be made to the formal Plan document.

Plan Changes Since the Prior Year

- An increase in the annual maximum benefit limit under IRC section 415 from $205,000 in 2013 to $210,000 in 2014.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Pactiv Retirement Plan
EIN: 36-2552989 PN: 031

Schedule SB, line 25—Change in Method

The funding valuation reflects the following method change:

- A change in the asset valuation method from a two-year (three-point) smoothed value method to market value.

The asset method change to switch from smoothed value to market value beginning on January 1, 2014 for the Pactiv Retirement Plan was approved by the IRS in a private letter ruling dated on December 23, 2014.
