Notes to the Financial Statements

December 31, 2014 and 2013

Note 1 – Description of the Plan

The following brief description of Tomarco Contractor Specialties, Inc. 401(K) Plan (the "Plan") is provided for general information purposes only. The Plan agreement should be referred to for a more complete description of the Plan's provisions.

General

The Plan, adopted as of January 1, 1995, is a defined contribution Plan covering substantially all employees of Tomarco Contractor Specialties, Inc., a California corporation (the "Employer"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (the "ERISA"). The Employer is responsible for oversight of the Plan. The Employer determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Eligibility

Employees who have completed 6 months of service are eligible to participate in the Plan and receive an allocation of Employer matching contributions. Participants can enroll in the Plan on the first day of the month following satisfaction of eligibility requirements.

Contributions

Each year participants may contribute a certain percentage of their pretax annual compensation as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are also eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified benefit or defined contribution plans (rollovers). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 1 percent of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. The Employer may match, at its discretion, a fixed amount or a set percentage of each eligible employee's contribution as determined by its board of directors. Additional amounts including a profit sharing contribution may also be contributed at the option of the Employer. Contributions are subject to certain IRS limitations. No Employer contributions were made for the years ended December 31, 2014 and 2013.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Employer's contribution and, (b) Plan's earnings, and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled to is the benefit that can be provided from the participant's vested account.

Note 1 – Description of the Plan (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in Employer's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is vested in annual increments of 20 percent, vesting at 20 percent in the second year of credited service, and up to 100 percent in the sixth year of credited service.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period of time. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Normal retirement age is 65 years. The Plan does not permit early retirement.

Forfeited Accounts

That portion of an employee's interest, which is not vested upon the employee's break in service, is forfeited. The non-vested forfeited balances can be reallocated as of the end of the Plan year to the participants in the same manner as Employer's contributions or can be used to pay for Plan related expenses. At December 31, 2014 and 2013 forfeited non-vested accounts totaled $34,780 and $33,461, respectively.

Notes Receivable from Participants

Participants may borrow from their fund accounts up to 50 percent of their total vested balance, subject to a minimum of $1,000 and a maximum amount of $50,000. The notes are secured by the vested balance in the participant's account. The Plan provisions require a reasonable interest rate to be charged on the notes, and principal and interest to be paid ratably through regular payroll deductions. Currently interest rate charged on the notes is 5.25% and the notes mature between January 2015 and October 2042.

Tax Status

The Plan is based on a Prototype Non-Standardized 401(K) and Profit Sharing Plan document. The Internal Revenue Service has issued an opinion letter dated March 31, 2008 granting approval to the prototype plan document. Under this arrangement the Plan is not obligated to file for a separate determination letter. Although the Plan has been amended, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan is qualified and the related trust is tax-exempt.

Note 1 – Description of the Plan (continued)

Tax Status (continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Investment Options and Administration

The Plan has engaged State Street Bank and Trust Company ("State Street") as the Plan trustee and Automatic Data Processing Retirement Services as the record keeper of the Plan. The assets of each fund within the Plan are invested under an arrangement with State Street, the trustee. Upon enrollment in the Plan, a participant may direct their contributions in the various investment options offered by State Street. Participants should carefully read the prospectus before investing in the various investment options offered under the Plan.

Related-Party Transactions and Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by State Street Bank who is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation/depreciation in fair value of the investments, as they are paid through revenue sharing, rather than as a direct payment.

Note 2 – Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Note 2 – Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

Investment contracts held by a defined-contribution Plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution Plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts (common collective trust) and does not reflect the adjustment of the fully benefit-responsive investment contracts from fair value to contract value as such amounts are considered insignificant. The Statement of Changes in Net Assets for Benefits is prepared on a contract value basis.

Contributions

Contributions from participants are recorded based on payroll withholdings during the year.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

Common Collective Trust

The Plan has entered into a benefit-responsive investment contract with State Street Bank and Trust Company ("State Street"), Plan trustee. State Street maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The common collective trust issuer is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan.

Because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to such investment contract. The common collective investment trust is presented on the face of the statements of net assets available for benefits at fair value without an adjustment to contract value as such adjustment was considered insignificant. Contract value, as reported to the Plan by State Street, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Note 2 – Summary of significant accounting policies (continued)

Common Collective Trust (continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair aggregate common collective investment trust at December 31, 2014 and 2013 were $1,047,361 and $764,954, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (a) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from deferral income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The common collective trust does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See note on fair value measurements below. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Note 2 – Summary of significant accounting policies (continued)

Expenses

Certain expenses of maintaining the Plan are paid directly by the Employer and are excluded from these financial statements. These expenses include fees of the Plan trustee, third-party administrators and accountants. Loan origination fees are paid directly by the borrowing participants. Other fees related to the administration of the Plan are included in administrative expenses and are charged to participant's accounts. Investment related expenses are included in net appreciation/depreciation of fair value of investments.

Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 2 – Summary of significant accounting policies (continued)

Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 2 – Summary of significant accounting policies (continued)

Note 3 – Plan Termination

Although it has not expressed its intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in the Employer's contributions portion of their account.

Note 4 – Information Certified by the Plan Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-5(c) of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Plan trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

Note 5 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 6 – Schedule of Assets Held for Investments

The following presents investments that represent 5 percent or more of the Plan's net assets.

Note 8 - Subsequent Events

Effective January 1, 2015, the Plan engaged Fidelity Trust Management Company as the new Plan trustee and record keeper. As a result of this, State Street Bank and Trust Company liquidated its various funds and transferred all monies to Fidelity Trust Management Company.

The Plan has evaluated subsequent events through October 12, 2015, the date the financial statements were available to be issued. The Plan is not aware of any other significant events that would have a material impact on its financial statements.

Note 9 – Non-Exempt Transactions

During 2014 the Employer erroneously failed to remit participant salary deferrals and participant loan repayments aggregating $13,219 and $6,595, respectively to the plan in a timely manner, as defined by ERISA. These contributions are considered non-exempt party-in-interest transactions which may result in the imposition of excise tax on the amount of the transactions. The Employer intends to compensate participants for lost earnings and pay all fines imposed including excise tax resulting from these late remittances. See attached supplemental schedule of delinquent participant contributions. The Employer believes that these non-exempt transactions do not affect the tax status determination of the Plan.
