Independent Auditor's Report

Convergys Corporation Pension Plan Committee

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Convergys Corporation Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Russell Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2014 and 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) and the supplemental schedule of reportable transactions as of or for the year ended December 31, 2014 are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Convergys Corporation Pension Plan

Notes to Financial Statements

December 31, 2014 and 2013

1. Description of Plan

The following description of the Convergys Corporation Pension Plan (the Plan) provides general information about the Plan's provisions. Convergys Corporation (the Company) is the plan sponsor. Participants should refer to the plan document and summary plan description for a more complete description of the Plan's provisions, copies of which may be obtained from the plan sponsor.

General

The Plan is a noncontributory cash balance defined benefit plan maintained for eligible employees of the Company and its participating subsidiaries who have attained age 21 and completed one year of service. Subject to satisfaction of the Plan's vesting requirements, benefits are payable when a participant retires, dies or separates from service. A participant not otherwise eligible for a service or disability pension becomes fully vested after five years of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Convergys Corporation Pension Plan Committee is responsible for the general administration of the Plan. Russell Trust Company is the trustee of the Plan.

Plan Freeze

During 2008, the Company amended its cash balance plan to cease future benefit accruals and to close participation effective March 31, 2008. After March 31, 2008, participants became fully vested and will not earn future accruals or credits to their cash balance account with respect to compensation earned after March 31, 2008, but will continue to be credited with interest to their cash balance account.

Benefits

The Plan is a cash balance plan whereby a participant's accrued benefit is defined as a notional cash balance account. Under the Plan's cash balance formula, a participant's initial cash balance was equal to the participant's cash balance under the Cincinnati Bell Inc. (predecessor) pension plans as of December 31, 1998. Each year, a participant's cash balance is credited an interest credit. The interest credit for active participants for 2014 and 2013 was calculated at an annualized rate of 4.00%.

When a participant retires, dies, or separates from service, the cash balance is paid in the form of an annuity or lump sum. A participant's normal retirement age is 65, or the fifth anniversary for a participant who entered the Plan after age 60.

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Funding

The Company contributes such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to participants and satisfy the ERISA minimum funding requirements. The Plan has met the ERISA minimum funding requirements for 2014 and 2013.

Administrative Expenses

The Plan incurs administrative expenses directly related to the Plan, which consist primarily of trustee and investment management fees, Pension Benefit Guaranty Corporation (PBGC) fees, and actuarial fees. These expenses are reported on the statements of changes in net assets available for benefits as administrative expenses. All other administrative expenses are paid by the Company on behalf of the Plan, which are excluded from these financial statements.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Payment of Benefits

Benefit payments are recorded upon distribution.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisor, trustee or insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are reflected as of the trade date. Realized gains and losses on sales of securities are determined on the basis of average cost. Income from investments, if any, is recorded as earned on an accrual basis.

The Plan presents in the statements of changes in net assets available for benefits the net appreciation of investments, which consists of the realized gains or losses and the unrealized appreciation on those investments. It also represents automatically reinvested dividends and interest from existing funds.

Convergys Corporation Pension Plan

Notes to Financial Statements (continued)

2. Summary of Accounting Policies (continued)

Actuarial Method and Contributions

Contributions by the Company to the Plan are irrevocable. The policy of the Company is to make contributions that are equal to the current period cost of the Plan determined on a going concern basis by an actuarial cost method known as the aggregate cost method. The basic rationale of this method is to contribute a level percentage of basic payroll for current active employees during their remaining working lives such that future contributions, plus the present trust funds, plus the future investment earnings, are predicted to be just sufficient to pay all future benefits expected to become payable from the funds to current employees and pensioners and their future beneficiaries, persons separated with deferred vested pensions, and annuitants. This method is an acceptable actuarial cost method under ERISA.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 7) represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits are based on the cash balance accounts or the transition benefits for certain employees. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee services rendered through March 31, 2008. The accumulated plan benefits for active employees are based on census data as of January 1 of the applicable year.

