Independent Auditors' Report

The Plan Administrator
F. Schumacher & Co. Retirement Plan
for Salaried Employees:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the F. Schumacher & Co. Retirement Plan for Salaried Employees (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph; however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 6 to the financial statements, which was certified by Bank of America, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the trustee as of December 31, 2014 and 2013, and for the years then ended, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

KPMG LLP is a Delaware limited liability partnership, the U.S. member firm of KPMG International Cooperative ("KPMG International"), a Swiss entity.

Other Matter

The supplemental schedules (1) Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2014; and (2) Schedule H, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2014, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(1) Description of Plan

The following brief description of the F. Schumacher & Co. Retirement Plan for Salaried Employees (the Plan) is provided for general information only. Participants should refer to the plan agreement for more complete information.

(a) General

The Plan is a defined benefit pension plan sponsored by F. Schumacher & Co. (the Company), which covered all regular salaried employees of the Company. The Plan is administered by the Executive Retirement Committee of the Board of Directors. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Effective March 31, 2004, the Plan was frozen. The Plan was closed to new participants and the benefits for participants in the Plan were finalized at the amount accrued as of that date. Vesting status of participants in the Plan was not affected.

(b) Pension Benefits

Employees, as defined by the Plan, were eligible on the first day of the month following the earlier of attainment of age 35 or the date on which one year of eligibility service was completed.

Participants of the Plan are entitled to annual pension benefits beginning at the normal retirement age of 65 based on their length of service and history of earnings generally equal to 1.25% of compensation for each year of benefit service, as defined. The Plan permits early retirement at age 60 with reduced benefits. The normal form of benefit is a qualified joint and survivor annuity for members with a spouse and a life annuity for participants who do not have a spouse. Other optional forms of benefit payments are available. The Plan provides 100% vesting in accrued retirement benefits to employees with five years of credited service, as defined in the Plan, or to employees who have attained age 60 (payable at normal retirement or at an earlier retirement date with reduced benefits). If employees terminate before completing five years of service, they forfeit the right to receive the portion of their accumulated plan benefits. If an active employee dies after five or more years of continuous plan participation or having attained age 60, an automatic survivor benefit is paid to the spouse.

(c) Death Benefits

The death benefit payable to the surviving spouse of a vested employee before retirement is payable as a life annuity. The benefit is determined as if the employee had terminated for cause other than death, survived to the earliest commencement date, had retired with a reduced lifetime benefit with 100% continuation to the spouse, and had died on the following day.

(d) Trust Fund Management

Under the terms of the trust agreement between Bank of America, N.A. (the Trustee) and the Company, the Trustee administers and manages the trust fund on behalf of the Plan as directed by the Plan administrator. The Trustee and the Plan administrator have responsibility for the investment of assets and have exclusive authority to manage, acquire, and dispose of any assets.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

(b) Use of Estimates

The preparation of the financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 7 for a discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Unrealized appreciation (depreciation) in fair value of investments includes gains and losses on investments bought and sold as well as held during the year. Unrealized appreciation and depreciation in the fair value of investments are recognized in the financial statements in the periods in which such changes occur.

Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with these investments, it is reasonable that changes in the values of investment securities could occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and impact the Company's Plan funding requirements.

(d) Benefit Payments

Benefit payments to participants are recorded upon distribution.

(e) Administrative Costs and Party-in-Interest Transactions

All administrative costs of the Plan are paid by the Company.

Certain Plan investments are managed by the Plan's Trustee. Therefore, transactions related to these investments qualify as party-in-interest transactions.

(f) Risks and Uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

(3) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the plan's provisions to the service employees have already rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. Benefits payable under all circumstances; retirement, death, disability, and termination of employment, are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by a third-party actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of January 1, 2014 were (a) life expectancy of participants (the RP 2000 Separate Annuitant and Non-Annuitant Mortality Table with generational projection using 150% of Scale AA), (b) retirement age assumptions (rates varying by age for ages 60 – 70), and (c) investment return of 7.5%. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of December 31, 2013 is summarized as follows:

Vested:		
Participants receiving benefits	$	22,182,829
Active participants and participants with deferred benefits		26,511,774
Total vested		48,694,603
Nonvested		43,519
	$	48,738,122

The changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2013 are summarized as follows:

Actuarial present value of accumulated plan benefits as of December 31, 2012	$	46,612,665
Increase (decrease) during the year attributable to:		
Accumulation of benefits, including experience gains and losses		(452,433)
Change in average discount period		3,411,441
Benefit payments		(2,295,067)
Change in actuarial assumptions		1,461,516
Actuarial present value of accumulated plan benefits as of December 31, 2013	$	48,738,122

The actuarial valuation date was January 1, 2014. Although the actuarial present value of accumulated plan benefits and the changes in the actuarial present value of accumulated plan benefits are presented as of December 31, 2013, the accumulated plan benefits on January 1, 2014 are not materially different.

(4) Funding Policy

The projected unit credit actuarial cost method is used for purposes of establishing current annual contribution requirements. The Company's contributions for 2014 and 2013 met the minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

(5) Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

(a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable, or would have been payable, during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.

(b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) – (a U.S. governmental agency) – up to the applicable limitations (discussed below).

(c) All other vested benefits, that is, vested benefits not insured by the PBGC.

(d) All nonvested benefits.

(Continued)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations, that ceiling, which is adjusted periodically, was $4,943 per month during 2014 and $4,790 per month during 2013. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination, whichever comes later. For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend upon the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

(6) Investment Information Certified by Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator has obtained certifications from the Trustee that all information relating to the Plan's investments as of December 31, 2014 and 2013 and related investment income for the years then ended is complete and accurate. Information as to the value of the investments, investment income, and all information in the supplemental schedules is presented in reliance solely upon those certifications.

During 2014 and 2013, the Plan's investments in mutual funds including gains and losses on investments bought, sold, as well as held during the year, appreciated in fair value by $1,862,437 and $7,889,003, respectively.

Interest and dividends for 2014 and 2013 were $1,966,689 and $795,254, respectively.

(7) Fair Value Measurements

The fair value hierarchy establishes a framework for measuring fair value that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology included: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used as of December 31, 2014 and 2013.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Money market fund: Valued at the closing price reported on the active market, which the fund is traded.

Common collective trust funds: Valued at NAV based upon units held by the Plan. Investments are redeemable at NAV daily, with no redemption notification period. The Plan has no unfunded commitments.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

(8) Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated June 9, 2012, that the Plan and related trust are designed in accordance with applicable sections of the IRC. In the opinion of the Plan administrator, the Plan and its underlying trust have operated within the terms of the Plan and remain qualified under the applicable provisions of the IRC. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

(9) Subsequent Events

The Plan administrator evaluated subsequent events through October 14, 2015 and determined no adjustment or disclosure was required to the financial statements.
