Other Matter – 2013 Financial Statements

The financial statements of the Plan as of December 31, 2013 were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by Voya Life Insurance and Annuity Company, the trustee of the Plan. Their report, dated September 16, 2014, indicated that (a) because of the significance of the information that they did not audit, they were unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the Trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental information, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

GASTROENTEROLOGY CENTER OF THE MIDSOUTH, P.C. PROFIT SHARING PLAN

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2014 and 2013

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Gastroenterology Center of the MidSouth, P.C. Profit Sharing Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution and profit sharing plan covering all employees of Gastroenterology Center of the MidSouth, P.C. (the “Company”) who are twenty-one years of age or older and have completed one year of service, defined as the completion of 1,000 hours of service within a 12-month period. Voya Life Insurance and Annuity Company (“Voya”) serves as the custodian of the Plan. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions

Participants may contribute 1% to 100% of pretax annual compensation as defined in the Plan document, subject to certain Internal Revenue Code (“IRC”) limitations. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans and certain individual retirement accounts. The Plan also allows participants to make Roth 401(k) contributions.

The Company provides a safe harbor matching contribution of 100% on the first 3% of participant deferrals and 50% on the next 2% of participant deferrals. Total matching contributions for 2014 were \$404,011. The Company also makes a profit sharing contribution to the Plan in an amount decided upon by the Company’s board of directors. The profit sharing contribution for 2014 was \$851,691.

Forfeitures

If an employee terminates before his or her matching and profit sharing contribution accounts have become fully vested, such portions are forfeited. Participant forfeitures may be used to pay any administrative expenses and to reduce the Company’s contributions. For the year ended December 31, 2014, forfeitures in the amount of \$46,192 were used to reduce the Company’s contributions. As of December 31, 2014, accumulated forfeitures totaled \$6,358.

Participant Accounts

Participants direct the investment of their contributions into various investment options offered by the Plan. Company contributions are invested in the funds selected by the participant. The plan currently offers pooled separate accounts and a guaranteed investment contract as investment

options for participants. Each participant's account is credited with the participant's contributions and allocations of the Company's matching and discretionary contributions and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their voluntary contributions and the Company's safe harbor matching contributions, plus actual earnings thereon. Participants' vesting in the discretionary profit sharing contribution is based on the years of continuous service as follows:

<u>Years of Service</u>	<u>Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Payment of Benefits

Upon termination of service, due to death, disability, or retirements, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount of various installment and annuity options provided by the Plan. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the plan sponsor and are excluded from these financial statements. Investment transaction costs and related administrative fees are charged to participant accounts and are separately disclosed in the accompanying financial statements. Other investment related expenses are included in net appreciation of fair value of investments.

Date of Managements Review

The plan sponsor evaluated the Plan's December 31, 2014 financial statements for subsequent events through October 13, 2015, the date the financial statements were available to be issued. Other than the even discussed in Note 13, the Plan is not aware of any subsequent event which would require recognition or disclosure in the financial statements.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Plan are prepared using the accrual basis of accounting.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

The Plan's investments are stated at fair market value, as defined by Financial Accounting Standards Board *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*. See Note 4 for disclosure of fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments which consists of realized gains (losses) and the unrealized appreciation (depreciation) on investments.

Benefits are recorded when paid.

NOTE 3 – INVESTMENTS

The following table presents the fair value of investments for the years ended December 31. Investments that represent 5% or more of the Plan's net assets are separately identified.

NOTE 4 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritized the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Fair values of shares of an underlying fund equals the number of shares of the respective underlying fund multiplied by the closing net asset value per share quoted by that fund.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations, considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013. Categories of mutual funds that represent 5% or more of the Plan's total assets at fair value are separately identified.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Management has evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

Guaranteed investment contract was transferred from level 3 to level 2 in the fair value hierarchy.

NOTE 5 – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan is invested in a fully benefit-responsive guaranteed investment contract with Voya Life Insurance and Annuity Company (Voya) that maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Generally accepted accounting principles require guaranteed interest contracts held by a defined contribution plan to be reported at fair value. However, contract value is the relevant measurement attributed for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive guaranteed interest contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by generally accepted accounting principles, the statements of net assets available for benefits presents the fair value of the guaranteed interest contract as well as the adjustment of the fully benefit-responsive guaranteed interest contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rate was 3.00% at December 31, 2014 and 2013.

NOTE 6 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possibly that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of assets available for benefits.

NOTE 7 – SEPARATED PARTICIPANTS

At December 31, 2014, the Plan's assets included \$1,484,108 of benefits allocated to participant accounts of former employees of the Company. No additional contributions to these accounts are allowed, nor do the separated participants continue to increase the vested portion of their account.

NOTE 8 – TAX STATUS

The Plan is a Prototype Plan under Internal Revenue Code Section 401, which has been determined acceptable by the Internal Revenue Service in an opinion letter dated March 31, 2008. The Company has not applied for a determination letter from the Internal Revenue Service regarding the qualification of the Plan as it applies to the Company, however, the administrator believes that the Plan is currently designed and being operated in compliance with requirements of the Internal Revenue Code and should qualify for tax-exempt status as of the financial statement date. The plan administrator believes that the Plan has not generated any taxable income and no federal or state income tax returns have been filed. Federal and state taxing authorities could request an examination of the financial records of the Plan to ascertain if any such taxable income exists, but no such examination has occurred or is pending.

NOTE 9 – PARTIES-IN-INTEREST

Certain Plan investments are managed by an affiliate of the custodian and therefore, qualify as party-in-interest transactions. In addition, certain Plan expenses paid by the Company qualify as party-in-interest transactions. These transactions are exempt from the prohibited transactions provisions of ERISA and the Internal Revenue Code.

NOTE 10 – SUMMARY OF INFORMATION CERTIFIED BY ASSET CUSTODIAN

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the asset custodian has certified that the following data included in the accompanying financial statements and supplemental information is complete and accurate:

- Investments as shown in the statements available for benefits as of December 31, 2014 and 2013.
- Investment activity, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2014.
- The schedule of assets (held at end of year) as of December 31, 2014.

The Plan's independent accounts did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental information.

NOTE 11 – PLAN TERMINATION

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all amounts credited to participant accounts will become

100 percent vested in their accounts and Plan assets will be used solely to provide benefits for participants. The net assets of the Plan are to be distributed in accordance with the Plan document in a uniform and nondiscriminatory manner. See Note 13

NOTE 12 – RECONCILIATION OF FEDERAL FORM 5500

The differences between the amounts reported on Schedule H – Parts I and II of federal form 5500 “Annual Return/Report of Employee Benefit Plan” and the accompanying financial statements as of and for the year ended December 31, 2014 are as follows:

Description	Amount per F/S	Amount per 5500	Difference
Part II 2a(1)(A) - Employer contributions	\$ 1,255,702	\$ 1,290,464	\$ (34,762)
Part II 2a(1)(B) - Employee contributions	838,860	826,654	12,206
Part II 2b(7) - Net Investment gain	1,284,573	1,269,679	14,894
Part II 2c - Other income	8,620	-	8,620
Part II 2e(1) - Benefit payments to participants	(3,445,773)	(3,444,815)	(958)
	<u>\$ (58,018)</u>	<u>\$ (58,018)</u>	<u>\$ -</u>

The above differences arise from the financial statements being prepared on the accrual basis and the Form 5500 on a cash basis, and from the reclassification of certain items for financial statement presentation.

NOTE 13 – SUBSEQUENT EVENT

Effective January 2015, the plan merged with Memphis Gastro 401(k) Plan. This merger does not affect participant benefits because the provisions of the merged plan are incorporated into the plan. As a result of the merger of the plans, 95 additional participants became enrolled in the plan and additional assets of \$16,264,960 were acquired by the plan from the Memphis Gastro 401(k) Plan.