Subsequent Events

Management evaluated subsequent events for the Plan through October 13, 2015, the date the financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Convergys Corporation Pension Plan

3. Investments

All investment information for the Plan disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2014 and 2013, and net appreciation in the fair value of investments (including automatically reinvested interest and dividends) for the years ended December 31, 2014 and 2013, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by the Plan's trustee, Russell Trust Company, in the respective years.

The fair values of individual investments that represent 5% or more of the Plan's net assets available for benefits as December 31, are as follows:

	2014	2013
Common/collective trust funds:		
* Russell Short-Term Investment Fund	\$ 17,189,484	\$ 18,867,358
* Russell Equity I Fund	-	29,473,356
* Russell 1000 Index Fund Series I	55,081,976	29,402,960
* Russell International Fund	25,576,389	27,538,217
* Russell Equity II Fund	9,943,109	10,769,300
* Russell Fixed Income I Fund	34,284,591	37,218,954

* denotes party-in-interest

During 2014 and 2013, the Plan's investments (including investments bought, sold, as well as held during the year) appreciated (depreciated) in fair value as follows:

	2014	2013
Common/collective trusts	\$ 8,645,963	\$ 26,670,963
Common shares	(36,071)	1,275,725
Limited partnership	271,994	(207,140)
Total	\$ 8,881,886	\$ 27,739,548

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Convergys Corporation Pension Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

- Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.
- Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - Quoted prices for similar assets and liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in markets that are not active
 - Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (i.e., interest rate and yield curve quotes at commonly quoted intervals)
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means
- Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There were no transfers of assets within Levels of the fair value hierarchy in 2014 or 2013.

The following is a description of the valuation techniques and inputs used for assets measured at fair value. There have been no significant changes in methodologies used at December 31, 2014 as compared to December 31, 2013.

- *Common/Collective trusts:* The common/collective trusts are public investment vehicles valued using a net asset value (NAV) provided by the manager of each fund. The NAV is based on the underlying net assets owned by the fund, divided by the number of shares outstanding. The NAV's unit price is quoted on a private market that is not active. However, the NAV is based on the fair value of the underlying securities within the fund, which are traded on an active market, and valued at the closing price reported on the active market on which those individual securities are traded. There are no restrictions on redemptions from these funds.

Convergys Corporation Pension Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

- *Convergys Corporation common shares:* The fair value is based on observable market quotations and is valued at the closing price reported on the New York Stock Exchange, the active market on which Convergys Corporation common shares is traded under the ticker symbol 'CVG'.

Limited Partnership: The limited partnership primarily invests in domestic early stage capital funds. The fair value of this investment is derived by (a) multiplying a key performance metric of the investee company's assets or operations by the relevant valuation multiple observed for comparable companies, and/or (b) a discounted cash flow model. The determination of fair value using these methodologies takes into account consideration of a range of factors, including, but not limited to, the price at which the investment was acquired, the nature of the investment, local market conditions, trading values on public exchanges for comparable securities, current and projected operating performance, marketability, restrictions and dispositions, financing transactions subsequent to acquisition of the investment, and other pertinent factors. Accordingly, the investment is classified in Level 3 of the fair value hierarchy.

The Plan has no future funding commitments associated with this investment. The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

The Convergys Corporation Pension Investment Committee (the Investment Committee) is responsible for determining the Plan's valuation policies and analyzing information provided by the investment custodians and issuers that is used to determine the fair value of the Plan's investments. The Investment Committee is comprised of five members, including the Company's Chief Financial Officer, Controller, Vice President of Compensation and Benefits, Director of Wealth Management and Treasurer, and reports to the Audit Committee of the Company. For instruments categorized within Level 3 of the fair value hierarchy the Investment Committee obtains audited financial statements of the fund to gain an understanding of the various valuation techniques and significant unobservable inputs. The Investment Committee also meets quarterly to analyze performance and results.

