NOTE A – DESCRIPTION OF PLAN

The following description of the Beyel Brothers, Inc. 401(k) Plan ("Plan") is provided for only general information purposes only. Participants should refer to the plan document for most complete information.

a. General. The plan is a defined contribution plan established March 1, 2001 by Beyel Brothers, Inc. ("Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended. Participation in the plan is entirely voluntary. An eligible employee is any person employed by of the company who have one year of service and are age twenty-one or older. Entry date is the first day of Plan Year and the first day of the seventh month of each Plan Year. The plan was adopted under the provisions of Internal Revenue Code (IRC) Section 401(a), with a cash or deferred arrangement qualified under IRC Section 401(k). Pursuant to the requirements of IRC Section 401(a) (27) the plan is also a profit sharing plan.

b. Contributions. For the 2014 year, participants may contribute up to the lesser of 100% of eligible compensation or $17,500. The Plan permits participants to make both pre-tax and certain after-tax (Roth) Deferral Contribution amounts. The Plan provides that participants who are projected to be age 50 or older by the end of the calendar year and who making Deferral Contributions to the Plan may also make a catch-up provision of up to $5,500. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers mutual funds as investment options for participants. The Company may make each payroll period, Employer Matching Contributions to participant accounts equal to a percentage, determined by the Sponsor. The Employer will match participant Catch Up 401(k) Contributions to the Plan. Additional Nonelective Contributions may be contributed at the option of the Company's board of directors. Contributions are subject to certain limitations.

c. Participant's Accounts. Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, and (b) Plan earnings, and (c) forfeitures of terminated participants' non-vested accounts, and (d) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. Vesting. Participants are immediately vested in their Rollover Contributions, Qualified Nonelective Contributions, Deferral Contributions and any earnings thereon. Vesting the Company's contribution portion of their accounts plus earnings thereon is based on years on continuous service. A participant is 100% after six years of credited service.

e. Notes receivable from participants. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of 50% of their vested account balance or $50,000 reduced by the highest outstanding loan balance in your Account during the prior twelve months. Participants may only have 1 loan outstanding at any given time. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 3.25% to 4.25%, which are commensurate with local

prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

f. Payment of Benefits. On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in their account in either a lump-sum amount, or monthly Life Annuity, Life Annuity with a period of 5, 10 or 15 years, Joint and 50%, 66 2/3%, or 100% Survivor Annuity, monthly income paid for a fixed period of time not less than 60 months or, a series of flexible income payments based on single of joint life expectancies. Termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

g. Forfeited accounts. At December 31, 2014 and 2013, forfeited accounts totaled $0 and $0 respectively. These accounts will be used to reduce future employer contributions.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting. The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits. Benefits are recorded when paid.

Operating expenses. Generally, the expenses of administrating the Plan are paid from Plan assets, unless the Company elects to make the payment. If administrative expenses are paid from the Plan assets, they will first be reduced by any forfeitures the Administrator has directed to be used for payment of expenses. Any remaining expenses will be shared among all participants' Accounts. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events. The Plan has evaluated subsequent events through October 12 2015, the date the financial statements were available to be issued.

Notes receivable from participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan documents. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013.

NOTE C – PLAN TERMNATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE D – INVESTMENTS

The following presents investments that represent 5 percent of more of the Plan's assets:

During 2014, the Plan's investments appreciated/ (depreciated) in value by $72,030.

NOTE E – FAIR VALUE MEASUREMENTS

The framework for measuring fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1- Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets,
- Quoted prices for identical or similar assets or liabilities in inactive markets,
- Inputs other that quoted prices that are observable for the asset or liability,

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset of liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies use for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price reported by the fund. Mutual funds held by the Plan are open-end mutual funds registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds by the Plan are deemed to be actively traded.

Guaranteed investment contract: MassMutual determines fair value of its investments using the market approach. The use of quoted prices for identical assets and matrix pricing or other similar techniques are examples of market approaches. Liquidation value is based on an actuarial formula as defined under the terms of the Group Annuity or Group Funding Agreement. There are no unobservable inputs within this formula, therefore the determination is that this investment option meets the definition of Level 2.

Assets at Fair Value as of December 31, 2014

	Level 1	Level 2	Level 3	Total
Mutual Funds	$2,018,466	$ 0	$0	$2,018,466
Guaranteed Investment Account	0	303,662	0	303,662

Assets at Fair Value as of December 31, 2013

Mutual Funds	$2,145,071	$ 0	$0	$2,145,071
Guaranteed Investment Account	0	271,481	0	271,481
	$2,145,071	$271,481	$0	$2,416,552

NOTE F – TAX STATUS

The Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan is a Prototype Standardized Profit Sharing Plan with CODA and has obtained a favorable tax determination letter from the Internal Revenue Service and the Plan sponsor believes that the plan continues to qualify and to operate as designed

NOTE G – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risk, such as interest rate, market, and credit risks. Due to the level associated with certain investment securities, it is as least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Fee and Compensation Disclosure Report

This document is intended to assist a plan administrator ("you") in completing the Form 5500 Schedule C[1] by identifying different types of compensation paid with respect to the product utilized by your plan.

