Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Miami Valley Steel Service, Inc. 401(k) Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2014 and 2013 and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by TD Ameritrade Trust Company and PNC Bank, NA (collectively, the "Trustees"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustees hold the Plan's investments and participant notes receivable (as of December 31, 2014) and execute related transactions. The plan administrator has obtained certifications from the Trustees as of December 31, 2014 and 2013 and for the year ended December 31, 2014 that the information provided to the plan administrator by the Trustees is complete and accurate.

Miami Valley Steel Service, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 1 - Plan Description

The following description of Miami Valley Steel Service, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering the employees of Miami Valley Steel Service, Inc. (the "Company") who have completed 250 hours of service within three consecutive months of service and are age 18 or older. The age and service requirements for salary deferrals were waived for any eligible employee employed on August 1, 2012. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee salary 401(k) contributions up to a maximum of 100 percent of the annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. The Plan allows participants to contribute up to 100 percent of their compensation on an after-tax basis. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Plan provides for employer matching contributions of 50 percent of the participant's contribution not to exceed 4 percent of the employee's deferred compensation.

The Company may make annual profit-sharing contributions at the election of the board of directors. Participants who are employed as of the last day of the plan year will be eligible to receive an allocation of the company profit-sharing contribution. The Company made profit-sharing contributions totaling \$234,322 and \$218,425 for the years ended December 31, 2014 and 2013, respectively.

Participant Notes Receivable - Participants may borrow from their accounts subject to certain maximum and minimum amounts as prescribed in the Plan and in the Internal Revenue Code. Notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Participant Accounts - Each participant's account is credited with the participant contribution, and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on each participant's compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Notes to Financial Statements December 31, 2014 and 2013

Note 1 - Plan Description (Continued)

Vesting - Participants are immediately 100 percent vested in their voluntary contributions and employer matching contributions and any income or loss thereon. Vesting in the Company's profit-sharing contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in profit-sharing contributions made by the Company 20 percent after one year of service and another 20 percent per year thereafter until they become fully vested after five years of service. Participants employed with the Company on August 1, 2012 are fully vested in all employer discretionary contributions.

Forfeitures - If a participant is not fully vested on their termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reinstate previously forfeited account balances of participants, reduce future company contributions, or to pay administrative expenses of the Plan. At December 31, 2014 and 2013, forfeited account balances totaled \$672 and \$3,314, respectively.

Payment of Benefits - Upon termination of employment, the participant or, in the case of death, the beneficiary, can elect to receive the participant's account balance in a single lump sum or in various installment annuities. Account balances less than \$5,000 are paid in a single lump sum upon termination.

Hardship Withdrawals - Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by TD Ameritrade Trust Company and PNC Bank, NA or its affiliates. TD Ameritrade Trust Company and PNC Bank, NA are the trustees of the Plan and, therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Miami Valley Steel Service, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 2 - Summary of Significant Accounting Policies (Continued)

Contribution receivable - Contributions receivable represent amounts received from the Company in 2015 and 2014 as contributions related to employees' earnings prior to December 31, 2014 and 2013, respectively.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 5, 2015, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

In 2014, the Plan changed trustees from TD Ameritrade Trust Company to PNC Bank, NA (collectively, the "Trustees"). The Trustees of the Plan held the Plan's investments and executed all related transactions during the periods under audit. The investments and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustees. Additionally, PNC Bank, NA held and executed participant notes receivable and certified the related balances and interest income as of December 31, 2014 and for the period from December 17, 2014 to December 31, 2014.

Manning & Napier Pro-Blend Maximum Term Series	1,948,160	-
Manning & Napier Pro-Blend Moderate Term Series	781,439	-

Note 4 - Tax Status

The Plan, as adopted, is a volume submitter plan of Sungard Corbel, LLC, which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS dated March 31, 2014. The Plan has not individually sought its own determination letter.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2014 and 2013.

Level I - Fair values determined by Level I inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Miami Valley Steel Service, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 5 - Fair Value Measurements (Continued)

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds - Mutual funds are valued at closing quoted prices reported in active markets.

Money Market Funds - The money market funds are valued at their outstanding balances, which is the best estimate of fair value.

Common Collective Trust Fund - The common collective trust fund investment is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The Plan's interest in the common collective trust fund is based on its proportionate ownership interest in the fair value of the common collective trust fund.

The common collective trust fund primarily holds guaranteed investment contracts. The fair value of the guaranteed investment contracts is based on current yields of similar instruments with comparable durations taking into account the contract terms, including interest reset intervals and the credit rating of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
