Note 1 - Description of the Plan

The following description of the Senderra RX 401(k) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General
The Plan is effective as of September 1, 2011. The Plan is a defined contribution plan covering substantially all employees of Senderra RX Partners, LLC (Company) and any participating affiliates. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility
Employees are eligible for plan participation in elective deferrals and Company contributions when they have attained the age of 18 and have completed three months of service. The Plan includes an automatic deferral feature. All employees will have compensation deferred by 4% each payroll period for contribution to the Plan once meeting the eligibility requirements as described above, unless they elect otherwise.

Contributions
Each year, participants may contribute a percentage of their annual compensation, not to exceed the limits of the Internal Revenue Code (IRC). A maximum deferral of $17,500 was allowed in 2014 and 2013. Participants who were age 50 or older were allowed to defer an additional $5,500 in 2014 and 2013. Participants may also make rollover contributions from qualified defined benefit or defined contribution plans.

The Company may make a matching contribution equal to a discretionary percentage of the employee's elective deferral in an amount determined by the Company. For 2014, the Company has elected to not do a matching contribution.

Participant Accounts
Each participant's account is credited with the participant's voluntary and any Company contributions, as well as allocations of the Plan's investment earnings and administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined per the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options
Upon enrollment in the Plan, a participant may direct contributions into various investment options offered by the Plan. Participants may change their investment options at any time.

Vesting
Participants are immediately vested in their salary deferral, including catch-up contributions, and rollover contribution portions of their accounts, plus actual earnings thereon.

Notes Receivable from Participants
Participants may borrow from their accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a fixed rate equal to 2% over the prime rate. Principal and interest are paid ratably through payroll deduction. A participant may only have one loan outstanding at any time.

Payment of Benefits
The Plan provides for payment of 100% of the account balance to participants upon normal retirement at age 65, death, or total and permanent disability. Participants terminating employment for any other reason are

entitled to receive 100% of their vested account balances. At the time a participant is entitled to receive a distribution under the Plan, the trustee will pay the benefit in a lump-sum payment. Upon termination of service due to death, the beneficiary or estate may receive the distribution in a lump-sum payment or annual installments over the life of the beneficiary, depending on the named beneficiary.

Participants may delay payment of their benefits if their account balance is more than $5,000 at the time they terminate service. However, if the account balance is less than $5,000 and above $1,000 the portion of the participant's account balance will be transferred into an IRA. The participant will be cashed out if their account balance is below $1,000. Once a participant reaches the age of 70 ½ there are certain minimum required distributions.

Participants have the ability to request withdrawals from their elective deferrals, prior to retirement, to cover medical expenses, for the purchase of a principal residence (excluding mortgage payments), post-secondary education expenses, to prevent eviction from or foreclosure on a principal residence, for burial and funeral expenses of an immediate family member or for repair of damage to principal residence qualifying as a casualty deduction under the IRC. However, such requests need the approval of the plan administrator before they are granted.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements have been prepared on the accrual basis of accounting and present the net assets available for benefits and changes in those net assets.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (US GAAP) requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion on fair value measurements.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis and is credited as earnings to the participant's account balance. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance has been recorded as of December 31, 2014 and 2013, as the full outstanding balance is deemed collectible. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and recorded in the statement of changes in net assets available for benefits as a deemed distribution of participant notes receivable.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses for the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to participant loans and withdrawals are charged directly to the participant's account; these payments are included in administrative expenses on these financial statements. Other expenses, such as for investment management and certain recordkeeping costs, are included in investment income as they are paid through revenue sharing.

Subsequent Events
Management has evaluated subsequent events through October 14, 2015, which is the date of the financial statements were available to be issued.

Note 3 - Investments

The following presents investments that represent 5 percent or more of the Plan's net assets:

	December 31, 2014	December 31, 2013
Mutual funds:		
T. Rowe Price Retirement 2035	$ 100,128	$ 55,515
T. Rowe Price Retirement 2045	107,901	67,776
Invesco Comstock	42,084	28,899
Franklin Growth Fund	59,791	46,277
Fidelity Advisor Large Cap T	50,467	25,715

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under US GAAP are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the assets or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual fund: valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. These funds held by the Plan are deemed to be actively traded.

Common trust funds: valued at NAV based upon the fair values of the underlying net assets of the trust.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013:

Note 5 - Related-Party Transactions and Party in Interest Transactions

Certain plan investments are managed by State Street Bank. State Street Bank is the custodian of the Plan and therefore, these transactions qualify as party-in interest transactions. Fees incurred by the Plan for the investment management services are included in investment income, as they are paid through revenue sharing, rather than a direct payment. The Company pays directly any other fees related to the plan's operations.

Note 6 - Plan Investments

The Plan's investment assets, transactions, and income were held and certified by State Street Bank Company, the custodian of the Plan, as of and for the years ended December 31, 2014 and 2013.

Note 7 - Plan Termination

Although it has not expressed intent to do so, the Company has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8 - Tax Status

The Company adopted a nonstandard prototype plan, which received a favorable opinion letter from the Internal Revenue Service (IRS), dated July 8, 2014, indicating that the prototype plan qualifies under Section 401(a) of the Internal Revenue Code (IRC) and is therefore generally exempt from future taxes under present income tax laws. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The prototype plan has been amended since receiving this opinion letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.