- This category includes the sum of the Russell Fixed Income I Fund and the Russell Short Term Investment Fund. The Russell Fixed Income I Fund seeks to take advantage of market trading opportunities, to generate income and provide a competitive rate of return on assets investing primarily in U.S. debt markets. The Russell Short Term Investment Fund focuses on the preservation of principal and the maintenance of liquidity.
- This category includes the sum of the Russell Equity I Fund (at December 31, 2013 only) and the Russell 1000 Index Fund Series I. The funds' investment objectives are to provide long-term capital growth by investing primarily in equity securities of companies that appear to be undervalued relative to their corporate worth, based on earnings, book or asset value, revenues, cash flow or other measures. The funds emphasize investments from the broad equity market rather than focusing on the growth or value segment of the market.

4. Fair Value Measurements (continued)

- c. The Russell Equity II Fund is a small capitalization fund designed to provide maximum long-term appreciation through investments that are well diversified by industry. The fund seeks to outperform the Russell 2500 Index over a market cycle.
- d. The Russell International Equity Fund seeks to provide appreciation of capital by investing in international financial markets, primarily those of developed economies in Europe and the Pacific Basin. The fund uses a diversified approach to achieve a less volatile rate of return.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 investments, the valuation techniques used to measure the fair value and the significant unobservable inputs and the ranges of values for those inputs.

December 31, 2014				
Investment Class	Fair Value	Valuation Technique(s)	Significant Unobservable Inputs	Range (Weighted Average)
Limited partnership	\$3,115,438	Market approach, time to exit and qualitative factors	Trailing twelve month EBITDA multiple, liquidation value and recent financing including 1. Performance vs. plan 2. Regulatory compliance 3. Cash usage vs. plan	8.0x

December 31, 2013				
Investment Class	Fair Value	Valuation Technique(s)	Significant Unobservable Inputs	Range (Weighted Average)
Limited partnership	\$3,593,443	Market approach, time to exit and qualitative factors	Trailing twelve month revenue multiple, liquidation value and recent financing including 1. Performance vs. plan 2. Regulatory compliance 3. Cash usage vs. plan	1.6x-1.6x (1.6x), .5x-1.5x (0.9x)

Convergys Corporation Pension Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

A change in any of the significant unobservable inputs may lead to a change in the fair value measurements of the Level 3 assets.

Level 3 Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets:

	Year Ended December 31	
	2014	2013
Balance, beginning of year	\$ 3,593,443	\$ 4,125,583
Net appreciation (depreciation)	271,994	(207,140)
Distributions	(749,999)	(325,000)
Balance, end of year	<u>\$ 3,115,438</u>	<u>\$ 3,593,443</u>

5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated December 18, 2013, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2014, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

Convergys Corporation Pension Plan

Notes to Financial Statements (continued)

6. Termination Priorities

Although it has not expressed an intention to do so, the Company reserves the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination, the net assets of the Plan will be allocated for payment to the participants in an order of priority as prescribed by ERISA and its regulations and the plan document.

If the Plan were terminated, all participants' accrued benefits would become fully vested and non forfeitable and would be distributed to them. In the event of termination, assets will be allocated and applied in the following order: (1) to provide certain minimum benefits to each active participant, retired participant, and beneficiary; (2) to assure continuation of benefits payable to retired participants and beneficiaries of deceased participants; (3) to provide retirement benefits for active participants who reached their normal retirement date on or before the termination date; (4) to provide retirement benefits for active participants who have been credited with 10 years of vesting service and who have attained age 55 on or before the date of termination and (5) to provide for the satisfaction of all other liabilities under the Plan. Any assets remaining after satisfaction of all liabilities shall be paid to the Company.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated plan benefits and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC, as well as the priority of those benefits. Some benefits may be fully or partially provided for by the then-existing net assets of the Plan and the PBGC guarantee, while other benefits may not be provided for at all.

