To be eligible for employer contributions, the employee must complete one year of service, as defined, be at least 21 years of age and have worked not less than 1,000 hours. Enrollment for new eligible employees occurs on January 1 and July 1 of each year.

Plan Administration: The Company contracts with a third party, John Hancock Life Insurance Company (John Hancock) for the period of January 1 through June 14, 2014, and then with Guardian Retirement Solutions (Guardian) from June 16, through December 31, 2014, to be the custodian for the Plan. The Plan administrator is responsible for carrying out the duties imposed under ERISA.

Contributions: Each year, participants may elect to defer 100% of their annual covered compensation, up to a maximum annual limit as determined under the Internal Revenue Code (IRC). For 2014 this limit was $17,500 per participant, plus an additional $5,500 for participants 50 or older.

Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. These "rollover" contributions are placed in a separate account called a "participant rollover account."

Participants direct their own investment of contributions into various investment options offered by the Plan. The Plan currently offers numerous investment options for participants.

NOTE 1 - DESCRIPTION OF PLAN (continued):

Contributions: (continued)

The Company may make a discretionary matching contribution each year equal to a uniform percentage of each participant's salary reduction that they elect to defer. The Company is not obligated to do so, and the decision is determined annually. Matching contributions were accrued and amounted to approximately $229,000 for the year ended December 31, 2014.

Participant Accounts: Each participant's account is credited with their share of the Company's contributions, participant contributions, plan forfeitures and allocation of plan earnings (losses) and charged with an allocation of administrative expenses. Allocations are based on account balances as defined by the plan. All amounts in participant accounts are participant directed. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Loans: Participants are permitted to receive loans from the assets of the Plan subject to certain restrictions. Based on the terms of the Plan, participants may borrow up to a maximum equal to the lesser of $50,000 or 50% of the value of the participants' vested account balance. A participant may have three loans outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus one percent. The prevailing interest rate at December 31, 2013 was 4.25%. Interest earned for the year ended December 31, 2013 was approximately $5,800. Interest is recorded when earned. Related fees are recorded as administrative expenses and are expensed when incurred. If a participant ceases to make loan repayments and the Plan Sponsor deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting for employer contributions is based on years of continuous service, with 100% vesting after six years of accredited service.
Participants are immediately vested in participant contributions. Employer contributions are subject to a six-year graded vesting schedule as follows:

Years of Vesting Service	Vesting Percentage
Two years	20%
Three years	40%
Four years	60%
Five years	80%
Six or more years	100%

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Payment of Benefits: Benefits are payable in a lump sum upon separation from service, death or disability. A participant may also elect to take a distribution over a specified period not to exceed the life or life expectancy of the participant (and a designated beneficiary). In-service distributions are available for hardship, or attainment of age 59½. In any event, payment of benefits must commence at the later of when the participant reaches age 70½ or termination of employment. Participants may also receive distributions from rollovers of prior qualified plans.

Forfeited Accounts: Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeitures are used to reduce employer and or matching contributions. At December 31, 2014, the amount forfeited during the year and which were deemed distributions under the plan amounted to approximately $35,000.

Fees: The Plan is subject to an administrative fee, which is deducted from the participants' accounts and paid to the Plan's custodian. At December 31, 2014 administrative fees paid from the plan amounted to approximately $7,700, as well as two years of audit fees amounting to $30,000, and are reflected in the Statement of Changes in Net Assets Available for Benefits. Payments to the Plan actuaries and consultants amounted to approximately $9,000.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time, subject to the provisions of ERISA. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Preparation: The Plan reports its transactions on a cash basis, except that investments are reported at fair value in the statements of net assets available for benefits and changes in fair value of investments are shown as appreciation or depreciation in the statement of changes in net assets available for plan benefits. This modified cash basis is a comprehensive basis of accounting other than generally accepted accounting principles (GAAP). GAAP requires plan contributions and investment income to be reported when earned and plan expenditures to be recorded when incurred. In addition, GAAP requires disclosure of the fair value hierarchy that prioritizes the inputs of valuation techniques used to measure fair value and the modified cash basis does not require such disclosure.

