The following description of Ellis Corporation 401(k) Plan (Plan) provides only general information. Interested parties should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Ellis Corporation (Company) as well as employees of the Ludell Manufacturing Company, a company affiliated with the Company through common ownership. On October 1, 2007, the Plan was merged with the Ludell Manufacturing Co. Retirement Plan. Employees are eligible to participate in the first day of the month following date of hire. Participants are eligible for Company contributions upon completion of one year of service, as defined by the plan document. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as amended by subsequent legislation.

Contributions

Each year participants may contribute up to 15% of pretax annual compensation, as defined in the Plan, up to the maximum annual amounts allowed by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions up to the maximum annual amounts allowed by the IRC. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company, at its discretion, can match 50% of the first 6% of compensation that a participant contributes to the Plan and, at its discretion, may also make additional profit sharing contributions to the Plan, based upon earnings of the Company. The Company did not approve any discretionary matching or profit sharing contributions in 2014 and 2013. Contributions are subject to certain limitations. Participants direct the investment of all contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Companies' discretionary matching contributions, administrative expenses and plan earnings. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The participant must secure the loan by a pledge of no more than 50% of the present value of the participant's vested interest in the Plan. The loan period cannot exceed five years, unless the proceeds of the loan are used to purchase a primary residence, in which case the loan period shall not exceed 30 years. The loans bear interest

at the prime rate plus 1%. The interest rate for outstanding loans were between 4.25% and 5.00% at December 31, 2014. Principal and interest is paid ratably through weekly payroll deductions.

Vesting

Participants immediately vest in their voluntary salary deferral contributions including actual earnings thereon. Vesting in the Company's profit sharing contribution is based on continuous years of service as follows:

Years of Service	Percentage
Less than 1	0%
1	10%
2	20%
3	40%
4	60%
5	80%
6	100%

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or payments on an installment basis. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures

Forfeited non-vested funds shall be used to reduce administrative expenses or future employer contributions to the Plan. At December 31, 2014 and 2013, there were no forfeited non-vested accounts. For the years ended December 31, 2014 and 2013, no forfeitures were utilized to offset administrative expenses.

Investment Options

The Plan currently offers registered investment companies and an insurance company general account as investment options for participants. Participants may direct the investment of all contributions in one or more of the various investment options offered by the Plan. Participants may change their investment options on a daily basis.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

The Plan's investments in registered investment companies are stated at fair value determined by quoted market prices on nationally recognized securities exchanges. Based on information reported by Great-West Retirement Services, the Guaranteed Investment Contract is not considered to be fully benefit-responsive. The Plan's interest in the contract is reported at contract value, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan provides for investments that, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions.

Fully Benefit-Responsive Investment Contracts

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive

investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As of December 31, 2014 and 2013, the Plan's investment in the guaranteed investment contract is not considered to be fully benefit-responsive and the investment is reported at contract value, which approximates fair value. The statement of changes in net assets available for benefits is prepared on the contract basis. Contract value represents contributions made under the contract plus earnings, less withdrawals and administrative expenses.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Company on behalf of the Plan and are not reimbursed by the Plan. Administrative expenses paid by the Plan are recognized as incurred. Investment management fees are netted in the appreciation in fair value of investments.

Note 3: Investments

Investments that represent 5% or more of the Plan's net assets available for plan benefits at December 31, 2014 and 2013, are as follows:

Key Guaranteed Portfolio Fund	$ 1,265,342	$ 1,971,399

Note 4: Information Certified by the Custodians

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Great-West Life & Annuity Insurance Company and Great-West Trust Company, LLC, the custodians of the Plan, have certified to the completeness and accuracy of all investments at fair value and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2014 and 2013, and the schedule of assets (held at end of year) as of December 31, 2014, and the investment income components and interest income from participants' notes receivable reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2014 and 2013.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 5: Fair Value of Plan Assets and Liabilities

Generally accepted accounting principles provide a uniform framework for the definition, measurement and disclosure of fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The financial accounting standards establish a fair value hierarchy, which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The financial accounting standards describe three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

The fair value of shares of registered investment companies is determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

The fair value of the Plan's guaranteed investment contract has been estimated based on discounted cash flows methodology, utilizing current rates of return available for similar contracts, with comparable credit risks and liquidity, as of the respective financial statement date (Level 2 inputs).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

		Fair Value Measurements at Reporting Date Using

(1) Invests in primarily investment grade quality, fixed income bonds. Provides a guarantee of principal and a guaranteed quarterly interest rate. A new quarterly interest rate is established each quarter.

Note 6: Income Tax Status

The Company adopted a Prototype Non-Standardized Profit Sharing Plan with a deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since the opinion letter was received. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

Note 7: Party-in-Interest Transactions

Certain plan investments are managed by Great-West Retirement Services. Great-West Retirement Services is affiliated with the custodians, as defined by the Plan; therefore, these transactions

qualify as party-in-interest transactions. Administrative expenses for 2014 and 2013 were $24,042 and $20,956, respectively.

Note 8: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants become fully vested in their respective account balances.

Note 9: Reconciliation of Financial Statements to Form 5500

through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.
