Independent Auditor's Report

To the Plan Administrator of the Chemtura Corporation Retirement Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Chemtura Corporation Retirement Plan (the "Plan"), which comprise the statements of net assets available for plan benefits as of December 31, 2014 and 2013, the related statements of changes in net assets available for plan benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note F, which was certified by SEI Private Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certification from the trustee as of December 31, 2014 and 2013, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2014 and the supplemental Schedule of Reportable Transactions for the year ended December 31, 2014 are required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

CHEMTURA CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

A. PLAN DESCRIPTION:

On July 1, 2005, Crompton Corporation and Great Lakes Chemical Corporation combined their businesses by merging a wholly-owned subsidiary of Crompton with and into Great Lakes. The Company changed its name to Chemtura Corporation (the "Company").

The investments of the Witco Corporation Retirement Plan were combined with and managed in conjunction with the assets of various other retirement plans of Chemtura Corporation and participating subsidiaries in the Witco Corporation Retirement Plan Trust (the "Witco Master Trust").

On November 1, 2005, the assets of the Witco Master Trust were combined with the assets of the Chemtura Corporation Defined Benefit Master Trust (the "Master Trust"). Investment income/(loss) and certain expenses are allocated to the Plan based upon the percentage of the Plan's assets to the total assets of the Master Trust. Benefit payments and other non-allocated expenses are specifically identified and charged to each plan participating in the Master Trust. On December 31, 2005, various plans of Chemtura Corporation were consolidated into the Witco Corporation Retirement Plan.

On January 1, 2007 the Witco Corporation Retirement Plan changed its name to the Chemtura Corporation Retirement Plan (the "Plan").

In February of 2012 the Plan's interest in the Master Trust was transferred out of the Master Trust and into a separate trust with SEI Private Trust Company ("SEI").

In April 2013 the Company established a new qualified plan named the Addivant Retirement Plan ("Addivant Plan"). At that time \$231,547,525 of Plan assets were spun off to the Addivant Plan. Subsequently, pursuant to the Company's sale of its antioxidant business, sponsorship of the Addivant Plan transferred to Addivant USA Holdings Corp. See Note I for additional information.

Certain assets of the Company were sold in 2013 to KIK International LLC ("KIK"). Effective December 31, 2013 the Plan was amended to provide for the spin-off of the related pension and asset liabilities to a separate plan established and maintained by KIK called the KIK Custom Products Pension Plan ("KIK Plan"). Plan assets and participants were not spun off until January of 2014. See Note J for additional information.

Effective December 31, 2014, the Plan was amended to merge the Retirement Plan for Hourly Paid Bargaining Unit Employees of Witco Corporation (Perth Amboy, NJ Plant) and the Retirement Plan for Hourly Paid Bargaining Unit Employees of Chemtura Corporation (Marshall, TX Plant) with and into the Plan.

The following description of the Plan provides only general information. Further information about the Plan is included in the Plan document, which is available from the Chemtura Corporation Human Resources Department.

General

The Plan is a non-contributory defined benefit pension plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan sponsor is Chemtura Corporation.

CHEMTURA CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

The Plan covers certain domestic employees of the Company who have reached the age of 21 and who have at least one year of service. Employees are credited for all years of service. A minimum of five years of vesting service or attainment of age 55 is required to receive benefits. Effective January 1, 2000, all newly hired corporate employees of the Company were no longer eligible to participate in the Plan. Effective January 1, 2001, all newly hired non-bargaining employees of the Company are no longer eligible to participate in the Plan and at December 31, 2005, the Plan was frozen to all non-bargained participants, and no additional incremental benefits will accrue to the participants.

Pension Benefits

The accrued benefit for most participants is calculated as a percentage of "Final Average Earnings," as defined, multiplied by credited years of service less a percentage of Social Security Retirement benefits multiplied by credited service.

Normal retirement is at age 65. Early retirement is available to employees who are at least age 55 with benefits reduced for each month prior to age 65.

If an employee terminates with five years of vesting service or attains age 55, a vested pension based upon the above formula is payable at age 65, or age 55, reduced as in early retirement.

Pension Benefits – Perth

The pension formula for all participants is either the sum of the past service benefit and the future service benefit or the minimum retirement income, as defined in the Plan. The pension formula is equal to the sum of the past service benefit and 1.1% of the participant's yearly earnings between \$600 and \$3,000 plus 1.65% of participant's earnings in excess of \$3,000. The minimum annual amount of pension benefit is \$168 times the years of credited service while an employee is a Plan participant.

Effective October 31, 2006 plan benefit accruals were frozen for active participants who were under age 50 and had under 20 years of service or who elected to have their benefit frozen to join a defined contribution plan.

Death and Disability Benefits

A participant may elect to receive a reduced amount of retirement income which would continue after the participant's lifetime in accordance with various options provided in the Plan.