As permitted under the Schedule C rules, compensation is disclosed in the attached report as an actual dollar amount, an estimate or a formula or rate.

- Where an actual dollar amount of compensation is disclosed, no further notation regarding compensation calculations is generally provided.
- Where an estimate of the compensation amount is disclosed, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount.
- Where a formula or rate is provided to report compensation, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount. This formula or rate may be disclosed to describe the compensation to which it applies under the Schedule C rules. Alternatively, for purposes of Schedule C disclosure or in connection with your fiduciary review of the compensation paid with respect to the services, products and investment options utilized by the plan, you may calculate and disclose an actual or estimated dollar amount by multiplying the rate by the total assets to which it applies.

Please note that, unless otherwise indicated in the descriptions contained in this report, direct compensation is presented on a plan year basis 01/01/2014 - 12/31/2014 and indirect compensation is presented on a calendar year basis ending 12/31/2014.

This report includes compensation actually paid to or by MassMutual within the indicated plan year as part of your MassMutual-serviced product. *(Note: If the plan year period or plan year end indicated in this Schedule C reporting package is incorrect, please notify your MassMutual customer service representative immediately).* This report does not include amounts deducted from plan assets and paid to third parties (other than MassMutual). In addition, the report does not include compensation related to investments held by the plan that are not serviced on our recordkeeping system. You should contact your other service providers for reportable compensation information. You may also receive information on the compensation reported here from other service providers as is described below.

Please note that we have provided suggested service codes with respect to services provided through our product. Please review all Schedule C and other Form 5500 materials with your experienced benefits counsel and other professionals to determine the most appropriate codes for your plan. In addition, please note that because plans with fewer than 100 participants (as of the beginning of the plan year) are generally not required to file Schedule C, you should refer to the instructions provided by the IRS for Schedule C and/or review the applicability of Schedule C to your plan with your experienced tax/benefits counsel, to determine whether it is necessary for the plan to report the information contemplated by this report.

Please contact your MassMutual Service Team should you require additional information regarding the compensation paid to or by MassMutual with respect to your plan.

****

Information provided in this document and related materials we provide are not intended to be and shall not be deemed tax advice, tax form preparation services, legal advice, advice to plans regarding compliance with ERISA reporting compliance, or accounting or other professional services. As described above, the information contained in this report may not cover all of the compensation received by the plan's service providers. We strongly encourage you to review all Schedule C and other Form 5500 materials with experienced benefits counsel and other professionals.

[1]Please refer to the Schedule C of the Form 5500 and its instructions (available at: http://www.dol.gov/ebsa/5500main.html), and please confer with experienced benefits counsel and other professionals, to determine the applicability of Schedule C to your plan.

Also, please review your records to determine whether other service providers may have received any compensation not reported below (e.g., a reimbursement paid to any plan fiduciary, your employee benefits counsel, or a plan auditor).

Note: Due to system accounting protocols (including 'cash basis' accounting), amounts reported as Direct Compensation and amounts reported as paid to Massachusetts Mutual Life Insurance Company ("MMLIC") are the net result of aggregating direct compensation after the effects of adjustments processed in 2014, some of which may have pertained to prior years.

Please review the detailed breakdown at the end of the report for further information.

Indirect Compensation

Float compensation **$125.68**

Bank accounts and investments associated with short-term investment pool

This is an estimate based on the annual average rate of float (0.372% for 2014) earned on the bank accounts and investments associated with the short-term investment pool for the 2014 calendar year multiplied by an estimate of the assets related to uncashed checks.* This estimate does not include float earned for any other reason (e.g., if amounts remitted cannot be immediately invested because they are not in good order). Please review or request a copy of the current float disclosure for more information about the other circumstances in which float is earned.

* A complete listing of distribution checks that remain outstanding is available on the Retirement Plan Access web site under the Standard Reports section (Report R03998-Outstanding Distribution Checks). Uncashed check assets will continue to remain in a float-earning bank account until such time direction is received from the Plan Sponsor, subject to applicable regulation. The Plan Sponsor should consult with the Plan's/Plan Sponsor's tax advisor or benefits counsel to determine if assets attributable to uncashed checks should be included on the Form 5500 filing.

Non Monetary Compensation

Please note that items of nonmonetary compensation need to be reported for Schedule A or C (Form 5500) purposes if they exceed certain *de minimus* amounts. Transactions generating nonmonetary compensation may include gifts, gratuities, or certain types of in-kind benefits. MassMutual's Code of Conduct generally restricts MassMutual employees from giving to or receiving gifts from customers and/or business partners having a value of over $100, in any individual situation, without prior approval. However, it is possible that one or more of your service providers for the calendar year, including MassMutual, engaged in transactions generating nonmonetary compensation. Information concerning reportable transactions undertaken between or among non-MassMutual parties may not be available to MassMutual.

Please consult with your legal or tax advisors if you have any questions.

Under the variable investment options available through your plan's group annuity contract or funding agreement, contract values are invested in Massachusetts Mutual Life Insurance Company separate accounts that, in turn, invest in underlying registered investment companies (i.e., mutual funds) and collective investment funds.