Basis of Accounting: Investment contracts held by a defined-contribution are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of Accounting: (continued)
The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Basis of Preparation: The Plan reports its transactions on a cash basis, except that investments are reported at fair value in the statements of net assets available for benefits, and changes in fair value of investments are shown as appreciation or depreciation in the statements of changes in net assets available for plan benefits. This modified cash basis is a comprehensive basis of accounting other than generally accepted accounting principles ("GAAP"). GAAP requires plan contributions and investment income to be reported when earned and plan expenditures to be recorded when incurred. In addition, GAAP requires disclosure of the fair value hierarchy that prioritizes the inputs of valuation techniques used to measure fair value and the modified cash basis does not require such disclosure.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Cash and Cash Equivalents: At December 31, 2013, cash and cash equivalents consists of monies held in checking and broker/dealer money market accounts. The money market accounts earned interest between 0.02% and 0.05% per annum. At December 31, 2014 the cash account was liquidated.

Investment Valuation and Income Recognition: The Plan's investments are comprised of mutual funds which are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The valuations are made by the custodian and they are taken from published sources. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the cash basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at December 31, 2014.

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

1. **Regulated investment companies: Valued at the daily closing price as reported by the fund. Regulated investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The regulated investment companies held by the Plan are deemed to be actively traded.**

2. **Guaranteed Investment Contract: Valued at fair value by the insurance company by discounting the related cash flows based upon current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.**

3. **Insurance Annuities: Valued at fair value by the insurance company by discounting the related cash flows based upon current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.**

The preceding methods described may produce fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following is a summary of the investment information as of December 31, 2014 and 2013, statements at fair market value as reported to the Plan by the custodian, Guardian Retirement Solutions. The plan sponsor has obtained certifications from the custodian that information provided to the plan administrator related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information related to all investments.

NOTE 4 - FAIR VALUE MEASUREMENTS:

Financial Accounting Standards Board provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

Level 1 **Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Valuation adjustments are not applied to Level 1 securities. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment.**

Level 2 **Pricing inputs are other than used in Level 1 which include the closing bid price for unlisted marketable securities which are available in active or inactive markets for identical investments or liabilities, other direct or indirect observable inputs that can be corroborated by market data or the use of models or other valuation methodologies as of the reporting date. Investments which are generally included in this category include state and municipal obligations in an active or inactive market that are valued using observable inputs other than quoted prices.**

NOTE 4 - FAIR VALUE MEASUREMENTS (continued):

Level 3 **Pricing inputs are unobservable for the investment and include situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value require significant management judgment or estimation. Investments that are included in this category generally include state and municipal obligations which are in an inactive market and valued utilizing risk assumptions based on unobservable inputs.**

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and maximize the use of unobservable inputs.

NOTE 5 - TAX STATUS:

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the original determination letter, the plan sponsor and tax counsel believe that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt. The Plan is in compliance with the reporting and other provisions of the ERISA and the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS:

Plan investments included regulated investment companies which were managed by John Hancock Life Insurance Company during 2013. John Hancock was also the custodian as defined by the Plan, and therefore, these transactions qualified as party-in-interest transactions. All of these investments were liquidated at June 14, 2014, when Guardian Retirement Solutions became the custodian. The amounts included for 2013 were approximately $7,404,000 for the year ended December 31, 2013. There were no party-in-interest investments at December 31, 2014.

NOTE 7 - RECONCILIATION OF FINANCIAL STATEMENT TO SCHEDULE H OF FORM 5500:

The Plan prepares its Form 5500 on the cash basis of accounting. The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of the Form 5500 as of, and for the years ended, December 31, 2014 and 2013.

	2014	2013

NOTE 8 - SUBSEQUENT EVENTS

Subsequent events were evaluated through October 5, 2015, which is the date the financial statements were available to be issued. No events have occurred that would have a material effect on the financial statements of the Plan as of that date.
