Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the FabCorp, Inc. 401(k) Plan (the "Plan"), which comprise of the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of these statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by Transamerica Life Insurance Company and Standard Insurance Company, the custodians of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that Standard Insurance Company held the Plan's investment assets and executed investment transactions as of and for the year ended December 31, 2014, and that Transamerica Life Insurance Company held the Plan's investment assets and executed investment transactions as of December 31, 2013. The Plan administrator has obtained certifications from the custodians as of December 31, 2014 and 2013, and for the year ended December 31, 2014, that the information provided to the plan administrator by the custodians is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of Schedule H, Line 4a – Schedule of Delinquent Participant Contributions and Schedule H, Line 4i – Schedule of Assets (Held at End of Year) are required by the DOL's Rules and Regulations for Reporting and Disclosure under the ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – PLAN DESCRIPTION

The FabCorp, Inc. Retirement Plan (the "Plan") provides retirement savings benefits to eligible employees of FabCorp, Inc. (the "Company" or "Employer"). The following description of the Plan provides only general information. Participants should refer to the Plan agreement or Summary Plan Description for a more complete description of the Plan's provisions.

The Company was formed in March 1991 and provides finished machined components, weldments and fabrications made from carbon steel, alloy steel, stainless steel and aluminum.

General – The Plan is a prototype defined contribution 401(k) plan that provides retirement savings benefits to eligible employees of the Company through pre-tax voluntary contributions by employees and contributions by the Company. The Plan, which commenced effective January 1, 2005, is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code ("IRC").

Plan Custodian and Trustee – Effective January 1, 2014, the Plan was amended and restated and a new administrator and custodian of the Plan was appointed. As a result of the change in custodian, the assets of the Plan transferred from Transamerica Life Insurance Company ("Transamerica") to Standard Life Insurance Company (the "Custodian"). Plan assets transferred to the new custodian were transferred into funds comparable to those offered by the previous custodian. Among other duties, the custodian receives contributions, holds and invests the fund assets in accordance with the directions of participants, and makes disbursements as directed by the Plan administrator. Reliance Trust Company serves as the Plan trustee. The Plan is administered by a 401(k) committee, which consists of five members.

Eligibility – Employees over the age of 21 and with a year's service and 1,000 service hours are eligible to participate in the Plan. After meeting the eligibility requirements, employees may enroll in the Plan at the earlier of the first month of the Plan year or the seventh month of the Plan year.

Contributions – Participants may elect to contribute up to 70% of eligible compensation. Contributions are also subject to the maximum amount allowed for deferral under the IRC ($17,500 for 2014). Participants who have attained 50 years of age before the end of the Plan year are eligible to make catch-up contributions ($5,500 for 2014). The pre-tax amount deferred is not subject to federal taxation to the participants until distributions are made from the Plan.

The Plan includes a Safe Harbor provision, which requires the Company to make matching contributions on behalf of each participant to satisfy Safe Harbor requirements. The Company's matching contribution is equal to 100% of each participant's elective deferrals up to a maximum of 3% of eligible compensation plus 50% of each participant's elective deferrals up to the next 2% of eligible compensation.

The Company may also make additional discretionary profit-sharing contributions. No discretionary contributions were made during the year ended December 31, 2014.

Rollovers – Rollovers represent funds transferred to the Plan from other qualified defined contribution plans. The Plan allows for rollovers, which are subject to approval by the Plan Administrator.

NOTE 1 – PLAN DESCRIPTION – continued

Participants' Accounts – Each participant account is credited with the participant's and Company's contributions. Allocations are based on participant earnings or account balances, as defined. Participants direct the investment of their account balances into various investment options offered by the Plan. The Plan offers pooled separate accounts a guaranteed investment contract and a stable value fund as investment options. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

***Vestin*g** – Participants are 100% vested in their pre-tax contributions, Safe Harbor matching contributions and any income or loss thereon. Profit-sharing contributions are subject to the following vesting schedule:

Years of Service	Vested Percentage
0	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

Payment of benefits – The Plan provides for distributions upon participant election, retirement, hardship, death, permanent disability, and termination. Distributions can be partial, lump sum, or equal periodic installments.