7. Actuarial Present Value of Accumulated Plan Benefits

The Plan's actuary estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The actuarial present value of accumulated plan benefits as of the beginning of the year is as follows:

	December 31, 2013
Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 62,041,348
Other participants	104,092,299
	<u>166,133,647</u>
Non-vested benefits	—
Total	<u><u>\$ 166,133,647</u></u>

Convergys Corporation Pension Plan

Notes to Financial Statements (continued)

7. Actuarial Present Value of Accumulated Plan Benefits (continued)

The change in actuarial present value of accumulated plan benefits is as follows:

	December 31, 2013
Actuarial present value of accumulated plan benefits at the beginning of year	\$ 182,755,180
Increase (decrease) during the year attributed to:	
Interest accumulated	10,832,920
Benefits paid	(44,534,955)
Plan amendments	—
Changes in actuarial assumptions	6,925,743
Other changes	10,154,759
Net change	<u>(16,621,533)</u>
Actuarial present value of accumulated plan benefits at end of year	<u><u>\$ 166,133,647</u></u>

Significant assumptions underlying the actuarial computations are:

Discount rate 6.75% (2014 and 2013)

Retirement age	Age	Rate
	Under 55	2%
	55-59*	6%
	60	10%
	61	12%
	62-64	21%
	65	33%
	66-69	24%
	70	100%

*For participants with less than 30 years of service at retirement, the rate is 2%

Mortality basis RP-2014 Static Mortality Table

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. As noted above, the actuarial present value of accumulated plan benefits increased by \$6,925,743 as a result of changes in actuarial assumption. These changes consisted of the update in mortality basis and changes in termination assumption based on recent experience.

Convergys Corporation Pension Plan

Notes to Financial Statements (continued)

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

9. Related Party Transactions

Certain of the Plan's assets are invested in funds managed by the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

10. Fidelity Bonding Requirements

The Plan was covered by a \$25,000,000 fidelity bond during 2014 and 2013.

Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Expected Return on Assets	
2012 Plan Year	7.50%
2013 Plan Year	6.75%
Trust Expenses Included in Target Normal Cost	The expenses included in the target normal cost reflect the prior year's administrative and investment expenses (\$1,000,000 for 2014)
Actuarial Method	Standard unit credit cost method
Valuation Date	January 1, 2014

Changes in ERISA Methods/Assumptions Since the Prior Year**Method Changes**

The funding valuation does not reflect any method changes.

Assumption Changes

The funding valuation reflects the following assumption changes:

- A change in the Expected Long-Term Rate of Return on Plan Assets from 7.50% to 6.75%.
- A change in the interest rate assumption from segment rates as of January 2013 to segment rates as of January 2014 adjusted as applicable to fall within the 25 year average interest rate corridor under HATFA.
- A change in the mortality assumption from the 2013 static mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(e) to the 2014 static mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(e).

Discussion of Actuarial Assumptions and Methods

For the funding valuation, the allowable interest rates and mortality tables available to measure plan liabilities are prescribed by IRC section 412. Aon Hewitt provided guidance with respect to the alternative interest rate and mortality table options, and it is our belief that the options prescribed by Convergys Corporation are appropriate for funding purposes. It is our belief that all other actuarial assumptions used for the funding valuation represent reasonable expectations of anticipated plan experience. The actuarial cost and amortization methods used are prescribed by IRC section 412. While the method used to value assets is prescribed by Convergys Corporation, Aon Hewitt provided guidance with respect to the use of this method, and it is our belief that the method is appropriate for funding purposes.

Calculation of Normal Costs and Liabilities

The method used to calculate the ERISA target normal cost and funding target is the unit credit cost method. The funding target under IRC section 430 is calculated as the present value of all benefits that have been accrued or earned under the plan as of the first day of the plan year, based on current service and current pay. The target normal cost is the present value of all benefits expected to accrue or be earned under the plan during the plan year, including any increase in benefits earned in prior plan years attributable to compensation increases in the current plan year, plus certain trust expenses.