In the case of death of an active participant with at least five years of vesting service prior to retirement or attainment of age 55, there is a benefit payable to the surviving spouse equal to 50% of the benefit the participant had accrued prior to the date of death, payable at early retirement under the Qualified Joint and Survivor Annuity Option.

Disability retirement income benefits equal to the participant's accrued benefit are payable at age 50 to participants disabled with at least fifteen years of vesting service.

CHEMTURA CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

Plan Administration

The Plan is administered by the Chemtura Corporation Employee Benefits Committee.

Funding Policy

The contribution to provide benefits under the Plan is made by the Company based upon an amount determined by Towers Watson, the consulting actuary. It is the Company's policy to comply with the minimum funding requirements of ERISA, and such policy has been complied with for the years ended December 31, 2014 and 2013.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Benefits

Benefit payments are recorded when paid.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Plan Expenses

All administrative expenses of the Plan are paid by the Plan to the extent they are not paid by the Company.

CHEMTURA CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

Risks and Uncertainties

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

The Plan invests in a combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for plan benefits.

Actuarial Present Value Of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees, and (c) present employees or their beneficiaries.

Accumulated plan benefits for active employees are based on their final average compensation, when applicable, preceding the valuation date. Benefits payable under all circumstances – retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from Towers Watson and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits consists of the following as of January 1:

	<u>2014</u>	<u>2013</u>
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	\$ 448,191,803	\$ 655,642,379
Other participants	<u>162,430,501</u>	<u>349,116,418</u>
Total	610,622,304	1,004,758,797
Nonvested benefits	<u>943,717</u>	<u>3,721,197</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 611,566,021</u>	<u>\$ 1,008,479,994</u>

CHEMTURA CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

The net increase in actuarial present value of accumulated plan benefits can be attributed to the following for the year ended January 1, 2014:

Actuarial present value of accumulated plan benefits at beginning of year	\$ 1,008,479,994
Increase (decrease) during the year attributable to:	
Benefits accumulated	512,842
Decrease in discount period	29,125,402
Benefits paid	(50,106,722)
Actuarial (gains)/losses	2,064,493
Assumption changes	(51,021,853)
Divestiture	(327,488,135)
Net increase	(396,913,973)
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 611,566,021</u>

The preceding statements are reported prior to the Perth and Marshall merger activity referenced in Note A. The impact of the merger activity will be reflected in the January 1, 2015 statements.

The significant actuarial assumptions underlying the January 1, 2014 and 2013 valuations are:

Discount rate	4.60% and 3.8%, respectively
Mortality	RP-2000 mortality, updated annually RP-2000 used for current liabilities

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan terminates, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

C. INVESTMENTS:

The following table presents the Plan's investments held as of December 31, 2014 and 2013 that represented 5% or more of the net assets available for plan benefits:

	Plan investments 2014		Plan investments 2013	
SEI Large Cap Index Fund	\$ 69,259,007	*	\$ 33,720,910	*
SEI U.S. Managed Volatility Fund	-		33,431,905	*
SEI World Equity Ex-US Fund	52,749,759	*	41,718,042	*

SEI Opportunistic Income Fund	67,754,763	*	66,203,644	*

* Represents 5% or more of net assets available for plan benefits.

CHEMTURA CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

During the years ended December 31, 2014 and 2013, the Plan's investments (including investments bought, sold and held during the year) appreciated in value as follows:

	2014	2013
Common collective trusts	\$ 8,485,661	\$ 10,247,238
Mutual funds	26,410,884	33,217,436
U.S. Government securities	10,837,177	(3,088,707)
Commingled funds	3,621	-
	<u>\$ 45,737,343</u>	<u>\$ 40,375,967</u>

D. FAIR VALUE MEASUREMENTS:

Accounting standards establish a framework for measuring fair value. That framework sets forth a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below.

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or other inputs that are observable or can be corroborated by observable market data for substantially the full terms of the assets or liabilities.

Level 3 - Inputs to the valuation methodology that are unobservable and supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used by the Plan. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds - Valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

Government securities - Valued as determined by pricing vendors using observable inputs.

Common collective trusts – Valued at the net asset value of units of a collective trust. The net asset value, as provided by the fund manager, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities.

CHEMTURA CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

Commingled fund - Valued at the net asset value per share or unit as reported by the fund manager. The net asset value, as provided by the fund manager, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set for by level and by investment class, within the fair value hierarchy, the assets held by the Plan at fair value as of December 31:

Investment strategies and relevant restrictions for the common collective trusts, by major investment class, are as follows:

- (a) Property common collect trusts seek both current income and long-term capital appreciation by investing in commercial real estate properties. The fund may be redeemed quarterly after a 65 day notice period. There is also a 10% holdback on redemptions which will be held in escrow until completion of the fund's annual audit. There are no unfunded commitments.
- (b) Structured credit common collective trusts invest primarily in portfolios of structured credit instruments. The fund may be redeemed quarterly after a 65 day notice period. There is a two year lockup period on all subscriptions. There is also a 10% holdback on redemptions which will be held in escrow until completion of the fund's annual audit. There are no unfunded commitments.