A participant may elect an in-service distribution if they have reached at least 59 ½ years of age.

As defined by the Plan document retirement age is defined as the date of the participant's 65th birthday. Early retirement is defined as the date that the participant attains age 55 and completes at least 5 year of service.

The Plan allows hardship withdrawals in accordance with IRC regulations. Among other things, the withdrawal must be necessary in light of immediate and heavy financial needs of the employee and is limited to certain purposes.

Upon a participant's death or total and permanent disability, the participant becomes immediately vested in the participant's account balance at that date. Distributions made on the behalf of a deceased participant will be made pursuant to the election made by the Participant upon enrollment or the participant's beneficiary.

At termination, any account with a vested balance over $5,000 will be distributed at the direction of the former employee. For any accounts with a vested balance less than $5,000, consent is not needed to distribute the funds.

NOTE 1 – PLAN DESCRIPTION – continued

Forfeited accounts – Participants who terminate employment with the Company prior to full vesting forfeit the non-vested portion of the Company's contributions in their account. The non-vested amount is used to reduce administrative expenses and then is used to reduce the amount of Employer contributions. There were no forfeitures for the year ended December 31, 2014.

Notes Receivable from Participants – Participants may borrow against the vested balance of their account. The maximum amount is equal to the lesser of $50,000 or 50% of the participant's vested account balance. Repayment of loans may not exceed sixty months. A longer repayment period may be granted if the loan is used to purchase or repair a primary residence. The interest charged on loans is based on prime plus 1%. Principal and interest are paid ratably through payroll deductions and are secured by the balance in the participant's account.

During the Plan year ended December 31, 2013 and during the Plan's blackout period, approximately $1,200 in loan interest and principal payments were withheld from participants but not submitted to the Plan before December 31, 2013. During the year ended December 31, 2014, these amounts were received by the Plan.

Continuation of the Plan – The Company intends to continue the Plan indefinitely, but reserves the right to terminate the Plan, in whole or in part, in accordance with the provisions of the Plan. Should the Plan terminate, all assets will be distributed.

Administrative Expenses – The Company may pay, at its discretion, all reasonable costs, charges and expenses incurred in the administration of the Plan. Additionally, the Company provides various other operational and administrative services to the Plan for which the costs are incurred directly by the Company. These expenses are not included in the Plan's financial statements. Any administrative expenses not paid by the Company are paid directly by the Plan and the participants. Administrative expenses paid by the Plan were $3,147 for the year ended December 31, 2014.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The Plan's financial statements are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts. The contract value approximates the fair value of these investments at December 31, 2014 and 2013.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

Use of Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of Plan additions and deductions during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Pooled separate accounts are valued at estimated fair value as provided by Standard Insurance Company and Transamerica. The fair value is determined by utilizing quoted market prices of the underlying assets on the last business day of the Plan year. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Loans are secured by the balance in the participant's account. No allowance for credit losses has been recorded as of December 31, 2014 and 2013.

Payment of Benefits – Benefit payments to participants are recorded when paid.

Risks and Uncertainties – The Plan invests in various investment securities. Such investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefit.

Recent Accounting Pronouncements – Recent accounting pronouncements issued by the Financial Accounting Standards Board ("FASB") or other authoritative standards groups with future effective dates are either not applicable or are not expected to be significant to the Plan's financial statements.

Subsequent Events – The Plan has evaluated all events and transactions that occurred through October 5, 2015, the date these financial statements were available to be issued.

