1. Description of Plan

The following description of the Kaydon Corporation Employee Stock Ownership and Thrift Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all regular full-time and part-time employees of Kaydon Corporation and its subsidiaries and affiliates (the "Company"), who have completed at least one hour of service and are age eighteen or older, excluding non-resident aliens, leased employees, interns, co-op student employees and employees of the collectively bargained group of Canfield Technologies Inc. (see Note 11) ("eligible employees"). Temporary employees must have completed 1,000 hours of service and be age 21 or older to be eligible for the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

On September 25, 2013, the Company entered into an Agreement and Plan of Merger with Atlas Management, Inc. ("Parent") and Dublin Acquisition Sub Inc. ("Merger Sub"), providing for, among other things, the merger of Merger Sub with and into the Company (the "Merger"), with the Company continuing as the surviving corporation and a direct wholly-owned subsidiary of Parent. Parent is a wholly owned subsidiary of SKF USA Inc. The Merger became effective on October 16, 2013, pursuant to the Certificate of Merger filed with the Secretary of State of the State of Delaware, and SKF USA Inc. became the Plan Sponsor.

As a result of the Merger, the Company terminated all offerings of its shares of common stock pursuant to its existing registration statement under the Securities Act of 1933, as amended. The shares of common stock held by the Plan on October 16, 2013, were converted automatically into the right to receive an amount in cash equal to the fair value. The proceeds of the sale of such shares were allocated to the account of the participant or beneficiary that held such shares. The proceeds were invested in the Plan's qualified default investment alternative, which is the age appropriate lifecycle fund, after which it was subject to the participant's or beneficiary's further direction to invest such amounts in the other funds available for investment in the Plan. The Plan was amended effective October 16, 2013 to remove Company common stock as an investment option of the Plan.

Contributions

Each year, participants may authorize the Company to make tax deferred elective contributions on their behalf of not less than 1 percent nor more than 50 percent of their compensation, subject to the maximum limitations established by the Internal Revenue Code ("IRC"). Certain eligible employees, who do not affirmatively elect to participate in the Plan, are automatically enrolled in the Plan. Participants, who are automatically enrolled in the Plan, contribute 3 percent of their salary to the Plan with their contributions being automatically invested in the age appropriate life cycle fund until and unless the participant elects an alternative contribution rate and/or investment options. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participant contributions to the Plan are recorded in the period that payroll deductions are made from participants.

The Company may make discretionary matching contributions to the Plan. During 2014, the Company contributed a matching contribution on participant elective contributions, excluding catch-up contributions available to participants 50 years of age or older, equal to:

- 25 percent of elective contributions to eligible employees at Canfield Technologies, Inc., Indiana Precision, Inc. and Tridan International, Inc. based on compensation earned during all of 2014.

- 100 percent of elective contributions each payroll period, to a maximum of 3 percent of compensation, to all other eligible employees who were not already benefiting from an Company funded retirement benefit. Employees eligible for this match included:

  Employees last hired on or after November 1, 2010 by Industrial Tectonics, Inc. and included in the collective bargaining unit represented by the International Union Automobile, Aerospace and Agricultural Implement Workers of America, UAW, Local #38, based on compensation earned during all of 2014.

  Employees last hired on or after December 5, 2009 by Kaydon Corporation and included in the collective bargaining unit represented by the International Association of Machinists and Aerospace Workers, AFL-CIO, Local Lodge #2597, based on compensation earned during all of 2014.

  Employees based on compensation earned during all of 2014, and employed by:

  - ACE Controls, Inc.
  - Avon Bearings Corporation
  - Purafil, Inc.

  Employees last hired on or after March 15, 2009, based on compensation earned during all of 2014, and employed by:

  - Kaydon Corporation
  - Industrial Tectonics, Inc.
  - Kaydon Custom Filtration Corporation
  - Kaydon Ring & Seal, Inc.
  - The Cooper Split Roller Bearing Corporation

  Employees last hired on or after September 4, 2012 by Fabreeka International, Inc. or Tech Products Corporation, based on compensation earned during all of 2014.

The Company may also make discretionary non-elective contributions to the Plan. Eligible participants must be employed on the last day of the Plan year and have worked more than 1,000 hours in the Plan year to be eligible for non-elective contributions, unless the eligible participants died, retired or became disabled during the year. The Company did not make discretionary non-elective contributions for the year ended December 31, 2014.

Effective February 1, 2014, the Plan was amended to provide for a fixed, non-elective contribution of 2 percent of compensation to be made to Baltimore, Maryland location collectively bargained participants who are hired on or after February 1, 2014. The fixed, non-elective contribution vests on a three year cliff schedule.