Under this method, benefits are estimated at each decrement age using service and earnings as of the valuation date. The present value of these estimated benefits using the applicable ERISA is the ERISA funding target. The target normal cost is the present value of the benefits earned during the year.

The ERISA funding target for lump sum benefits is determined by valuing the annuity that corresponds to the distribution using special actuarial assumptions, as described under Treasury regulations section 1.430(d). Under these special assumptions, for the period beginning with the annuity starting date, the current IRC section 417(e) applicable mortality table is substituted for the mortality table otherwise used.

Schedule SB, Part V - Summary of Plan Provisions

The following summary describes principal plan provisions assumed in calculating the cost of your pension plan.

General Information

Original Effective Date:	January 1, 1999
Effective Date of Last Amendment:	June 29, 2011
Plan Year:	January 1st to December 31st
Employer Fiscal Year	January 1st to December 31st

Eligibility

All employees who have reached age 21 with one year of service participate in the Plan. Effective April 1, 2008, any employee who has not reached age 21 with one year of service as of March 31, 2008 shall not be eligible to participate in the plan.

Cash Balance Accounts

- Initial Balance:** Transferred from the CBMPP or CBPP as of December 31, 1998.
- Interest Credits:** Interest credits are added to all accounts annually. The interest crediting rates for active employees for 2008 and thereafter is 4.00%.
- Pension Credits:** Each year, pension credits will be added to the accounts of all active participants based on age, compensation and the Social Security Wage Base. Starting in 2007, the schedule of credits was reduced and is as follows:

<u>Age*</u>	<u>Pension Credit for All Pay</u>	<u>Additional Credit for Pay in Excess of the Social Security Wage Base**</u>
under 30	2.00%	1.000%
30 to 34	2.25%	1.125%
35 to 39	2.50%	1.250%
40 to 44	3.25%	1.625%
45 to 49	4.00%	2.000%
50 to 54	5.00%	2.500%
55 and Over	6.00%	3.000%

After March 31, 2008, there are no more pension credits.

*Age is determined as of December 31 of each calendar year

- Compensation for Pension Credit:** For all participants, pension credits are based on compensation including bonuses.

Schedule SB, Part V - Summary of Plan Provisions

Transition Benefits

- a. Eligibility: Participants who were IMG employees as of 12/31/93 and either completed 20 years of service as of 12/31/93 or whose sum of attained age and years of service as of 12/31/93 equals at least 65 are eligible for transition benefits.
- b. Benefit: The transition benefit is determined by multiplying the average annual base salary for the five-year period ending on the date of termination or retirement by the total number of years of service at that date and 1.6%. No future accruals will be granted under this formula beyond 1998. Bonuses are not included as pensionable compensation for this purpose.

There is also a frozen minimum accrued benefit as of March 31, 1995 under this transition benefit formula that added five years to the total number of years of service as of March 31, 1995 and five years to the actual attained age as of March 31, 1995 provided the employee would have been eligible to retire with such additions, was an active vested participant in the Plan as of April 1, 1995 and was a first, second or District level manager (or the equivalent).

Normal Retirement

- a. Eligibility: A participant's normal retirement age is age 65, or the fifth anniversary for a participant who enters the Plan after age 60.
- b. Benefit: The monthly retirement benefit payable to a participant at any retirement date is equal to the actuarial equivalent of his cash balance account as of such date or the transition annuity benefit, if greater.
- c. Forms of Benefit: The normal form of benefit for non-married participants is a level life annuity. For married participants, the normal form of benefit is a qualified 50% joint and survivor annuity. In either case, the normal form of benefit is the actuarial equivalent of the participant's account balance or the transition annuity benefit, if greater. As an optional form of benefit, participants can receive their benefit as a lump sum distribution on an actuarial equivalent basis.