The table below sets forth a summary of changes in fair value of the Plan's level 3 investment assets for the year ended December 31, 2013:

	Common collective trusts
Balance at beginning of year	\$ 80,839,425

CHEMTURA CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

E. TAX STATUS:

The Company obtained its latest determination letter for the Plan on April 23, 2014 in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, Chemtura Corporation and its tax counsel believe that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting standards require recording uncertain income tax positions that exist in the Plan's financial statements. Plan management has determined there are no uncertain tax positions and believes there is no adjustment or disclosure required in the Plan's financial statements. The Plan did not recognize any interest and penalty expense for the years ended December 31, 2014 and 2013. The Form 5500 remains subject to examination by the IRS for the years ended December 31, 2011 through December 31, 2014.

F. COMPLIANCE AND ERISA:

The Plan Administrator has elected the method of compliance permitted under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, no auditing procedures with respect to information certified by SEI Private Trust Company, the trustee of the Plan, were performed by the independent auditors except for comparing the information to the financial statements and supplemental schedules. The trustee has certified as to the completeness and accuracy of the investments held at December 31, 2014 and 2013, investment earnings and other investment-related transactions of the Plan for the years then ended, and the information contained in the Schedule of Assets (Held at End of Year) and Schedule of Reportable Transactions.

G. PLAN TERMINATION:

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, if any, taking into account those paid out before termination.
- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations (discussed below).

CHEMTURA CORPORATION RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

- d. All other vested benefits (that is, vested benefits not insured by the PBGC).
- e. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

H. PARTIES-IN-INTEREST:

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan. Accordingly, the management of investments held by the trustee are considered party-in-interest transactions.

I. ADDIVANT PLAN SPIN OFF:

In April 2013 the Company established a new qualified plan named the Addivant Retirement Plan ("Addivant Plan"). At that time \$231,547,525 of Plan assets, 4,379 Plan participants and their related pension liabilities were spun off to the Addivant Plan. On April 30, 2013, the Company completed the sale of its antioxidant business to SK Blue Holdings, Ltd, ("SK") and Addivant USA Holdings Corp. ("Addivant"). As a part of the transaction, sponsorship of the Addivant Plan was transferred to Addivant.

J. KIK PLAN SPIN OFF:

Certain assets of the Company were sold in 2013 to KIK International LLC ("KIK"). Effective December 31, 2013 the Plan was amended to provide for the spin-off of the related pension and asset liabilities to a separate plan established and maintained by KIK called the KIK Custom Products Pension Plan ("KIK Plan"). During 2014, assets totaling \$6,284,320 and 257 Plan participants were transferred to the KIK Plan.

K. SUBSEQUENT EVENTS:

The Company has evaluated subsequent events through October 12, 2015, the date these financial statements were available for issuance.

The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2013 plan year.)</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>

**Change in assumptions and
methods since prior valuation**

The assumed plan-related expenses added to the target normal cost were changed from \$2,600,000 for the prior valuation to \$1,320,000 for the current valuation to account for lower expected expenses to be paid from the trust.

The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC 430.

The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC 430.

SCHEDULE SB – Statement by Enrolled Actuary

A portion of the assets and liabilities of the Chemtura Corporation Retirement Plan were spun-off to Addivant USA Holdings Corporation. The following summarizes the treatment for purposes of Chemtura Corporation's minimum funding calculations.

The Chemtura Corporation Retirement Plan spun off assets and liabilities to the purchaser effective December 31, 2013. The effect of the spinoff is first reflected in the Schedule SB for Plan Year 2014. Assets, funding target, and prefunding balances are allocated to the spun-off plan pursuant to the requirements of IRS Code Section 414(l) and the methodology described in Revenue Ruling 81-212 (modified as needed to reflect PPA funding rules). Assets and liabilities shown on the Schedule SB are measured after the spinoff.

The Chemtura Corporation Retirement Plan spun off assets and liabilities to the purchaser effective December 31, 2013. The effect of the spinoff is first reflected in the Schedule SB for Plan Year 2014. Assets, funding target, and prefunding balances are allocated to the spun-off plan pursuant to the requirements of IRS Code Section 414(l) and the methodology described in Revenue Ruling 81-212 (modified as needed to reflect PPA funding rules). Assets and liabilities shown on the Schedule SB are measured after the spinoff.

Preretirement death	The monthly preretirement death benefit that would have been payable if the participant had terminated, survived to earliest retirement age, elected a joint and 50% survivor annuity, and then died.

Other Plan Provisions

Forms of payment	Preretirement death benefits are payable only as described above. Monthly pension benefits are paid as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a 100% or 50% joint and survivor annuity or a lump sum payment.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.