Participants direct the investment of all contributions into various investment options offered by the Plan. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and (b) the Plan's earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Company contributions vest over a six-year period: 10 percent after one year, 20 percent after two years, and 20 percent for each additional year to a maximum of 100 percent. Employees hired prior to June 1, 2010, who participated in the Purafil, Inc. or Avon Bearings Corporation 401(k) Profit Sharing Plans, vest in their Company contributions under the provisions of their prior plans (4-year graded vesting for Purafil, Inc. and 5-year graded vesting for Avon Bearings Corporation 401(k) Profit Sharing Plans). A participant who terminates employment due to death, disability, or normal retirement shall be 100 percent vested in any Company contributions.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of 50 percent of the participant's vested account balance (not to exceed $50,000, or such lesser amount as required by the IRC). The loan are secured by the balance in the participant's account and bear interest at the prime rate plus 1 percent. Interest rates on outstanding notes range from 4.25% to 5.25% at December 31, 2014. Principal and interest is paid ratably through payroll deductions. Terms range from one to five years or greater for the purchase of a primary residence.

Payment of Benefits

The payment of benefits date, unless postponed by the participant (or beneficiary in the case of a participant's death), must be not later than sixty days after the end of the plan year in which the participant attains age 65, retires, terminates or dies, contingent upon completion of the required distribution paperwork.

Distributions for terminated and retired participants may be deferred until April 1 following the date the participant reaches the age of 70½ if the value of the distribution exceeds $1,000. Active participants may continue to contribute into the Plan as long as they are employed by the Company. In addition, in certain hardship situations or upon attainment of age 59½, participants may withdraw a portion of their account balance while actively employed.

Forfeited Accounts

At December 31, 2014 and 2013, forfeited non-vested accounts totaled $121,738 and $101,238, respectively. These accounts will be used to reduce future Company contributions or to pay plan administrative expenses. In 2014, Company contributions were reduced by $183,048 from forfeited non-vested accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Benefit Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodian. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2014 and 2013.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2015-07, Fair Value Measurement (Topic 820): *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* ("ASU 2015-07"). ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value per share practical expedient under Accounting Standards Codification 820. ASU 2015-07 is effective for the Plan for years beginning after December 15, 2016, with early adoption permitted. Management is currently evaluating the impact of the pending adoption of ASU 2015-07 on the Plan's financial statements.

In July 2015, the FASB issued Accounting Standards Update No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient* ("ASU 2015-12"). Part I of the accounting standards update requires fully-benefit responsive investment contracts to be measured, presented, and disclosed only at contract value. Part II of this update requires that investments (both participant-directed and nonparticipant-directed investments) be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. Part II also eliminates the disclosure of individual investments that represent 5 percent or more of net assets available for benefits and the disclosure of net appreciation or depreciation for investments by general type, requiring only presentation of net appreciation (depreciation) in investments in the aggregate. Additionally, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is a fund that files a U.S. Department of Labor Form 5500, as a direct filing entity, disclosure of that investment's strategy is no longer required. Part III of the update permits plans to measure investments and investment-related accounts (e.g., a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. The amendments in ASU 2015-12 are effective for fiscal years beginning after December 15, 2015, with early application permitted. The amendments within Parts I and II require retrospective application; whereas, the amendments within Part III should be applied prospectively. Management is currently evaluating the impact of the pending adoption of ASU 2015-12 on the Plan's financial statements.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013:

* Investment is less than 5 percent of the Plan's net assets available for benefits in the year indicated.

\- Investment not held by Plan.

During the year ended December 31, 2014, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $683,978.

5. Related Party and Party In Interest Transactions

Certain of the Plan's investments are managed by Fidelity Management Trust Company, and therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for investment manager services are included in net appreciation in the fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify at party in interest transactions.

6. Plan Termination

Although it has not expressed the intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

7. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated May 23, 2012, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

9. Administration of Plan Assets

The Plan's assets are administered under a contract with Fidelity Management Trust Company, the trustee of the Plan. The trustee invests funds received from contributions, investment sales, interest and dividend income and makes distribution payments to participants.

10. Information Certified by Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2014. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all assets reported in the accompanying Statement of Net Assets Available for Benefits as of December 31, 2014 and 2013 and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2014, and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2014.

11. Subsequent Events

Effective January 1, 2015, the Plan was amended to include collectively bargained employees of Canfield Technologies, Inc. Collectively bargained employees of Canfield Technologies, Inc. who were hired on or after March 1, 2014, will be automatically enrolled in the Plan at a deferral rate of 3 percent of their eligible compensation. The Plan was also amended to remove Avon Bearings Corporation as a participating employer.

Effective June 30, 2015, the Company sold its subsidiaries, Purafil, Inc. and Kaydon Custom Filtration Corporation, to an unrelated third party and effective August 14, 2015, the Company sold its subsidiary, Canfield Technologies Inc., to an unrelated third party. Active employees who terminated service with the Company as a result of the sales were permitted to maintain their account balances in the Plan in accordance with the Plan's provisions for terminated employees.

The Plan has evaluated subsequent events for recognition or disclosure through October 14, 2015, the date the financial statements were available to be issued.