NOTE 3 – INVESTMENTS

The following presents the fair value of investments that represent 5% or more of the Plan's net assets at December 31:

NOTE 4 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification ("ASC") 820 are described as follows:

- **Level 1** – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- **Level 2** – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- **Level 3** – Inputs in the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

NOTE 4 – FAIR VALUE MEASUREMENTS – continued

Pooled Separate Accounts – These investments are valued using the net asset value ("NAV") of units held by the Plan at year end as provided by the custodians. The NAV is based on the fair value of the underlying assets owned by the fund, net of the investment management fee. The investment management fee is deducted prior to setting the daily unit value. The fair value for pooled separate accounts is classified within level 2 of the valuation hierarchy because their fair values are not quoted on an active market; however, their unit prices are based on underlying investments which are traded on an active market.

Guaranteed Investment Contract – Guaranteed investment contracts are valued at contract value which approximates fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see Note 6). Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Company evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate). The fair value for guaranteed investment contract is classified within level 3 of the valuation hierarchy.

Stable Value Fund – The stable value account is recorded at fair value and classified within level 2 of the valuation hierarchy. This fund is a fully benefit-responsive investment, and as required, an adjustment is made to reflect this investment at contract value, which represents cost plus accrued income less redemptions. The fair value of the guaranteed investment contracts is generally determined by discounting the scheduled future payments required under the contract. The fair value of wrap contracts reflects the discounted present value of the difference between the current wrap contract cost and its replacement costs, based on issuer quotes. For assets other than investment contracts, including securities underlying synthetic investment contracts, fair value generally is reflected by market value at close of business on the valuation date.

NOTE 4 – FAIR VALUE MEASUREMENTS – continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

NOTE 4 – FAIR VALUE MEASUREMENTS – continued

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2014.

	Guaranteed investment contract
Balance, beginning of year	$ -
Interest	10,709
Purchases	785,320
Sales	(205,821)
Balance, end of year	$ 590,208

Unrealized gains/(losses) from the guaranteed investment contract are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value which approximates fair value for purposes of the net assets available for benefits.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table presents information about significant unobservable inputs used in Level 3 fair value measurements for the Standard Stable Asset Fund A:

December 31, 2014	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
The Standard Stable Asset A	$ 590,208	Discounted cash flows	Earnings at guaranteed crediting rate	Gross guaranteed crediting rate must be greater than contractual minimum crediting rate

NOTE 5 – INVESTMENT CONTRACTS IN STABLE VALUE FUND

Prior to January 1, 2014, the Plan entered into a benefit-responsive fixed account with Transamerica, the stable value fund. Effective December 31, 2013 the stable value fund with Transamerica was no longer an investment option. Transamerica maintained the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The fixed account issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

NOTE 5 – INVESTMENT CONTRACTS IN STABLE VALUE FUND – continued

As described in Note 4, because the stable value fund was fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fixed account. Contract value, as reported to the Plan by Transamerica, represent contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

In certain circumstances, the amount withdrawn from the wrapper contract would be payable at fair value rather than at contract value. These circumstances include termination of the Plan, a material adverse change to the provisions of the Plan, the Plan sponsor's election to withdraw from a wrapper contract in order to switch to a different investment provider and in the event of a spin-off or sale of a division the terms of a successor plan do not meet the wrapper contract issuer's underwriting criteria for issuance of a clone wrapper contract.

The average yield for this trust was 1.45% for the year ended December 31, 2013.

NOTE 6 – GUARANTEED INVESTMENT CONTRACT

The Standard Stable Asset Fund A (the "Fund") is a group annuity contract that offers a full guarantee on principal and interest by the Standard Insurance Company (Issuer). The contracts are fully benefit responsive. Investment contracts held in the Fund are recorded at their contract value. Investment contracts held by a defined-contribution plan are required to be reported at fair value. As the Fund's interest rates are adjusted to market quarterly, contract value, which represents net contributions plus interest at the contract rate, approximates fair value. There are not any specific securities in the general account that back the liabilities of this annuity contract and it would be inappropriate to look to the market value of the securities within the Issuer's general account to determine a fair value. The Plan owns a promise to pay interest at crediting rates which are announced in advance and guaranteed for a specified period of time as outlined in the group annuity contract. This product is not a traditional guaranteed income contract and therefore there are not any known cash flows that could be discounted. As a result, the fair value amount shown is equal to the contract value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

