NOTE 1 – DESCRIPTION OF PLAN

The following description of the Craft Cast Holdings, LLC Savings and Investment Plan (formerly known as the Precision Metalsmiths, Inc. Savings and Investment Plan) (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan, established on July 1, 1997, is a defined contribution plan covering eligible employees of Craft Cast Holdings, LLC (the "Company") that are former employees of Precision Metalsmiths, Inc. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Eligibility: Employees may enroll in the Plan immediately following 90 days of employment.

Vesting: Participants are immediately 100% vested in their salary reduction contributions, rollover contributions, and the Company's matching or profit sharing contributions plus actual earnings thereon.

Payment of Benefits: Benefits are payable upon retirement, termination, disability, hardship or death. A participant is entitled to receive the vested portion of their account in the form of a lump sum distribution, installment distributions or elect a rollover into a qualified retirement plan. If the vested account balance of a participant does not exceed $5,000, the amount shall be paid as a lump sum. Active participants may also take distributions from the Plan upon attainment of age 59½.

Contributions: Each year, participants may contribute up to 100% of pretax annual compensation, as defined by the Plan, up to the maximum allowed by the Internal Revenue Code ("IRC"). Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions).

All Company contributions are at the sole discretion of the Company's Board of Directors. Participant contributions are remitted on a bi-weekly basis, while the Company's contributions are remitted annually. There were no discretionary match or profit sharing contributions during 2014.

Participant Accounts: Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, an allocation of the Company's contributions, and related Plan earnings, and charged with withdrawals and an allocation of Plan losses and certain administrative expenses. Allocations are based on participant earnings (losses) or compensation, as defined. The benefit to which a participant is entitled is the amount that can be provided from the participant's account. All amounts in the participant accounts are participant-directed.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of $500 up to a maximum of $50,000, reduced by the highest outstanding balance of Plan loans made during the prior one-year period or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at 1% over the prime rate. Principal and interest are paid through payroll deductions.

Administrative and Investment Management Expenses: The Company pays a portion of the Plan's administrative expenses. A participant's account balance will be charged with certain fees and expenses. Asset – based fees (e.g., management fees and other operating expenses) are used to cover the expenses related to running an investment fund, and are generally deducted from a participant's investment returns.

Plan administration fees cover the day-to-day expenses of administering the Plan, and may be charged directly to a participant's account, covered by a portion of the asset-based fees deducted directly from investment returns, or paid through revenue-sharing payments made from investment managers to the recordkeeper. Participants requesting loans pay administrative costs for processing their loans.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Adoption of New Accounting Standards: In May and July 2015 the Financial Accounting Standards Board ("FASB") amended various disclosure requirements applicable to investments held by defined contribution pension plans. The new guidance clarifies that a plan's investments in stable value funds are not fully benefit-responsive investment contracts (FBRICs) and should be measured and presented only at fair value. These new standards also eliminate or simplify various disclosure requirements applicable to plan investments. Adoption of these new standards resulted in the removal of investments for which fair value is measured at net asset value (or its equivalent) from the fair value hierarchy, the reporting of investments within the fair value hierarchy by general type rather than by classes of investments, and other changes in investment disclosure requirements. The Plan elected to early adopt these standards, each of which requires retrospective application to all periods presented. The adoption of these standards had no effect on the Plan's net assets available for benefits or changes therein. However, *Investments, at fair value* was reduced by $5,950 from the amount previously reported as of December 31, 2013, and the *Adjustment from fair value to contract value for fully benefit responsive investment contracts* of $5,950 as of December 31, 2013 was eliminated.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Payment of Benefits: Benefits are recorded when paid.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Risks and Uncertainties: The Plan holds various investments. Investments are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 3 – RIGHTS UPON PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions and earnings thereon.

NOTE 4 – UNAUDITED INFORMATION – CERTIFIED INVESTMENTS

Substantially all information pertaining to the Plan's investments included in the financial statements, including the associated investment income (loss), was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Reliance Trust Company ("Reliance"), the custodian. This information has not been audited by independent accountants.

NOTE 5 – FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Collective trust fund: Valued at the net asset value (NAV) of units held by the Plan at year-end, provided by the administrator of the fund. The NAV is based on the value of the underlying assets of the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

*Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the statement of net assets available for benefits.

NOTE 6 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company. At December 31, 2014 and 2013, Reliance Trust Company provides custodial services to the Plan. Daily Access Corporation provides recordkeeping services to the Plan. These parties are fiduciaries; therefore, expenses paid qualify as party-in-interest transactions. Notes receivable from participants also reflect party-in-interest transactions.

NOTE 7 – TAX STATUS

The Plan has adopted the provisions of the DailyAccess Corporation Defined Contribution Prototype Plan and Trust Document, therefore; the Plan is not required to file for an individual determination letter from the Internal Revenue Service ("IRS"). The prototype plan received a favorable opinion letter from the IRS dated March 31, 2008. Although the Plan has been amended from the original prototype plan, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). Therefore, the plan administrator believes that the plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 21, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 8 – DUE FROM BROKER

All trades are settled through Reliance. At December 31, 2014, $2,753,547 was due from Reliance for trades that were executed but not settled as of December 31, 2014.
