PROFIT SHARING PLAN

Notes to Financial Statements

December 31, 2014 and 2013

(1) Description of Plan

The following description of the Sovena USA, Inc. (Company) 401(k) & Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In 2014, Sovena USA, Inc. passed a resolution where the assets of the Sovena USA, Inc. 401(k) Plan, held by MG Trust Company, LLC, the custodian, were to be transferred and merged into the Sovena USA, Inc. Profit Sharing Plan renaming it as the Sovena USA, Inc. 401(k) & Profit Sharing Plan, the assets of which were held by Morgan Stanley Smith Barney, LLC, the custodian of the Plan through February 28, 2014 and Fidelity Management Trust Company, the trustee of the Plan from March 1, 2014 through December 31, 2014. The effective date of the merger was March 1, 2014. As of December 16, 2014, all assets and liabilities of the Sovena USA, Inc. 401(k) Plan were transferred into the Plan. These transfers are reflected in the statements of changes in net assets available for benefits.

(b) Contributions

Each year, participants may contribute a percentage of their pre-tax annual compensation as defined by the Plan, up to the maximum allowable under the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may elect to make a discretionary matching contribution to the Plan on behalf of each participant equal to the percent declared for the contribution period as determined by the Board of Directors of the Company. In 2014 and 2013, the Company's matching contribution was 50% of the amount of the participant's contribution, up to a maximum of 6% of eligible compensation. The Company may make a discretionary profit sharing contribution to the Plan as determined by the Board of Directors of the Company. Any profit sharing contribution will be allocated among participants in the same proportion that the respective participant's compensation plus compensation in excess of $25,000 (also called "excess compensation") bears to the total compensation plus excess compensation of all eligible participants. However, the maximum amount which can be allocated to a participant is 4.3% of compensation plus excess compensation. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

(Continued)

(1) Description of Plan, Continued

(c) Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contribution, if any, as well as the Company's discretionary contributions, Plan earnings and forfeitures of terminated participants' nonvested accounts. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant vests according to the following schedule:

Years of Service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

(e) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rates are 4.25%, which is based on the U.S. prime rate plus 1.0% at the date of loan request. Principal and interest is paid ratably through biweekly payroll deductions.

(f) Payment of Benefits

On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested balance, or may elect to defer distribution until a later date, as defined by the Plan.

(Continued)

(1) Description of Plan, Continued

(g) Forfeited Accounts

Forfeited nonvested accounts will be used to pay administrative expenses, reduce future employer contributions, or be reallocated to active participants of the Plan. For the year ended December 31, 2014, forfeitures totalled $91,861. In 2014, employer discretionary contributions of $79,000 were funded from forfeited nonvested accounts. For the year ended December 31, 2013, forfeitures totalled $22,138 which were reallocated to active participants of the Plan.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared using the contract value basis for fully benefit-responsive investment contracts. Contract value is based on information reported by the investment advisor using the audited financial statements of the collective trust fund at December 31, 2014.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

(Continued)

(2) Summary of Significant Accounting Policies, Continued

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by investment advisers and the custodian. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation of fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

(g) Subsequent Events

The Plan has evaluated subsequent events through October 14, 2015, the date the financial statements were available to be issued.

(4) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Cash and cash equivalents: Valued at carrying amount, which approximates fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

(Continued)

(4) Fair Value Measurements, Continued

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Collective trust fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's fair value measurement at December 31:

	Assets at fair value as of December 31, 2014

Fair Value of Investments in Entities that use NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2014:

	Fair value	Unfunded commitments	Redemption frequency	Redemption notice period
Collective trust fund	$ 754,858	N/A	Daily	None

The objective of the collective trust fund is to provide a diversified group of investments offering competitive levels of yield consistent with stable fixed-income methodology allowing for preservation of capital and stable returns. The fund invests in investment contracts and security-backed contracts.

(5) Information Certified by the Plan's Trustee

The Plan administrator has elected the method of annual reporting permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and supplemental schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year) is complete and accurate as of December 31, 2014 and for the period March 1, 2014 to December 31, 2014:

Investments:	
Mutual funds	$ 4,051,272
Collective trust fund at contract value	744,436
	$ 4,795,708
Investment income:	
Net depreciation of fair value of investments	$ (25,997)
Interest and dividends	267,526
	$ 241,529

All information in the supplemental schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year) is presented solely upon the certification except for the fair value of the collective trust fund and notes receivable from participants. This information in the supplemental schedule, Schedule H, Line 4j - Schedule of Reportable Transactions was not certified by the trustee.

The 2014 investment income certified by the Plan's trustee excludes $26,190 of net appreciation of fair value of investments and $28,040 of interest and dividends on investments held by Morgan Stanley Smith Barney, LLC, the custodian of the Plan, until March 1, 2014, the effective date of the merger (see note 1(a)).

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year).

(Continued)

(6) Related-Party Transactions and Party-in-Interest Transactions

Certain Plan investments are managed by Fidelity. Fidelity is the trustee as defined by the Plan, and therefore, these transactions quality as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation of fair value of investments, as they are paid through revenue sharing, rather than a direct payment. As described in note 2, the Plan made direct payments to third-party administrators of $9,348 and $34,792 for the years ended December 31, 2014 and 2013, respectively, which were not covered by revenue sharing. The Plan sponsor pays directly any other fees related to the Plan's operations.

(7) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

(8) Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

(9) Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
