NOTE 1 – DESCRIPTION OF PLAN

Berridge Manufacturing 401(k) Plan (the Plan) is a qualified retirement plan adopted by Berridge Manufacturing Company (the Company) on July 1, 1998, to provide eligible employees with the opportunity to save for retirement on a tax-advantaged basis. The amended and restated provision of the Plan became effective January 1, 2014, to conform the Plan to new tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The following summary of significant provisions of the Plan provides only general information. Participants should refer to the legal plan document for a more complete description of the Plan's provisions.

Eligibility – Employees who have attained age 21 and have one period of service are eligible to participate in the Plan on the January 1 or July 1 that coincides with or next follows satisfaction of the eligibility requirements.

Contributions – Participants may elect to reduce their compensation by a specific percentage or dollar amount and have that amount contributed to the Plan as a pre-tax or Roth 401(k) deferral. Participants at least age 50 or that will attain age 50 before the end of a calendar year may elect to defer additional amounts as catch-up contributions. Total deferrals may not exceed a dollar limit which is set by law. Participants may revoke or modify their salary deferral election at any time during the year.

The Company may make a discretionary matching contribution equal to a uniform percentage of participants' salary deferrals. For 2014, the Company made a matching contribution equal to 50% of participants' elective deferral contributions, limited to 6% of a participant's pay.

Participants are permitted to deposit into the Plan distributions they have received from other retirement plans and certain IRAs.

Participant Accounts – Each participant's account is credited with the participant's contributions, employer contributions, rollovers and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are always 100% vested in their salary deferrals, rollover contributions and actual earnings thereon. Participants have a right to a percentage of their account resulting from employer contributions. Employer contributions and earnings thereon will be vested in accordance with a graduated schedule, with participants becoming 100% vested after five periods of service.

Investment Options – Participants direct the investment of their entire interest in the Plan into various investment securities. The Plan currently offers mutual funds and a guaranteed investment contract as investment choices.

Payment of Benefits – Participants may receive a distribution of the vested portion of their accounts for termination of employment, early retirement, normal retirement, disability or death. If the value of the vested account balance does not exceed $5,000, then a distribution will be made to the participant regardless of whether they consent to receive it in a single lump-sum payment. If the vested account balance exceeds $5,000, the participant may elect to receive a distribution of their vested account balance in a single lump-sum payment, installments, an annuity or partial withdrawals.

Participants are entitled to receive an in-service distribution. Participants who have attained age 59½ may receive a distribution from the Plan prior to termination of employment. Hardship distributions may also be made to satisfy certain immediate and heavy financial needs that a participant has.

Forfeited Accounts – The non-vested portion of a terminated participant's account balance remains in the Plan and is called a forfeiture. The Company may use forfeitures to pay Plan expenses or reduce employer contributions. At December 31, 2014 and 2013, forfeited non-vested accounts totaled $3,660 and $91, respectively.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See *Note 3* for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Other income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investment securities bought and sold as well as held during the year.

Excess Participant Contributions Payable – Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Services (IRS) are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2014 excess contributions to the applicable participants on September 28, 2015, and the 2013 excess contributions to the applicable participants prior to March 15, 2014.

Payment of Benefits – Benefits are recorded when paid. As of December 31, 2014, there were no amounts allocated to participants who have withdrawn from the Plan, but have not been paid.

Administrative Expenses – Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent Events – The Plan has evaluated subsequent events through October 13, 2015, the date the financial statements were available to be issued.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

- **Level 1** – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- **Level 2** – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- **Level 3** – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled Separate Accounts – Valued based upon quoted market prices of the NAV of shares of its underlying investments. The NAV of each of the pooled separate accounts is calculated in a manner consistent with GAAP for investment companies, and is determinative of their fair value and represents the price at which the Plan would be able to initiate a transaction. As of December 31, 2013, all pooled separate accounts are reflected in level 2. Several of the pooled separate accounts invest in publicly quoted mutual funds or actively managed stocks. Some of the pooled separate accounts invest in fixed income securities. The fair value of the underlying mutual funds or stock and of the underlying securities, which is based on quoted prices of similar assets, is used to determine the NAV of the pooled separate accounts, which is not publicly quoted. There are currently no redemption restrictions on these investments.

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed Investment Contracts – Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. In determining the reasonableness of the methodology, the Company evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms while others are substantiated utilizing available market data.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

NOTE 4 – INFORMATION CERTIFIED BY CUSTODIAN (UNAUDITED)

The Company has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company, Great-West Life & Annuity Insurance Company, and Great-West Trust Company, LLC, the custodians, have certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits, *Note 5*, and the supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2014, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2014.

NOTE 5 – INVESTMENTS (UNAUDITED)

At December 31, 2014 and 2013, all investments of the Plan were participant-directed. The following presents investments that represent 5% or more of the Plan's net assets available for benefits at December 31:

During 2014, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in fair value by $142,740.

NOTE 6 – GUARANTEED INVESTMENT CONTRACTS

In 2014, the Plan entered into a benefit-responsive investment contract, the Key Guaranteed Portfolio Fund, with Great-West Life & Annuity Insurance Company (Great West). Great West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

Because of a provision in the investment contract that prevents the immediate and full payout of the contract value for plan-initiated transactions, the Company believes the guaranteed investment contract is not fully benefit-responsive. Fair value on the investment contract is determined using a discounted cash flow valuation methodology where the interest rate for the investment contract is reset at least as frequently as annually. Fair value of the investment contract, prior to contract termination, equals contract value.

There are no reserves against the investment contract value for credit risk of Great West or otherwise. The average yield earned by the Plan for 2014 is 1.25%. The actual average yield earned by the Plan for 2014 is 1.20%.

For 2013, the Plan participated in guaranteed investment contract with Principal Life Insurance Company (Principal) to provide a fixed rate of return. Principal maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Principal was contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. These investments were reflected at fair value as they are not considered fully benefit-responsive due to imposed restrictions on withdrawals. There were no reserves against contract value for credit risk of Principal or otherwise. The contract value of these investment contracts at December 31, 2013 was $142,617.

NOTE 7 – RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are managed by the custodians or affiliates and, therefore, these transactions qualify as party in interest transactions. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibited transactions rules under ERISA.

NOTE 8 – PLAN TERMINATION

Although the Company intends to maintain the Plan indefinitely, the Company reserves the right to terminate the Plan at any time. Upon termination, no further contributions will be made to the Plan and all amounts credited to participants' accounts will become 100% vested. The Company will direct the distribution of participants' account in a manner permitted by the Plan as soon as practicable.

NOTE 9 – TAX STATUS

The Company has adopted a volume submitter profit sharing plan with CODA sponsored by Loren D Stark Company. The volume submitter plan obtained its latest opinion letter on March 31, 2014, in which the IRS stated that the form of the volume submitter plan was acceptable under section 401 of the Internal Revenue Code (IRC) for use by employers for the benefit of their employees. Although the Plan has been amended since receiving the opinion letter, the Company believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirement of the IRC and, therefore, believes that the Plan is qualified and tax-exempt.

GAAP requires the Company to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 10 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 11 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