Disability & Service Pensions

- a. Eligibility: Disability pensions are provided to employees who were active on December 31, 1993 and subsequently become disabled with at least 15 years of service. Service pensions are provided to a retired employee when the following conditions are met:

<u>Age</u>		<u>Minimum Years of Service</u>
60	and	10
55	and	20 (transition employees only)
50	and	25 (transition employees only)
Any Age	and	30

- b. Benefit: The monthly retirement benefit payable to a participant at any retirement date is equal to the actuarial equivalent of his cash balance account as of such date or the transition annuity benefit (reduced for early retirement), if greater.
- c. For transition benefit purposes, the benefit is reduced by 0.5% for each calendar month by which the employee's age at retirement is less than 55 years unless the employee has 30 or more years of service or is granted a disability pension. If the employee has 30 or more years of service, the pension amount is reduced by .25% for each calendar month by which the employee's age at retirement is less than 55. There is no reduction for employees on a disability pension. The early retirement reductions which apply to the frozen minimum accrued benefit as of March 31, 1995 are based on the greater of age and service at retirement, or age plus five as of March 31, 1995 and service plus five as of March 31, 1995.

Vesting

- a. Eligibility: 3 years of service and not eligible for a service or disability pension.
- b. Benefit: Upon termination of employment, a vested participant may elect to receive an immediate benefit which is the actuarial equivalent of his cash balance account (adjusted for applicable transition benefits). If immediate distribution is not requested, the participant may elect to defer receipt of his benefit and receive interest credits on the cash balance account at a rate of 3.5% (4% if survivor coverage is waived).

Death Benefits

- a. Eligibility: 3 years of service
- b. Benefit: The greater of (1) or (2), plus (3)
 - 1. The actuarial equivalent of the participant's cash balance account as of the date of death.
 - 2. The transition benefit for a surviving spouse of an active employee who dies with at least five years but less than fifteen years of service is equal to 44% of the transition benefit amount accrued to the date of death with payments to the surviving spouse beginning at the time the deceased employee would have attained age 65. For a surviving spouse of an active employee who dies with at least fifteen years of service, the transition benefit is equal to 45% of the pension amount accrued to the date of death with payments commencing immediately without an early retirement discount.
 - 3. In addition, all IMG and Corporate service and disability retirements before December 31, 2000 that were hired before January 1, 1991 are entitled to a special postretirement death benefit. The benefit is payable to certain mandatory beneficiaries and is equal to one year's pay in effect at the earlier of December 31, 1993 or retirement. Effective December 31, 2000, the preretirement and postretirement one-times pay death benefit for eligible active employees as of December 31, 2000 was transferred to the Group Life Plan.

Notes Regarding 2014 Schedule SB (Form 5500)

- Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. To the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB, the values on the signed Schedule SB will govern.

In making this certification, I have relied, as permitted under Sec. 103(a)(4)(D) of ERISA, on the correctness of the asset values and contribution information supplied by the plan administrator, on which the qualified public accountant engaged by the Plan has expressed an opinion. I have also relied on the correctness of the participant data supplied by the plan administrator. These items would customarily not be verified by the actuary. I have reviewed, and applied certain reasonableness and consistency checks to, the information furnished and I have no reason to doubt its substantial accuracy.

Notes Regarding 2014 Schedule SB (Form 5500)

- Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. To the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB, the values on the signed Schedule SB will govern.

In making this certification, I have relied, as permitted under Sec. 103(a)(4)(D) of ERISA, on the correctness of the asset values and contribution information supplied by the plan administrator, on which the qualified public accountant engaged by the Plan has expressed an opinion. I have also relied on the correctness of the participant data supplied by the plan administrator. These items would customarily not be verified by the actuary. I have reviewed, and applied certain reasonableness and consistency checks to, the information furnished and I have no reason to doubt its substantial accuracy.

Schedule SB, Part V - Summary of Plan Provisions

The following summary describes principal plan provisions assumed in calculating the cost of your pension plan.

General Information

Original Effective Date:	January 1, 1999
Effective Date of Last Amendment:	June 29, 2011
Plan Year:	January 1st to December 31st
Employer Fiscal Year	January 1st to December 31st

Eligibility

All employees who have reached age 21 with one year of service participate in the Plan. Effective April 1, 2008, any employee who has not reached age 21 with one year of service as of March 31, 2008 shall not be eligible to participate in the plan.