The interest crediting rate is determined quarterly and during 2014 resulted in an average annual yield earned and a crediting rate to participants of approximately 2.38% and 1.82%, respectively. The minimum crediting rate is 1.0%. The interest crediting rate is calculated based upon many factors, including projected earnings on investments held in the general account, projected cash flow, the interest rate at which new investments can be made, investment and interest rate risk, investment management expenses, liquidity needs and the competitive environment, as well as potential profit or loss.

There is no event that limits the ability of the Plan to transact at contract value with the Issuer. There are also no events or circumstances that would allow the Issuer to terminate the fully benefit-responsive group annuity insurance contract with the Plan and settle at an amount different from contract value. The credit rating of the Issuer at both December 31, 2014 was A2 as reported by Moody's Investors Service.

NOTE 7 – RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Prior to January 1, 2014, plan investments were pooled separate accounts managed by Transamerica. Effective January 1, 2014, the Standard Insurance Company is the custodian of the Plan's assets. Participant investments are in Standard Insurance Company investment vehicles, which are managed by Standard Insurance Company and these transactions are considered as party-in-interest transactions as defined by ERISA. Any transaction involving these investments are on the open market at fair market value as outlined in Note 4. Consequently, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

The Plan has notes receivable from participants at December 31, 2014 and 2013. As a result, these receivables and all transactions relating to these receivables qualify as party-in-interest transactions. These transactions are exempt from being prohibited transactions by ERISA. In addition, fees paid by the Plan for administrative expenses amounted to $3,147 for the year ended December 31, 2014.

NOTE 8 – INFORMATION PREPARED AND CERTIFIED BY THE PLAN'S CUSTODIANS

The Plan sponsor has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodians the Standard Insurance Company and Transamerica have certified that the following data included in the accompanying financial statements and supplemental schedules are complete and accurate.

December 31,	**2014**	**2013**
Investments, at fair value	$ 3,035,544	$ 2,569,728
Notes receivable from particpants	148,060	71,549

Year Ended December 31,	**2014**
Net appreciation in fair value of investments:	
Pooled separate accounts	$ 151,274
Interest income	10,709
Interest income on notes receivable from participants	3,783

The Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information with the related information included in the financial statements and supplemental schedules.

NOTE 9 – INCOME TAX STATUS

Prior to January 1, 2014, the Company adopted a standardized prototype plan sponsored by Transamerica. The Internal Revenue Service ("IRS") has determined and informed the prototype sponsor by letter dated March 31, 2008 that the prototype plan is designed in accordance with applicable sections of the IRC. Although the Plan was amended since receiving the determination letter, the Plan administrator believes the Plan was designed and was being operated in compliance with the applicable requirements of the IRC. Effective January 1, 2014, the Plan operates under a volume submitter 401(k) profit sharing plan adoption agreement sponsored by Sungard Corbel LLC. This prototype plan document has been filed with the appropriate agency and has obtained a determination letter from the IRS dated March 31, 2008 stating that the prototype constitutes a qualified plan under Section 401 of the IRC and that the related trust was tax exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations prior to 2011. Generally, the applicable statues of limitations are three to four years from their filings.

NOTE 10 – PROHIBITED TRANSACTIONS

The Company failed to remit to the Plan's Custodian certain participant contributions totaling $50,367 within the period prescribed by the DOL Rules and Regulations. During the year ended December 31, 2014, these amounts were received by the Plan and are not receivable at year end. Delays in remitting contributions to the Custodian was due to unintentional administrative errors. During 2015, the Company is in the process of correcting contributions to the affected participants' accounts to compensate those participants for potential lost earnings due to the delays.

NOTE 11 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2014 and 2013, to Form 5500:
