Expera Specialty Solutions LLC (Thilmany & Nicolet) 401(k) Plan

Notes to Financial Statements

Note 1. Plan Description

Plan Description: The following description of the Expera Specialty Solutions LLC (Thilmany & Nicolet) (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. Effective January 1, 2015, the plan name was changed by the Company to Expera Specialty Solutions LLC 401(k) Plan.

General: The Plan is a defined contribution plan covering all salaried employees, hourly employees and salespersons of the Company and certain related companies, including union employees of the Company's divisions. Employees are eligible to participate upon meeting the eligibility requirements as defined in the plan document. The Plan's Benefits Committee is responsible for oversight of the Plan. The Benefits Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: All participant contributions are at the employee's option and are discretionary. All eligible employees are able to contribute between 1% and 85% of compensation up to \$17,500 in 2014. Participants may change their deferral rate at such times as the plan administrator specifies. New participants are automatically enrolled to have a pre-tax deduction equal to 4 percent of eligible compensation. The deferral percentage automatically increases by 1 percent each year until it reaches the Plan's automatic increase maximum of 8 percent. Effective January 1, 2015, the auto enrollment pre-tax deduction equals 5 percent of compensation and automatically increases by 1 percent each year it reaches a maximum of 10 percent. The Company matches 50% of a participant's contributions up to 8% of a participant's eligible compensation for the Thilmany salaried employees and the Nicolet salaried and hourly employees. Thilmany union hourly matches 100% of participant contributions up to 3% of eligible compensation. In addition, the Thilmany union hourly employees receive a non-elective employer contribution of 2.75% - 4.25% based on years of service.

Participants who have attained age of 50 before the end of the Plan year are eligible to make "catch-up contributions" to the Plan – an extra \$5,500 in 2014. The contributions are amounts above and beyond any other plan-imposed limits and will not be matched. A participant must reach the maximum annual contribution, before he/she may begin catch-up contributions.

Participants who have an interest in another qualified retirement plan may elect to transfer or rollover such interest to the Plan. Contributions are subject to certain limitations.

Investment Options: Each participant is responsible for designating his and her account balance among the available investment funds; such designations may be changed at such time as the plan administrator specifies. Effective January 2, 2015, a participant may also choose to have a professional investment manager direct his or her contributions in the same investment options. A self-managed account (Fidelity BrokerageLink) is offered whereby participants can invest self-directed contribution in various mutual funds.

Vesting: Participants shall be fully vested in their contributions and the earnings on their contributions at all times. For employer contributions, participants are on a three year cliff vesting for which they are 100% vested after three years for all employees as of the start of the Plan on July 1, 2013. For contributions prior to July 1, 2013, they are vested once they meet the vesting requirements as defined in the Plan document.

Participant Accounts: Each participant's account is credited with the participant's contribution, the Company's contribution on his or her behalf, if any, and an allocation of plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Expera Specialty Solutions LLC (Thilmany & Nicolet) 401(k) Plan

Notes to Financial Statements

Note 1. Plan Description (Continued)

Notes Receivable from Participants: Participants and certain beneficiaries of deceased participants may apply for loans from the Plan. Loans must be in amounts not less than \$1,000 and shall not exceed the lesser of \$50,000 minus the highest outstanding loan balance in the prior 12 months, or 50% of the vested balance. These loans bear interest at market rates as determined by Fidelity Management Trust Company ("Fidelity"), the Plan's trustee, and are repayable over a period mutually agreed upon between the participants and the plan administrator, with such period not exceeding 5 years. If the loan is used to purchase a principal residence, the repayment period may be extended up to 10 years, at the discretion of the Plan's Benefits Committee.

Payment of Benefits: Upon termination of service due to death, disability or retirement, the participant or beneficiary will receive the vested balance in the participant's account in the form of a lump-sum distribution, rollover, or recurring payment, at the participant's discretion. Additionally, a participant may be eligible for a hardship withdrawal, limited to the amount of his/her employee contributions.

Forfeitures: There was a balance of approximately \$8,800 and zero in the forfeited nonvested accounts as of December 31, 2014 and 2013, respectively. These accounts were used to reduce Company contributions. The Company used approximately \$31,300 of forfeitures during 2014.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Plan investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Benefits Committee determines the Plan's valuation policies utilizing information provided by the investment trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the period.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses: Administrative expenses of the Plan are charged against earnings except to the extent the expenses are paid by the employer.

Payment of Benefits: Benefits are recorded when paid.

Reclassifications: Amounts previously shown have been reclassified to conform to the current year presentation.

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Recent Accounting Pronouncement: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statements of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this ASU are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

In July 2015, the FASB issued ASU No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) - (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force). The purpose of this Update is to simplify plan accounting.

The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy will no longer be required.

The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end

The Update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented the amendments in Part III shall be applied prospectively. Plan management is currently evaluating the impact this Update will have on the Plan's financial statements.

Subsequent Event: The Plan Administrator has evaluated subsequent events through October 15, 2015, the date on which the financial statements were available to be issued.

Note 3. Plan Merger

Effective June 26, 2013 Thilmany, LLC (Thilmany) was acquired by Specialty Papers Acquisition LLC. Thilmany employees who were participating in the Packaging Dynamics Corporation Employee 401(k) Plan continued making contributions to the Packaging Dynamics Corporation Employee 401(k) Plan through June 30, 2013 when Thilmany ceased being a participating employer. Effective July 1, 2013, the Plan was established and the net assets representing the account balances of the Thilmany employees participating in the Packaging Dynamics Corporation Employee 401(k) Plan transferred into the Plan. The net assets transferred into the Plan were approximately \$67,200,000 and were reflected as a transfer in during the period ended December 31, 2013.

Note 4. Information Certified and Provided by Fidelity Management Trust Company

The following is a summary of the Plan's asset information as of December 31, 2014 and 2013 and for the year ended December 31, 2014, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2014	2013
Investments:		
Shares of registered investment companies, at fair value	\$ 80,677,086	\$ 74,171,763
Notes receivable from participants	1,916,052	1,787,541

Fidelity also certified to the completeness and accuracy of \$5,656,198 of interest and dividends, including \$86,839 of interest from notes receivable, and \$1,422,996 net depreciation related to the aforementioned plan assets for the year ended December 31, 2014.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The shares of registered investment companies held by the Plan are deemed to be actively traded.

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investment from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. We evaluate the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2014, there were no transfers in or out of Levels 1, 2, or 3.

Note 7. Termination of the Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 8. Tax Status

Effective July 1, 2013, the Plan adopted a volume submitter plan sponsored by Fidelity Management & Research Co. The volume submitter plan has received an opinion letter from the Internal Revenue Service as to the volume submitter Plan's qualified status. The volume submitter plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the opinion letter. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. With few exceptions, the Plan believes it is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years prior to 2013.

Notes to Financial Statements

Note 9. Party-in-Interest Transactions

Certain Plan investments are shares of registered investment companies managed by Fidelity. Fidelity is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the administrative services amounted to approximately \$13,300 for the year ended December 31, 2014.

Certain employees of the Company provide administrative services to the Plan and are not reimbursed for their services from the Plan. Certain other administrative expenses are paid by the Company on behalf of the Plan.

Note 10. Risks and Uncertainties

The Plan's investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the values of investments, it is at least reasonable possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note 11. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2014 and 2013:

Expera Specialty Solutions LLC (Thilmany & Nicolet) 401(k) Plan

Notes to Financial Statements

Note 1. Plan Description

Plan Description: The following description of the Expera Specialty Solutions LLC (Thilmany & Nicolet) (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. Effective January 1, 2015, the plan name was changed by the Company to Expera Specialty Solutions LLC 401(k) Plan.

General: The Plan is a defined contribution plan covering all salaried employees, hourly employees and salespersons of the Company and certain related companies, including union employees of the Company's divisions. Employees are eligible to participate upon meeting the eligibility requirements as defined in the plan document. The Plan's Benefits Committee is responsible for oversight of the Plan. The Benefits Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: All participant contributions are at the employee's option and are discretionary. All eligible employees are able to contribute between 1% and 85% of compensation up to \$17,500 in 2014. Participants may change their deferral rate at such times as the plan administrator specifies. New participants are automatically enrolled to have a pre-tax deduction equal to 4 percent of eligible compensation. The deferral percentage automatically increases by 1 percent each year until it reaches the Plan's automatic increase maximum of 8 percent. Effective January 1, 2015, the auto enrollment pre-tax deduction equals 5 percent of compensation and automatically increases by 1 percent each year it reaches a maximum of 10 percent. The Company matches 50% of a participant's contributions up to 8% of a participant's eligible compensation for the Thilmany salaried employees and the Nicolet salaried and hourly employees. Thilmany union hourly matches 100% of participant contributions up to 3% of eligible compensation. In addition, the Thilmany union hourly employees receive a non-elective employer contribution of 2.75% - 4.25% based on years of service.

Participants who have attained age of 50 before the end of the Plan year are eligible to make "catch-up contributions" to the Plan – an extra \$5,500 in 2014. The contributions are amounts above and beyond any other plan-imposed limits and will not be matched. A participant must reach the maximum annual contribution, before he/she may begin catch-up contributions.

Participants who have an interest in another qualified retirement plan may elect to transfer or rollover such interest to the Plan. Contributions are subject to certain limitations.

Investment Options: Each participant is responsible for designating his and her account balance among the available investment funds; such designations may be changed at such time as the plan administrator specifies. Effective January 2, 2015, a participant may also choose to have a professional investment manager direct his or her contributions in the same investment options. A self-managed account (Fidelity BrokerageLink) is offered whereby participants can invest self-directed contribution in various mutual funds.

Vesting: Participants shall be fully vested in their contributions and the earnings on their contributions at all times. For employer contributions, participants are on a three year cliff vesting for which they are 100% vested after three years for all employees as of the start of the Plan on July 1, 2013. For contributions prior to July 1, 2013, they are vested once they meet the vesting requirements as defined in the Plan document.

Participant Accounts: Each participant's account is credited with the participant's contribution, the Company's contribution on his or her behalf, if any, and an allocation of plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Expera Specialty Solutions LLC (Thilmany & Nicolet) 401(k) Plan

Notes to Financial Statements

Note 1. Plan Description (Continued)

Notes Receivable from Participants: Participants and certain beneficiaries of deceased participants may apply for loans from the Plan. Loans must be in amounts not less than \$1,000 and shall not exceed the lesser of \$50,000 minus the highest outstanding loan balance in the prior 12 months, or 50% of the vested balance. These loans bear interest at market rates as determined by Fidelity Management Trust Company ("Fidelity"), the Plan's trustee, and are repayable over a period mutually agreed upon between the participants and the plan administrator, with such period not exceeding 5 years. If the loan is used to purchase a principal residence, the repayment period may be extended up to 10 years, at the discretion of the Plan's Benefits Committee.

Payment of Benefits: Upon termination of service due to death, disability or retirement, the participant or beneficiary will receive the vested balance in the participant's account in the form of a lump-sum distribution, rollover, or recurring payment, at the participant's discretion. Additionally, a participant may be eligible for a hardship withdrawal, limited to the amount of his/her employee contributions.

Forfeitures: There was a balance of approximately \$8,800 and zero in the forfeited nonvested accounts as of December 31, 2014 and 2013, respectively. These accounts were used to reduce Company contributions. The Company used approximately \$31,300 of forfeitures during 2014.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Plan investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Benefits Committee determines the Plan's valuation policies utilizing information provided by the investment trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the period.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses: Administrative expenses of the Plan are charged against earnings except to the extent the expenses are paid by the employer.

Payment of Benefits: Benefits are recorded when paid.

Reclassifications: Amounts previously shown have been reclassified to conform to the current year presentation.

Note 2. Summary of Significant Accounting Policies (Continued)

Recent Accounting Pronouncement: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statements of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this ASU are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

In July 2015, the FASB issued ASU No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) - (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force). The purpose of this Update is to simplify plan accounting.

The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy will no longer be required.

The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end

The Update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented the amendments in Part III shall be applied prospectively. Plan management is currently evaluating the impact this Update will have on the Plan's financial statements.

Subsequent Event: The Plan Administrator has evaluated subsequent events through October 15, 2015, the date on which the financial statements were available to be issued.

The Plan Administrator obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

Shares of registered investment companies, at fair value	\$ 80,677,086	\$ 74,171,763
Notes receivable from participants	1,916,052	1,787,541

Fidelity also certified to the completeness and accuracy of \$5,656,198 of interest and dividends, including \$86,839 of interest from notes receivable, and \$1,422,996 net depreciation related to the aforementioned plan assets for the year ended December 31, 2014.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The shares of registered investment companies held by the Plan are deemed to be actively traded.

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investment from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. We evaluate the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2014, there were no transfers in or out of Levels 1, 2, or 3.

Note 7. Termination of the Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 8. Tax Status

Effective July 1, 2013, the Plan adopted a volume submitter plan sponsored by Fidelity Management & Research Co. The volume submitter plan has received an opinion letter from the Internal Revenue Service as to the volume submitter Plan's qualified status. The volume submitter plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the opinion letter. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. With few exceptions, the Plan believes it is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years prior to 2013.

Note 9. Party-in-Interest Transactions

Certain Plan investments are shares of registered investment companies managed by Fidelity. Fidelity is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the administrative services amounted to approximately \$13,300 for the year ended December 31, 2014.

Certain employees of the Company provide administrative services to the Plan and are not reimbursed for their services from the Plan. Certain other administrative expenses are paid by the Company on behalf of the Plan.

Note 10. Risks and Uncertainties

The Plan's investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the values of investments, it is at least reasonable possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.