Cash Balance Accounts

- Initial Balance:** Transferred from the CBMPP or CBPP as of December 31, 1998.
- Interest Credits:** Interest credits are added to all accounts annually. The interest crediting rates for active employees for 2008 and thereafter is 4.00%.
- Pension Credits:** Each year, pension credits will be added to the accounts of all active participants based on age, compensation and the Social Security Wage Base. Starting in 2007, the schedule of credits was reduced and is as follows:

<u>Age*</u>	<u>Pension Credit for All Pay</u>	<u>Additional Credit for Pay in Excess of the Social Security Wage Base**</u>
under 30	2.00%	1.000%
30 to 34	2.25%	1.125%
35 to 39	2.50%	1.250%
40 to 44	3.25%	1.625%
45 to 49	4.00%	2.000%
50 to 54	5.00%	2.500%
55 and Over	6.00%	3.000%

After March 31, 2008, there are no more pension credits.

*Age is determined as of December 31 of each calendar year

- Compensation for Pension Credit:** For all participants, pension credits are based on compensation including bonuses.

Schedule SB, Part V - Summary of Plan Provisions

Transition Benefits

- a. Eligibility: Participants who were IMG employees as of 12/31/93 and either completed 20 years of service as of 12/31/93 or whose sum of attained age and years of service as of 12/31/93 equals at least 65 are eligible for transition benefits.
- b. Benefit: The transition benefit is determined by multiplying the average annual base salary for the five-year period ending on the date of termination or retirement by the total number of years of service at that date and 1.6%. No future accruals will be granted under this formula beyond 1998. Bonuses are not included as pensionable compensation for this purpose.

There is also a frozen minimum accrued benefit as of March 31, 1995 under this transition benefit formula that added five years to the total number of years of service as of March 31, 1995 and five years to the actual attained age as of March 31, 1995 provided the employee would have been eligible to retire with such additions, was an active vested participant in the Plan as of April 1, 1995 and was a first, second or District level manager (or the equivalent).

Normal Retirement

- a. Eligibility: A participant's normal retirement age is age 65, or the fifth anniversary for a participant who enters the Plan after age 60.
- b. Benefit: The monthly retirement benefit payable to a participant at any retirement date is equal to the actuarial equivalent of his cash balance account as of such date or the transition annuity benefit, if greater.
- c. Forms of Benefit: The normal form of benefit for non-married participants is a level life annuity. For married participants, the normal form of benefit is a qualified 50% joint and survivor annuity. In either case, the normal form of benefit is the actuarial equivalent of the participant's account balance or the transition annuity benefit, if greater. As an optional form of benefit, participants can receive their benefit as a lump sum distribution on an actuarial equivalent basis.

Disability & Service Pensions

- a. Eligibility: Disability pensions are provided to employees who were active on December 31, 1993 and subsequently become disabled with at least 15 years of service. Service pensions are provided to a retired employee when the following conditions are met:

<u>Age</u>		<u>Minimum Years of Service</u>
60	and	10
55	and	20 (transition employees only)
50	and	25 (transition employees only)
Any Age	and	30

- b. Benefit: The monthly retirement benefit payable to a participant at any retirement date is equal to the actuarial equivalent of his cash balance account as of such date or the transition annuity benefit (reduced for early retirement), if greater.
- c. For transition benefit purposes, the benefit is reduced by 0.5% for each calendar month by which the employee's age at retirement is less than 55 years unless the employee has 30 or more years of service or is granted a disability pension. If the employee has 30 or more years of service, the pension amount is reduced by .25% for each calendar month by which the employee's age at retirement is less than 55. There is no reduction for employees on a disability pension. The early retirement reductions which apply to the frozen minimum accrued benefit as of March 31, 1995 are based on the greater of age and service at retirement, or age plus five as of March 31, 1995 and service plus five as of March 31, 1995.