The above list includes any investment option held by the plan on at least one month end during the 2014 calendar year. To arrive at an estimate of the dollar amount that MassMutual received from each investment option, multiply the rate of fees received from each investment option by your plan's year-end balance (or if the investment option was liquidated prior to year end, the balance on the liquidation date) and, if applicable, the per participant fee by the number of participants in the investment option at year end (or the liquidation date if earlier). This will be an estimate because your plan's balance and number of participants will vary over the course of the year, so the year-end balance and number of participants may be higher or lower than the daily balance. In addition, these fees are calculated on a daily basis.

* This amount is the sum of the fund's distribution, management and other fees, which are also identified in the fund's prospectus. Please note that some of the funds available through your service contract or arrangement are funds from The Hartford Financial Services Group, Inc.'s proprietary family of mutual funds (The Hartford Mutual Funds). These proprietary mutual funds have contracts for services with companies that are affiliated with Hartford Securities Distribution Company Inc.

("Company") and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended. Participation in the plan is entirely voluntary. An eligible employee is any person employed by of the company who have one year of service and are age twenty-one or older. Entry date is the first day of Plan Year and the first day of the seventh month of each Plan Year. The plan was adopted under the provisions of Internal Revenue Code (IRC) Section 401(a), with a cash or deferred arrangement qualified under IRC Section 401(k). Pursuant to the requirements of IRC Section 401(a) (27) the plan is also a profit sharing plan.

b. Contributions. For the 2014 year, participants may contribute up to the lesser of 100% of eligible compensation or $17,500. The Plan permits participants to make both pre-tax and certain after-tax (Roth) Deferral Contribution amounts. The Plan provides that participants who are projected to be age 50 or older by the end of the calendar year and who making Deferral Contributions to the Plan may also make a catch-up provision of up to $5,500. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers mutual funds as investment options for participants. The Company may make each payroll period, Employer Matching Contributions to participant accounts equal to a percentage, determined by the Sponsor. The Employer will match participant Catch Up 401(k) Contributions to the Plan. Additional Nonelective Contributions may be contributed at the option of the Company's board of directors. Contributions are subject to certain limitations.

c. Participant's Accounts. Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, and (b) Plan earnings, and (c) forfeitures of terminated participants' non-vested accounts, and (d) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. Vesting. Participants are immediately vested in their Rollover Contributions, Qualified Nonelective Contributions, Deferral Contributions and any earnings thereon. Vesting the Company's contribution portion of their accounts plus earnings thereon is based on years on continuous service. A participant is 100% after six years of credited service.

e. Notes receivable from participants. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of 50% of their vested account balance or $50,000 reduced by the highest outstanding loan balance in your Account during the prior twelve months. Participants may only have 1 loan outstanding at any given time. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 3.25% to 4.25%, which are commensurate with local

prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

f. Payment of Benefits. On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in their account in either a lump-sum amount, or monthly Life Annuity, Life Annuity with a period of 5, 10 or 15 years, Joint and 50%, 66 2/3%, or 100% Survivor Annuity, monthly income paid for a fixed period of time not less than 60 months or, a series of flexible income payments based on single of joint life expectancies. Termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

g. Forfeited accounts. At December 31, 2014 and 2013, forfeited accounts totaled $0 and $0 respectively. These accounts will be used to reduce future employer contributions.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting. The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits. Benefits are recorded when paid.

Operating expenses. Generally, the expenses of administrating the Plan are paid from Plan assets, unless the Company elects to make the payment. If administrative expenses are paid from the Plan assets, they will first be reduced by any forfeitures the Administrator has directed to be used for payment of expenses. Any remaining expenses will be shared among all participants' Accounts. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events. The Plan has evaluated subsequent events through October 12 2015, the date the financial statements were available to be issued.

Notes receivable from participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan documents. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013.

NOTE C – PLAN TERMNATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE D – INVESTMENTS

NOTE E – FAIR VALUE MEASUREMENTS

The framework for measuring fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1- Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets,
- Quoted prices for identical or similar assets or liabilities in inactive markets,
- Inputs other that quoted prices that are observable for the asset or liability,

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset of liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies use for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price reported by the fund. Mutual funds held by the Plan are open-end mutual funds registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds by the Plan are deemed to be actively traded.

Guaranteed investment contract: MassMutual determines fair value of its investments using the market approach. The use of quoted prices for identical assets and matrix pricing or other similar techniques are examples of market approaches. Liquidation value is based on an actuarial formula as defined under the terms of the Group Annuity or Group Funding Agreement. There are no unobservable inputs within this formula, therefore the determination is that this investment option meets the definition of Level 2.

Guaranteed Investment Account	0	271,481	0	271,481
	$2,145,071	$271,481	$0	$2,416,552

NOTE F – TAX STATUS

The Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan is a Prototype Standardized Profit Sharing Plan with CODA and has obtained a favorable tax determination letter from the Internal Revenue Service and the Plan sponsor believes that the plan continues to qualify and to operate as designed

NOTE G – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risk, such as interest rate, market, and credit risks. Due to the level associated with certain investment securities, it is as least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