Vesting

- a. Eligibility: 3 years of service and not eligible for a service or disability pension.
- b. Benefit: Upon termination of employment, a vested participant may elect to receive an immediate benefit which is the actuarial equivalent of his cash balance account (adjusted for applicable transition benefits). If immediate distribution is not requested, the participant may elect to defer receipt of his benefit and receive interest credits on the cash balance account at a rate of 3.5% (4% if survivor coverage is waived).

Death Benefits

- a. Eligibility: 3 years of service
- b. Benefit: The greater of (1) or (2), plus (3)
 - 1. The actuarial equivalent of the participant's cash balance account as of the date of death.
 - 2. The transition benefit for a surviving spouse of an active employee who dies with at least five years but less than fifteen years of service is equal to 44% of the transition benefit amount accrued to the date of death with payments to the surviving spouse beginning at the time the deceased employee would have attained age 65. For a surviving spouse of an active employee who dies with at least fifteen years of service, the transition benefit is equal to 45% of the pension amount accrued to the date of death with payments commencing immediately without an early retirement discount.
 - 3. In addition, all IMG and Corporate service and disability retirements before December 31, 2000 that were hired before January 1, 1991 are entitled to a special postretirement death benefit. The benefit is payable to certain mandatory beneficiaries and is equal to one year's pay in effect at the earlier of December 31, 1993 or retirement. Effective December 31, 2000, the preretirement and postretirement one-times pay death benefit for eligible active employees as of December 31, 2000 was transferred to the Group Life Plan.

Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Expected Return on Assets	
2012 Plan Year	7.50%
2013 Plan Year	6.75%
Trust Expenses Included in Target Normal Cost	The expenses included in the target normal cost reflect the prior year's administrative and investment expenses (\$1,000,000 for 2014)

The funding valuation does not reflect any method changes.

Assumption Changes

The funding valuation reflects the following assumption changes:

- A change in the Expected Long-Term Rate of Return on Plan Assets from 7.50% to 6.75%.
- A change in the interest rate assumption from segment rates as of January 2013 to segment rates as of January 2014 adjusted as applicable to fall within the 25 year average interest rate corridor under HATFA.
- A change in the mortality assumption from the 2013 static mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(e) to the 2014 static mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(e).

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (cont'd)

Discussion of Actuarial Assumptions and Methods

For the funding valuation, the allowable interest rates and mortality tables available to measure plan liabilities are prescribed by IRC section 412. Aon Hewitt provided guidance with respect to the alternative interest rate and mortality table options, and it is our belief that the options prescribed by Convergys Corporation are appropriate for funding purposes. It is our belief that all other actuarial assumptions used for the funding valuation represent reasonable expectations of anticipated plan experience. The actuarial cost and amortization methods used are prescribed by IRC section 412. While the method used to value assets is prescribed by Convergys Corporation, Aon Hewitt provided guidance with respect to the use of this method, and it is our belief that the method is appropriate for funding purposes.

Calculation of Normal Costs and Liabilities

The method used to calculate the ERISA target normal cost and funding target is the unit credit cost method. The funding target under IRC section 430 is calculated as the present value of all benefits that have been accrued or earned under the plan as of the first day of the plan year, based on current service and current pay. The target normal cost is the present value of all benefits expected to accrue or be earned under the plan during the plan year, including any increase in benefits earned in prior plan years attributable to compensation increases in the current plan year, plus certain trust expenses.

Under this method, benefits are estimated at each decrement age using service and earnings as of the valuation date. The present value of these estimated benefits using the applicable ERISA is the ERISA funding target. The target normal cost is the present value of the benefits earned during the year.

The ERISA funding target for lump sum benefits is determined by valuing the annuity that corresponds to the distribution using special actuarial assumptions, as described under Treasury regulations section 1.430(d). Under these special assumptions, for the period beginning with the annuity starting date, the current IRC section 417(e) applicable mortality table is substituted for the mortality table otherwise used.
